NOTICE.

Examination of Compounders at the Dacca Medical School.

IN accordance with the Government of Bengal Notifications Nos. 4042-Medical, dated the 2nd November 1896, and 337T.—M., dated the 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will be held on the 21st April 1913.

2. Every candidate must produce a certificate of training, age, and previous education, as required by rule 9 of the Bengal Government Notification No. 4042Medical, dated the 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in rule 10.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the date of examination, to the office of the undersigned.

Exception.—The students belonging to the Compounder class of vernacular Medical schools will be exempted from paying this fee on production of a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination. This test consists of reading and writing from dictation, prescriptions and labels. They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, etc.

NOTE.—The attention of students is drawn to rule 10, section (2), of the Government Notification of the 2nd November 1896, from which they will observe that the chemists' and druggists' establishments from the legally qualified managers of which they obtain their certificates will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

HIGH COURT, ENGLISH DEPT., CIVIL, *the 10th March 1913.*

NOTIFICATION.

THE following rules having been framed by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by the Statute 24 and 25 Vict., Cap. 104, section 15, and sanctioned by the Governor-General in Council, are published for general information.

HIGH COURT,
CIVIL,
The 13th March 1913.

By order of the High Court,
H. T. CULLIS,
Registrar.

Cancel Rules 8 and 8A (slip), pages 146-150 of the High Court's General Rules and Circular Orders, Civil, Volume I, and *substitute* therefor the following:—

8. *Rules for regulating the travelling and other expenses of persons summoned as witnesses in Civil Courts*—

(1) For the purpose of computing the expenses which a party applying for a summons shall be required to deposit in Court, witnesses shall be divided into three classes, namely:—

(*a*) labourers of the poorer class;
(*b*) cultivators, artizans, petty traders and others in a similar condition of life; and
(*c*) persons of better position:

and the allowance shall ordinarily be a diet allowance.

(2) Such allowance shall be calculated for each class at the daily rates indicated below opposite the territorial description of the Court in which the witness appears:—

	Class (*a*).	Class (*b*).	Class (*c*).
I.—Court in the district of Darjeeling, the 24-Parganas or Howrah.	Not exceeding 6 annas per diem.	Not exceeding 10 annas per diem.	Not exceeding Rs. 5 per diem.
II.—Court in the Presidency, Burdwan or Orissa Division (with the exception of the districts of the 24-Parganas, Howrah and Sambalpur) or in the district of Purnea.	Not exceeding 4 annas per diem.	Not exceeding 8 annas per diem.	Not exceeding Rs. 5 per diem.
III.—Court elsewhere ...	Not exceeding 3 annas per diem.	Not exceeding 6 annas per diem.	Not exceeding Rs. 5 per diem.

Explanation.—The rates indicated in this rule are maxima and are intended to meet the cost of one day's meals. In every case, therefore, the

Court should consider the circumstances of the individual and the local conditions, and permit the deposit of a reduced allowance where the actual expenses are likely to fall short of the maximum rates.

(3) In the case of a witness residing at a distance from the Court, if the journey cannot be performed on foot or the age and habits of life of the witness render it impossible for him to walk, in addition to the prescribed diet allowance, travelling allowance should be deposited in Court in accordance with the following provisions:—

(*a*) Where the journey is by road, the actual charge for reasonable conveyance shall be allowed up to a maximum limit of 4 annas a mile.

(*b*) Where the journey is wholly or partly by rail or steamer, the allowance shall be,—

(*i*) in the case of any such person as is described in clause (*a*) or clause (*b*) of rule (1), third-class railway or steamer fare; and

(*ii*) in the case of any such person as is described in clause (*c*) of rule (1), second-class railway or steamer fare:

Provided that the Court may, in its discretion, direct the deposit of first-class railway or steamer fare either where no second-class accommodation is provided on the railway or steamer by which the person has to travel, or when the Court considers that first-class railway or steamer fare should be paid.

(4) Where the only mode of travelling is by water, the actual expenses that will be incurred for boat-hire shall be allowed up to a limit of Rs. 2 *per diem*.

(4A) In hill districts where it is customary for a respectable person to be accompanied by a coolie carrying his baggage, such person may, if summoned from a distance of more than five miles, be allowed the actual cost incurred for the hire of one coolie.

(5) In addition to the above, the authorised charges for tolls at ferries shall be deposited by the party applying for the summons to the extent to which such charges will be incurred.

(6) Notwithstanding anything in the foregoing rules,—

(*a*) when Government servants are summoned to appear as witnesses in Civil Courts, all sums received under these rules on account of their travelling and other expenses shall be paid in full to them, a certificate in the form reproduced as Form No. (M) 163 at page 220, Volume II, of the General Rules and Circular Orders (Civil) being at the same time granted; and

(*b*) for witnesses following any profession, such as Medicine or Law, a special allowance shall be given according to circumstances.

(7) For the purpose of ascertaining the amount of tolls to be deposited by the parties, a table shall be prepared and kept in each Court, showing the distance of each thana from the Sadar station and each outlying Munsifi, the number of intermediate ferries to be crossed, the authorised rates of charges for tolls at each of such ferries, and the existence or absence of roads or waterways.

SHERIFF'S OFFICE, THE 19th MARCH 1913.

NOTICE is hereby given that the Second Criminal Sessions of the year 1913 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be held at the Court House, in the Town of Calcutta, on Monday, the fifth day of May next, at 11 o'clock in the forenoon, and thenceforward from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who are to prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

PART I A.

Orders and Notifications by the Government of India.

The following orders, issued by the Government of India in the Home Department, published in the *Gazette of India* dated the 15th March 1913, are republished for general information.

C. J. STEVENSON-MOORE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

Delhi, the 11th March 1913.

No. 1671-C.—In pursuance of the notification of the Governor-General in Council, No. 1008, dated the 1st October 1912, issued in accordance with the provisions of section 3 of the Delhi Laws Act, 1912 (XIII of 1912) and in exercise of the powers conferred by section 12 of the Indian Press Act, 1910 (I of 1910), the Governor-General in Council is pleased to declare the leaflet entitled "Yugantar Circular. The Delhi Bomb" and subscribed "Bande Mataram" to be forfeited to His Majesty, on the ground that the said leaflet contains words which are likely to excite disaffection towards His Majesty or the Government established by law in British India.

No. 1707-C.—The Hon'ble Justice Sir H. W. C. Carnduff, KT., C.I.E., having been granted furlough from the 21st March to the 4th September 1913, both days inclusive, the Governor-General in Council is pleased, under the provisions of the Indian High Courts Act, 1861 (24 and 25 Vict., Cap. 104), section 7, to appoint the Hon'ble Mr. B. B. Newbould, I.C.S., to act as a Judge of the High Court of Judicature at Fort William in Bengal during the absence of the Hon'ble Justice Sir H. W. C. Carnduff, or until further orders.

POLITICAL.

The 11th March 1913.

No. 1685-C.—The following papers which were presented by His Majesty's Secretary of State for India to Parliament on the 3rd of March 1913 are published for general information :—

1. Government of India despatch No. 17, dated the 26th December 1912, to His Majesty's Secretary of State for India, and enclosure, viz.,

(*a*) Medical report dated the 23rd December 1912, on the condition of His Excellency the Viceroy.

2. Secretary of State's despatch No. 20-Public, dated the 17th January 1913, to His Excellency the Right Hon'ble the Governor General of India in Council.

No. 17, dated Delhi, the 26th December 1912.

From—The Government of India, Home Department,
To—His Majesty's Secretary of State for India.

IT is our melancholy duty to inform Your Lordship that His Excellency the Viceroy and Governor-General has been wounded by a miscreant as yet unknown on the occasion of Their Excellencies' Entry into Delhi on Monday, the 23rd December 1912.

2. It had been decided to signalize this historic occasion with the stately and measured ceremonial of which we enclose the programme. The day was fine and large crowds had gathered in the sunshine along the whole route. The houses in the Chandni Chowk were packed with people. At 11-45 A.M., about half way down the Chandni Chowk on the way from the Railway Station to the Fort, a bomb was thrown into the howdah of Their Excellencies' elephant. It exploded with terrific force, blowing to pieces the attendant who was standing in the howdah immediately behind Lord Hardinge and seriously wounding the attendant who was standing behind Lady Hardinge. Her Excellency fortunately escaped, but parts of the missile struck Lord Hardinge and inflicted the wounds described in the medical report which we append to this despatch. A boy in the crowd was killed and several of the onlookers were wounded, but complete order was maintained.

3. Their Excellencies did not move in their seats. After recovering his helmet, which had been blown off by the explosion, the Viceroy ordered the procession to go forward. He soon, however, lost consciousness, and was lifted off the elephant and taken in a motor to Viceregal Lodge.

4. When their Excellencies had departed the procession reformed and continued its progress to the Fort. In the absence of the Viceroy it devolved on the senior ordinary Member of Council, the Honourable Sir Guy Fleetwood Wilson, to read His Excellency's reply to the address of the

Imperial Legislative Council and his speech in Durbar. At the conclusion of the proceedings in the Dewan-i-am the procession returned through the Chandni Chowk to the Mori gate as arranged. The crowds had not dispersed or moved, and their conduct throughout left nothing to be desired.

5. We have expressed our thanks to Almighty God that Their Excellencies' lives have been spared, and recorded our admiration of their intrepid bearing. We rejoice to be able to inform Your Lordship that His Excellency is making good progress and that his condition does not cause anxiety.

6. The loyal heart of India has been profoundly stirred by this dastardly outrage, and a great cry of indignation and grief has risen from one end of the Continent to another, from the Princes and from the people.

7. We are not yet in a position to formulate any theory as to the origin of the outrage or to weigh its political significance. The bomb, which contained picric acid, is believed to have been thrown from the upper part of the house of the Punjab National Bank. We have called on the local authorities to send us a full report, and Your Lordship may rest assured that no effort will be spared to discover the criminal and the influences behind his nefarious act.

ENCLOSURE NO. 2.

VICEREGAL LODGE,

DELHI,

The 23rd December 1912.

1-30 P.M.

Medical Report on the condition of His Excellency the Viceroy.

A PORTION of the projectile struck the back of the right shoulder along the inner border of the shoulder blade. It passed upwards and came out through the skin along the upper line of the shoulder, causing a wound four inches long, exposing muscle and bone. There is no injury to the lungs.

A fragment caused a small wound on the right side of the neck, but this is not serious.

There are also four small wounds caused by nails on the back of the right hip—all these are slight. There has been moderate loss of blood, but the shock has been severe and there is some deafness caused by the explosion. His Excellency soon after his injuries lost consciousness, but recovered quickly.

The wounds have been dressed and His Excellency is now fairly comfortable.

T. R. ROBERTS, LT.-COL., I.M.S.,

Surgeon to His Excellency the Viceroy.

No. 20 Public, dated India Office, London, the 17th January 1913.

From—His Majesty's Secretary of State for India,
To—His Excellency the Right Honourable the Governor-General of India in Council.

Attempt upon the life of His Excellency the Viceroy.

I HAVE read with interest and deep sympathy the despatch issued by your Council in the Home Department and dated the 26th of December 1912, describing the terrible events of the previous Monday.

2. It is not necessary to enlarge upon the emotions of horror and disappointment which affected the whole of this country at such evidence that the sinister agencies of violence and crime, which it was hoped had been reduced to impotence by stern determination to repress outrage and not less by continued endeavour to satisfy the legitimate aspirations of the people of India, are still ready and able to perpetrate an act so brutal and so senseless.

3. But I am confident that the conviction is here firmly held, the truth of which is entirely confirmed by your despatch, that India as a whole, from the Princes who rule over the Native States to the humblest cultivators of the soil, regards the crime with loathing, being moved not less by resentment at the attempt than by gratitude at its comparative failure.

4. It is a matter for profound thankfulness that Your Excellency was not more gravely injured, and that Lady Hardinge escaped unhurt; but we all deeply deplore the cruel sacrifice of innocent lives. At the same time, I cannot refrain from expressing sincere admiration of the calm courage shown by Your Excellency, and also by Lady Hardinge, in a moment of such sudden peril, courage which was fitly manifested by yourself, and which also inspired the Members of your Council in the resolve to carry through the ordered proceedings of the day as though no such untoward interruption had occurred. We regard this action with pride as being symbolical of the spirit and purpose of British rule in India.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 664M.—The 13th March 1913.—In exercise of the power conferred by section 27 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), His Excellency the Governor in Council is pleased to appoint Babu Haridas Ray Chaudhuri to be Chairman of the Baruipur Municipality, in the district of the 24-Parganas, *vice* Babu Siva Das Ray Chaudhuri, on leave.

24-Parganas.

No. 698M.—The 17th March 1913.—In exercise of the power conferred by clause (2) of section 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to sanction the following rules which have been framed by the Commissioners of the Midnapore Municipality under clause (1) of that section :—

Midnapore.

Rules framed by the Commissioners of the Midnapore Municipality under section 241 of the Bengal Act III of 1884.

The following rules apply to houses, not being huts :—

Drains.

1. Any house erected or re-erected after these rules come into force shall be provided with drains sufficient for its effective drainage, to the satisfaction of the Chairman.

2. The owner or occupier of any premises shall, provided that he first obtains the written permission of the Chairman and that he complies with the conditions prescribed by these rules, be entitled to connect his house-drain with the nearest Municipal drain.

3. The Chairman may, for sanitary purposes, require the owner or occupier of a house to provide for the separate drainage therefrom of foul or polluted water from privies and urinals.

4. No house-drain shall be so constructed as to pass beneath any floor or part of a building or within 10 feet of any well or tank the water of which is used for bathing or drinking purposes.

5. Every house-drain must be open and at least eight inches in breadth, must be laid upon a bed of good concrete and constructed with cut stone or brick masonry well plastered and protected with cement, and must have a proper fall.

6. Every house-drain must be laid in a straight line as far as possible. The bends, if any, should not be at right angles but in easy curves.

7. The mouth of every house-drain shall be at least 18 inches higher than the top of the nearest Municipal drain.

The gradient of no house-drain shall be less than 1 in 30.

8. The level of the ground-floor of every house shall be at least three feet higher than the top of the nearest Municipal drain:

Provided that, where the Municipal drain is more than 100 feet from the house, the ground-floor level shall be at least two feet higher than the level of the surrounding land.

Privies.

9. No privy shall be erected in the space required by these rules to be left at the back of a house—

(*a*) unless the total height of the privy does not exceed ten feet, and

(*b*) unless there is a space of at least four feet between the nearest wall of the house and the service aperture of the privy.

10. No privy situated in, or adjacent to, a house shall be placed at a distance of less than—

(*a*) six feet from any other building which is a public building, or

(*b*) four feet from any other building which is, or is likely to be, used as a dwelling place or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

11. No privy shall be erected at a distance of less than 25 feet from any tank, or 12 feet from any well, the water of which is used for bathing or drinking purposes: provided that in any individual case of hardship the prescribed distance may be shortened by the Commissioners at a meeting.

12. (1) A drain shall be provided for every privy.

(2) Such drain shall be constructed of some impervious material, and must connect the floor of privy—

(*a*) with a drain communicating with a Municipal drain or sewer, or

(*b*) if permitted by the Chairman, with an impervious cesspool, the contents of which can be removed either by hand or by flow, after filtration.

13. (1) The floor of every privy—

(*a*) shall, if the Chairman in any case so direct, be made of one of the following materials to be selected by the owner of the privy, that is to say glazed tiles, artificial stone, or cement, or

(*b*) if no such direction is given, shall be made of thoroughly well-burnt earthen tiles or bricks plastered, and not merely pointed, with cement, and

(*c*) must be in every part at a height of at least six inches above the level of the ground adjoining the privy.

(2) The floor of every privy shall have a fall or inclination of at least half an inch to the foot towards the drain prescribed by rule 12, and the platform of the privy shall have a similar fall towards the aperture.

14. The walls and the roof (if any) of every privy shall be made of such materials as may be approved by the Chairman:

Provided that the entire surface of the walls below the platform shall either be covered with cement or be made in the manner prescribed for the making of the floor in clause (*a*) or clause (*b*) of rule 13.

15. The platform of every privy shall either be plastered with cement or made in the manner prescribed for the making of the floor in clause (*a*) or clause (*b*) of rule 13.

16. Every privy situated in, or adjacent to, a house shall have an opening, at least three square feet in area, in one of the walls of the privy, as near the top of the wall as may be practicable and communicating directly with the open air.

17. Every privy shall be constructed in accordance with the following provisions:—

(*a*) the space beneath the platform of the privy must be of such dimensions as to admit of at least one moveable receptacle for sewage, of a capacity not exceeding one cubic foot, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptacle, of any sewage falling or thrown through the aperture of the platform;

(*b*) the privy shall be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein and removing therefrom a proper receptacle for sewage;

(*c*) the said receptacle must be watertight, and must be made of metal if its capacity is over half a cubic foot, or of well-tarred earthenware or glazed stoneware if its capacity is less than half a cubic foot; and

(*d*) the door of the opening for the insertion and removal of such receptacle must be so as to completely cover the opening.

Space in front of or about houses.

18. Every house, erected or re-erected after these rules come into force, shall have a clear space of at least four feet in front for free passage way:

Provided that when such house is on the side of a road or pathway, a clear space of at least three feet must be left between the drain (if any) of such road or pathway and the front of the house.

N B—'Front" means the outside of the boundary wall, plinth, verandah, pillars or posts

19. Every dwelling-house, erected or re-erected after these rules come into force, shall have an open space at least three feet wide along the rear and the sides of the house.

20. The open space between any two adjoining dwelling-houses shall be at least six feet wide.

21. All powers of the Chairman under these rules can be delegated by him to the Vice-Chairman.

Burdwan.

No. 722M.—The 18th March 1913.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to approve the resolution passed by the Commissioners of the Burdwan Municipality, in the district of Burdwan, under section 23 (2) of that Act, electing Maulvi Muhammad Yasin to be Chairman of that Municipality.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 25th March 1913, corresponding with 12th Chaitra 1319 B.S.

The purchasers will be subject to the following conditions of sale :—

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale :—

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 406L., dated the 17th March, 1913.—The following Report of a Select Committee, which was presented to the Bengal Legislative Council on the 17th March, 1913 (with the Bill, as amended by the Committee), is published for general information :—

THE BENGAL PUBLIC DEMANDS RECOVERY BILL, 1913.

REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, Members of the Select Committee to which the Bill to consolidate and amend the law relating to the recovery of public demands in Bengal was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this our Report, together with the Bill, as amended by us, annexed thereto. The amendments made in the Bill have been underlined and can thus be easily discerned, and the more important amendments only are specifically mentioned in the following paragraphs:—

Papers No. 1. (1) Letter No. 288 R., dated the 16th January, 1913, from the Commissioner of the Dacca Division.

(2) Letter No. $\frac{117R.—L.}{111-1-9}$, dated the 16th January, 1913, from the Commissioner of the Chittagong Division.

(3) Letter No. 2770 J., dated the 15th January 1913, from the Commissioner of the Rajshahi Division.

Papers No. 2. Letter No. 194-1913, dated the 30th January, 1913, from the Secretary, Bengal Chamber of Commerce.

Paper No. 3. Letter No. 109-O, dated the 31st January, 1913, from the Secretary, Indian Tea Association.

Papers No. 4. (1) Letter Nos. 64-117, dated the 4th February, 1913, from the Secretary, Doars Planters' Association.

(2) Letter, dated the 7th February, 1913, from the Secretary, Darjeeling Planters' Association.

Paper No. 5. Letter No. 18., dated the 18th February, 1913, from the Secretary, Murshidabad Association.

Paper No. 6. Letter, dated the 20th February, 1913 from the Honorary Secretary, Indian Association.

Paper No 7. Letter, dated the 19th February, 1913, from the Secretary, Chittagong Association.

Paper No. 8. Letter No. 14, dated the 23rd February, 1913, from the Secretary, Muhammadan Association, Rajshahi.

Paper No. 9. Letter No. 104-2, dated the 22nd February, 1913, from the Honorary Secretary, Provincial Muhammadan Association, Dacca.

Paper No. 10. Letter, dated the 23rd February, 1913, from the Secretary, Bakarganj Landholders' Association.

Paper No 11. Letter No. 214, dated the 26th February, 1913, from the Honorary Secretary, British Indian Association.

Clause 4.—Fixing of Certificate.

2. As the procedure laid down in clause 4 with regard to the initiation of a certificate was considered by some Members of the Select Committee to

be too summary, we have so amended it as to provide that a Certificate-officer shall not sign a certificate until he is satisfied that a public demand payable to the Collector is due. We have not, however, considered it necessary to provide for a "requisition" being made in the case of public demands, as is essential in the other cases contemplated by clause 5 of the Bill.

Clause 8.—Effect of service of notice of Certificate.

3. We have modified the effect of this clause by striking out from sub-clause (*a*) the words " wherever situated " and substituting therefor the words "situated in the district in which the certificate is filed "; but we have provided in sub-clause (*b*) that the amount due from time to time in respect of the certificate shall be a charge upon the property of the certificate-debtor, wherever situated.

Clause 12.—Transmission of Certificate to another Certificate-officer.

4. As it was represented that there was some inconsistency between this clause and clause 7, we have so amended it as to prevent the possibility of any confusion resulting in practice with regard to the duties of the Certificate-officer to whom a certificate may be transferred from another district.

Clause 14.—Modes of Execution.

5. A proviso borrowed from Order XXI, rule 21 of the Code of Civil Procedure has been added to sub-clause (*d*) empowering the Certificate-officer to refuse execution at one and the same time against both the person and the property of the certificate-debtor.

Clause 15.—Sale by the Certificate-officer of estates appertaining to the revenue-roll of his district.

6. As the wording of the original clause 15 had given rise to certain misapprehensions, we have thought it desirable to re-cast the clause in such a manner that its real scope and intention may be clearly apparent.

Clause 16A.—Attachment of property.

7. In the Bill, as introduced in Council, section 60 of the Code of Civil Procedure, which deals with property liable to attachment and sale in execution of a decree, was inserted as rule 13 in Schedule II and made applicable to any attachment and sale held in execution of a certificate. It was, however, subsequently pointed out that, in view of the provisions of clause 38 of the Bill, the rules included in Schedule II were liable to alteration by the Board of Revenue, and stress was laid upon the inconvenience which might result from any discrepancy between the provisions of section 60 of the Code of Civil Procedure and those of the proposed rule 13. With a view to obviate any inconvenience in this direction, we have thought it better to introduce in the body of the Bill a general clause, 16A, which lays down that property liable to attachment and sale in execution of a decree of a Civil Court may be attached and sold in execution of a certificate under this Act. As a consequence of this change of arrangement, we have deleted the proposed rule 13 from Schedule II.

Clause 18.—Attachment of Decree.

8. Sub-clauses (*4*) and (*5*) have been struck out, as they were, in our opinion, unnecessary; but, in order to avoid any possible prejudice to rival claimants, we have provided in sub-clause (*2*) that the Civil Court which receives from a certificate-holder or certificate-debtor an application to execute an attached decree shall proceed strictly in accordance with the provisions of the Code of Civil Procedure.

Clause 19.—Purchaser's title.

9. Exception was taken by certain Associations (which were consulted with regard to the Bill) to the provisions of sub-clause (*3*), it being represented that, having regard to the definition of " landlord " in sub-clause (*9*) of clause 58, a co-sharer landlord would be placed in a more advantageous position as regards the realization of a certificate held by him than he would be

in the case of a decree for arrears of rent which he had secured under the Bengal Tenancy Act. To avoid such a consequence,—which was not intended—we have inserted a new sub-clause (*4*) to the effect that where the certificate-holder is a co-sharer landlord and the certificate is for a share of the rent only, the provisions of sub-clause (*3* shall not apply. Consequential amendments have likewise been made in Schedule II (*see* rules 30 (*4a*) and 45A).

Clause 21.—Application to set aside sale of immovable property on deposit.

10. This clause has been brought into closer conformity with rule 89 of Order XXI of the Code of Civil Procedure on which it is based, and we have reduced the proposed penalty from 10 to 5 *per cent.* of the purchase-money, with a minimum of one rupee instead of three rupees.

Clause 22.—Application to set aside sale of immovable property on the ground of irregularity.

11. We have added a sub-clause (*2*) which gives the Certificate-officer power to entertain an application made after the expiry of sixty days from the date of sale in the event of his being satisfied that there are adequate grounds for the delay in filing the application.

Clause 24.—Order setting aside sale or making it absolute.

12. We have thought it advisable to insert in this clause a proviso (which finds place in the corresponding provision in the Code of Civil Procedure) to the effect that no order of the nature here contemplated shall be passed unless notice of the application has been given to all persons affected thereby.

Clause 32.—Prohibition of arrest or detention of women.

13. We have enlarged the application of this clause so as to include the cases of persons who, in the opinion of the Certificate-officer, are either minors or of unsound mind.

Clause 35.—Suit to recover possession of immovable property in certain circumstances.

14. We have struck out sub-clause (*2*) of this clause (which excluded the application of certain Articles of the First Schedule to the Indian Limitation Act) as it appeared to us to be unnecessary.

Clause 36.—General bar to jurisdiction of Civil Courts except in case of fraud.

15. (*a*) It was suggested by some critics of the Bill that separate provision should be made to enable a suit to be brought in the Civil Court in respect of any proceedings by a Certificate-officer which were *ultra vires*, but we consider that this point will be adequately met by the insertion of the words "duly filed under this Act" in the fourth line of this clause, for it is thus made quite clear that any proceedings taken by the Certificate-officer which are without jurisdiction may be impugned in the Civil Court under the ordinary operation of law.

(*b*) We have struck out the words "whose proceedings are impugned" in the seventh line of the clause and provided for the disposal of the questions contemplated by this clause by the Certificate-officer who can most conveniently deal with them.

Clause 38.—Power of Board of Revenue to make rules.

16. Sub-clause (*2*) (*h*) has been struck out in view of the introduction of the new clause 16A—*vide* paragraph 7 on page 2, *ante*.

Clause 39A.—Persons under disability.

17. We have inserted in Part VI (Supplemental Provisions) a new clause, 39A, (analogous to clause 32 as now amended), which empowers the Certificate-officer, when he is satisfied that the certificate-debtor is a person under disability, to permit him to be represented by any suitable person.

Clause 41.—Procedure on death of certificate-debtor.

18. We have added (with necessary modifications), as a proviso to this clause, sub-clause (*2*) of section 50 of the Code of Civil Procedure which defines the extent of the liability of the legal representative of a deceased judgment-debtor.

Clause 42.—Cancellation of certificates.

19. We have considerably curtailed sub-clause (*1*) and reduced it to a simple provision empowering the Certificate-officer to cancel any certificate at the request of the certificate-holder.

Clause 49.—Appeal.

20. The form of sub-clause (*3*) has, for the sake of clearness, been re-cast

Clause 54.—Application of the Indian Limitation Act.

21. We have struck out the proviso to sub-clause (*2*) as we consider it desirable that the ordinary provisions of the Law of Limitation should apply in the cases which were exempted therefrom in this proviso.

Clause 58.—Amendment of Chapter XIIIA of the Bengal Tenancy Act, 1885.

22. In sub clause (*8*) the reference should be to sub-section (*5*) and not sub-section (*3*), and has been amended accordingly.

Clause 59.—Amendment of section 158B of the Bengal Tenancy Act, 1885.

23. We found, on an examination of section 158B, that the amendment proposed in the Bill did not go far enough, but that, as a consequence of the introduction into the section of a reference to the "execution of a certificate for arrears of rent," it was necessary to make several consequential amendments in sub-section (*1*). We have accordingly re-modelled that sub-section, and have set it out at length in the new clause 59 which we have substituted for that included in the original Bill.

Schedule I.—Public Demands.

24. The only alteration which we have made in this Schedule is to strike out the proviso to Article 8 which appeared to us to be both unnecessary and unworkable.

Schedule II.—Rule 53.—Return of purchase-money in certain cases.

25. We have inserted a provision in this rule giving the Certificate-officer power to allow payment to the purchaser of such interest (over and above the purchase-money and penalty, if any,) as he may think fit, in cases in which a sale of immovable property is set aside.

Rule 58.—Subsistence allowance.

26. By a brief addition to sub-rule (*1*), we have made this rule applicable to certificates filed for the realization of public demands as well as to those issued on requisition.

27. We recommend that the Bill, as now amended, be passed.

THE BENGAL PUBLIC DEMANDS RECOVERY BILL, 1913.

(AS AMENDED BY THE SELECT COMMITTEE.)

A Bill to consolidate and amend the law relating to the recovery of public demands in Bengal.

[(1) Explanation of references in margin:—

"1895" means the latest official edition of the Public Demands Recovery Act, 1895, that is, the edition as modified up to the 1st April, 1897; Ben. Act I of 1895.

"1908" means the Code of Civil Procedure, 1908. V of 1908.

(2) Amendments made by the Select Committee have, as far as possible, been underlined.

(3) Some of the amendments made by the Select Committee necessitate a re-numbering of clauses and sub-clauses. The old numbers have been retained for the present for convenience of reference, and the necessary alterations will be made, under a motion in Council, as soon as the Bill has been passed.

A. W. WATSON,
Officer on special duty.]

WHEREAS it is expedient to consolidate and amend the law relating to the recovery of public demands in Bengal;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

PART I.—PRELIMINARY.

Short title, commencement and extent.

1. (1) This Act may be called the Bengal Public Demands Recovery Act, 1913; [1895, s. 1.]

(2) It shall come into force on such date as the Local Government may appoint by notification in the Calcutta Gazette; and

(3) It extends to the whole of Bengal.

Repeal.

2. The following enactments are hereby repealed namely:—

(a) the Public Demands Recovery Act, 1895, and Ben. Act I of 1895.

(b) the Bengal Public Demands Recovery (Amendment) Act, 1897. Ben. Act I of 1897.

Definitions.

3. In this Act, unless there is anything repugnant in the subject or context,—

(1) "certificate-debtor" means the person named as debtor in a certificate filed under this Act, and includes any person whose name is substituted or added as debtor by the Certificate-officer; [1895, ss. 6 (1), 8.]

(2) "certificate-holder" means the Secretary of State for India in Council or other person in whose favour a certificate has been filed under this Act, and includes any person whose name is substituted or added as creditor by the Certificate-officer; [1895, ss. 6 (1), 8.]

(3) "Certificate-officer" means a Collector, a Sub-divisional officer, and any officer appointed by a Collector, with the sanction of the Commissioner, to perform the functions of a Certificate-officer under this Act; [1895, s. 4 (3).]

(4) "movable property" includes growing crops; [1908, s. 2 (13).]

(5) "prescribed" means prescribed by rules; [1908, s. 2 (16).]

(6) "public demand" means any arrear or money mentioned or referred to in Schedule I, and includes any interest which may, by law, be chargeable thereon up to the date on which a certificate is signed under Part II; and [1895, s. 7 (1).]

(7) "rules" means rules and forms contained in Schedule II or made under section 38. [1908, s. 2 (18).]

(Bengal Public Demands Recovery Bill, 1913.—Part II.—Filing, service and effect of certificates, and hearing of objections thereto.—Clauses 4-10.)

PART II.—FILING, SERVICE AND EFFECT OF CERTIFICATES, AND HEARING OF OBJECTIONS THERETO.

Filing of certificate for public demand payable to Collector.

4. When the Certificate-officer is satisfied that any public demand payable to the Collector is due, he may sign a certificate, in the prescribed form, stating that the demand is due, and shall cause the certificate to be filed in his office. [1895, s. 9.]

Requisition for certificate in other cases.

5. (*1*) When any public demand payable to any person other than the Collector is due, such person may send to the Certificate-officer a written requisition in the prescribed form. [1895, s. 9 (*1*).]

(*2*) Every such requisition shall be signed and verified in the prescribed manner, and, except in such cases as may be prescribed, shall be chargeable with a fee of the amount which would be payable under the Court-fees Act, 1870, in respect of a plaint for the recovery of a sum of money equal to that stated in the requisition as being due. [1895, s. 9 (*2*).] VII of 1870.

Filing of certificate on requisition.

6. On receipt of any such requisition, the Certificate-officer, if he is satisfied that the demand is recoverable and that recovery by suit is not barred by law, may sign a certificate, in the prescribed form, stating that the demand is due; and shall include in the certificate the fee (if any) paid under section 5, sub-section (*2*); and shall cause the certificate to be filed in his office. [1895, ss. 7 (*1*), 9 (*3*).]

Service of notice and copy of certificate on certificate-debtor.

7. When a certificate has been filed in the office of a Certificate-officer under section 4 or section 6, he shall cause to be served upon the certificate-debtor, in the prescribed manner, a notice in the prescribed form and a copy of the certificate. [1895, s. 10 (*1*).]

Effect of service of notice of certificate.

8. From and after the service of notice of any certificate under section 7 upon a certificate-debtor, — [1895, s. 10 (*2*). *Cf.* 1908, s. 64.]

(*a*) any private transfer or delivery of any of his immovable property situated in the district in which the certificate is filed, or of any interest in any such property, shall be void against any claim enforceable in execution of the certificate; and

(*b*) the amount due from time to time in respect of the certificate shall be a charge upon the immovable property of the certificate-debtor, wherever situated, to which every other charge created subsequently to the service of the said notice shall be postponed.

Filing of petition denying liability.

9. (*1*) The certificate-debtor may, within thirty days from the service of the notice required by section 7, or, where the notice has not been duly served, then within thirty days from the execution of any process for enforcing the certificate, present to the Certificate-officer in whose office the certificate is filed, or to the Certificate-officer who is executing the certificate, a petition, in the prescribed form, signed and verified in the prescribed manner, denying his liability, in whole or in part. [1895, s. 12.]

(*2*) If any such petition is presented to a Certificate-officer other than the Certificate-officer in whose office the original certificate is filed, it shall be sent to the latter officer for disposal.

Hearing and determining of such petition.

10. The Certificate-officer in whose office the original certificate is filed shall hear the petition, take evidence (if necessary), and determine whether the certificate-debtor is liable for the whole or any part of the amount for which the certificate was signed; and may set aside, modify or vary the certificate accordingly: [1895, s. 13 (*1*).]

Provided that, if the Certificate-officer is not the Collector, and considers that the petition involves a *bonâ fide* claim of right to property, he shall refer the petition to the Collector for orders; and the Collector, if he is satisfied that a *bonâ fide* claim of right to property is involved, shall make an order cancelling the certificate. [1895, s. 13, prov.]

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Clauses 11-16.)

PART III.—EXECUTION OF CERTIFICATES.

Who may execute certificate.

11. A certificate filed under section 4 or section 6 may be executed by— [1908, s. 38.]

(*a*) the Certificate-officer in whose office the original certificate is filed, or

(*b*) the Certificate-officer to whom a copy of the certificate is sent for execution under section 12, sub-section (*1*).

Transmission of certificate to another Certificate-officer for execution.

12. (*1*) A Certificate-officer in whose office a certificate is filed may send a copy thereof, for execution, to any other Certificate-officer in the same district or to the Collector of any other district. [1895, ss. 10 (*3*), 27; 1908, s. 39.]

(*2*) When a copy of a certificate is sent to any such officer, he shall cause it to be filed in his office, and thereupon the provisions of section 8 with respect to certificates filed in the office of a Certificate-officer shall apply as if such copy were an original certificate: [1895, ss. 10 (*3*), 22(*1*), 24 (*1*); 1908, s. 42.]

Provided that it shall not be necessary to serve a second notice and copy under section 7.

When certificate may be executed.

13. No step in execution of a certificate shall be taken until the period of thirty days has elapsed since the date of the service of the notice required by section 7, or, when a petition has been duly filed under section 9, until such petition has been heard and determined : [1895, s. 1 (*1*).]

Provided that, if the Certificate-officer in whose office a certificate is filed is satisfied that the certificate-debtor is likely to conceal, remove or dispose of the whole or any part of such of his movable property as would be liable to attachment in execution of a decree of a Civil Court, and that the realization of the amount of the certificate would in consequence be delayed or obstructed, he may at any time direct, for reasons to be recorded in writing, an attachment of the whole or any part of such movable property. [1895, s. 11 (*1*).]

Modes of execution.

14. Subject to such conditions and limitations as may be prescribed, a Certificate-officer may order execution of a certificate— [1908, s. 51.]

(*a*) by attachment and sale, or by sale (without previous attachment), of any property, or

(*b*) by attachment of any decree, or

(*c*) by arresting the certificate-debtor and detaining him in the civil prison, or

(*d*) by any two or all of the methods mentioned in clauses (*a*), (*b*) and (*c*).

Explanation to clause (d).—The Certificate-officer may, in his discretion, refuse execution at the same time against the person and property of the certificate-debtor. [1908, Sch. 1, O. XXI, r. 21.]

Certain sales by whom to be held.

15. Where a revenue-paying estate or any share therein is liable to sale in execution of a certificate, such sale may be held either—

(*a*) by the Certificate-officer exercising jurisdiction in the district to the revenue-roll of which the estate or share appertains, or

(*b*) by the Certificate-officer exercising jurisdiction in the district in which such estate or share is situated.

Interest, costs and charges recoverable.

16. There shall be recoverable, in the proceedings in execution of every certificate filed under this Act,— [1895, ss. 14 (*1*), (*3*), 19(*1*).]

(*a*) interest upon the public demand to which the certificate relates, at the rate of six and a quarter *per centum per annum* from the date of the signing of the certificate up to the date of realization,

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Attachment.—Sale.—Clauses 16A-19.)

(*b*) such costs as are directed to be paid under section 43, and

(*c*) all charges incurred in respect of—

(*i*) the service of notice under section 7, and of warrants and other processes, and

(*ii*) all other proceedings taken for realising the demand.

Attachment.

Attachment of property.

16A. Property liable to attachment and sale in execution of a decree of a Civil Court may be attached and sold in execution of a certificate under this Act.

Payment of moneys, contrary to attachment, to be void.

17. Where an attachment has been made in execution of a certificate, any payment to the certificate-debtor of any debt, dividend or other moneys, contrary to such attachment, shall be void as against all claims enforceable under the attachment. [1908, s. 64.]

Attachment of decree.

18. (*1*) The attachment of a Civil Court decree for the payment of money or for sale in enforcement of a mortgage or charge shall be made by the issue to the Civil Court of a notice requesting the Civil Court to stay the execution of the decree unless and until— [1908, Sch. I, O. XXI, r. 53.]

(*i*) the Certificate-officer cancels the notice, or

(*ii*) the certificate-holder or the certificate-debtor applies to the Court receiving such notice to execute the decree.

(*2*) Where a Civil Court receives an application under clause (*ii*) of sub-section (*1*), it shall, on the application of the certificate-holder or the certificate-debtor, and subject to the provisions of the Code of Civil Procedure, 1908, proceed to execute the attached decree and apply the net proceeds in satisfaction of the certificate. V of 1908.

(*3*) The certificate-holder shall be deemed to be the representative of the holder of the attached decree, and to be entitled to execute such attached decree in any manner lawful for the holder thereof.

[*Sub-clauses* (*4*) *and* (*5*) *omitted.*]

Sale.

Purchaser's title.

19. (*1*) Where property is sold in execution of a certificate, there shall vest in the purchaser merely the right, title and interest of the certificate-debtor at the time of the sale, even though the property itself be specified.

(*2*) Where immovable property is sold in execution of a certificate, and such sale has become absolute, the purchaser's right, title and interest shall be deemed to have vested in him from the time when the property is sold, and not from the time when the sale becomes absolute. [1908, s. 65.]

(*3*) Notwithstanding anything contained in sub-section (*1*), in areas in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, where a tenure or holding is sold in execution of a certificate for arrears of rent due in respect thereof, the tenure or holding shall, subject to the provisions of section 22 of that Act, pass to the purchaser, subject to the interests defined in that Chapter as "protected interests," but with power to annul the interests defined in that Chapter as "incumbrances:" [Act VIII of 1885, ss. 159, 160, 161.] VIII of 1885.

Provided as follows:—

(*i*) a registered and notified incumbrance within the meaning of that Chapter shall not be so annulled except in the case prescribed; and

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Sale.—Setting aside sale.—Clauses 20-22.)

(*ii*) the power to annul shall be exercisable only in the manner prescribed.

(*4*) Where the certificate-holder is a co-sharer-landlord, and the certificate is for his share of the rent only, the provisions of sub-section (*3*) shall not apply.

Suit against purchaser not maintainable on ground of purchase being on behalf of plaintiff. [1908, s. 66.]

20. (*1*) No suit shall be maintained, against any person claiming title under a purchase certified by the Certificate-officer in such manner as may be prescribed, on the ground that the purchase was made on behalf of the plaintiff or on behalf of someone through whom the plaintiff claims.

(*2*) Nothing in this section shall bar a suit to obtain a declaration that the name of any purchaser certified as aforesaid was inserted in the certificate fraudulently or without the consent of the real purchaser, or interfere with the right of a third person to proceed against that property, though ostensibly sold to the certified purchaser, on the ground that it is liable to satisfy a claim of such third person against the real owner.

Setting aside sale.

Application to set aside sale of immovable property on deposit. [1895, s. 21 (*1*). *Cf.* 1908, Sch. I, O. XXI, r. 89.]

21. (*1*) Where immovable property has been sold in execution of a certificate, the certificate-debtor, or any person whose interests are affected by the sale, may, at any time within thirty days from the date of the sale, apply to the Certificate-officer to set aside the sale, on his depositing—

(*a*) for payment to the certificate-holder, the amount specified in the proclamation of sale as that for the recovery of which the sale was ordered, with interest thereon at the rate of twelve and a half *per centum per annum*, calculated from the date of the certificate to the date when the deposit is made;

(*b*) for payment to the purchaser, as penalty, a sum equal to five *per cent.* of the purchase-money, but not less than one rupee; and

(*c*) for payment to the Collector, (where the certificate is for a public demand payable to the Collector), such outstanding charges due to the Government under any law for the time being in force as the Collector certifies to be payable by the certificate-debtor.

(*2*) Where a person makes an application under section 22 for setting aside the sale of his immovable property, he shall not, unless he withdraws that application, be entitled to make or prosecute an application under this section. [1895, s. 21 (*1*) *prov.*]

Application to set aside sale of immovable property on ground of non-service of notice or irregularity. [1908, Sch. I, O. XXI, r. 90; 1895, s. 20.]

22. (*1*) Where immovable property has been sold in execution of a certificate, the certificate-holder, the certificate-debtor, or any person whose interests are affected by the sale, may, at any time within sixty days from the date of the sale, apply to the Certificate-officer to set aside the sale on the ground that notice was not served under section 7 or on the ground of a material irregularity in the certificate proceedings or in publishing or conducting the sale:

Provided as follows:—

(*a*) no sale shall be set aside on any such ground unless the Certificate-officer is satisfied that the applicant has sustained substantial injury by reason of the non-service or irregularity; and

(*b*) an application made by a certificate-debtor under this section shall be disallowed unless the applicant either deposits the amount recoverable from him in execution of the certificate or satisfies the Certificate-officer that he is not liable to pay such amount.

(*2*) Notwithstanding anything contained in sub-section (*1*), the Certificate-officer may entertain an application made after the expiry of 60 days from the date of the sale if he is satisfied that there are reasonable grounds for so doing:

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Setting aside sale.—Disposal of proceeds of execution.—Resistance to purchaser after sale.—Clauses 23-27.)

Application to set aside sale on ground that certificate debtor had no saleable interest or that property did not exist.

23. The purchaser at any sale of immovable property in execution of a certificate may, at any time within sixty days from the date of the sale, apply to the Certificate-officer to set aside the sale on the ground that the certificate-debtor had no saleable interest in the property sold, or that the property did not exist at the time of the sale. [1908, Sch. 1, O. XXI, r. 91; 1895, s. 20.]

Sale when to become absolute or be set aside.

24. (*1*) Where no application is made under section 21, section 22 or section 23, or where such an application is made and disallowed, the Certificate-officer shall make an order confirming the sale, and thereupon the sale shall become absolute. [1908, Sch. 1, O. XXI, r. 92 (*1*).]

(*2*) Where such an application is made and allowed, and where, in the case of an application under section 21, the deposit required by that section is made within thirty days from the date of the sale, the Certificate-officer shall make an order setting aside the sale: [1908, Sch. 1, O. XXI, r. 92 (*2*). *Cf.* 1895, s. 21 (*1*), para. 2.]

Provided that no order shall be made unless notice of the application has been given to all persons affected thereby.

Disposal of proceeds of execution.

Disposal of proceeds of execution.

25. (*1*) Whenever assets are realized, by sale or otherwise, in execution of a certificate, they shall be disposed of in the following manner:— [Act VIII of 1885, s. 169. Bengal Act VI of 1908, s. 209.]

(*a*) there shall first be paid to the certificate-holder the costs incurred by him;

(*b*) there shall, in the next place, be paid to the certificate-holder the amount due to him under the certificate in execution of which the assets were realized;

(*c*) if there remains a balance after these sums have been paid, there shall be paid to the certificate-holder therefrom any other amount recoverable under the procedure provided by this Act which may be due to him upon the date upon which the assets were realized; and

(*d*) the balance (if any) remaining after the payment of the amount (if any) referred to in clause (*c*) shall be paid to the certificate-debtor.

(*2*) If the certificate-debtor disputes any claim made by the certificate-holder to receive any amount referred to in clause (*c*), the Certificate-officer shall determine the dispute.

Resistance to purchaser after sale.

Application by purchaser resisted or obstructed in obtaining possession of immovable property.

26. (*1*) If the purchaser of any immovable property sold in execution of a certificate is resisted or obstructed by any person in obtaining possession of the property, he may apply to the Certificate-officer. [*Cf.* 1908, s. 74.]

(*2*) The Certificate-officer shall fix a day for investigating the matter, and shall summon the party against whom the application is made to appear and answer the same. [New.]

Procedure on such application.

27. (*1*) If the Certificate-officer is satisfied that the resistance or obstruction was occasioned without any just cause by the certificate-debtor or by some person on his behalf, he shall direct that the applicant be put into possession of the property; and, if the applicant is still resisted or obstructed in obtaining possession, the Certificate-officer may also, at the instance of the applicant, order the certificate-debtor, or such other person to be detained in the civil prison for a term which may extend to thirty days. [*Cf.* 1908, s. 74.]

(*2*) If the Certificate-officer is satisfied that the resistance or obstruction was occasioned by any person (other than the certificate-debtor) claiming in good faith to be in possession of the property on his own account or on account of some person other than the certificate-debtor, the Certificate-officer shall make an order dismissing the application. [New.]

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Arrest, Detention and Release.—Clauses 28-31.)

Arrest, Detention and Release.

Power of arrest and detention.

28. A certificate-debtor may be arrested in execution of a certificate at any hour and on any day, except as provided in section 45, and, when so arrested, shall, as soon as practicable, be brought before the Certificate-officer; and his detention may be in the civil prison of the district in which the Certificate-officer ordering the detention exercises jurisdiction, or, where such civil prison does not afford suitable accommodation, in any other place which the Local Government may appoint for the detention of persons ordered by the Civil Courts of such district to be detained: [1908, s. 55 (1) and proviso fourthly.]

Provided that, if the certificate-debtor pays the amount entered in the warrant of arrest as due under the certificate, and the costs of the arrest, to the officer arresting him, such officer shall at once release him.

Release from arrest, and re-arrest.

29. (*1*) The Collector may order the release of a certificate-debtor who has been arrested in execution of a certificate, upon being satisfied that he has disclosed the whole of his property and has placed it at the disposal of the Certificate-officer and that he has not committed any act of bad faith.

(*2*) If the Certificate-officer has ground for believing the disclosure made by a certificate-debtor under sub-section (*1*) to have been untrue, he may order the re-arrest of the certificate-debtor in execution of the certificate, but the period of his detention in the civil prison shall not in the aggregate exceed that authorised by section 30 sub-section (*1*).

Detention in, and release from, prison.

30. (*1*) Every person detained in the civil prison in execution of a certificate may be so detained,— [1908, s. 58.]

(*a*) where the certificate is for a demand of an amount exceeding fifty rupees—for a period of six months, and

(*b*) in any other case—for a period of six weeks:

Provided that he shall be released from such detention—

(*i*) on the amount mentioned in the warrant for his detention being paid to the officer in charge of the civil prison, or

(*ii*) on the certificate being otherwise fully satisfied, or cancelled, or

(*iii*) on the request of the person (if any) on whose requisition the certificate was filed, or of the Collector, or

(*iv*) on the omission by the person (if any) on whose requisition the certificate was filed to pay the subsistence allowance fixed by the Certificate-officer:

Provided, also, that he shall not be released from such detention under clause (*ii*) or clause (*iii*) without the order of the Certificate-officer.

(*2*) A certificate-debtor released from detention under this section shall not, merely by reason of his release, be discharged from his debt; but he shall not be liable to be re-arrested under the certificate in execution of which he was detained in the civil prison.

Release on ground of illness.

31. (*1*) At any time after a warrant for the arrest of a certificate-debtor has been issued, the Certificate-officer may cancel it on the ground of his serious illness. [1908, s. 59.]

(*2*) Where a certificate-debtor has been arrested, the Certificate-officer may release him if, in the opinion of the Certificate-officer, he is not in a fit state of health to be detained in the civil prison.

(Bengal Public Demands Recovery Bill, 1913.—Part III.—Execution of Certificates.—Arrest, Detention and Release.—Part IV.—Reference to Civil Court.—Clauses 32-34.)

(3) Where a certificate-debtor has been committed to the civil prison, he may be released therefrom—

(a) by the Collector, on the ground of the existence of any infectious or contagious disease, or

(b) by the Certificate-officer, or the Collector, on the ground of his suffering from any serious illness.

(4) A certificate-debtor released under this section may be re-arrested, but the period of his detention in the civil prison shall not in the aggregate exceed that authorized by section 30, sub-section (1).

Prohibition of arrest or detention of women and persons under disability.

32. Notwithstanding anything in this Act, the Certificate-officer shall not order the arrest or detention in the civil prison of— [1908, s. 56, and Sch. I, O. XXXII, r. 15.]

(a) a woman, or

(b) any person who, in his opinion, is a minor or of unsound mind.

PART IV.—Reference to Civil Court.

Suit in Civil Court to have certificate cancelled or modified.

33. The certificate-debtor may, at any time within six months— [1895, ss. 6 (2), 15.]

(1) from the service upon him of the notice required by section 7, or

(2) if he files, in accordance with section 9, a petition denying liability—from the date of the determination of the petition, or

(3) if he appeals, in accordance with section 49, from an order passed under section 10—from the date of the decision of such appeal,

bring a suit in a Civil Court to have the certificate cancelled or modified, and for any further consequential relief to which he may be entitled:

Provided that no such suit shall be entertained—

(a) in any case, if the certificate-debtor has omitted to file, in accordance with section 9, a petition denying liability, or to state in his petition denying liability the ground upon which he claims to have the certificate cancelled or modified, and cannot satisfy the Court that there was good reason for the omission, or

(b) in the case of a certificate for a demand mentioned in Article 1 or Article 2 of Schedule I, if the certificate-debtor has not paid the amount due under the certificate to the Certificate-officer—

(i) within thirty days from the service of the notice required by section 7, or

(ii) if he has filed, in accordance with section 9, a petition denying liability—then within thirty days from the date of the determination of the petition, or

(iii) if he has appealed in accordance with section 49—then within thirty days from the decision of the appeal:

Provided also that no sale in execution of a certificate shall be set aside in such a suit unless the purchaser has been made a party to the suit and until a direction is made for the refund of the amount of the purchase-money, with such interest (if any) as the Court may allow.

Grounds for cancellation or modification of certificate by Civil Court.

34. (1) No certificate duly filed under this Act shall be cancelled by a Civil Court, except on one of the following grounds, namely:— [1895, s. 17.]

(a) that the amount stated in the certificate was actually paid or discharged before the signing of the certificate;

(Bengal Public Demands Recovery Bill, 1913.—Part IV.—Reference to Civil Court.—Part V.—Rules.—Clauses 35-38.)

(*b*) that no part of the amount stated in the certificate was due by the certificate-debtor to the certificate holder; or

(*c*) that, in the case of fines imposed, or costs, charges, expenses, damages, duties or fees adjudged, by a Collector or a public officer under any law or any rule having the force of law, the proceedings of such Collector or public officer were not in substantial conformity with the provisions of such law or rule, and that in consequence the certificate-debtor suffered substantial injury from some error, defect or irregularity in such proceedings.

(*2*) No certificate duly filed under this Act shall be modified by a Civil Court, except on one of the following grounds, namely:—

(*i*) that a portion of the alleged debt was not due; or

(*ii*) that the certificate-debtor has not received credit for any portion which he has paid.

(*3*) Nothing contained in this section shall interfere with the ordinary original jurisdiction of the High Court at Fort William in Bengal, or with the jurisdiction of the Calcutta Court of Small Causes.

Suit to recover possession of, or to set aside sale of, immovable property, where notice of certificate not served.

35. Notwithstanding anything hereinbefore contained, a sale of immovable property in execution of a certificate shall not be held to be void on the ground that the notice required by section 7 has not been served; but a suit may be brought in a Civil Court to recover possession of such property or to set aside such sale on the ground that such notice has not been served, and that the plaintiff has sustained substantial injury by reason of the irregularity: [New.]

Provided that no such suit shall be entertained—

(*a*) if instituted more than one year from the date on which possession of the property was delivered to the purchaser, or

(*b*) if the certificate-debtor has made appearance in the certificate proceeding, or has applied to the Certificate-officer under section 21 or section 22 to set aside the sale.

[*Sub-clause (2) omitted.*]

General bar to jurisdiction of Civil Courts, save where fraud alleged.

36. Except as otherwise expressly provided in this Act, every question arising between the certificate-holder and the certificate-debtor, or their representatives, relating to the making, execution, discharge or satisfaction of a certificate duly filed under this Act, or relating to the confirmation or setting aside by an order under this Act of a sale held in execution of such certificate, shall be determined, not by suit, but by order of the Certificate-officer before whom such question arises, or of such other Certificate-officer as he may determine: [New.]

Provided that a suit may be brought in a Civil Court in respect of any such question upon the ground of fraud.

PART V.—RULES.

Effect of rules in Schedule II.

37. The rules in Schedule II shall have effect as if enacted in the body of this Act, until altered or annulled in accordance with the provisions of this Part. [1908, s. 121.]

Power of Board of Revenue to make rules as to procedure.

38. (*1*) The Board of Revenue may, after previous publication and with the previous sanction of the Local Government, make rules regulating the procedure to be followed by persons making requisitions under section 5 and by Collectors and Certificate-officers acting under this Act; and may, by such rules, alter, add to or annul any of the rules in Schedule II. [1908, s. 122. *Cf.* 1895, s. 22 (*3*).]

(*2*) Such rules shall not be inconsistent with the provisions in the body of this Act, but, subject thereto, may, in particular, and without prejudice to the generality of the power conferred by sub-section (*1*), provide for all or any of the following matters, namely:— [1908, s. 128.]

(*a*) the signature and verification of requisitions made under section 5;

(Bengal Public Demands Recovery Bill, 1913.—Part V.—Rules.—Part VI.—Supplemental Provisions—Clauses 39-42.)

(*b*) the Certificate-officers to whom such requisitions should be addressed;

(*c*) the cases in which such requisitions shall not be chargeable with a fee;

(*d*) the service of notices issued under section 7, the service of other notices or processes issued under this Act, and the manner in which service may be proved;

(*e*) the signing and verification of petitions, under section 9, denying liability;

(*f*) the transfer of such petitions to other officers for disposal;

(*g*) the scale of charges to be recovered under section 16, clause (*c*);

[*Sub-clause* (*h*) *omitted.*]

(*i*) the maintenance and custody, while under attachment, of live-stock and other movable property, the fees to be charged for such maintenance and custody, the sale of such live-stock and property, and the disposal of the proceeds of such sale;

(*j*) the registers, books and accounts to be kept by Certificate-officers, and the inspection thereof by the public;

(*k*) the fee to be charged for the inspection of the register of certificates maintained under rule 59 in Schedule II;

(*l*) the recovery of expenditure on the certificate establishment by the levy of costs under section 16, clause (*b*), and section 43;

(*m*) the recovery of poundage fees;

(*n*) the forms to be used under this Act.

Publication and effect of rules made under section 38.

39. (*1*) Rules made and sanctioned under section 38 shall be published in the Calcutta Gazette, and shall, from the date of publication or from such other date as may be specified, have the same force and effect as if they had been contained in Schedule II. [1908, s. 127, *cf.* 1895, s. 22 (*2*).]

(*2*) All references in this Act to the said Schedule II shall be construed as referring to that Schedule as for the time being amended by such rules. [Ben. Act III of 1899, s. 5 (*3*).]

PART VI.—SUPPLEMENTAL PROVISIONS.

Persons under disability.

39A. Where the Certificate-officer is satisfied that the Certificate-debtor is a minor or of unsound mind, he shall, in any proceeding under this Act, permit him to be represented by any suitable person. [1908, Sch. I, O. XXXII, r. 15.]

Continuance of certificates.

40. No certificate shall cease to be in force by reason of— [1895, s. 7 (*3*).]

(*a*) the property to which the demand relates ceasing to be under the charge or management of the Court of Wards or the Revenue-authorities; or

(*b*) the death of the certificate-holder.

Procedure on death of certificate-debtor.

41. Where a certificate-debtor dies before the certificate has been fully satisfied, the Certificate-officer may, after serving upon the legal representative of the deceased a notice in the prescribed form, proceed to execute the certificate against such legal representative; and the provisions of this Act shall apply as if such legal representative were the certificate-debtor and as if such notice were a notice under section 7:

Provided that where the certificate is executed against such legal representative, he shall be liable only to the extent of the property of the deceased which has come to his hands and has not been duly disposed of; and, for the purpose of ascertaining such liability, the Certificate-officer executing the certificate may, of his own motion or on the application of the certificate-holder, compel such legal representative to produce such accounts as the Certificate-officer thinks fit. [1908, s. 50 (*1*).]

Cancellation of certificates.

42. (*1*) The Certificate-officer shall cancel any certificate at the request of the certificate-holder.

(*2*) The Certificate-officer may cancel any certificate filed under section 6 if the certificate-holder is not reasonably diligent.

(Bengal Public Demands Recovery Bill, 1913.—Part VI.—Supplemental Provisions.—Clauses 43-49.)

Costs.

43. Subject to such limitation as may be prescribed, the costs of and incidental to any proceeding under this Act shall be in the discretion of the officer presiding, and he shall have full power to direct by whom and to what extent such costs shall be paid. [1895, s. 41 (1).]

Compensation.

44. If the Certificate-officer is satisfied that any requisition under section 5 was made without reasonable cause, he may award to the certificate-debtor such compensation as the Certificate-officer thinks fit;

and the amount so awarded shall be recoverable from the certificate-holder under the procedure provided by this Act for recovery of costs.

Entry into dwelling-house.

45. (1) No person executing any warrant of arrest issued under this Act, or any process issued under this Act directing or authorising the attachment of movable property, shall enter any dwelling-house after sunset or before sunrise. [Cf. 1908, s. 55 (1), proviso *firstly*.]

(2) No outer door of a dwelling-house shall be broken open unless the dwelling-house or a portion thereof is in the occupancy of the certificate-debtor and he or any other occupant of the house refuses or in any way prevents access thereto; but, when the person executing any such warrant or other process has duly gained access to any dwelling-house, he may break open the door of any room and enter, if he has reason to believe that entering into the room is necessary in order to enable him to execute the process. [Cf. 1908, s. 55 (1), proviso *secondly*.]

(3) Where a room in a dwelling-house is in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the person executing the process shall give notice to her that she is at liberty to withdraw; and, after allowing a reasonable time for her to withdraw and giving her reasonable facility for withdrawing, he may enter such room for the purpose of executing the process; and, if the process be for the attachment of property, he may at the same time use every precaution, consistent with this section, to prevent its clandestine removal. [Cf. 1908, s. 55 (1) proviso *thirdly*.]

Application of Act XVIII of 1850.

46. Every Collector, Certificate-officer, Assistant Collector or Deputy Collector acting under this Act, and every Government officer making a requisition under section 5, shall, in the discharge of his functions under this Act, be deemed to be acting judicially within the meaning of the Judicial Officers' Protection Act, 1850. [1895, s. 29.] XVIII of 1850.

Officers to have powers of Civil Court for certain purposes.

47. Every Collector, Certificate-officer, Assistant Collector or Deputy Collector acting under this Act, shall have the powers of a Civil Court for the purposes of receiving evidence, administering oaths, enforcing the attendance of witnesses and compelling the production of documents. [Cf. 1895, s. 13 (3).]

Control over officers.

48. All Certificate-officers (not being Collectors), Assistant Collectors and Deputy Collectors shall, in the performance of their duties under this Act, be subject to the general supervision and control of the Collector. [1895, s. 30.]

Appeal.

49. (1) An appeal from any original order made under this Act shall lie— [1895, ss. 32, 21 (3).]

(a) if the order was made by an Assistant Collector or a Deputy Collector, or by a Certificate-officer not being the Collector,—to the Collector, or

(b) if the order was made by the Collector,—to the Commissioner:

Provided that no appeal shall lie from any order made under section 21.

(2) Every such appeal must be presented, in case (a), within fifteen days, or, in case (b), within thirty days, from the date of the order.

(3) The Collector may, by order, with the previous sanction of the Commissioner, authorize—

(i) any Sub-divisional Officer, or

(ii) any officer appointed under clause (3) of section 3 to perform the functions of a Certificate-officer,

(Bengal Public Demands Recovery Bill, 1913.—Part VI.—Supplemental Provisions.—Clauses 50-57.)

to exercise the appellate powers of the Collector under sub-section (*1*).

(*4*) When any officer has been so authorized, the Collector may transfer to him for hearing any appeal referred to in clause (*a*) of sub-section (*1*), unless the order appealed against was made by such officer.

(*5*) Pending the decision of any appeal, execution may be stayed if the appellate authority so directs, but not otherwise.

Bar to second appeals.

50. No appeal shall lie from any order of a Collector, or an officer authorized under section 49, sub-section (*5*), when passed on appeal. [1895, s. 33.]

Revision.

51. The Collector may revise any order passed by a Certificate-officer, Assistant Collector or Deputy Collector under this Act; [1895, s. 33.]

the Commissioner may revise any order passed by a Collector under this Act;

and the Board of Revenue may revise any order passed by a Commissioner under this Act.

Review.

52. Any order passed under this Act may, after notice to all persons interested, be reviewed by the officer who made the order, or by his successor in office, on account of mistake or error either in the making of the certificate or in the course of any proceeding under this Act.

Saving of other Acts.

53. The powers given by this Act shall be deemed to be in addition to, and not in derogation from, any powers conferred by any other Act now in force for the recovery of any due, debt or demand to which the provisions of this Act are applicable; and, except where expressly so provided, no legal remedy shall be affected by this Act. [1895, s. 2.]

Application of the Indian Limitation Act, 1908.

54. (*1*) Sections 6 to 9 of the Indian Limitation Act, 1908, shall not apply to suits, appeals or applications under this Act. [Act VIII of 1885, s. 185.]

(*2*) Except as declared in sub-section (*1*) of this section, the provisions of the Indian Limitation Act, 1908, shall apply to all proceedings under this Act as if a certificate filed hereunder were a decree of a Civil Court. IX of 1908.

[*Proviso to sub-clause (2) omitted.*]

Certificate-officer deemed to be a Court.

55. A Certificate-officer shall be deemed to be a Court, and any proceeding before him shall be deemed to be a civil proceeding within the meaning of section 14 of the Indian Limitation Act, 1908. IX of 1908.

Penalties.

56. Whoever fraudulently removes, conceals, transfers or delivers to any person any property or any interest therein, intending thereby to prevent that property or interest therein, from being taken in execution of a certificate, shall be deemed to have committed an offence punishable under section 206 of the Indian Penal Code. [*Cf* Act VIII of 1885, s. 186.] XLV of 1860.

Signature of documents by ministerial officers.

57. (*1*) Any Certificate-officer may, by written order, authorize any ministerial officer to sign, on behalf of the Certificate-officer, any copy, issued by the Certificate-officer under this Act, of any document referred to therein.

(*2*) The Local Government may, by notification in the Calcutta Gazette, empower Certificate-officers to authorize ministerial officers, by written order, to sign on behalf of Certificate-officers any classes of original notices, summonses or proclamations issued by Certificate-officers under this Act which are specified in such notification.

(Bengal Public Demands Recovery Bill, 1913.—Part VI.—Supplemental Provisions.—Clause 58.)

Amendment of Chapter XIIIA of the Bengal Tenancy Act, 1885

58. For Chapter XIIIA of the Bengal Tenancy Act, 1885, the following shall be substituted, namely :— VIII of 1885.

"CHAPTER XIIIA.

"SUMMARY PROCEDURE FOR THE RECOVERY OF RENTS UNDER THE BENGAL PUBLIC DEMANDS RECOVERY ACT, 1913.

Recovery of arrears of rent under the certificate procedure in certain areas.

"158A. "(*1*) Any landlord (other than the Government) whose land is situate in an area for which a record-of-rights has been prepared and finally published, and in which such record is maintained,

may apply to the Local Government, through the Collector of the district in which his land is situate, for the application of the procedure prescribed by the Bengal Public Demands Recovery Act, 1913, to the recovery of the arrears of rent which he alleges are, or may accrue, due to him for lands in such area.

(*2*) The Local Government may reject any such application, or may allow it subject to such terms and conditions as it may see fit to impose, and may at any time add to or vary any terms or conditions so imposed, or withdraw its allowance of the application, without, in any of these cases, assigning any reason for its action.

(*3*) When any such application has been allowed, the landlord may make a requisition in writing, in the form prescribed,

to such Revenue-officer as the Local Government may, appoint, for the purpose of this section, to perform the functions of a Certificate-officer under the Bengal Public Demands Recovery Act, 1913,

for the recovery of any arrears of rent which he alleges are due to him from any tenant.

(*4*) Every such requisition shall be signed and verified by the landlord making it, in the manner prescribed by rule 1 in Schedule II to the said Act, as amended for the time being by rules made under section 38 thereof, and shall be chargeable with a fee of the amount which would be payable under the Court-fees Act, 1870, in respect of a plaint for the recovery of a sum of money equal to that stated in the requisition as being due. VII of 1870.

(*5*) On receipt of any such requisition, the said Revenue-officer may, in accordance with such rules as the Local Government may prescribe in this behalf, and if he is satisfied that the arrear is due, sign a certificate, in the prescribed form, stating that the arrear is due; and shall include in the certificate the fee paid under sub-section (*4*); and shall cause the certificate to be filed in his office:

Provided that—

(*a*) no certificate shall be signed for the recovery of arrears of rent of a tenancy regarding which a suit has been instituted in a Civil Court for the alteration of the rent payable by the tenant or the determination of his status as a tenant, in respect of the period during which it is alleged in the requisition made under sub-section (*3*) that the arrears of rent sought to be recovered have accrued; and,

(*b*) if, after the signing of a certificate, it is found that such a suit was instituted in a Civil Court before the certificate was signed, such certificate shall be cancelled.

(*6*) The person in whose favour any certificate is signed under sub-section (*3*) shall be deemed to be the certificate-holder for the amount mentioned in the certificate, and the person against whom the certificate is signed shall be deemed to be the certificate-debtor for the said amount; and all proceedings taken by the Certificate-officer for the recovery of such amount shall be taken at the instance of the first-mentioned person, and at his cost and responsibility, and not otherwise. [*Cf.* Ben. Act VI of 1908, s. 244 (*3*).]

(*7*) The Bengal Public Demands Recovery Act, 1913, with such restrictions and modifications (if any) as may be prescribed, shall apply to the execution, and to all proceedings arising out of the execution, of certificates filed under sub-section (*5*). [*Cf.* Act XIV of 1874, s. 5A.]

(Bengal Public Demands Recovery Bill, 1913.—Part VI.—Supplemental Provisions.—Clauses 59-62.)

(8) No landlord shall, during the pendency of any proceedings under this section, institute a suit in a Civil Court for the recovery of any arrears of rent in respect of which he has made a requisition under sub-section (3);

and, subject to the provisions of section 33 of the Bengal Public Demands Recovery Act, 1913, no tenant shall, after the signing of any certificate against him under sub-section (5) of this section, institute a suit in, or apply to, a Civil Court for the alteration of the rent payable by him, or the determination of his status as a tenant, in respect of the period during which the arrears of rent for which such certificate was signed have accrued.

(9) The word 'landlord' in this section includes an entire body of landlords, and also one or more co-sharer landlords who collects or collect his or their share or shares of the rent separately; and, where a Revenue-officer signs a certificate on the requisition of one or more such co-sharer landlords, he shall at the same time issue to each of the remaining co-sharer landlords a copy of such certificate."

Amendment of section 158B (1) of the Bengal Tenancy Act, 1885.

59. For sub-section (1) of clause 158B of the Bengal Tenancy Act, 1885, the following shall be substituted, namely:— VIII of 1885.

"(1) Where a tenure or holding is sold in execution of—

Passing of tenure or holding sold in execution of decree or certificate.

(a) a decree for arrears of rent due in respect thereof, or

(b) a decree for damages under section 186A, or

(c) a certificate for arrears of rent signed under the Bengal Public Demands Recovery Act, 1913,

the tenure or holding shall, subject to the provisions of section 22, pass to the purchaser,

if such decree was obtained by—

(i) a sole landlord, or

(ii) the entire body of landlords, or,

(iii) one or more co-sharer landlords, who has, or have, sued for the rent due to all the co-sharers in respect of the entire tenure or holding and made all the remaining co-sharers parties defendant to the suit; or

if such certificate was signed on the requisition, or in favour of a sole landlord or the entire body of landlords.'

Amendment of section 167 of the Bengal Tenancy Act, 1885.

60. (1) In sub-section (7) of section 167 of the Bengal Tenancy Act, 1885, after the words "the foregoing sections" the words "or under the Bengal Public Demands Recovery Act, 1913," shall be inserted. VIII of 1885.

(2) In sub-section (4) of the said section,—

(a) after the words "a decree" the words "or a certificate signed under the Bengal Public Demands Recovery Act, 1913," shall be inserted, and

(b) after the words "this Chapter" the words "or that Act" shall be inserted.

Amendment of section 171 (1) of the Bengal Tenancy Act, 1885.

61. In sub-section (1) of section 171 of the Bengal Tenancy Act, 1885, after the words "under this Chapter" the following shall be inserted, namely:— VIII of 1885.

"or in execution of a certificate for arrears of rent due in respect thereof, signed under the Bengal Public Demands Recovery Act, 1913."

Amendment of section 172 of the Bengal Tenancy Act, 1885.

62. In section 172 of the Bengal Tenancy Act, 1885, for the words "When a tenure or holding is advertised for sale under this Chapter in execution of a decree against a superior tenant defaulting" the following shall be substituted, namely:— VIII of 1885.

"When a tenure or holding is advertised for sale—

(a) under this Chapter, in execution of a decree against a superior tenant defaulting, or

(b) in execution of a certificate, signed under the Bengal Public Demands Recovery Act, 1913, for arrears of rent due in respect of the tenure or holding from a superior tenant defaulting."

(*Bengal Public Demands Recovery Bill, 1913.—Schedule I.—Public Demands.*)

SCHEDULE I.

PUBLIC DEMANDS.

[*See sections 3 (6) and 83 (b).*]

1. Any arrear of revenue which remains due in the following circumstances, namely:—

when, under the provisions of the Bengal Land-revenue Sales Act, 1859, or the Bengal Land-revenue Sales Act, 1868, or any other law for the time being in force, an estate or tenure, or any share of an estate or tenure, has been sold for the recovery of arrears of revenue due thereupon, and, after deducting the expenses of such sale, the balance of the sale-proceeds remaining is insufficient to liquidate the arrears of revenue in discharge of which such sale-proceeds may, under the said provisions, be applied.

XI of 1859. Ben. Act VII of 1868. [1895, s. 5 (1).]

2. Any arrear of revenue which is due from a farmer on account of an estate held by him in farm, and is not paid on the latest day of payment fixed under section 3 of the said Bengal Land-revenue Sales Act, 1859. [1895, s. 5 (2).]

XI of 1859.

3. Any money which is declared by any law for the time being in force to be recoverable or realizable as an arrear of revenue or land-revenue, or by the process authorized for the recovery of arrears of revenue or of the public revenue or of Government revenue. [1895, s. 7 (a).]

4. Any money which is declared by any enactment now in force— [1895, s. 7 (d).]

(*i*) to be a demand or a public demand, or

(*ii*) to be recoverable as arrears of a demand or public demand, or as a demand or public demand, or

(*iii*) to be recoverable under the Bengal Land-revenue Sales Act, 1868.

Ben. Act VII of 1868.

5. Any money due from the sureties of a farmer in respect of the revenue of the estate farmed by him. [1895, s. 7 (b).]

6. Any money awarded as fees or costs by a Revenue-authority under any law or any rule having the force of law. [1895, s. 7 (c).]

7. Any demand payable to the Collector by a person holding any interest in land, pasturage, forest-rights, fisheries or the like, whether such interest is or is not transferable, when such demand is a condition of the use and enjoyment of such land, pasturage, forest-rights, fisheries or other thing. [1895, s. 7 (g).]

8. In the case of property which, under the provisions of any law for the time being in force, is under the charge of, or is managed by, the Court of Wards or the Revenue-authorities on behalf of a private individual—any arrear of rent, or of any demand which is recoverable as rent, whether such arrear became due before or after the management devolved upon such Court or such Authorities. [1895, s. 7 (h).]

[*Proviso omitted.*]

9. Any money payable to a Government Officer or any local authority, in respect of which the person liable to pay the same has agreed, by a written instrument duly registered, that it shall be recoverable as a public demand. [1895, s. 7 (i).]

10. Any stamp duty payable by a proprietor in respect of a paper of partition prepared under the Estates Partition Act, 1897. [New. Cf. Act II of 1899, ss. 8 (16), 29 (g).]

Ben. Act V of 1897.

11. In the case of a person to whom the collection of tolls has been farmed under section 8 of the Canals Act, 1864, or of the sureties of such person—any money due in respect of such farm. [1895, s. 7 (f).]

Ben. Act V of 1864.

12. Any money awarded as compensation under section 2 of the Bengal Land-revenue Sales Act, 1868. [1895, s. 7 (e).]

Ben. Act VII of 1868.

13. Any money due from a purchaser at a sale held in execution of a certificate under this Act, whether the sale is subsisting or not.

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 1—10.)

SCHEDULE II.

RULES.

(See section 37.)

SIGNATURE AND VERIFICATION OF REQUISITIONS FOR CERTIFICATES.

Signature and verification of requisition for certificate.

1. (*1*) Every requisition made under section 5 shall be signed and verified at the foot by the person making it. [1895, s. 9(2); 1908, Sch. I, Order VI, rr. 14, 15.]

(*2*) The verification shall state that the person signing the requisition has been satisfied by inquiry that the amount stated in the requisition is actually due.

(*3*) The verification shall be signed by the person making it, and shall state the date on which it is signed.

SERVICE OF NOTICES.

Mode of service.

2. Service of a notice issued under section 7, or under any other provision of this Act, shall be made by delivering or tendering a copy thereof, signed by the Certificate-officer or such ministerial officer as he authorises in this behalf, and sealed with the seal of the Certificate-officer. [1908, Sch. I, Order V, r. 10; 1895, s. 31.]

Service on certificate-debtor or his agent.

3. Wherever it is practicable, service shall be made on the certificate-debtor in person, unless he has an agent empowered to accept service, in which case service on such agent shall be sufficient. [1908, Sch. I, Order V, r. 13; 1895, s. 31.]

Service on adult male member of certificate-debtor's family.

4. Where the certificate-debtor cannot be found, and has no agent empowered to accept service of the notice on his behalf, service may be made on any adult male member of the family of the certificate-debtor who is residing with him. [1908, Sch. I, Order V, r. 15; 1895, s. 31.]

Explanation.—A servant is not a member of the family within the meaning of this rule.

Person served to sign acknowledgment.

5. Where the serving officer delivers or tenders a copy of the notice to the certificate-debtor personally, or to an agent or other person on his behalf, he shall require the signature of the person to whom the copy is so delivered or tendered to an acknowledgment of service endorsed on the original notice. [1908, Sch. I, Order V, r. 16.]

Procedure where certificate-debtor refuses to accept service or cannot be found.

6. Where the certificate-debtor or his agent, or such other person as aforesaid, refuses to sign the acknowledgment, or where the serving officer, after using all due and reasonable diligence, cannot find the certificate-debtor, and there is no agent empowered to accept service of the notice on his behalf, nor any other person on whom service can be made, the serving officer shall— [1908, Sch. I, Order V, r. 17; 1895, s. 31.]

(*a*) affix a copy of the notice on the outer door or some other conspicuous part of the house in which the certificate-debtor ordinarily resides or carries on business or personally works for gain, or

(*b*) if there be land affected by the notice, affix a copy of the notice on some conspicuous place in the office of the Certificate-officer and also on some conspicuous part of land,

and shall then return the original to the Certificate-officer by whom it was issued, with a report endorsed thereon or annexed thereto stating that he has so affixed the copy, the circumstances under which he did so, and the name and address of the person (if any) by whom the house or land was identified and in whose presence the copy was affixed.

Endorsement of time and manner of service.

7. The serving officer shall, in all cases in which the notice has been served under rule 5, endorse or annex, or cause to be endorsed or annexed, on or to the original notice, a return stating the time when and the manner in which the notice was served, and the name and address of the person (if any) identifying the person served and witnessing the delivery or tender of the notice. [1908, Sch. I, Order V, r. 18.]

Examination of serving officer.

8. Where a notice is returned under rule 6, the Certificate-officer shall, if the return under that rule has not been verified by the affidavit of the serving officer, and may, if it has been so verified, examine the serving officer on oath, or cause him to be so examined by another Certificate-officer, or, subject to any general order of the Collector, by an Assistant Collector, Deputy Collector or Sub-Deputy Collector, touching his proceedings, and may make such further inquiry in the matter as he thinks fit; and shall either declare that the notice has been duly served or order such service as he thinks fit. [1908, Sch. I, Order V, r. 19.]

Service by post.

9. Notwithstanding anything hereinbefore contained, the notice may, if the Certificate-officer so directs, be served by post. [1895, s. 31, prov.]

PETITIONS, UNDER SECTION 9, DENYING LIABILITY.

Signature and verification of petition denying liability.

10. (*1*) Every petition filed under section 9, denying liability, shall be signed and verified at the foot by the certificate-debtor or by some other person on his behalf who is proved to the satisfaction of the Certificate-officer to be acquainted with the facts of the case. [1908, Sch. I, Order VI, r. 15; 1895, s. 12 (*2*).]

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 11—17.)

(2) The verification shall be signed by the person making it, and shall state the date on which it is signed.

Transfer of such petitions.

11. (1) The Certificate-officer may, subject to any general or special order of the Collector, transfer to any Assistant Collector or Deputy Collector subordinate to the Collector any petition filed under section 9; and such Assistant Collector or Deputy Collector shall hear and determine such petition accordingly: [1895, s. 18.]

Provided that the Collector may re-transfer any petition so transferred, and order that it be heard and determined by the Certificate-officer.

(2) The provisions of section 10 shall be applicable to any Assistant Collector or Deputy Collector to whom any such petition has been transferred under sub-rule (1).

EXECUTION OF CERTIFICATES.

Execution in another district.

12. Where a copy of a certificate is sent for execution to the Collector of another district under section 12, sub-section (1), the certificate may be executed by him or may be transferred by him to any Certificate-officer in his district. [1908, Sch. I, Order XXI, r. 8.]

Attachment.

13. [*Omitted.*]

Attachment of movable property (other than agricultural produce) in possession of certificate-debtor.

14. Where the property to be attached is movable property (other than agricultural produce) in the possession of the certificate-debtor, the attachment shall be made by actual seizure, and the attaching officer shall keep the property in his own custody or in the custody of one of his subordinates, and shall be responsible for the due custody thereof: [1908, Sch. I, Order XXI, r. 43.]

Provided that, when the property seized is subject to speedy and natural decay, or when the expense of keeping it in custody is likely to exceed its value, the attaching officer may sell it at once.

Attachment of agricultural produce.

15. Where the property to be attached is agricultural produce, the attachment shall be made by affixing a copy of the warrant of attachment— [1908, Sch. I, Order XXI, r. 44.]

(*a*) where such produce is a growing crop—on the land on which such crop has grown, or

(*b*) where such produce has been cut or gathered—on the threshing floor or place for treading out grain or the like, or fodder-stack, on or in which it is deposited,

and another copy on the outer door or on some other conspicuous part of the house in which the certificate-debtor ordinarily resides, or, with the leave of the Certificate-officer, on the outer door or on some other conspicuous part of the house in which he carries on business or personally works for gain, or in which he is known to have last resided or carried on business or personally worked for gain;

and the produce shall thereupon be deemed to have passed into the possession of the Certificate-officer.

Provisions as to agricultural produce under attachment.

16. (1) Where agricultural produce is attached, the Certificate-officer shall make such arrangements for the custody thereof as he may deem sufficient, and, when the produce is a growing crop, shall have regard to the time at which it is likely to be fit to be cut or gathered. [1908, Sch. I, Order XXI, r. 45.]

(2) Subject to such conditions as may be imposed by the Certificate-officer in this behalf, either in the order of attachment or in any subsequent order, the certificate-debtor may tend, cut, gather and store the produce and do any other act necessary for maturing or preserving it; and, if the certificate-debtor fails to do all or any of such acts, the certificate-holder may, with the permission of the Certificate-officer and subject to the like conditions, do all or any of them either by himself or by any person appointed by him in this behalf, and the costs incurred by the certificate-holder shall be recoverable from the certificate-debtor as if they were included in the certificate.

(3) Agricultural produce attached as a growing crop shall not be deemed to have ceased to be under attachment or to require re-attachment merely because it has been severed from the soil.

(4) Where an order for the attachment of a growing crop has been made at a considerable time before the crop is likely to be fit to be cut or gathered, the Certificate-officer may suspend the execution of the order for such time as he thinks fit, and may, in his discretion, make a further order prohibiting the removal of the crop pending the execution of the order of attachment.

(5) A growing crop which from its nature does not admit of being stored shall not be attached under this rule at any time less than twenty days before the time at which it is likely to be fit to be cut or gathered.

Attachment of debt, share, and other movable property not in possession of certificate-debtor.

17. (1) In the case of— [1908, Sch. I, Order XXI, r. 46.]

(*a*) a debt not secured by a negotiable instrument,

(*b*) a share in the capital of a Corporation, or

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 18—23.)

(c) other movable property not in the possession of the certificate-debtor, except property deposited in, or in the custody of, any Court,

the attachment shall be made by a written order prohibiting,—

(i) in the case of the debt—the creditor from recovering the debt and the debtor from making payment thereof until the further order of the Certificate-officer;

(ii) in the case of the share—the person in whose name the share may be standing from transferring the same or receiving any dividend thereon;

(iii) in the case of the other movable property (except as aforesaid)—the person in possession of the same from giving it over to the certificate-debtor.

(2) A copy of such order shall be affixed on some conspicuous part of the office of the Certificate-officer, and another copy shall be sent, in the case of the debt, to the debtor, in the case of the share, to the proper officer of the Corporation, and, in the case of the other movable property (except as aforesaid), to the person in possession of the same.

(3) A debtor prohibited under clause (i) of sub-rule (1) may pay the amount of his debt to the Certificate-officer, and such payment shall discharge him as effectually as payment to the party entitled to receive the same.

Attachment of share in movables.

18. Where the property to be attached consists of the share or interest of the certificate-debtor in movable property belonging to him and another as co-owners, the attachment shall be made by a notice to the certificate-debtor prohibiting him from transferring the share or interest or charging it in any way. [1908, Sch. I, Order XXI, r. 47.]

Attachment of salary or allowances of public officer or servant of Railway Company or Local Authority.

19. (1) Where the property to be attached is the salary or allowances of a public officer or of a servant of a Railway Company or Local Authority, the Certificate-officer, whether the certificate-debtor or the disbursing officer is or is not within the local limits of the Certificate-officer's jurisdiction, may order that the amount shall be withheld from such salary or allowances, either in one payment or by monthly instalments as the Certificate-officer may direct; and, upon notice of the order to such officer as the Local Government may, by notification in the Calcutta Gazette, appoint in this behalf, the officer or other person whose duty it is to disburse such salary or allowances shall withhold and remit to the Certificate-officer the amount due under the order, or the monthly instalments, as the case may be. [1908, Sch. I, Order XXI, r. 48.]

(2) Where the attachable proportion of such salary or allowances is already being withheld and remitted to a Certificate-officer or to a Civil Court in pursuance of a previous and unsatisfied order of attachment, the officer appointed by the Local Government in this behalf shall forthwith return the subsequent order to the Certificate-officer issuing it, with a full statement of all the particulars of the existing attachment.

(3) Every order made under this rule, unless it is returned in accordance with the provisions of sub-rule (2), shall, without further notice or other process, bind the Government or the Railway Company or Local Authority, as the case may be; and the Government or the Railway Company or Local Authority, as the case may be, shall be liable for any sum paid in contravention of this rule.

Attachment of negotiable instruments.

20. Where the property is a negotiable instrument not deposited in a Court, nor in the custody of a public officer, the attachment shall be made by actual seizure, and the instrument shall be brought before the Certificate-officer and held subject to his orders. [1908, Sch. I, Order XXI, r. 51.]

Attachment of property in custody of Court or public officer.

21. Where the property to be attached is in the custody of any Court or public officer, the attachment shall be made by a notice to such Court or officer, requesting that such property, and any interest or dividend becoming payable thereon, may be held subject to the further orders of the Certificate-officer by whom the notice is issued: [1908, Sch. I, Order XXI, r. 52.]

Provided that, where such property is in the custody of a Court, any question of title or priority arising between the certificate-holder and any other person, not being the certificate-debtor, claiming to be interested in such property by virtue of any assignment, attachment or otherwise, shall be determined by such Court.

Attachment of immovable property.

22. Where the property is immovable, no attachment need be made before sale. [1908, Sch. I, Order XXI, r. 54.]

Removal of attachment on satisfaction or cancellation of certificate.

23. Where—

(a) the amount due, with costs and all charges and expenses resulting from the attachment of any property or incurred in order to a sale, are paid to the Certificate-officer, or [1908, Sch. I, Order XXI, r. 55.]

(b) the certificate is cancelled,

the attachment shall be deemed to be withdrawn, and, in the case of immovable property, the withdrawal shall, if the certificate-debtor so desires, be proclaimed at his expense, and a copy of the proclamation shall be affixed in the manner prescribed by rule 31, sub-rule (1).

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 24—30.)

Investigation of claims and objections.

Investigation by Certificate-officer.

24. (1) Where any claim is preferred to, or any objection is made to the attachment or sale of, any property in execution of a certificate, on the ground that such property is not liable to such attachment or sale, the Certificate-officer shall proceed to investigate the claim or objection: [1908, Sch. I, Order XXI, r. 58.]

Provided that no such investigation shall be made where the Certificate-officer considers that the claim or objection was designedly or unnecessarily delayed.

(2) Where the property to which the claim or objection applies has been advertised for sale, the Certificate-officer ordering the sale may postpone it pending the investigation of the claim or objection.

Evidence to be adduced.

25. The claimant or objector must adduce evidence to show that— [1908, Sch. I, Order XXI, r. 59.]

(a) (in the case of immovable property) at the date of the service of the notice under section 7, or

(b) (in the case of movable property) at the date of the attachment,

he had some interest in, or was possessed of, the property attached.

Release of property from attachment or sale.

26. Where, upon the said investigation, the Certificate-officer is satisfied that, for the reason stated in the claim or objection, such property was not,— [1908, Sch. I, Order XXI, r. 60.]

(a) (in the case of immovable property) at the date of the service of the notice under section 7, or

(b) (in the case of movable property) at the date of the attachment,

in the possession of the certificate-debtor or of some person in trust for him or in the occupancy of a tenant or other person paying rent to him, or that, being in the possession of the certificate-debtor at the said date, it was so in his possession, not on his own account or as his own property, but on account of or in trust for some other person, or partly on his own account and partly on account of some other person,

the Certificate-officer shall make an order releasing the property, wholly or to such extent as he thinks fit, from attachment or sale.

Disallowance of claim to property attached.

27. Where the Certificate-officer is satisfied that the property was, at the said date, in the possession of the certificate-debtor as his own property and not on account of any other person, or was in the possession of some other person in trust for him, or in the occupancy of a tenant or other person paying rent to him, the Certificate-officer shall disallow the claim. [1908, Sch. I, Order XXI, r. 61.]

Saving of suits to establish right to attached property.

28. Where a claim or an objection is preferred, the party against whom an order is made may institute a suit in a Civil Court to establish the right which he claims to the property in dispute; but, subject to the result of such suit (if any), the order shall be conclusive. [1908, Sch. I, Order XXI, r. 63.]

Sale generally.

Power to order sale of attached property.

29. Any Certificate-officer executing a certificate may order that any property liable to sale, or such portion thereof as may seem necessary to satisfy the certificate, shall be sold. [1908, Sch. I, Order XXI, r. 64.]

Proclamation of sale by public auction.

30. (1) Where any immovable property, or any movable property exceeding twenty rupees in value, is ordered to be sold by public auction, the Certificate-officer shall cause a proclamation of the intended sale to be made in the language of the Courts of the district. [1908, Sch. I, Order XXI, r. 66(1), (2), (4).]

(2) Such proclamation shall be drawn up after notice to the certificate-debtor, and shall state the time and place of sale, and shall specify, as fairly and accurately as possible,—

(a) the property to be sold;

(b) (where the property to be sold is an interest in an estate or in part of an estate paying revenue to the Government) the revenue assessed upon the estate or part of the estate;

(c) the amount for the recovery of which the sale is ordered; and

(d) every other thing which the Certificate-officer considers it material for a purchaser to know in order to judge of the nature and value of the property.

(3) Where a tenure, or a raiyati holding at fixed rates, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the said proclamation shall also state that the tenure or holding will first be put up to auction subject to registered and notified incumbrances, and will be sold subject to those incumbrances if the sum bid is sufficient to liquidate the amount specified in the certificate, and costs, and that otherwise it will, if the certificate-holder so desires, be sold on a subsequent day, of which due notice will be given, with power to annul all incumbrances. [Act VIII of 1885, s. 163(a).] VIII of 1885.

(4) Where an occupancy holding, situated in an area in which Chapter XIV of the Bengal Tenancy Act is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the said proclamation shall also state that the holding will be sold with power to annul all incumbrances. [Act VIII of 1885 s. 163 (b).]

(4a) Where the certificate-holder is a co-sharer landlord and the certificate is for his share of the rent only, the provisions of sub-rules (3) and (4) shall not apply

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 31—36.)

(5) For the purpose of ascertaining the matters to be specified in the proclamation, the Certificate-officer may summon any person whom he thinks necessary to summon, and may examine him in respect to any such matters and require him to produce any document in his possession or power relating thereto.

Mode of making proclamation.

31. (1) Every proclamation for the sale of immovable property shall be made at some place on or near such property by beat of drum or other customary mode, and a copy of the proclamation shall be affixed on a conspicuous part of the property and then upon a conspicuous part of the office of the Certificate-officer. [1908, Sch. I, Order XXI, r. 67.]

(2) Where the Certificate-officer so directs, such proclamation shall also be published in the Calcutta Gazette or in a local newspaper, or in both; and the cost of such publication shall be deemed to be costs of the sale.

(3) If a tenure, a raiyati holding at fixed rates or an occupancy holding situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the proclamation shall also be published in the Malkachari or rent office of the estate and at the local thana. [Act VIII of 1885, s. 163 (3).] VIII of 1885.

(4) Where property is divided into lots for the purpose of being sold separately, it shall not be necessary to make a separate proclamation for each lot, unless proper notice of the sale cannot, in the opinion of the Certificate-officer, otherwise be given.

Time of sale.

32. Save in the case of property of the kind described in the proviso to rule 14, no sale hereunder shall, without the consent in writing of the certificate-debtor, take place until after the expiration of at least thirty days in the case of immovable property, or of at least fifteen days in the case of movable property exceeding twenty rupees in value, calculated from the date on which a copy of a sale proclamation has been affixed in a conspicuous part of the office of the Certificate-officer: [1908, Sch. I, Order XXI, r. 68.]

Provided that if a tenure, a raiyati holding at fixed rates or an occupancy holding, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is to be sold in execution of a certificate for arrears of rent due in respect thereof, the sale shall not, without the consent in writing of the certificate-debtor, take place until after the expiration of at least thirty days, calculated from— [Act VIII of 1885, s. 163 (4)]. VIII of 1885.

(a) the date on which a copy of the sale proclamation has been affixed in a conspicuous part of the office of the Certificate-officer, or

(b) the date on which the sale proclamation has been published in the Malkachari or rent office of the estate and at the local thana,

whichever is later.

Adjournment or stoppage of sale.

33. (1) The Certificate-officer may, in his discretion, adjourn any sale hereunder to a specified day and hour; and the officer conducting any such sale may in his discretion adjourn the sale, recording his reasons for such adjournment: [1908, Sch. I, Order XXI, r. 69.]

Provided that, where the sale is made in, or within the precincts of, the office of the Certificate-officer, no such adjournment shall be made without the leave of the Certificate-officer.

(2) Where a sale is adjourned under sub-rule (1) for a longer period than seven days, a fresh proclamation under rule 31 shall be made, unless the certificate-debtor consents to waive it.

(3) Every sale shall be stopped if, before the lot is knocked down, the debt and costs (including the costs of the sale) are tendered to the officer conducting the sale, or proof is given to his satisfaction that the amount of such debt and costs has been paid to the Certificate-officer who ordered the sale.

Defaulting purchaser answerable for loss on re-sale.

34. Any deficiency of price which may happen on a re-sale by reason of the purchaser's default, and all expenses attending such re-sale, shall be certified to the Certificate-officer by the officer or other person holding the sale, and shall, at the instance of either the certificate-holder or the certificate-debtor, be recoverable from the defaulting purchaser under the procedure provided by this Act. [1908, Sch. I, Order XXI, r. 71.]

Restriction on bidding or purchase by officers.

35. No officer or other person having any duty to perform in connection with any sale shall, either directly or indirectly, bid for, acquire or attempt to acquire any interest in the property sold. [1908, Sch. I, Order XXI, r. 73.]

Sale of movable property.

Sale of agricultural produce.

36. (1) Where the property to be sold is agricultural produce, the sale shall be held,— [1908, Sch. I, Order XXI, r. 74.]

(a) if such produce is a growing crop—on or near the land on which such crop has grown, or

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 37—42.)

(b) if such produce has been cut or gathered—at or near the threshing-floor or place for treading out grain or the like, or fodder-stack, on or in which it is deposited:

Provided that the Certificate-officer may direct the sale to be held at the nearest place of public resort, if he is of opinion that the produce is thereby likely to sell to greater advantage.

(2) Where, on the produce being put up for sale,—

(a) a fair price, in the estimation of the person holding the sale, is not offered for it, and

(b) the owner of the produce, or a person authorised to act in his behalf, applies to have the sale postponed till the next day or, if a market is held at the place of sale, the next market day,

the sale shall be postponed accordingly, and shall be then completed, whatever price may be offered for the produce.

Special provisions relating to growing crops.

37. (1) Where the property to be sold is a growing crop, and the crop from its nature admits of being stored but has not yet been stored, the day of the sale shall be so fixed as to admit of the crop being made ready for storing before the arrival of such day, and the sale shall not be held until the crop has been cut or gathered and is ready for storing. [1908, Sch. I, Order XXI, r. 75.]

(2) Where the crop from its nature does not admit of being stored, it may be sold before it is cut and gathered; and the purchaser shall be entitled to enter on the land, and to do all that is necessary for the purpose of tending and cutting or gathering the crop.

Sale by public auction.

38. (1) Where movable property is sold by public auction, the price of each lot shall be paid at the time of sale or as soon after as the officer or other person holding the sale directs, and in default of payment the property shall forthwith be re-sold. [1908, Sch. I, Order XXI, r. 77.]

(2) On payment of the purchase-money, the officer or other person holding the sale shall grant a receipt for the same, and the sale shall become absolute.

(3) Where the movable property to be sold is a share in goods belonging to the certificate-debtor and a co-owner, and two or more persons, of whom one is such co-owner, respectively bid the same sum for such property or for any lot, the bidding shall be deemed to be the bidding of the co-owner.

Irregularity not to vitiate sale, but any person injured may sue.

39. No irregularity in publishing or conducting the sale of movable property shall vitiate the sale; but any person sustaining substantial injury by reason of such irregularity at the hand of any other person may institute a suit in a Civil Court against him for compensation, or (if such other person is the purchaser) for the recovery of the specific property and for compensation in default of such recovery. [1908, Sch. I, Order XXI, r. 78.]

Delivery of movable property, debts and shares.

40. (1) Where the property sold is movable property of which actual seizure has been made, it shall be delivered to the purchaser. [1908, Sch. I, Order XXI, r. 79.]

(2) Where the property sold is movable property in the possession of some person other than the certificate-debtor, the delivery thereof to the purchaser shall be made by giving notice to the person in possession, prohibiting him from delivering possession of the property to any person except the purchaser.

(3) Where the property sold is a debt not secured by a negotiable instrument, or is a share in a corporation, the delivery thereof shall be made by a written order of the Certificate-officer prohibiting the creditor from receiving the debt or any interest thereon, and the debtor from making payment thereof to any person except the purchaser, or prohibiting the person in whose name the share may be standing from making any transfer of the share to any person except the purchaser or receiving payment of any dividend or interest thereon, and the manager, secretary or other proper officer of the corporation from permitting any such transfer or making any such payment to any person except the purchaser.

Transfer of negotiable instruments and shares.

41. (1) Where the execution of a document, or the endorsement of the party in whose name a negotiable instrument or a share in a Corporation is standing, is required to transfer such negotiable instrument or share, the Collector, or such officer as he may appoint in this behalf, may execute such document or make such endorsement as may be necessary; and such execution or endorsement shall have the same effect as an execution or endorsement by the party. [1908, Sch. I, Order XXI, r. 80.]

(2) Such execution or endorsement may be in the following form, namely:—

A B, by *C D*, Collector of the district of , in a proceeding under the Bengal Public Demands Recovery Act, 1913, against *A B*.

(3) Until the transfer of such negotiable instrument or share, the Certificate-officer may, by order, appoint some person to receive any interest or dividend due thereon, and to sign a receipt for the same; and any receipt so signed shall be as valid and effectual for all purposes as if the same had been signed by the party himself.

Vesting order in case of other property.

42. In the case of any movable property not hereinbefore provided for, the Certificate-officer may make an order vesting such property in the purchaser or as he may direct; and such property shall vest accordingly. [1908, Sch. I, Order XXI, r. 81.]

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 43—50.)

Sale of immovable property.

Sale of tenure or holding at fixed rates, subject to registered and notified incumbrances.

43. (*1*) When a tenure or a holding at fixed rates, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, has been advertised under rule 30 for sale in execution of a certificate for arrears of rent due in respect thereof, it shall be put up to auction subject to registered and notified incumbrances; and, if the bidding reaches a sum sufficient to liquidate the amount of the certificate and the costs of the sale, the tenure or holding shall be sold subject to such incumbrances. [Act VIII of 1885, s. 164.] VIII of 1885.

(*2*) The purchaser at such sale may, in manner provided by section 167 of the Bengal Tenancy Act, 1885, and not otherwise, annul any incumbrance upon the tenure or holding, not being a registered and notified incumbrance. VIII of 1885.

Sale of tenure or holding at fixed rates, with power to avoid all incumbrances.

44. (*1*) If the bidding for a tenure or a holding at fixed rates, put up to auction under rule 43, does not reach a sum sufficient to liquidate the amount of the certificate and costs as aforesaid, and if the certificate-holder thereupon desires that the tenure or holding be sold with power to avoid all incumbrances, the person holding the sale shall adjourn the sale and make a fresh proclamation under rule 30 announcing that the tenure or holding will be put up to auction and sold with power to avoid all incumbrances, upon a future day specified therein, not less than fifteen or more than thirty days from the date of the postponement; and upon that day the tenure or holding shall be put up to auction and sold with power to avoid all incumbrances. [Act VIII of 1885, s. 165.]

(*2*) The purchaser at a sale under this rule may, in manner provided by section 167 of the Bengal Tenancy Act, 1885, and not otherwise, annul any incumbrance on the tenure or holding. VIII of 1885.

Sale of occupancy holding, with power to avoid all incumbrances.

45. (*1*) When an occupancy-holding, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, has been advertised under rule 30 for sale in execution of a certificate for arrears of rent due in respect thereof, it shall be put up to auction and sold with power to avoid all incumbrances. [Act VIII of 1885, s. 166.] VIII of 1885.

(*2*) The purchaser at a sale under this rule may, in manner provided by section 167 of the Bengal Tenancy Act, 1885, and not otherwise, annul any incumbrance on the holding. VIII of 1885.

Rules 43 to 45 not to apply in certain cases to certificate-holders, who are co-sharer landholders.

45A. Where the certificate-holder is a co-sharer landlord, and the certificate is for his share of the rent only, the provisions of rules 43, 44, and 45 shall not apply.

Postponement of sale to enable certificate-debtor to raise amount due under certificate.

46. (*1*) Where an order for the sale of immovable property has been made, if the certificate-debtor can satisfy the Certificate-officer that there is reason to believe that the amount of the certificate may be raised by the mortgage or lease or private sale of such property, or some part thereof, or of any other immovable property of the certificate-debtor, the Certificate-officer may, on his application, postpone the sale of the property comprised in the order for sale, on such terms and for such period as he thinks proper, to enable him to raise the amount. [1908, Sch. I, Order XXI, r. 88 (*1*), (*2*).]

(*2*) In such case the Certificate-officer shall grant a certificate to the certificate-debtor, authorising him, within a period to be mentioned therein, and notwithstanding anything contained in section 8 or section 17, to make the proposed mortgage, lease or sale:

Provided that all moneys payable under such mortgage, lease or sale shall be paid, not to the certificate-debtor, but to the Certificate-officer;

Provided also that no mortgage, lease or sale under this rule shall become absolute until it has been confirmed by the Certificate-officer.

Prohibition of purchase of tenure or holding by certificate-debtor.

47. (*1*) When a tenure or holding, situated in an area in which Chapter XIV of the Bengal Tenancy Act, 1885, is in force, is put up for sale in execution of a certificate for arrears of rent due in respect thereof, the certificate-debtor shall not bid for or purchase the tenure or holding. [Act VIII of 1885, s. 173.] VIII of 1885.

(*2*) If a certificate-debtor purchases, by himself or through another person, a tenure or holding so sold, the Certificate-officer may, if he thinks fit, on the application of the certificate-holder or any other person interested in the sale, by order, set aside the sale; and the costs of the application and order, and any deficiency of price which may happen on the re-sale, and all expenses attending it, shall be paid by the certificate-debtor.

Deposit by purchaser, and re-sale in default.

48. On every sale of immovable property, the person declared to be the purchaser shall pay, immediately after such declaration, a deposit of twenty-five *per cent.* on the amount of his purchase-money, to the officer or other person conducting the sale; and, in default of such deposit, the property shall forthwith be re-sold. [1908, Sch. I, Order XXI, r. 84 (*1*).]

Time for payment of purchase-money in full.

49. The full amount of purchase-money payable shall be paid by the purchaser to the Certificate-officer on or before the fifteenth day from the sale of the property. [1908, Sch. I, Order XXI, r. 85.]

Procedure in default of payment.

50. In default of payment within the period mentioned in rule 49, the deposit may, if the Certificate officer thinks fit, after defraying the expenses of the sale, be forfeited to the Government, and the property shall be re-sold, and the defaulting purchaser shall *forfeit* all claim to the property or to any part of the sum for which it may subsequently be sold. [1908, Sch. I, Order XXI, r. 86.]

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 51—59.)

Notification on re-sale.

51. Every re-sale of immovable property, in default of payment of the purchase-money within the period allowed for such payment, shall be made after the issue of a fresh proclamation in the manner and for the period hereinbefore prescribed for the sale. [1908, Sch. I, Order XXI, r. 67.]

Bid of co-sharer to have preference.

52. Where the property sold is a share of undivided immovable property, and two or more persons, of whom one is a co-sharer, respectively bid the same sum for such property or for any lot, the bid shall be deemed to be the bid of the co-sharer. [1908, Sch. I, Order XXI, r. 68.]

Return of purchase-money in certain cases.

53. Where a sale of immovable property is set aside, any money paid or deposited by the purchaser on account of the purchase, together with the penalty (if any) referred to in clause (5) of section 21, and such interest as the Certificate-officer may allow, shall be paid to the purchaser. [1908, s. 21 (5). *Cf.* 1908, Sch. I, Order XXI, r. 93.]

Certificate to purchaser.

54. (1) Where a sale of immovable property has become absolute, the Certificate-officer shall grant a certificate specifying the property sold and the name of the person who at the time of sale is declared to be the purchaser. [1908, Sch. I, Order XXI, r. 94.]

(2) Such certificate shall bear date the day on which the sale became absolute.

Delivery of property in occupancy of certificate-debtor.

55. Where the immovable property sold is in the occupancy of the certificate-debtor, or of some person on his behalf, or of some person claiming under a title created by the certificate-debtor subsequently to the service of the notice issued under section 7, and a certificate in respect thereof has been granted under rule 54, the Certificate-officer shall, on the application of the purchaser, order delivery to be made by putting such purchaser, or any person whom he may appoint to receive delivery on his behalf, in possession of the property, and, if need be, by removing any person who refuses to vacate the same. [1908, Sch. I, Order XXI, r. 95.]

Delivery of property in occupancy of tenant or other person.

56. Where the property sold is in the occupancy of a tenant or other person entitled to occupy the same, and a certificate in respect thereof has been granted under rule 54, the Certificate-officer shall, on the application of the purchaser, order delivery to be made by affixing a copy of the certificate of sale in some conspicuous place on the property, and proclaiming to the occupant by beat of drum or other customary mode, at some convenient place, that the interest of the certificate-debtor has been transferred to the purchaser. [1908, Sch. I, Order XXI, r. 96.]

Arrest and detention.

Discretionary power to permit certificate-debtor to show cause against detention in prison.

57. (1) The Certificate-officer may, before issuing a warrant for the arrest of the certificate-debtor, issue a notice calling upon him to appear before the Certificate-officer, on a day to be specified in the notice, and show cause why he should not be committed to the civil prison. [1908, Sch. I, Order XXI, r. 37.]

(2) Where appearance is not made in obedience to the notice, the Certificate-officer may issue a warrant for the arrest of the certificate-debtor.

Subsistence allowance.

58. (1) When a certificate has been signed either in accordance with the provisions of section 4, or on a requisition made under section 5, no certificate-debtor shall be arrested in execution of the certificate unless and until the certificate-holder pays into Court such sum as the Certificate-officer thinks sufficient for the subsistence of the certificate-debtor from the time of his arrest until he can be brought before the Certificate-officer. [1908, Sch. I, Order, XXI, r. 39.]

(2) When a certificate-debtor is committed to the civil prison in execution of a certificate, the Certificate-officer shall fix for his subsistence such monthly allowance as he may be entitled to according to the scale fixed by the Local Government for the subsistence of arrested judgment-debtors, or, where no such scale has been fixed, as the Certificate-officer considers sufficient with reference to the class to which the certificate-debtor belongs.

(3) The monthly allowance fixed by the Certificate-officer shall be supplied, by the person upon whose requisition the certificate was signed, by monthly payments in advance before the first day of each month.

(4) The first payment shall be made to the Certificate-officer for such portion of the current month as remains unexpired before the certificate-debtor is committed to the civil prison; and the subsequent payments (if any) shall be made to the officer in charge of the civil prison.

(5) Sums disbursed by the certificate-holder for the subsistence of the certificate-debtor in the civil prison shall be deemed to be costs in the proceeding:

Provided that the certificate-debtor shall not be detained in the civil prison or arrested on account of any sum so disbursed.

SUPPLEMENTAL.

Register of certificates.

59. (1) Every Certificate-officer shall cause to be kept in his office a register of certificates filed in his office under this Act, and shall cause particulars of all such certificates to be entered in such register. [1895, s. 24.]

(2) Such register shall be open during office hours, for not less than two hours daily, and at such time as may be fixed by the Collector, for inspection by any person who desires to inspect the same; and a fee of one anna shall be chargeable for every such inspection.

(Bengal Public Demands Recovery Bill, 1913.—Schedule II.—Rules.—Rules 60—65.)

Payment by instalments.

60. (*1*) Payment of the amount due under any certificate may be made by instalments, if the Certificate-officer in whose office the certificate is filed so directs. [1895, s. 25.]

(*2*) The payment of every such instalment shall be entered in the register referred to in rule 59.

Remittance to Certificate-officer of sums received under a certificate transferred for execution.

61. When a copy of a certificate has been sent to another officer under section 12, sub-section (*1*), all sums received by such officer under such certificate shall be remitted by him to the Certificate-officer in whose office the original certificate is filed. [1895, s. 28.]

Entry of satisfaction.

62. When the whole or any portion of the amount due under a certificate has been realized, the Certificate-officer in whose office the original certificate is filed shall cause an entry of the fact to be made upon the certificate and in the register referred to in rule 59. [1895, s. 26.]

Communication of satisfaction to other persons.

63. When a copy of a certificate has been sent to another officer under section 12, sub-section (*1*), [1895, s. 27; 1896, s. 61.]

or when a certificate has been signed upon a requisition,

any satisfaction of the certificate, whether in whole or in part shall be certified to such officer, or to the sender of such requisition, as the case may be.

FORMS.

Forms in Appendix.

64. The forms set forth in the Appendix shall be used, with such variations as circumstances may require. [1895, ss. 5, 9 (*1*), (*3*) 10(*1*).]

Other forms.

65. Where no form is set forth in the Appendix, the appropriate form in use in Civil Courts shall be used, with such modifications as may appear to be necessary.

PROCLAMATION OF SALE.

(See rule 30.)

NOTICE is hereby given that, under rule 29 in Schedule II to the Bengal Public Demands Recovery Act, 1913, an order has been passed by me for the sale of the property mentioned in the annexed Schedule, in satisfaction of the claim of the certificate-holder under the certificate mentioned in the margin [1], amounting, with costs and interest up to date of sale, to the sum of .

[1] Certificate No. of 19 , under which is the certificate-holder and is the certificate-debtor.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the certificate-debtor above-named as mentioned in the schedule below.

In the absence of any order of postponement, the sale will be held by at the monthly sale commencing at o'clock on the at .

In the event, however, of the debt above specified, and of the costs of the sale, being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorised agent. The following are the further

Conditions of Sale.

1. The particulars specified in the Schedule below have been stated to the best of the information of the Certificate-officer; but the Certificate-officer will not be answerable for any error, mis-statement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of rule 33 in Schedule II to the Bengal Public Demands Recovery Act, 1913.

5. In the case of movable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and re-sold.

6. In the case of immovable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 *per cent.* on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and re-sold.

7. The full amount of the purchase-money shall be paid by the purchaser before the office of the Certificate-officer closes on the fifteenth day after the sale of the property, exclusive of such day, or, if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase-money within the period allowed, the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Certificate-officer thinks fit, be forfeited to the Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

The 17th March, 1913. *Secretary to the Govt. of Bengal.*

NOTIFICATION.

No. 407 L., dated the 17th March, 1913.—The following Bill was introduced in the Bengal Legislative Council and referred to a Select Committee on the 17th March, 1913, and is hereby published for information, together with its Statement of Objects and Reasons :—

THE BENGAL PUBLIC GAMBLING (AMENDMENT) BILL, 1913.

A

BILL

further to amend the law in force in Bengal relating to public gambling.

WHEREAS it is expedient to amend the law in force in Bengal relating to public gambling ;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act ; 55 & 56 Vict., c. 14.

It is hereby enacted as follows :—

Short title. 1. This Act may be called the Bengal Public Gambling (Amendment) Act, 1913.

Amendment of definitions as to gaming. 2. For the definitions of "common gaming-house," "gaming" and "instruments of gaming", in section 69 of the Howrah Offences Act, 1857, section 3 of the Calcutta Police Act, 1866, and section 1 of the Bengal Public Gambling Act, 1867, the following shall be substituted, namely :— Act XXI of 1857. Ben. Act IV of 1866. Ben. Act II of 1867.

"'gaming' includes wagering or betting [*except wagering or betting upon a horse-race, when such wagering or betting— [*Cf.* Bom. Act IV of 1857 s. 3 (as amended by Bom. Act I of 1890); 16 & 17 Vict., c. 119, ss. 1, 2.]

(*a*) is carried on during a race meeting and upon any ground which is used for the purposes of a race-course by the persons convening such meeting, or upon any enclosure annexed thereto, and [*Cf.* 6, Edw. 7, c. 48, s. 2.]

(*b*) relates to races to be held during such meeting],

but does not include a lottery ;

'instruments of gaming' includes any article used as a means or appurtenance of gaming ; and [*Cf.* Bom. Act IV of 1867, s. 3 (as amended by Bom. Act I of 1890.]

'common gaming-house' means any house, room, tent, walled enclosure, space or place in which any instruments of gaming are kept or used for the profit or gain of the person owning, occupying, using or keeping such house, room, tent, enclosure, space or place, whether by way of charge for the use of such house, room, tent, enclosure, space, place or instruments or otherwise howsoever."

Exemption of games of mere skill. 3. (*1*) After section 15 of the Howrah Offences Act, 1857, the following shall be inserted, namely :— [*Cf.* Ben. Act II of 1867, s. 10; Bom. Act IV of 1887, s. 13.] XXI of 1857.

Exemption of games of mere skill. "15A. Nothing in sections 10 to 15 shall apply to any game of mere skill, wherever played ".

(*2*) After section 50 of the Calcutta Police Act, 1866, the following shall be inserted, namely :— Ben. Act IV of 1866.

Exemption of games of mere skill. "50A. Nothing in sections 44 to 50 shall apply to any game of mere skill, wherever played."

Repeal. 4. The following enactments are hereby repealed, namely :—

(*1*) the definition of "common gaming-house" in section 51 of the Calcutta Suburban Police Act, 1866 ; Bom. Act II of 1866.

(*2*) the words "three successive numbers of", in section 12 of the Bengal Public Gambling Act, 1867, and Ben. Act II of 1867.

(*3*) the Bengal Rain-gambling Act, 1897. Ben. Act III of 1897.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to extend the meaning of the word "gaming" in the three Acts in force in Bengal relating to public gambling, so as to make the Acts applicable to "cotton figure" and other forms of public gambling. Serious evils have arisen from the marked increase of new forms of gambling in Calcutta and its neighbourhood, and widespread demands have been made for the strengthening of the law. The provisions of the Bill are explained in the subjoined notes.

NOTES ON CLAUSES.

Clause 2.

The definition of "gaming" in the three existing Bengal Acts merely declares that gaming shall include rain-gambling. It is not a comprehensive definition, but merely brings one form of gambling, other than "gaming", within the provisions relating to gaming. It is proposed, following section 1 of the Betting Act, 1853 (16 & 17 Vict., c. 119), and section 3 of the Bombay Prevention of Gambling Act, 1887 (Bom. Act IV of 1887), as amended by Bombay Act I of 1890, to substitute for that definition a declaration that "gaming" includes wagering or betting of all kinds. An exception is, however, made, of wagering or betting on a race-course upon horse-races. This exception is based upon section 2 of the Street Betting Act, 1906 (6 Edw. 7, c. 43), and it is proposed because no serious evil has been shown to result from betting on race-courses in Bengal. Lotteries are also excluded, for the reason that they are dealt with by section 294A. of the Indian Penal Code (which penalises lotteries not authorized by the Government) and section 196 of the Code of Criminal Procedure, 1898 (which requires the sanction of the Government or a specially empowered officer to prosecutions under section 294A. of the Penal Code).

2. The definition of "instruments of gaming" in the three existing Bengal Acts is not a comprehensive definition, but merely covers instruments of rain-gambling. It is proposed to substitute for that definition a declaration that "instruments of gaming" includes any article used as a means or appurtenance of gaming. This amendment follows naturally upon the proposed extension of the meaning of the word "gaming".

3. The proposed definition of "common gaming-house" reproduces the definition of that expression in the three existing Bengal Acts, with some verbal alterations to secure uniformity and to adapt the definition to the extended meaning of the word "gaming".

Clause 3.

4. This clause introduces into Howrah and the town of Calcutta the exemption of games of mere skill which is provided in section 10 of the Bengal Public Gambling Act, 1867.

Clause 4.

5. The definition of "common gaming-house" in section 51 of the Calcutta Suburban Police Act, 1866, was, apparently by accident, left unrepealed when sections 25 to 30 of that Act, relating to gaming, were repealed by the Bengal Public Gambling Act, 1867. It is proposed to take advantage of the present opportunity to repeal that definition, which has no meaning as the former Act now stands. Gaming in the suburbs of Calcutta is now dealt with under the Act of 1867, which has been extended to those suburbs by notification under its second section.

6. Section 2 of the Bengal Public Gambling Act, 1867, requires that notifications extending that Act to any place be published in three successive issues of the Calcutta Gazette. One publication is quite sufficient, and it is proposed to repeal the words which require three publications

7. It is proposed to repeal the Bengal Rain-gambling Act, 1897, entirely, because the Act will be superseded by clause 2 of the Bill.

ACT No. V OF 1913.

An Act to prohibit the importation, manufacture and sale of matches made with white phosphorus.

WHEREAS it is expedient to prohibit the importation, manufacture and sale of matches made with white phosphorus; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the White Phosphorus Matches Prohibition Act, 1913.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force on the first day of July, 1913, with the exception of section 6, which shall come into force on the first day of July, 1914.

Definition.

2. In this Act, "white phosphorus" means the substance commonly known as white or yellow phosphorus.

Prohibition of importation by addition to section 18, Act VIII of 1878.

3. To section 18 of the Sea Customs Act, 1878, the following clause shall be added, namely :—

"(*g*) matches made with white phosphorus."

Prohibition of use of white phosphorus in manufacture of matches.

4. (*1*) No person shall use white phosphorus in the manufacture of matches.

(*2*) Any person who uses, or permits the use by any person under his control, of, white phosphorus in the manufacture of matches, shall be punishable with fine which may extend to two hundred rupees.

Power of Inspector of Factories to take samples of material used in manufacture.

5. (*1*) Every person who manufactures matches shall allow an Inspector of Factories appointed under the Indian Factories Act, 1911, at any time to take for analysis sufficient samples of any material in use, or mixed for use, in such manufacture :

Provided that any such person may, at the time the sample is taken, and on providing the necessary appliances, require the Inspector to divide the sample so taken into two parts, and to mark, seal and deliver to him one part.

(*2*) Any person who refuses to permit any such Inspector of Factories as aforesaid to take a sample, in accordance with the provisions of sub-section (*1*), shall be punishable with fine which may extend to two hundred rupees.

Prohibition of sale.

6. (*1*) No person shall sell, or offer or expose for sale, or have in his possession for the purposes of sale, any matches made with white phosphorus.

(*2*) Any person who contravenes the provisions of sub-section (*1*) may, on complaint to a *Presidency* Magistrate, *Subdivisional Magistrate or Magistrate of the first class*, be ordered to forfeit any such matches in his possession, and any matches so forfeited shall be destroyed or otherwise dealt with as the Magistrate may direct.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 7th March, 1913, and is hereby promulgated for general information :—

ACT No. VI OF 1913.

An Act to declare the rights of Mussalmans to make settlements of property by way of "wakf" in favour of their families, children and descendants.

WHEREAS doubts have arisen regarding the validity of wakfs created by persons professing the Mussalman faith in favour of themselves, their families, children and descendants and ultimately for the benefit of the poor or for other religious, pious or charitable purposes; and whereas it is expedient to remove such doubts ; It is hereby enacted as follows :—

1. (*1*) This Act may be called the Mussalman Wakf Validating Act, 1913.

Short title and extent.

(*2*) It extends to the whole of British India.

2. In this Act unless there is anything repugnant in the subject or context,—

Definitions.

(*1*) "Wakf" means the permanent dedication by a person professing the Mussalman faith of any property for any purpose recognized by the Mussalman law as religious, pious or charitable.

(*2*) "Hanafi Mussalman" means a follower of the Mussalman faith w conforms to the tenets and doctrines of the Hanafi school of Mussalman law.

3. It shall be lawful for any person professing the Mussalman faith to create a wakf which in all other respects is in accordance with the provisions of Mussalman law, for the following among other purposes :—

Power of Mussalmans to create certain wakfs.

(*a*) for the maintenance and support wholly or partially of his family, children or descendants, and

(*b*) where the person creating a wakf is a Hanafi Mussalman, also for his own maintenance and support during his lifetime or for the payment of his debts out of the rents and profits of the property dedicated :

Provided that the ultimate benefit is in such cases expressly or impliedly reserved for the poor or for any other purpose recognised by the Mussalman law as a religious, pious or charitable purpose of a permanent character.

4. No such wakf shall be deemed to be invalid merely because the benefit reserved therein for the poor or other religious, pious or charitable purpose of a permanent nature is postponed until after the extinction of the family, children or descendants of the person creating the wakf.

Wakfs not to be invalid by reason of remoteness of benefit to poor, etc.

5. Nothing in this Act shall affect any custom or usage whether local or prevalent among Mussalmans of any particular class or sect.

Saving of local and sectarian custom.

Signals to be made by vessels inconvenienced by the searchlights of Defended ports or of French ships-of-war.

No. 132 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 169 of 1913), are republished :—

Every vessel seriously inconvenienced by searchlights, which are being exercised at Defended ports or by French ships-of-war, should make use either separately, or as far as possible at the same time, of the following signals :—

(*a*) By flashing lamp, *four short flashes* followed by *one long flash.*

(*b*) By whistle, siren, or fog-horn, *four short blasts* followed by *one long blast.*

These signals should not be used without real necessity, and only when the vessel finds herself actually in the rays of a searchlight, when only can it be seen which searchlight is inconveniencing her, and which will then be doused or its direction altered.

The signals should be repeated until the searchlight has been doused or its direction altered.

Vessels failing to use these signals will be held responsible for accidents that may occur.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR FEBRUARY 1913.

I. *Character of the Season.*—During the month under report rainfall was general all over the province and in excess of the normal except in the districts of Chittagong and the Chittagong Hill Tracts, where it was slightly under the normal. The usual rainfall statement is appended.

II. *Progress of Agricultural Operations.*—The pressing of sugarcane and the transplantation of summer rice continued during the month. The harvesting of *rabi* crops was in progress. Preparation of lands for next season's crop commenced.

III. *State of standing crops.*—The standing *rabi* crops were reported to be doing well.

IV. *Prospects and probable outturn of harvests.*—The outturn of wheat and oilseed crops was estimated at 93 and 90 per cent. respectively. The prospects of other *rabi* crops were generally good.

V. *Damage to standing crops.*—No damage was reported to have been done to the standing crops.

VI. *Condition of Agricultural stock.*—The condition of agricultural stock was on the whole good. Cattle-disease was, however, reported to be prevalent in places in Nadia, Murshidabad, Khulna, Burdwan, Midnapore, Malda, Mymensingh, Tippera and Noakhali.

VII. *Failure of pasturage and fodder.*—The supply of fodder and water was sufficient except in Burdwan, where scarcity of water was reported to be felt in parts of the Asansol subdivision, In some parts of the Pingla thana, in the Midnapore district, the supply of fodder and water was reported to be insufficient.

VIII. *Prices of food- rains.*—During the second fortnight of the month under review the price of common rice rose in 17 districts, fell in one, and remained stationary in the rest. It varied from 7 seers a rupee in Darjeeling to 11 seers a rupee in Midnapore and Chittagong.

IX. *Condition of Agricultural people.*—The condition of the agricultural population continued to be good.

NOTIFICATIONS.

No. 1264M.R.—The 20th March 1913.—The following rules, relating to the recruitment of the Provincial Forest Service in Bengal and the selection of Bengal candidates for deputation to the Ranger Service Course at the Imperial Forest College, Dehra-Dun, are published for general information :—

I—RULES FOR THE RECRUITMENT OF THE PROVINCIAL FOREST SERVICE IN BENGAL.

Extract from the Rules of the Forest Research Institute at Dehra-Dun relating to the Provincial Service course.

* * * * * * *

15. The maximum number of students that will be admitted in any one year will be decided by the President, subject to the orders of the Inspector-General of Forests. Within this number, nominations will be assigned to the various provinces by the President who, after satisfying their requirements, may also assign vacancies to British possessions, Native States, etc. The President is empowered to refuse an application for a nomination without assigning any reason.

16. All applications for nominations must be communicated to the President by the 15th October of the year preceding that in which the course will commence. All nominations will be allotted and communicated to Local Governments etc., concerned by the 1st November. Should any nomination not be accepted, the President should be informed by as early a date as possible so as to permit of his transferring the nomination to some other Local Government, Native State, etc.

17. It is left to Local Governments to prescribe what educational qualifications they please, including any examination, competitive or otherwise, for candidates that it is proposed to depute to the Provincial Service course. The attention of Local Governments is, however, invited to the fact that the President is authorized to hold an examination in English and Mathematics of any candidate on arrival at Dehra. Experience has shown that even candidates, who have graduated at some Indian University, have often a wholly inadequate knowledge of both English and Mathematics. Unless therefore a candidate is thoroughly conversant with these subjects, as indicated in rule 18, it will be merely waste of time to send him to the Institute.

Local Governments will also no doubt bear in mind the importance of giving a preference to candidates who are in all respects qualified by previous examinations to follow and profit by the course of instruction, it having been found that without a preliminary training in Science, probationers are not able to complete an advanced forest course within a limited time.

18. The President is authorized to hold an examination of any candidate on arrival at Dehra in English and Mathematics.

Candidates are expected to know sufficient English to follow the course, and in Mathematics should know Arithmetic, Algebra, up to and including Quadratic Equations and simple problems, Geometry—the first three books of Euclid, and the Elements of Trigonometry, including the solution of triangles and the use of Logarithms.

The President is authorized to refuse admission to any candidate who, in his opinion, does not possess sufficient knowledge of these subjects to properly follow the course.

19. *Physical test.*—Candidates, on arrival at Dehra, will undergo such physical tests as may be prescribed by the President to be followed by a medical examination before a Medical Board.

Local Governments should take every precaution to ensure that the candidates selected by them will be such as will be able to pass these tests.

N.B.—At present the physical test is a walk from Dehra to Mussoorie and back, distance some 26 or 28 miles, to be completed within the number of hours that may be prescribed.

20. There are four categories of students—

(*a*) Private students.

(*b*) Government probationary students, stipendiary or non-stipendiary.

(*c*) Students deputed by Native States and British Colonies.

(*d*) Students already in Government service.

21. (*a*) *Private students* can only be admitted if there are vacancies for such after satisfying the demands of (*b*), (*c*), (*d*) above. Their chief *raison d'être* is to meet a possible demand on the part of large landowners who may wish to place their forest areas under professional management.

(*b*) *Government Probationary students* are those nominated by a Local Government for direct appointment to, or as probationers for, the Provincial Service.

(*d*) *Students already in Government service* may be deputed at the discretion of Local Governments, provided that they pass the examination prescribed in rule 17.

22. In the case of *Private students*, application for nominations must be made to the President direct, supported by a certificate from a Conservator of Forests, District Officer or Political Agent, that the candidate possesses the necessary social qualities and *a good general* education and appears likely to make a good executive Forest officer.

23. In the case of *Government Probationary students* and *those already in Government service*, applications must be made to the President direct by Local Governments concerned.

24. In the case of students from *Native States* and *British Colonies*, applications must be made to the President direct by the State Durbar countersigned by the Political Agent, or by the Governor of a Colony or his representative.

25. *Age.*—Except for special reasons and under the special orders of the Local Government in each case, candidates must be between the ages of 18 and 25 on the 1st November in the year in which the course begins.

The Inspector-General of Forests has the power to relax the above rule.

26. *Certificates.*—With applications must be forwarded the following certificates:—

(*a*) A certificate that the candidate is a "Native of India" within the meaning* assigned to those words by section 6 of 33 Vict., Cap 3.

N.B.—This certificate may be omitted in the case of private students and of students deputed by British Colonies.

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by Article 49 of the Civil Service Regulations, 5th edition, signed by a Civil Surgeon or such other qualified Medical Officer as may be approved by the President, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough, outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of smallpox.

(*d*) A certificate showing that the candidate is of good social standing and good moral character.

The certificates (*c*) and (*d*) must bear date not further back than the 1st January of the year previous to that in which the candidate desires admission to the College.

(*e*) A certificate that the candidate possesses a thorough knowledge of colloquial English, which will permit of his following a highly technical course, and is generally of good education.

Certificates (*d*) and (*e*) must be signed by a Conservator of Forests, District Officer, Political Agent, or a British Government gazetted officer of high standing.

The Inspector-General of Forests may, should he consider it desirable, relax any of the conditions imposed under this rule.

27. *Preliminary training.*—It is left to the discretion of Local Governments, etc., to test the suitability of their candidates for a forest career by a period of practical training in the forests before they enter the Institute. During such training candidates will receive such consolidated allowance as may be ordered by the Local Governments, etc.

28. *Stipends or scholarships.*

1. Government Probationary students.—It is left to Local Governments to award stipends or scholarships in such manner as they please, provided that the total for 24 months' course does not exceed Rs. 2,400, *i.e.*, does not

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India, or within the territories of Indian Princes tributary to, or in alliance with, His Majesty, of parents habitually resident in India, and not established there for temporary purposes only. (Article 37, Civil Service Regulations.)

exceed an average rate of Rs. 100 per mensem. In the event of scholarship being awarded, the general method of assigning such will be—

(*a*) a stipend not exceeding Rs. 100 per mensem for the duration of the course or a portion thereof;

(*b*) in lieu of the above, a lump sum to be paid on a candidate's successfully obtaining such certificate as may have been agreed upon;

(*c*) partly the one, partly the other of the above.

II. Students already in Government service.—Such officers will, while at the Institute, draw the pay and travelling allowances of their grade in the service, or a stipend not exceeding Rs. 100 per mensem in place thereof as the Local Government may decide. * * *

43. *Travelling allowance of Government Probationary students.*—Such students will not ordinarily be entitled to travelling allowance, being expected to defray their expenses when on tour; but it is left to Local Governments to sanction the payment of actual expenses for journeys by rail or steamer.

Rules for the Recruitment of Candidates for the Provincial Forest Service in Bengal.

1. Appointments to the Provincial Forest Service shall be made—

(*a*) by the promotion of Forest Rangers of long service and tried probity, irrespective of the educational qualifications they may hold;

(*b*) by the selection for direct appointment of candidates who must successfully pass through the Provincial Forest Service course at the Forest Research Institute, Dehra-Dun, and thereafter render not less than three years' satisfactory service as Probationary Extra Assistant Conservator of Forests before being confirmed.

2. The pay of Probationary Extra Assistant Conservators of Forests will be Rs. 150 per mensem for the first three years; and thereafter until they are appointed to vacancies in the sanctioned cadre of the Provincial Forest Service, pay not exceeding Rs. 200 per mensem may be given at the discretion of the Local Government.

3. Candidates for nomination to the Provincial Service course at the Forest Research Institute must possess the following minimum educational qualifications:—

(*i*) a certificate of having passed the I.Sc., I.E., or I.A. examination of an Indian university in a group of subjects including Mathematics, or

(*ii*) the Licentiate of Agriculture degree of a Government Agricultural College, or

(*iii*) if a European, the Junior School certificate awarded in connection with the Cambridge Local Examination in a group of subjects, including Algebra, Geometry and Trigonometry:

Provided that in the case of candidates who were above the age of 16 years on the 31st December 1910, other certificates may be accepted, if they show the candidates to possess the educational qualifications laid down in rules 17 and 18 of the Research Institute admission rules.

4. Applications should be submitted to the Conservator of Forests, Bengal, through the Collector of the district in which the candidates reside, or through the Divisional Forest Officer if the candidates reside in a Forest Division: applications should be accompanied by the certificates prescribed by rule 26 of the Research Institute admission rules, and by the educational certificates prescribed under rule 3 above. From the applications received, the Conservator of Forests may make a preliminary selection of not more than twice the number of men required to be deputed to the course in the ensuing year, and candidates so selected may be required to undergo a course of preliminary practical training in such forest divisions as the Conservator may direct, which may extend over a period of not less than four and not more than six months.

During this course, candidates will be granted a monthly allowance of Rs. 40, which is intended to cover their expenses. The Conservator of Forests will dispense with the services of any candidate whose work or conduct during this period may prove unsatisfactory.

The final selection of candidates will be made by Government.

5. While at the Forest Research Institute, the selected candidates will be given a monthly stipend of Rs. 50, which will be supplemented by a bonus of Rs. 1,000 at the end of the course to those candidates who pass with "Honours," and who are well reported on by the President. The amount of the bonus is reducible by Government in the event of the report not being entirely satisfactory.

6. The actual expenses incurred by probationary students on journeys by rail or steamer, while proceeding to and from the Institute and while undergoing the course, will be defrayed by Government. For the purpose of this rule, probationary students will be considered as officers of the second class under article 1002, Civil Service Regulations.

7. On the nomination of candidates they will be required—

(*i*) to sign an agreement binding themselves to work diligently while at the Institute and to serve Government for not less than five years after passing out of the Institute;

(*ii*) to find two sureties to execute a bond in the prescribed form guaranteeing that, under special circumstances therein detailed they will refund all money expended by Government on the nominee's behalf, etc.

II—RULES FOR THE SELECTION OF BENGAL CANDIDATES FOR DEPUTATION TO THE RANGER SERVICE COURSE AT THE IMPERIAL FOREST COLLEGE, DEHRA DUN.

Extract from the Rules of the Forest College at Dehra-Dun relating to the Ranger Service Course.

* * * * * * *

5. The total number of students of each category, who can be admitted into the College each year, will be limited to such number as the President, subject to the orders of the Inspector-General of Forests and the Government of India, may decide, from time to time, can be educated at the College. The number of studentships to be allotted each year to the respective provinces, as well as the number of nominations to be made by the President will, with due regard to the total prescribed, be decided by the latter not later than the 1st August, after consultation with the various administrations as to their requirements, and communicated to them.

6. In allotting nominations to Local Governments, Colonies, or Native States, the President will allow a margin for possible casualties between the dates of nomination and of actually entering the College. And when a Local Government, Colony or Native State cannot for any reason utilize the full number of studentships allotted, it should immediately inform the President so that the vacancies may be filled up with other candidates in time to permit of the prescribed preliminary training being undergone.

7. There are four categories of students—

(1) Private students;

(2) Government probationary students, stipendiary or non-stipendiary;

(3) Students deputed by Native States and British Colonies;

(4) Students already in Government service.*

* *Vide* rules regarding Native non-commissioned officers of His Majesty's Army

8. *Private students* comprise all those students who are without appointments in any Forest service, who have not entered into an agreement to serve any Government or Administration, and whose object it is, by becoming possessors of the Forest College certificates, to obtain employment either in the Forest service of the Government of India or in that of a Native State or some other owner of forest property.

Government Probationary students comprise those who have been selected by any Government for an appointment in its Forest service. They may be stipendiary or non-stipendiary.

(*i*) Candidates for admission to the Ranger class of the Forest College as private students or Government probationary students, or students deputed by Native States must not be less that 18, or more than 25, years of age on the 1st April of the year in which they desire admission to the College, and in the case of students from British India, their applications must be sent to a Conservator of Forests,* either direct or through a Divisional Forest Officer of rank not below that of a Deputy Conservator, or through a Collector or officer in charge of a district, in such time that the applications may reach the President not later than the 1st August in each year. None of the abovementioned officers need belong to the Forest Circle or Province in which the candidate seeks employment; but Divisional Forest Officers, Collectors or other officers in charge of a district may not forward to Conservators applications unsupported by the five certificates enumerated below.

* Conservator of Forests, Bengal Circle, at Darjeeling
Conservators of Forests, Assam—
Eastern Circle at Shillong.
Western " "
Conservators of Forests, United Provinces of Agra and Oudh—
Eastern Circle at Naini Tal.
Western " "
Conservators of Forests, Central Provinces—
Southern Circle at Nagpur
Northern " at Jabalpur.
Berar " at Amraoti.
Conservator of Forests, Punjab Circle at Lahore.
Ditto ditto, Bihar and Orissa at Ranchi.
Conservators of Forests, Bombay Presidency—
Northern Circle at Bandra.
Central Circle at Poona
Southern Circle at Belgaum.
Deputy Conservator of Forests in charge, Sind Circle, Karachi.

In the case of Native States, candidates should submit their applications supported by the same five certificates to, and in the manner prescribed by, their respective Durbars—

(*a*) A certificate that the candidate is a "Native of India" within the meaning† assigned to those words by section 6 of 33 Vict., Cap. 3.

† "Native of India" means any person born and domiciled within the dominions of His Majesty in India, or within the territories of Indian Princes, tributary to, or in alliance with, His Majesty, or parents habitually resident in India, and not established there for temporary purposes only. (Article 87, Civil Service Regulations.)

(*b*) A certificate of age.

(*c*) A health certificate in the form prescribed by Article 49 of the Civil Service Regulations, 5th edition, signed by the Civil Surgeon of the district in which the said Divisional Forest or District Officer's duties lie and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough outdoor life in the Forest Department, and to the fact that he bears on his body marks of successful vaccination or of smallpox.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliability.

The certificates (*c*) and (*d*) must bear date not further back than the 1st April of the year previous to that in which the candidate desires admission to the College.

If any person giving certificates as above under (*c*) and (*d*) is in a position to mention anything more to the credit of the candidate than the certificates actually called for, he may do so.

(*e*) A certificate of having passed one of the following examinations, viz.:—

The B.A., F.A., B.Sc., or Licentiate of Agriculture.

The Matriculation, where no School Final Examination or school-leaving certificate exists.

The School Final Examination, provided the candidate can show that he has qualified in English and Mathematics up to the Matriculation standard, or, for European candidates, a certificate of having passed the High School examination, with a similar proviso.

The school-leaving certificate, as prescribed in the United Provinces, Central Provinces and Bombay.

(*f*) A certificate that each candidate has a sufficient knowledge of colloquial English to assimilate lectures delivered in that language without the aid of dictation.

The President is authorized to admit candidates, as an exceptional measure, who for some valid reason (such as being the subjects of a Native State or foreign country) have had no opportunity of securing any of the certificates mentioned above, provided that in his opinion the candidates possess the educational qualifications necessary to profit by the College course.

The Inspector-General of Forest may, should he consider it desirable relax any of the conditions imposed under this rule.

(*ii*) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may reject the application without assigning any reason for so doing; but if he accepts it and the applicant is a candidate for Government service, he should be seen by a Conservator of a Forest Circle, when this can be conveniently arranged, or by some officer of the Imperial Forest Service, who should record his personal opinion in regard to the suitability of the candidate.

(*iii*) Those candidates who have been approved will, with the permission of the Local Government in the case of Government Probationary students, and under the Conservator's recommendation in the case of private students, and that of the Durbars in the case of candidates from Native States, be eligible for nomination to the College.

(*iv*) *Preliminary training.*—All candidates not already in the service of Government, who have been accepted by the President for admission to the College will be required to undergo, before joining the College, a course of practical training in the forests of the province from which they come, lasting at least three and a half months. Such candidates will not be allowed to join the College unless they can produce a certificate signed by the Divisional Officer under whom they have served, and countersigned by the Conservator of the Circle, or in the case of Native States by the Durbar, that they have undergone the course of practical training in a satisfactory manner and are likely to become useful Forest officers. The President may exempt a candidate from the whole or a portion of the practical course above prescribed, after satisfying himself that the omission to complete the minimum prescribed term was due to no fault of the candidate, and that the Conservator, under whom the candidate had undergone part of this period of training, has certified that he has given promise of making an efficient Forest officer.

(*v*) *Stipends or Scholarships.*—It is left to Local Governments to award stipends or scholarships in such manner as they please, provided that the total for the 24 months' course does not exceed Rs. 1,200, *i.e.*, does not exceed an average rate of Rs. 50 per mensem. In the event of scholarships being awarded, the general method of assigning such will be—

(*a*) a stipend not exceeding Rs. 50 per mensem for the duration of the course or a portion thereof;
(*b*) in lieu of the above, a lump sum to be paid on a candidate's successfully obtaining such certificate as may have been agreed upon;
(*c*) partly the one, partly the other of the above.

(*vi*) *Allowances.*—Government probationary students, while under training in the forests of the province from which their names have been sent up, will receive travelling allowance at the rate of Rs. 25 per mensem to enable them to defray their travelling expenses during the course of the practical training referred to in (*iv*). This allowance will be met from the budget grants of the Local Forest Departments, and will be paid only under the countersignature of the Conservator of the Circle concerned.

9. Candidates *in Government service*, who may be deputed to the Forest College, will be ordinarily—

(*a*) Forest Rangers who have not previously obtained the Higher Standard certificate of the College and who desire to qualify themselves for further promotion in their own or to a higher class.

Such officers may be deputed by Local Governments, provided that they are certified by the Conservator under whom they are serving to possess a knowledge of English and general education and ability sufficient to enable them to profit by the course. They must not be above 30 years of age on entering the College, and need not go through the practical

training referred to in rule 8 (*iv*). While at the College, they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations.

(*b*) Other members of the Subordinate Forest Service (Deputy Rangers, Foresters and other subordinate officials) similarly desirous of qualifying for promotion, who may be deputed by Local Governments, provided that—

(*i*) they have been in that service for not less than two years;
(*ii*) they are under 25 years of age on entering the College;
(*iii*) there is accommodation at the College and that the President is satisfied that the candidate possesses the necessary qualifications.

NOTE.—The Inspector-General of Forests is empowered to relax rules (*i*) and (*ii*).

Such officers will, while at the College, draw the pay and travelling allowances of their grade in the service, or a stipend not exceeding Rs. 50 per mensem in place thereof as the Local Government may decide. They will not be required to undergo the practical training. * * *

43. *Travelling allowance of Government probationary students.*—Such students will not ordinarily be entitled to travelling allowance, being expected to defray their expenses when on tour; but it is left to Local Governments to sanction the payment of actual expenses for journeys by rail or steamer.

Rules for the selection of Bengal candidates for deputation to the Ranger Service Course at the Imperial Forest College, Dehra-Dun.

1. The number of candidates to be selected annually will depend on the requirements of the Department, but ordinarily will not exceed four.

2. Candidates for these appointments should apply to the Conservator of Forests, Bengal, through the Collector of the district in which the candidates reside, or through the Divisional Forest officer if the candidates reside in a Forest division; applications should be accompanied by the certificates prescribed by rule 8 (*i*) of the rules of the Forest College at Dehra-Dun relating to the Ranger Service Course.

From the applications received, the Conservator of Forests will make a preliminary selection of not more than twice the number of men to be deputed to the Ranger Course at the Forest College in the ensuing year, and candidates so selected will be required to undergo the preliminary training referred to in rule 8 (*iv*) of the College rules relating to the Ranger class. The Conservator of Forests will dispense with the services of candidates whose work or conduct at any time during this training is unsatisfactory.

The final selection of candidates for deputation to the Forest College will be made by the Conservator in accordance with the results of the preliminary training, preference being given to the men who are considered likely to make the best Forest officers.

3. While at the Forest College, the selected candidates will be granted a monthly stipend of Rs. 35, which will be supplemented by a bonus of Rs. 360 at the end of the course to those candidates only who pass the course with "Honours". No bonus will be given to candidates who merely obtain the Higher Standard certificate. Selected candidates will be obliged to execute the agreement and security bond prescribed by Government.

NOTE.—Copies of the agreement and security bond to be executed under rule 3 can be obtained from the Conservator of Forests, Bengal.

4. The actual expenses incurred by probationary students on journeys by rail or steamer, while proceeding to and from the College and while undergoing the course, will be defrayed by Government. For the purpose of this rule, probationary students will be considered as officers of the third class under Article 1002, Civil Service Regulations.

5. Candidates who obtain the Higher Standard certificate of the Forest College at the completion of the two years' Rangers' course, with or without "Honours" will be appointed Rangers on monthly salaries of not less than Rs. 50. Under similar circumstances, candidates who obtain the Lower Standard certificate will be appointed Deputy Rangers on monthly salaries of not less than Rs. 30.

(1) That the Senior Customs House official is satisfied that the goods are destined for the abovementioned purpose.

(2) That the goods are declared before importation in accordance with articles 27-31 inclusive of the Customs regulation A of the Ordinance of 1st October 1882 (Official Gazette No. 240).

(3) That the declarant holds himself responsible for the payment of the eventual import duty.

(4) That the Collector of Customs and Excise at Semarang is empowered to demand a personal guarantee.

(5) That within one month after the official closing of the Exhibition satisfactory proof be delivered to the Custom House official in charge that abovementioned goods have been exported beyond the jurisdiction of the Customs and Excise after having served for the Exhibition only.

(6) That the responsibility referred to in sub 3 ceases and that the guarantee mentioned in sub 4, if given, lapses immediately the condition stipulated in the preceding paragraph has been complied with.

(7) That, in the event of non-compliance with the regulation in sub 5, the declarant must pay the import duty at the office according to the calculation of the Collector of Customs and Excise at Semarang as soon as the term of one* month has elapsed.

The Association undertakes to receive and clear in goods on the following conditions :—

(*a*) A complete list of each package and a price list of the sundry articles should be sent with the bills of lading.

(*b*) The packages, after being dealt in, will not be unpacked except in the presence of those persons appointed by the Association for this work. These persons make a list of the unpacked articles and this list serves between the exhibitor and the Association as the absolute proof of the contents of the packages.

(*c*) If among the goods mentioned in sub B there are goods which the exhibitor has declared to be specially destined for sale and thus may be taken away from the exhibition at any time, the exhibitor is obliged either to pay the import duty when clearing in the goods, or deposit a sufficient sum for that purpose with the Association, failing which those goods are to be taken as goods sent in for exhibition.

The Association will in no case advance cash for the payment of import duty.

By order of the Governor in Council,

H. L. STEPHENSON, *Secretary*.

GOVT. OF BENGAL, FINANCIAL DEPT., CALCUTTA, *the 15th March 1913*.

MEDICAL DEPARTMENT.

NOTIFICATION.

No. 953Medl.—The 25th March 1913.—The following draft of rules for the grant of certificates to compounders which the Governor in Council proposes to make under section 252 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and section 498 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), in supersession of all previous rules under those sections on that subject, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 1st May 1913, and any objections or suggestions which may be received by the undersigned before that date will be duly considered.

Draft Rules.

Definition of "drugs."

1. The word "drugs" as used in these rules has the same meaning as in section 252 of the Bengal Municipal Act, 1884, or section 498 of the Calcutta Municipal Act, 1899, as the case may be.

Grant of certificates to compounders without examination.

2. A certificate may be granted to any person who—

(*a*) has passed the first M.B. or first L.M.S. examination of the Calcutta University, or

(*b*) has passed the Calcutta Medical College examination for Military Medical pupils, or

(*c*) has passed the Military Medical examination for Hospital Apprentices, or the Military Medical examination for Sub-Assistant Surgeons, or

(*d*) possesses a license, granted by any Government Medical School, to practise medicine, or

(*e*) possesses a certificate, license or diploma granted by—

(*i*) any Medical School, College, Corporation, University or Pharmaceutical Society in Great Britain, Ireland or any British Possession which is recognized by the General Medical Council of Great Britain and Ireland, or

(*ii*) any foreign school or society which may from time to time be approved in this behalf by the Inspector-General of Civil Hospitals, Bengal,

declaring such person to be fit to be entrusted with the duties of compounding, mixing, preparing, dispensing and selling drugs in any shop or place registered in pursuance either of section 252 of the said Bengal Municipal Act or of section 498 of the said Calcutta Municipal Act.

Grant of certificates to compounders after examination

3. A certificate may, subject to the conditions hereinafter prescribed, be granted to any person declaring him to be fit to be entrusted with the duties of compounding, mixing, preparing, dispensing and selling drugs in any shop or place as aforesaid.

Candidates to pass examination

4. No certificate shall be granted under rule 3 to any person unless he has passed an examination held under these rules.

Examinations where to be held

5. Such examinations shall be held—

(*a*) at the Campbell Medical School, Calcutta,

(*b*) at the Medical School, Dacca,

(*c*) for students of the class established for Apprentice Compounders in the Hospital of the Church of Scotland Mission, Kalimpong, at a place at the head-quarters of the district of Darjeeling to be appointed by the Civil Surgeon of Darjeeling, and

(*d*) for non-qualified compounders who have served as such in hospitals or dispensaries under Government supervision for a period of not less than seven years, at the head-quarters of the district in which they are serving, and at a place to be appointed by the Civil Surgeon of the district.

Examinations when to be held

6. Such examinations shall be held on such days, in the months of April and October in each year, as may be appointed by the Superintendent of the School or the Civil Surgeon, as the case may be, by notification in the *Calcutta Gazette*.

Committee of Examiners.

7. Such examination shall be conducted by a Committee constituted as follows, that is to say:—

At each of the schools mentioned in sub-clauses (*a*) and (*b*) of rule 5.	*President.* The Superintendent of the School. *Members.* Two teachers of the School.
At the place appointed under sub-clause (*c*) of rule 5.	*President.* The Civil Surgeon of Darjeeling. *Members.* The Resident Medical Officer at the Eden Sanitarium. The Sub-Assistant Surgeon attached to the Victoria Hospital, Darjeeling.
At the place appointed under sub-clause (*d*) of rule 5.	*President.* The Civil Surgeon of the district. *Member.* The Assistant Surgeon or Sub-Assistant Surgeon in charge of the Sadar Hospital.

Subjects for examination.

8. The subjects for examination shall be Materia Medica; Pharmacy; reading in English, and writing from dictation in English, prescriptions and labels for prescriptions; and compounding, mixing, preparing and dispensing drugs.

Certificates to be produced before admission to examination.

9. No person shall be admitted to an examination held under these rules unless—

(*a*) he produces a certificate of training, and the certificate required by rule 11 to be forwarded to the examining institution is in the hands of the examiners, or

(*b*) he is a student of the third year in the licentiate class in the Campbell Medical School, Sealdah, or in the Medical School at Dacca, and he produces a satisfactory certificate from the teacher of Materia Medica and Therapeutics of the medical school concerned as to the candidate's conduct and attendance at the dispensary and Materia Medica class.

Contents of certificate of training

10. The certificate of training required by rule 9 must state either—

(*1*) that the holder thereof—

(*a*) has attended regularly for one year or more the class established for Apprentice Compounders in the Campbell Medical School, Calcutta, the Medical School, Dacca, or the Hospital of the Church of Scotland Mission, Kalimpong, Darjeeling, as the case may be, and

(*b*) has received instruction in Materia Medica; in Practical Pharmacy; in reading in English, and writing from dictation in English, prescriptions and labels for prescriptions; and in compounding, mixing, preparing and dispensing drugs, and

(*c*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English, or

(*2*) that the holder thereof—

(*i*) has served for three years as an Apprentice Compounder in some Chemist's or Druggist's establishment recognized for this

purpose by the Inspector-General of Civil Hospitals, Bengal, or in some hospital or charitable dispensary under the management or supervision of the Government in which the said Inspector-General has authorized the reception of persons for the purpose of being trained as compounders, and

(*ii*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English.

Certificate to be forwarded to Examining Institution at commencement of training.

11. At the time when any person is first received into any school or hospital mentioned in rule 10 (*1*) (*a*), or into any establishment or institution of the nature described in 10 (*2*) (*i*), for the purpose of being trained as an Apprentice Compounder,—

(*a*) the Superintendent of the Medical School, or

(*b*) in case of the Hospital at Kalimpong, the Medical Missionary in charge, or

(*c*) in case of a Chemist's or Druggist's establishment, the legally qualified Manager thereof, or

(*d*) in other cases the Civil Surgeon of the district,

shall make entry of his name and descriptive roll in a register to be kept for the purpose, and shall at the same time sign and forward to the examining institution a certificate in Form E, prescribed in the Schedule to these rules, containing a descriptive roll of the person, together with his signature and thumb-impression, showing the details mentioned in the form, stating his age, which shall not be less than seventeen years, and certifying that such person has a sufficient knowledge of Arithmetic and English to read and understand prescriptions and to write directions on labels.

Exemption from certificate under rule 11 in certain cases.

12. Notwithstanding anything contained in rule 9, a certificate under rule 11 shall not be necessary in the case of any person who produces a certificate of having passed the Matriculation Examination or Entrance Examination of an Indian University either fully or in the subject of English, or a certificate of having passed the Middle English Scholarship examination.

Power to refer certificate of training for inquiry

13. The President of an Examining Committee may, before accepting any certificate of training under rule 9, refer it to the Inspector-General of Civil Hospitals, Bengal, for inquiry; and may, after such inquiry, either accept or reject the certificate at his discretion.

Signature of certificates.

14. (*1*) Certificates granted under rule 2 shall be signed, in cases (*a*), (*b*) and (*c*), by the Principal of the Calcutta Medical College, in case (*d*) by the Superintendent of the Government Medical School, and in case (*e*) by the Inspector-General of Civil Hospitals, Bengal.

(*2*) Every certificate granted under rule 3 shall be signed by the President and each Member of the Examining Committee mentioned in rule 7.

(*3*) No certificate of training shall be accepted under rule 9, unless it is signed by the Superintendent of the School, the Medical Missionary in charge of the Hospital at Kalimpong, a legally qualified Manager of a Chemist's or Druggist's establishment, or the Civil Surgeon of the district, as the case may be.

Form of certificates.

15. (*1*) Every certificate granted under rule 2 or rule 3 shall be in Form A or Form B, as the case may be, prescribed in the Schedule to these rules.

(*2*) Every certificate in Form B must contain a descriptive roll of the person to whom the same is granted, showing the details mentioned in the form; and such roll must be signed by such person and by the President of the Examining Committee mentioned in rule 7.

(*3*) Every certificate granted under rule 10 shall be in Form C or Form D, as the case may be, prescribed in the Schedule to these rules.

Re-examination after failure to pass

16. No person who has presented himself for examination under these rules and failed to pass the examination shall be permitted to undergo a further examination, unless he produces a certificate in Form F, prescribed in the Schedule to these rules, showing that he has attended and received instruction, or served, as required by rule 10, for a further period of six months.

NOTICE.

Examination of Compounders at the Dacca Medical School.

IN accordance with the Government of Bengal Notifications Nos. 4042-Medical, dated the 2nd November 1896, and 337T.—M., dated the 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will be held on the 21st April 1913.

2. Every candidate must produce a certificate of training, age, and previous education, as required by rule 9 of the Bengal Government Notification No. 4042Medical, dated the 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in rule 10.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the date of examination, to the office of the undersigned.

Exception.—The students belonging to the Compounder class of vernacular Medical schools will be exempted from paying this fee on production of a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination. This test consists of reading and writing from dictation, prescriptions and labels. They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, etc.

NOTE.—The attention of students is drawn to rule 10, section (2), of the Government Notification of the 2nd November 1896, from which they will observe that the chemists' and druggists' establishments from the legally qualified managers of which they obtain their certificates will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

G. C. NAG, Depy. Collr., *for* Additional Collector in charge.

Mymensingh Collectorate, the 22nd February 1913.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the head-quarters of the Burdwan Collectorate on the 28th April 1913.

Conditions of Sale.

1st.—Each estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

QUESTIONS AND ANSWERS.

The Sibpur Engineering College

The Hon'ble Dr. Nilratan Sarkar asked :—

I.—(*a*) Will the Government be pleased to state whether the agreement for the sale of the premises of the Sibpur Engineering College to the Port Commissioners has been completed ?

(*b*) Has the Government come to any decision with regard to the future location of the Sibpur Engineering College ?

(*c*) Is the Government aware that there exists a considerable body of opinion adverse to the removal of the Engineering College to a place situated far from Calcutta ?

The Hon'ble Mr. Kerr replied :—

I.—(*a*) "The agreement for the sale of the Sibpur Engineering College and site to the Port Commissioners has not yet been finally completed. The matter is still the subject of correspondence between this Government and the Government of India

(*b*) Government has not yet come to any decision with regard to the arrangements to be made on the transfer of the Sibpur Engineering College to the Port Commissioners. The Dacca University Committee have proposed that provision should be made in connection with the new University for the instruction in Civil Engineering now given at Sibpur, and a scheme is being worked out for the creation of a fully-equipped Technological Institute in Calcutta which will make provision, among other things, for instruction in all the other subjects included in the curriculum of the Sibpur College.

(*c*) Government is aware that a considerable body of opinion desires that provision should be made for the teaching of Civil Engineering in Calcutta or its neighbourhood on the abandonment of the Sibpur College. Public opinion has already been invited upon the proposals made by the Dacca University Committee, and the scheme for the Technological College referred to above will also be published for public consideration before any final decision is come to upon it."

Appointments held by Graduates of the Sibpur Engineering College.

The Hon'ble Dr. Nilratan Sarkar asked :—

II.—Will the Government be pleased to lay on the table a statement showing the number of appointments carrying salaries of Rs. 200 per mensem and upwards held by graduates of the Sibpur Engineering College ?

The HON'BLE MR. KERR replied :—

II.—"A statement giving the information desired by the Hon'ble Member is laid on the table."

MINISTERIAL OFFICERS OF EASTERN BENGAL TRANSFERRED TO CALCUTTA.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

III.—Will the Government be pleased to state whether any relief has been granted to the ministerial officers of Eastern Bengal transferred to Calcutta, on account of the hardship they have had to undergo—

(*a*) in connection with house building at Dacca or Shillong, and

(*b*) on account of their being obliged to pay higher house-rent at Calcutta?

The HON'BLE MR. STEPHENSON replied :—

III.—(*a*) "It was never intended that the location of the Government of Eastern Bengal and Assam at Shillong should be anything but temporary, and any clerks who may have built houses at that station did so at their own risk. As regards Dacca, all those clerks who had incurred expenses in building or collecting materials for building and were transferred from Dacca in consequence of the rearrangement of the Province have been reimbursed their expenses.

(*b*) Clerks transferred to Calcutta have been brought upon the sanctioned establishment of the Calcutta offices, and the pay of this establishment is fixed with due regard to the expenses of living in Calcutta. No question of any relief, therefore, arises."

PRESIDENCY ALLOWANCE TO OFFICERS OF GOVERNMENT WHOSE PAY IS RS. 500 OR LESS.

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

IV.—Will the Government be pleased to state whether, in view of the gradual and steady rise in the price of food-grains and the fact that living in Calcutta has become more and more expensive, it is in contemplation to grant some sort of Presidency allowance to all officers of Government whose monthly emoluments are Rs. 500 and below?

The Hon'ble MR. STEPHENSON replied :—

IV.—"No."

CONTINUANCE OF ORDERS, APPOINTMENTS AND NOTIFICATIONS ISSUED BY THE LATE GOVERNMENTS OF BENGAL AND EASTERN BENGAL AND ASSAM.

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

V.—Will the Government be pleased to state whether all appointments made, orders passed and notifications issued by the late Governments of Bengal and Eastern Bengal and Assam still hold good in those cases where they have not yet been explicity replaced, modified or cancelled by the present Government of Bengal?

The Hon'ble MR. STEVENSON-MOORE replied :—

V.—"The answer is in the affirmative."

DRAINAGE AND SANITATION IMPROVEMENTS IN DACCA.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

VI.—Will the Government be pleased to state whether the improvements in drainage and sanitation in Dacca, which were contemplated by the late Government of Eastern Bengal and Assam, are going to be carried out, and whether Government is going to advance funds for the purpose?

The Hon'ble MR. STEPHENSON replied :—

VI.—"It is understood that the sewerage scheme originally prepared for Dacca has been found to be in certain respects unsuitable and it is now being revised and modified by the Sanitary Engineer.

As no final scheme has been submitted to Government, the question of finance has not yet come under consideration."

VILLAGE DRAINAGE SCHEME FOR THE BENGAL PRESIDENCY.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

VII.—Will the Government be pleased to state whether it is in contemplation to introduce a village drainage scheme gradually throughout the Bengal Presidency ?

The HON'BLE MR. STEPHENSON replied :—

VII.—"There is no scheme for village drainage throughout the Bengal Presidency at present before Government."

DEMONSTRATIONS IN AGRICULTURE.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

VIII.—Will the Government be pleased to state whether the officers of the Agricultural Department hold any demonstrations in remote rural areas to explain the methods of modern agriculture to the agriculturists ?

The HON'BLE MR. KERR replied :—

VIII.—"A large amount of demonstration work is carried out by the Agricultural Department, with a view to bringing to the knowledge of the cultivators improvements in agricultural methods, the value of which has been tested by experimental work on the agricultural farms. The demonstrations are carried out either by ordinary cultivators under the supervision and with the assistance of officers of the Department, or by fieldmen demonstrators. In the former case, the seed or manure or other appliances required, are supplied by the Department, and applied by the cultivator in accordance with the instructions received. In the latter case, a fieldman demonstrator, after a training at one of the agricultural farms, is placed in charge of the cultivation of specific plots in different places, with the object of demonstrating to the other cultivators in the neighbourhood definite improvements which have been explained to him at the farm. Eight such fieldmen demonstrators were employed last year, and it is proposed this year to increase the number to 30."

BREEDING BULLS.

The HON'BLE MR. GOLÁM HOSSEIN CASSIM ARIFF asked :—

IX.—Will the Government be pleased to specify the names of places where breeding bulls are maintained by the Agricultural Department ?

The Hon'ble Mr. Kerr replied :—

IX.—"A copy of Table VIII of the Annual Report of the Bengal Veterinary College for the year 1911-12, which gives the information desired by the Hon'ble Member, is laid on the table."

STATEMENT REFERRED TO IN THE ANSWER BY THE HON'BLE MR. KERR TO QUESTION NO IX ASKED BY THE HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF AT THE COUNCIL MEETING OF THE 13TH MARCH, 1913.

NUMBER OF POLICE OFFICERS IN THE BENGAL PRESIDENCY.

The Hon'ble Mr. Golam Hossein Cassim Ariff asked:—

X.—(*a*) Will the Government be pleased to state the total number of—

(*i*) head constables,
(*ii*) sub-inspectors, and
(*iii*) inspectors of Police.

in the Bengal Presidency?

(*b*) Will the Government be pleased to state the numbers of Hindus and Muhammadans separately employed under (*i*) (*ii*) and (*iii*)?

The Hon'ble Mr. Stevenson-Moore replied :—

X.—"A statement giving the required information is laid on the table."

Statement referred to in the Answer by the Hon'ble Mr. Stevenson Moore to Question No. X asked by the Hon'ble Mr. Golam Hossein Cassim Ariff at the Council Meeting of the 13th March, 1913.

INCREASE IN THE NUMBER OF LOCAL BOARDS AND VILLAGE UNIONS IN BENGAL.

The HON'BLE MAULVI ABUL KASEM asked :—

XII.—Does the Government propose to increase the number of local boards and village unions in any division of the Presidency ?

The HON'BLE MR. STEPHENSON replied :—

XII.—" Under section 6 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), a Local Board may be established in any subdivision. There are Local Boards in all the subdivisions of the Province except in the Lalbagh subdivision of the district of Murshidabad, the Sadar subdivisions in the districts of Dinajpur and Jalpaiguri and the Sadar and Cox's Bazar subdivisions of the Chittagong district.

The question of the establishment of Local Boards in the Chittagong district is under the consideration of Government.

As regards Village Unions, Government is prepared to sanction their establishment in any area where the elements necessary to their success can be found."

ELECTORAL ROLL FOR LOCAL BOARDS.

The HON'BLE MAULVI ABUL KASEM asked :—

XIII.—Will the Government be pleased to state how and through what agency the electoral roll for the local boards is formed ?

The HON'BLE MR. STEPHENSON replied :—

XIII.—" Under rule 22 of the Election Rules framed under section 138 (*a*) of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the District Magistrate is the authority who prepares the register of persons qualified to vote in Local Board elections. The register is prepared from assessment lists, from inquiries made by persons specially deputed for the purpose and in such other manner as may appear expedient. The register is corrected and added to from time to time as the Magistrate of the district may direct."

NUMBER OF SERIOUS POLICE CASES IN CALCUTTA DURING THE LAST FIVE YEARS.

The HON'BLE DR. DEBA PRASAD SARBADHIKARI asked :—

XIV.—Will the Government be pleased to state the number of serious Police cases sent up by different thanas in Calcutta during the last five years under the Indian Penal Code ?

The HON'BLE MR. STEVENSON-MOORE replied :—

XIV.—" A statement of Police cases is laid on the table. Cases of obstruction of thoroughfares, etc., under section 283 of the Indian Penal Code are excluded from the figures."

CONTINUOUS SERVICE FOR EMPLOYÈS UNDER THE COURT OF WARDS.

The HON'BLE RAI RADHA CHARAN PAL BAHADUR :—

XV.—(*a*) Is the Government aware of the following conditions of service of the employés of the Court of Wards :—

(*i*) that as soon as an estate is released, the employès are liable to be thrown out of employment without pension and in many cases without being able to obtain re-employment ;

(*ii*) that in not a few cases some of the employés have spent the best years of their lives in service under the Court of Wards and at the time of the release of the estate are not in a position to start afresh in life?

(*b*) Will the Government be pleased to consider whether a continuous service can be organised for employés under the Court of Wards?

(*c*) Will the Government consider the feasibility of employing the discharged employés, under the Court of Wards, in Government Khas Mahals and settlement of estates?

The HON'BLE MR. KERR replied :—

XV.—(*a*) "Service under the Court of Wards is necessarily temporary, since employés are appointed to individual estates, and the period for which an estate remains under management depends on causes beyond the control of the Court of Wards. It is not, however, the case that no provision is made for employés discharged on the release of an estate. There is a Provident Fund to which employés are required to subscribe at the rate of 6¼ per cent. of their salaries. The Court of Wards makes a contribution from the funds of the estate not exceeding half the amount so subscribed, and the whole amount with interest is paid to the employé on his discharge. In deserving cases, a bonus of 5 per cent. of the amount standing at the credit of the employé may be added. The rules regarding the management of these Provident Funds will be found on page 216 of the Bengal Wards Manual, 1909.

Section 16 of the Court of Wards Act, 1879 (Bengal Act IX of 1879), authorises the Court of Wards to charge against estates under the Court the expenses incurred on the establishments employed for the management of such estates, inclusive of salaries and gratuities. It has been held that the term 'gratuities' includes pensions, but as there is no means of enforcing the continued payment of pensions after the release of an estate from the Court of Wards, it is usual to give lump-sum gratuities to officers of the Court of Wards on their discharge or retirement. In some cases, however, where it is probable that the estate will remain under the Court throughout the lifetime of the recipient, annual or monthly pensions have been sanctioned, provision being made for converting them to a gratuity in the event of the estate passing out of the hands of the Court of Wards before the recipient's death. Pensions and gratuities, when given, are fixed in accordance with the rules in the Civil Service Regulations.

(*b*) As the number of estates under the management of the Court of Wards fluctuates greatly from time to time, and as it is usually impossible to tell how long any individual estate will remain under management, it would not be possible to organise a continuous service for employés under the Court of Wards.

(*c*) Every effort is made to provide re-employment for employés of the Court of Wards, who are discharged on the release of estates, and who are fit for further work. In the case of subordinates, lists of discharged employés are circulated to Collectors, who are required to consider their claims in filling up vacancies in the local offices. The names of officers of higher status, who desire, and are fit for, re-employment, are entered in the register of candidates kept by the Board, which endeavours, as far as possible, to find them suitable posts in other estates under the management of the Court of Wards, or in Government Estates. It would not be possible to employ discharged employés of the Court of Wards in the Settlement Department except in subordinate capacities, as only Deputy and Sub-Deputy Collectors are now appointed Assistant Settlement Officers."

CREATION OF A SPECIAL SERVICE FOR THE MANAGEMENT OF ESTATES, KHAS MAHALS SETTLEMENT WORKS, ETC.

The HON'BLE RAI RADHA CHARAN PAL BAHADUR asked :—

XVI.—Will the Government be pleased to consider the feasibility of creating a special service like the Registration, Police, etc., for the management of estates, Khas Mahals, Settlement works and works of similar nature in which trained, able, experienced and successful officers will have an opportunity to rise to the highest rung of the ladder?

The HON'BLE MR. KERR replied :—

XVI.—"It would not be feasible to create a special service for the heterogeneous purposes mentioned in the question. As stated in the reply to Question No. XV (*b*), the number of estates under management fluctuates so greatly from time to time as to preclude the possibility of forming any regular service of estate managers, while it is desirable and convenient for many reasons that the higher posts in the Settlement Department should be held by revenue officers in the regular line, to whom settlement work affords an invaluable training."

THE PROVINCIAL CIVIL SERVICE.

The HON'BLE NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR, in the absence of the HON'BLE MAULVI A. K. FAZ-UL-HAQ, asked :—

XVII.—(*a*) Will the Government be pleased to state the names of those officers of the Provincial Civil Service whose services have been lent elsewhere, *e.g.*, Calcutta Municipal Corporation, Native States, etc., and whether these officers, during such deputation, are treated as being in foreign service?

(*b*) Is it not a fact that some of these officers are not likely to revert at all, and others not within some years at any rate?

(*c*) Will the Government be pleased to state whether the officers referred to in Questions (*a*) and (*b*) above have been *seconded* in their own grades by gradual promotion from lower grades?

The HON'BLE MR. STEVENSON-MOORE replied :—

XVII.—(*a*) "Babu Charu Chandra Chatarji and Babu Debendra Prasad Ray are employed as Secretary and Assessor, respectively, to the Calcutta Municipality. The services of Babu Prasanna Kumar Das Gupta have been lent to the Hill Tippera State. These three officers are treated as on Foreign Service of the first kind as defined in article 750 of the Civil Service Regulations. Babu Dasarathi Chatarji and Babu Nibaran Chandra Ghatak are employed as Assistant Manager, Tagore Raj Mortgaged Estates, and Municipal Magistrate respectively. The former is on Foreign Service of the second kind; the latter on Foreign Service of the third kind. The services of Mr. David MacDonald have been lent to the Government of India, but he is not on Foreign Service within the meaning of the article above referred to

(*b*) The answer is in the affirmative.

(*c*) There is provision in the *cadre* of the Provincial Civil Service for the appointment of officers to work under Municipalities, Native States, Private Estates, etc., and, that being so, officers employed on such work cannot be seconded. The first five officers named have therefore not been seconded. Mr. MacDonald, on the other hand, has been seconded in his grade because there is no provision in the *cadre* for such an appointment as he holds."

TEACHING OF ARABIC, PERSIAN AND URDU IN PUBLIC SCHOOLS.

The HON'BLE MAULVI ABUL KASEM asked :—

XVIII.—(*a*) Is the Government aware that the teaching of Arabic, Persian and Urdu in public schools is very defective for want of efficient and qualified teachers?

(*b*) Will the Government be pleased to consider the desirability of providing qualified teachers in Government and aided schools for the teaching of these languages?

(*c*) Will the Government also be pleased to consider the desirability of assisting private institutions with funds in order to enable them to maintain qualified teachers for the teaching of Arabic, Persian and Urdu?

The HON'BLE MR. KERR replied :—

XVIII.—(*a*) "Government is not aware that the teaching of Arabic, Persian and Urdu in public schools under Government management is defective for want of efficient and qualified teachers. Detailed information regarding the qualifications of teachers in these languages in public schools not under the direct control of Government is not immediately available, but Government has not received any complaints that such schools suffer from inefficient instruction.

(*b*) Although the Higher Madrassa, or an equivalent qualification, together with an adequate knowledge of English, is not an indispensable condition of appointment of teachers in these languages, generally speaking, only teachers so qualified are as a matter of fact selected for Government schools. There is no reason to believe that these qualifications are inadequate.

With regard to aided schools, the grant-in-aid rules direct that provision to the satisfaction of the Inspector of Schools and the Director of Public Instruction must be made for instruction in any subjects which may be required by the local conditions of the place in which the school is situated. Unless qualified teachers are appointed in the languages named where there is a local demand for such teaching, the school would not receive a grant-in-aid from the Education Department.

(*c*) If private institutions desire assistance from Government to enable them to appoint qualified teachers in Arabic, Persian and Urdu, they can obtain such assistance by means of grants-in-aid, provided they comply with the rules of the Education Department referred to in answer to the second part of this question."

FENCING ON THE HOOGHLY-KATWA BRANCH OF THE EAST INDIAN RAILWAY.

The HON'BLE MAULVI ABUL KASEM asked :—

XIX.—(*a*) Has the attention of the Government been drawn to the fact that the Hooghly-Katwa Branch of the East Indian Railway Company is not provided with fencing, with the result that accidents to cattle are frequent?

(*b*) Does the Government propose to direct the Railway to provide fencing for this line?

The HON'BLE MR. FINNIMORE replied :—

XIX.—(*a*) "The attention of the Government of Bengal has not been drawn previously to this matter.

(*b*) The Government of Bengal does not propose to issue any orders on the subject. It has been ascertained that the authorities of the East Indian Railway are considering the question of fencing this line should traffic increase over it, but no proposal for this work has yet been formulated."

STATION PLATFORMS ON THE HOOGHLY-KATWA BRANCH OF THE EAST INDIAN RAILWAY.

The HON'BLE MAULVI ABUL KASEM asked :—

XX.—(*a*) Is the Government aware that there are no platforms for stations on this line, causing great inconvenience to passengers, especially women and old men?

(*b*) Does the Government propose to direct that suitable platforms be provided for stations?

The HON'BLE MR. FINNIMORE replied :—

XX.—(*a*) & (*b*) "The Railway Board report that, in accordance with the usual practice on new lines other than main lines, raised platforms have not been provided on the Hooghly-Katwa line. It is understood that the traffic at present dealt with on this line is insufficient as yet to justify the construction of such platforms."

EXHUMATION OF A DEAD BODY AT BURDWAN.

The HON'BLE MAULVI ABUL KASEM asked :—

XXI.—(*a*) Has the attention of the Government been drawn to an article published in "The *Bengalee*" newspaper, dated the 24th May, 1912. headed "A Dead Body Exhumed at Burdwan"?

(*b*) Is the Government aware that the exhumation of the dead body of a Muhammadan lady has wounded and hurt the feelings of the Muhammadan community and their religious sentiments?

(*c*) Is the Government aware that the order for the exhumation of the dead body of the Muhammadan lady was obtained by the police officer from the Magistrate from whom the fact that a police inquiry had previously been held was concealed?

(*d*) Does the Government propose to order an inquiry into the matter?

The HON'BLE MR. NEWBOULD replied :—

XXI.—(*a*) The attention of Government was drawn to the article mentioned at the time it appeared.

(*b*) The body was exhumed at the request of the lady's husband, who suspected foul play. The District Magistrate who passed the order was reluctant to do anything that might possibly wound the feelings of the relations of the deceased or of the Muhammadan community, but thought it absolutely necessary that the cause of death should be inquired into. The Government consider that under the circumstances the Magistrate could adopt no other course.

(*c*) The Magistrate at the time when he ordered the exhumation was aware of the previous police inquiry which had been held by a head constable.

(*d*) An inquiry was held as soon as the attention of Government was drawn to the article. It is not proposed to hold any further inquiry.

NUMBER OF MINISTERIAL APPOINTMENTS UNDER GOVERNMENT.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

XXII.—Will the Government be pleased to furnish a statement showing the number of ministerial appointments held by—

(*i*) Hindus,
(*ii*) Muhammadans, and
(*iii*) others,

(*a*) in the Secretaria,
(*b*) in the attached offices of the heads of departments,
(*c*) in offices of Divisional Commissioners, and
(*d*) in offices of Magistrates and Collectors?

The HON'BLE MR. STEVENSON-MOORE replied :—

XXII.—The returns which Government receive in regard to this matter are not due until after the 1st April in each year. Complete and up-to-date figures cannot therefore be furnished until their receipt after the 1st April next. A statement giving such information as is now available is laid on the table.

VACANCIES IN THE SECRETARIAT BETWEEN THE 1ST APRIL, 1912 AND 28TH FEBRUARY, 1913.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

XXIII.—Will the Government be pleased to state how many vacancies have occurred between the 1st April, 1912, and 28th February, 1913, in the ministerial service (both higher and lower grades) of the Secretariat and attached offices located in Writers' Buildings at Calcutta, and how many of such vacancies have been filled up by Muhammadans ?

The HON'BLE MR. STEVENSON-MOORE replied :—

XXIII.—For the reasons given in the answer to the previous question, Government have at present no information relating to the period subsequent to the 1st April, 1912. It will be available before the next Sessions of the Council.

PUBLICATION OF INFORMATION AS TO VACANCIES IN GOVERNMENT OFFICES.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

XXIV.—Will the Government be pleased to state whether information as to the occurrence of vacancies in Government offices is published so as to attract the attention of the public, and whether Muhammadan Associations are notified of such vacancies as used to be done by the late Government of Eastern Bengal and Assam ?

The HON'BLE MR. STEVENSON-MOORE replied :—

XXIV.—The orders of the late Government of Eastern Bengal and Assam regarding the notification of vacancies in Government offices have not been made applicable to the districts in Western Bengal. The co-ordination of the rules and orders in force in the two parts of the Presidency is now under the consideration of Government.

EXPENDITURE ON THE CONSTRUCTION OF ROADS.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

XXV.—Will the Government be pleased to state what amount is proposed to be spent on the construction of roads in the three divisions of Eastern Bengal and in the two divisions of Western Bengal during 1913-14, and what amounts were spent in 1911-12 and 1912-13 for that purpose ?

The HON'BLE MR. FINNIMORE replied:—

TOTAL MILEAGE OF RAILWAY IN EASTERN AND WESTERN BENGALS.

The HON'BLE MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

XXVI.—Will the Government be pleased to state the total mileage of railways in Eastern and Western Bengals?

The HON'BLE MR. FINNIMORE replied :—

XXVI.—The mileage of railways in Western Bengal on 31st March, 1912, was 1,425.

The mileage of railways in Eastern Bengal on the same date was 1,151.

NUMBER OF PRIVATE CASES INSTITUTED IN THE CALCUTTA PRESIDENCY MAGISTRATE'S COURT DURING THE LAST FIVE YEARS.

The HON'BLE DR. DEBA PRASAD SARBADHIKARI asked :—

XXVII.—Will the Government be pleased to state the number of private cases instituted in the Calcutta Presidency Magistrate's Court on the complaint of private parties during the last five years which came up for trial after issue of process?

The HON'BLE MR. STEVENSON-MOORE replied :—

XXVII.—The figures are furnished in a statement (A) which has been laid on the table.

Statement (A) referred to in the answer by the Hon'ble Mr. Stevenson-Moore to Question No. XXVII asked by the Hon'ble Dr. Deba Prasad Sarbadhikari at the Council Meeting of the 13th March, 1913.

The number of private cases instituted in the Calcutta Presidency Magistrate's Court on the complaint of private parties during the last five years (1908 to 1912) which came up for trial after issue of process :—

Year.	Number of cases.
1908	2,240
1909	2,999
1910	2,876
1911	3,042
1912	2,340

HONORARY PRESIDENCY MAGISTRATES.

The HON'BLE DR. DEBA PRASAD SARBADHIKARI asked :—

XXVIII.—(*a*) Will the Government be pleased to state :—

(*i*) how many Benches of Honorary Presidency Magistrates sat on working days during the last five years, day by day ;

(*ii*) how many and what class of cases were disposed of by them during the period ;

(*iii*) what proportions of serious cases were disposed of by them during the period ;

(*iv*) how many Honorary Magistrates were available for service during the period (the figures being given year by year) and how many were called?

(*b*) Will the Government be pleased to say whether it is a fact that several Honorary Magistrates, whose services were available, were not called within the last year?

(*c*) If so, will the Government be pleased to state the reasons why they were not so called ?

The HON'BLE MR. STEVENSON-MOORE replied :—

XXVIII.—(*a*) (*i*) A statement (B) giving the information for the last three years is laid on the table. Information regarding the previous two years is not available.

(*a*) (*ii*) The total number of cases disposed of by the Honorary Magistrates during the period (1908 to 1912) year by year is given below :—

1908	...	...	...	2,115
1909	...	...	...	4,009
1910	...	...	...	2,220
1911	...	...	...	3,113
1912	...	...	...	7.166

These include all classes of cases under the Indian Penal Code (except Sessions cases) and cases under Local Acts.

(*a*) (*iii*) A statement (C) giving the required information is laid on the table.

(*a*) (*iv*) The Hon'ble Member is referred to the Civil Lists for the last five years. No statistics are kept to show how many Honorary Magistrates were actually available for service during the period. The Chief Presidency Magistrate reports that all Honorary Magistrates upon whose attendance reliance could be placed were called on to sit.

(*b*) & (*c*) The Chief Presidency Magistrate reports that it is not a fact that several Honorary Magistrates whose services were available were not called within the last year.

Statement (B) referred to in the Answers by the Hon'ble Mr. Stevenson-Moore to Question No. XXVIII asked by the Hon'ble Dr. Deba Prasad Sarbadhikari at the Council meeting of the 13th March, 1913.

GENERAL AMENDMENT OF THE CALCUTTA MUNICIPAL ACT, 1899.

The HON'BLE MR. BYOMKES CHAKRAVARTI asked :—

XXIX.—(*a*) Does the Government intend to introduce a Bill to amend the provisions of the Calcutta Municipal Act, 1899, as a whole? If so, when?

(*b*) Is it not a fact that Mr. C. F. Payne has for many months past been engaged in drafting such a Bill as is mentioned in Question (*a*)? If so, how long has he been so engaged?

The HON'BLE MR. STEPHENSON replied :—

XXIX.—(*a*) The question of amending the Calcutta Municipal Act, 1899, is under the consideration of Government. Government expects to be in a position shortly to consult the principal public bodies concerned as to the main principles involved in the amendment, but after their views have been received it will take some time to put the final proposals of Government in the shape of a Bill and to get the sanction of the Government of India and the Secretary of State to its introduction. The matter, therefore, has not advanced sufficiently far for Government to say when the Bill will be introduced in Council.

(*b*) Mr. Payne has been on special duty in connection with the question since 15th October last.

LEGISLATIVE BUSINESS.

THE CALCUTTA BURIAL BOARDS (AMENDMENT) BILL, 1913.

The Hon'ble Mr. Lyon moved that the Report of the Select Committee on the Bill to amend section 14 of the Calcutta Burial Boards Act, 1889, be taken into consideration.

He said :—

"MY LORD,—No opposition has been evinced to this Bill, and the Select Committee have presented an unanimous report. The only changes which they have introduced into the Bill have been some small ones which are intended to carry out more fully and clearly the intentions of the promoters of the Bill. In these circumstances, I do not wish to detain the Council any longer, and I beg to move that the report be taken into consideration."

The motion was put and agreed to.

The Hon'ble Mr. Lyon also moved that the Bill be passed.

The motion was put and agreed to.

THE CALCUTTA MUNICIPAL (LOANS) BILL, 1913.

The Hon'ble Mr. Chakravarti moved that, in view of the fact that a Bill for the amendment of the Calcutta Municipal Act, 1899, as a whole, is expected to be introduced in this Council at an early date, the consideration of the Bill to amend the provisions of that Act relating to loans be postponed *sine die*, and that the provisions of the latter Bill be embodied in the former Bill.

He said :—

"The object of the Bill is to amend a portion of the Calcutta Municipal Act, 1899, *viz.*, Chapter X, relating to the constitution of the Sinking Fund for the repayment of Calcutta Municipal loans. In moving for leave to introduce this Bill on the 5th March last, the Hon'ble Member in charge of this Bill stated that all parties concerned were agreed that legislation was necessary to provide against what he called the defective constitution of the Sinking Fund. It may be conceded at once that the Corporation agreed that steps should be taken to make good the shortage that had already accrued in the Sinking Fund as well as to prevent its

accrual in future. If the Draft Bill stopped there, the occasion for this Resolution might have been obviated. The Draft Bill, however, proposes to introduce certain modifications which are novel in character and which run counter to the declared intentions of the Government. I refer to the attempt to make 'the term of the loan and the period of indebtedness to coincide.' This coincidence of the two periods had been avoided by the Legislature in 1881, 1889 and 1899, and there is high authority in favour of the soundness of this course. In the financial circles of Europe and America periods of repayment are not fixed arbitrarily, but on the equated life of the work. Looking nearer home, we find that the objections to such coincidence were fully explained by the Corporation to the Government in 1910 and that such objections were considered to be well founded by the Government of Sir Edward Baker, as would appear from the letter (Municipal No. 1213 M., dated 16th August 1910), which was sent by the Hon'ble Mr. Stephenson to the Chairman of the Corporation of Calcutta. After that expression of opinion the Corporation could not have reasonably conceived that the feature which had been condemned in 1910 would be attempted to be introduced in the latter end of 1912. But nevertheless that is what has taken place when the Draft Bill was sent to the Corporation towards the end of last year: the Corporation found that this objectionable feature, *viz.*, to make the period of repayment of a loan coincide with the period of repayment of the debentures of that loan, was sought to be introduced. The Corporation thereupon and on the 19th February last expressed an opinion that 'the time at their disposal for the careful consideration of the Bill was too limited' and they therefore desired 'that legislation for the present should be confined to the prevention of the accrual in future of shortages in the Sinking Fund and to making compulsory the contributions by the Corporation towards the deficit which has already accrued," and they proposed that 'the other amendments to Chapter X should be taken up when the Act as a whole comes under the review of the Legislative Council.' The reply of the Government to this modest request of the Corporation was characteristic. Of course it was 'unable to accept this proposal.' And why? 'Because the matter had been under discussion with the Corporation for three years.' But, as I have already tried to show, this statement is not accurate. So far as I have been able to gather, the most important provision as to the coincidence of the periods had never been under discussion—since the 16th August, 1910, until the draft Bill was circulated to the Corporation towards the end of the year 1912. Another reason for the rejection of the proposal of the Corporation was that any such change in the character of the Bill could not be made without reference to the Government of India and the Secretary of State: and as any such 'reference would prevent the introduction of the Bill during the cold weather session of legislation,' it could not be allowed to stand over.

"My Lord, this is an argument and an attitude that does not commend itself to the public. Is that the way to meet a representation from a public body like the Corporation of Calcutta?

"Is this the way to put into the Statute-book of the land a provision of law which is urged by competent authorities to be not only inequitable but also to be financially unsound? Is it any answer to this request for time, on the part of the Corporations to hint that the Government of India may be unwilling to sanction any further loan until the Act has been amended as proposed? That would be reducing the activites of this Council to a farce. For if the Government of India do not see its way to leave a matter of this kind to the judgment of this Council and to give effect to such judgment in the way suggested by this Council, then what is the use of our meeting and discussing the provisions of a Bill and what is the use of any Select Committee? The Government of India has to say that it will not sanction anything except a particular course, and this Council will be forced to give effect to it. If that is the intendment of the letter No. 518 M., dated 25th February, 1913, from the Government of Bengal to the Chairman of the Calcutta Corporation, then I for one strongly protest against it as it tends to interfere with the legislative independence of this Council within its own scope. I resent any attempt to coerce this Council as it were to take a particular course, because any other

course, however just and however reasonable, may not, it is assumed, commend itself to the Government of India. The last reason in its own support is that the full consideration of this '*a very important* chapter on finance' might be neglected by the public if taken up at the time when the Calcutta Municipal Act as a whole comes under review. But what opportunity has so far been afforded the public to consider 'this very important chapter on finance'? The Bill was published in the Calcutta Gazette only on the 26th February last. That does not show any very great regard for public opinion.

"Be that as it may, it is a matter of common knowledge that it is in the contemplation of the Government to introduce into this Council before long a Bill dealing with the Calcutta Corporation as a whole and that Mr. C. F. Payne has been entrusted to prepare a draft Bill for the purpose which, even if not quite ready yet, must surely be nearing its completion. We find that Mr. Payne has been occupied with it since October last, and we understand he is going home on furlough shortly. One does not see why the draft Bill, which is on the anvil and in charge of Mr. Payne, should not deal with the amendments now proposed. What possible objection can there be to this? None has been suggested. On the other hand, we find from the speech of the Hon'ble Mr. Stephenson, to which I have already referred, that the defects in the present Municipal Act regarding the Sinking Fund were realized in 1910 when the attention of the Government was called to them. The very fact that two years have been allowed to elapse since then without any steps having been taken goes to show that there cannot be any great urgency about the matter, and I am quite sure the Government would never have permitted this delay had there been any public danger. Nor has this delay caused either any tangible public loss or inconvenience.

"Apart from the fact that there is no public danger or public inconvenience if the Resolution is adopted, apart further from the fact that the Government by its own conduct and delay in the matter has shown that there is no urgency about it, one can suggest several apparent advantages in favour of the course suggested in the Resolution.

"In the first place, for obvious reasons, piece-meal legislation is always objectionable. I need hardly dilate on them. I am sure this Council will not encourage it while legislation regarding the Calcutta Corporation is impending.

"Secondly, the question of fixing the period of loans is after all a somewhat technical question and ought to be fully and properly considered. The Hon'ble Mr. Stephenson has himself admitted that there may be differences of opinion about it. It is proposed that future loans may be incurred on works other than works of a permanent nature; next, there is the question of the appreciation of land values as time goes on. Then there is the question of the rate of interest payable on these loans in the future. It is a matter of common knowledge that the Corporation in the past had to pay a very much larger rate of interest on its loans than it is doing now. One may presume that as the town becomes more developed and the country is opened up the rate of interest will further go down. There are other questions of a similar technical character which have to be considered in fixing the period of loans.

"Lastly, it is always desirable in all public questions to consult public opinion and in respect of technical questions also expert opinion. It does not appear that in this case the Government has consulted either. While the Resolution, if carried, will enable the Government to do this, it will undoubtedly not cause any inconvenience and will not prejudicially affect either the interest of the Government or of the Corporation or of the public. Moreover, it will enable this Council and the public to view the provisions of the proposed Act as a whole and thus reduce the possibility of having inconsistent or contradictory provisions about the same matter. I therefore move the Resolution standing in my name."

The Hon'ble Rai Radha Charan Pal Bahadur moved that, with a view to ascertaining the correct *data* on which the contribution from the revenues

of the Corporation of Calcutta to the Sinking Fund of its loans should be fixed, the Government should appoint a Committee of experts to inquire into and report upon—

(*a*) the life of all the works of the Corporation financed out of the loan funds since 1881 (the year in which the contribution of the Corporation to the Sinking Fund was fixed at 1 *per cent.* by the Legislature), and

(*b*) the life of all such other works as are in contemplation to be financed out of the loan funds in future ;

and that, until the report of such Committee is published and considered, the Bill to amend the provisions of the Calcutta Municipal Act, 1899, relating to loans be not referred to a Select Committee.

He said :—

"My Lord,—The Calcutta Municipal Act will come up for amendment next year and piece-meal amendment of it by taking up a single chapter out of the many evokes criticism. Chapter X of the Calcutta Municipal Act is perhaps the only chapter which does not require extensive amendment. This chapter, which relates to loans, has got one solitary defect.

The existing law provides that as soon as the debentures of any loan fall due on a certain date, the Corporation shall draw the accumulations in the common Sinking Fund to repay the debenture-holders, as far as the amount of accumulations is sufficient, and the balance is to be paid by raising fresh loans in the market. On the latter sum 1 *per cent.* contribution is continued, whereas no interest can be paid into the Sinking Fund for the former. The money withdrawn from the unmatured Sinking Fund should be deemed as money borrowed from it, and 4 *per cent.* must be paid as interest for its steady growth. But the difficulty has arisen from the defect which I shall explain in a few words : In section 135 (*3*) it is stated that if any part of the Sinking Fund is applied in paying off any part of a loan before the prescribed period, the interest which would otherwise have been payable on such part of the loan shall be paid into the Sinking Fund. Now there has been a *loan* and *debenture of a loan*. If it had been clearly expressed in the Act that if any part of the Sinking Fund is applied for repayment of debentures of a loan at the end of the period of their currency, but before the period of maturity of a loan, *i.e.*, 47 years, interest shall be paid into the Sinking Fund on money withdrawn for payment to debenture-holders ; the intention of the Legislature would have been clear and the chapter free from defect. The intention of the Legislature in section 135 (*3*) was to provide for the continuance of 1 *per cent.* contribution to the Sinking Fund as well as additional payment of interest on the money withdrawn from the unmatured Sinking Fund for repayment of debentures. But that intention has been obscured by the defective wording of that section. Annual payment of 1 *per cent.* contribution from the revenues of the Corporation to the Sinking Fund by regular investment of its accumulation will grow to a sufficient sum to pay up that loan at the end of 47 years. Although the statutory period of a loan is 47 years, the Corporation have issued debentures of loans for a period considerably less, namely, 30, 20 and 15 years only with a view to leave themselves unfettered to reduce the rate of interest from time to time In this way they succeeded during the last 10 years in reducing the rate of interest of their debentures from 6 to 5 to 4 *per cent.* and even to 3½ *per cent.*

"My Lord, notwithstanding this disability to which I have referred, the Corporation is, however, making a voluntary contribution to the full amount of interest on the money withdrawn from the Sinking Fund to make up the deficit. They have paid up to date nearly 5½ lakhs of rupees on this account, and will continue to do so till the Sinking Fund matures to the full amount of the loan. There is, therefore, no urgent necessity of hasty legislation. The solvency and constitution of the Sinking Fund will be placed on a sound footing if the intention of the Legislature were clearly expressed by a proper wording of the section. Although this fact is admitted, yet the Bill goes

considerably beyond the necessity of the case. Several new provisions have been inserted. The most important of them relates to the withdrawal of the statutory provision of 1 *per cent.*, and leaving the rate and contribution to the Sinking Fund to be determined by the Government. The Government may fix it at 2 *per cent.* or at any other rate, and there will be no statutory check on its discretion. It is clear from the Bill that the Government will ordinarily make a loan run for 30 years—a period which has been taken to coincide with the currency of debentures—and this will necessarily raise the rate of contribution to over 2 *per cent.*

"Before the year 1881 the Sinking Fund contribution was 2 *per cent.* But after careful consideration and due deliberation the Government of India, on the representation of the Corporation backed by the recommendation of the Local Government, consented to the reduction of 2 *per cent.* to 1 *per cent.* When the amendment of the Calcutta Municipal Act came up in 1881, the Hon'ble Member (Kristodas Pal) in introducing the Bill thus observed:—

'The next important point was to reduce the contribution to the Sinking Fund from 2 to 1 *per cent.* on loans raised from the public. The principle involved in this contribution was that the present generation was practically made to bear the whole cost of the improvements: it was proposed that the cost of improvements of a permanent character should be equally divided between the present generation and posterity, and with that view it was proposed to reduce the contribution to the Sinking Fund.' At the first reading of the Bill he dwelt on this subject in the following terms:—'Power was given by another section to the Commissioners to set apart annually, in respect of future loans for the drainage and water-supply of the town, 1 *per cent.* on the total amount of the loans as a Sinking Fund for the repayment of the loans. He had explained to the Council that, under the existing law, the Commissioners were required to assign 2 *per cent.* as contribution to the Sinking Fund, but that contribution necessitated increased taxation, and unnecessarily threw a heavy burden on the present generation of rate-payers. The Commissioners therefore represented to the Government that it would be both reasonable and equitable that the liability should be divided between the present generation and posterity, and that the contribution to the Sinking Fund should therefore be reduced from 2 to 1 *per cent.* The Government of Bengal had acceded to that representation of the Municipal Commissioners, and supported it in a letter to the Government of India on the subject.' I will quote here the letter of the Local Government to the Government of India on the subject:—

'The Corporation are now considering a scheme for largely increasing the supply of the water and extending it to the suburbs. The work in contemplation will be of such a nature as to last long beyond the present generation. The drainage works, too, are essentially of a permanent nature, and their benefits will extend to posterity. Municipal taxation in Calcutta is very high, and the Lieutenant-Governor believes that any increase in the rates would seriously interfere with the progress of the town. In the suburbs taxation is also high, and it is represented that, if the rate to be levied is to include provision for a 2 *per cent.* Sinking Fund contribution, the scheme will probably have to be abandoned. Under these circumstances, the Lieutenant-Governor proposes to make provision in the amending Act for a Sinking Fund contribution of 1 *per cent.* only on all public loans raised for water-supply on the understanding that the Municipal Commissioners of Calcutta determine to lay a new 62-inch main conduit from Pultah, and he would make a similar provision in regard to loans for drainage works. He trusts the Government of India will signify their approval of this measure.'

"The attitude of the Local Government in the past with reference to this Sinking Fund question was one of sympathy with the Corporation, as will appear from the observations of Sir Alexander (then Hon'ble Mr.) Mackenzie's speech in 1881 which I quote:—'It would be remembered that the Calcutta Municipality had made repeated efforts to get some reduction of the burden

imposed on the present generation of tax-payers on account of the drainage and water-supply of the town, and the Government of Bengal had consistently supported the Municipality in those endeavours.'

"From the extracts I had read, it is clear that the Government was convinced that works executed out of loan funds not only benefited the present generation, but also the future generations of rate-payers, and therefore fixed the Sinking Fund contribution at 1 *per cent.* in order that rate-payers of 47 years shall successively contribute their respective quota to make up the total cost of the works. In 1888, when the Act was further amended, Sir Henry Harrison, the Hon'ble Member in charge of the Bill, emphasized this principle by giving it a wider application by fixing 1 per cent. as contribution to the Sinking Fund for all loans. It is true there was no discussion on this point at the time, but as the proposal emanated from the Government and as everybody agreed there was no discussion.

"My Lord, what has transpired since to necessitate a legislation which is subversive of the principles accepted both by the Government and the representative of the people as sound? I have already shown that only one section requires to be amended to enable the Corporation to make up the deficit in the fund. There is no occasion for a measure to do away with the statutory provision of the contribution of 1 *per cent.* to the Sinking Fund. My Lord, it was the watchful expert financial adviser of the Corporation, its able and experienced Vice-Chairman, Babu Nilambara Mukherjee, C.I.E., who was the first to draw attention to the deficit and to suggest how to make it up. The Corporation is making up the deficit by regular payments. They have acted throughout in this matter honestly and frankly. The Government of Sir Edward Baker recognized this fact. In the letter of the Government of Bengal, dated the 16th August, 1910, over the signature of the Hon'ble Member who is now in charge of the Bill, His Honour clearly stated that 'there are objections to raising the Sinking Fund contribution' and that '*all that is really necessary is to ensure that the payment of the Sinking Fund shall continue whatever the currency of the loan (debentures of loan) may be; until the improved sum in the Sinking Fund is equal to the amount of the loan.*' I fail to understand, My Lord, why, instead of curing a single defect in the chapter on loans of the Municipal Act, the entire chapter which received special consideration at the hands of such eminent financiers as Sir Ashley Eden, Sir Alexander Mackenzie of Bengal and of Sir John Strachey of the Government of India is going to be recast in a way that will reverse the sound constitution of the Sinking Fund as approved by them. As Mr. Payne, the Acting Chairman, observed in his note on this question, 'the present provision of 1 *per cent.* Sinking Fund was decided upon after much argument, and it does not appear to be advisable to go back upon it.' Mr. Gauntlett held similar views. He said that 'the burden of the loan is regulated mainly by the Sinking Fund, and it would be a most serious reversal of the Government policy for the last 30 years if the order were now passed that the payments to the Sinking Fund are to be made at a rate which will extinguish the loan in 30 years.'

"My Lord, I venture to hope my motion will commend itself to your Excellency's Council. I submit, My Lord, that it is reasonable to ask, as prayed by the Corporation, that there should be an inquiry as to the durability or life of various kinds of work of a permanent nature which have been executed from loans funds since 1881, when the 1 *per cent.* contribution was fixed as a guiding principle in cases of contribution to the Sinking Fund. This will also show whether the Government or the Legislature in the past had erred or arrived at a correct basis. This will also satisfy the Corporation and the rate-payers at large, and above all this will proclaim the justice and fair-mindedness of the Government. I am sure that the Government has an open mind in this matter, and it is farthest from its intention to arbitrarily abolish 1 *per cent.* and substitute 2 *per cent.* I am sure if the Government found that rate-payers of 50 years enjoyed benefits accruing from the loan works, they would divide the burden not only among rate-payers of 30 years, but also among rate-payers of the remaining 20 years. It is

essentially necessary, therefore, that a thorough inquiry should be made by a Committee as to the life of works executed out of loan funds. Following the reasonable basis adopted by experts in England, the equated life of the works done out of loan funds ought to regulate the period of repayment of loan.

"My Lord, what is a matter of greater surprise is that the Bill not only abolishes 1 *per cent.* Sinking Fund in respect of future loans, but gives it a retrospective effect to the recent loans raised under the present Act. In clause 139 of the Bill it is provided that in respect of every loan taken by the Corporation after 31st March, 1912, and before the commencement of the Calcutta Municipal Loans Act of 1913, the annual contribution to the Sinking Fund shall be a sum which accumulated at compound interest shall be sufficient to pay off the loan in 30 years. My Lord, 34 lakhs have been borrowed under the present Act on a 30 years debenture since March, 1912. The Corporation are paying Rs. 34,000, being 1 *per cent.* contribution to the Sinking Fund, as provided in the present Act. But as soon as the Bill is passed into law a little over 2 *per cent.*, amounting to Rs. 71,182, will have to be contributed with retrospective effect annually from the revenues to the Sinking Fund. Thus the difference of Rs. 37,182 is the additional sum required to be paid from the revenues, which, if left free, would admit an additional borrowing of Rs. 7,43,000 for the permanent improvement of the town. If the period of loan, as is contemplated, is reduced from 47 to 30 years for all loans not only, as I have explained, in this case, but also in all other cases, a much larger contribution will have to be made from the revenues and the permanent improvement of the town will be seriously retarded. The items comprised in 34 lakhs loan, to which I have referred, are mostly water-supply, drainage works and acquisition of land. The Government in 1881 considered that as these works would last 'long beyond the present generation,' the contribution in respect of loan for these works should be reduced from 2 to 1 *per cent.* But to-day to our misfortune that wise and far-sighted policy is to be reversed, and the contribution is raised from 1 to over 2 *per cent.* And this happens at a time when 2 *per cent.* of the revenues of the Corporation is annually diverted to the Calcutta Improvement Trust which to-day amounts to nearly 8 lakhs.

"My Lord, unhappily for the rate-payers of Calcutta, there had been a controversy with the Trustees of the Sinking Fund regarding the appropriation of the accumulations of the Sinking Fund for repayment of debentures on due date. I need not dwell on that controversy. Suffice it to say that our Hon'ble and learned colleague, Mr. Sinha, advised that the Corporation was entitled to repay the debenture-holders from the accumulations in the Sinking Fund, and that view was upheld by the Hon'ble High Court. An impression may go abroad that this piece of legislation has something to do with that controversy which it is the interest of Government to avoid.

"My Lord, the Bill has not sufficiently been published for criticisms and examination by the public. No public body has been consulted, nor the Corporation had sufficient time to consider it in all its details. The people fervently hope your Lordship will stay the further progress of the Bill, and will direct full and ample publicity be given to it, and invite public opinion on the same.

"My Lord, knowing well the sympathy and love of justice which have already marked the short period of your Lordship's administration in Bengal and which have created a profound faith and confidence in the wisdom and benevolence of Government, I feel emboldened to appeal to Your Excellency to postpone the Bill with a view to making a thorough inquiry into the matter and also to consult public opinion."

The Hon'ble Mr. Stephenson moved that the Bill to amend the provisions of the Calcutta Municipal Act, 1899, relating to loans be referred to a Select Committee consisting of the Hon'ble Mr. Maddox, the Hon'ble Mr. Bompas, the Hon'ble Mr. Donald, the Hon'ble Rai Priya Nath Mukherji Bahadur, the Hon'ble Mr. S. P. Sinha, the Hon'ble Mr. Apcar, the Hon'ble Rai Radha Charan Pal Bahadur, the Hon'ble Mr. Shorrock, and the mover, with

instructions to complete their report in time for presentation to the Council on the 26th March, 1913.

He said—

"Your Excellency,—I beg to move that the Bill to amend the provisions of the Calcutta Municipal Act, 1899, relating to loans, be referred to a Select Committee and, in doing so, I would ask your Excellency's permission to add two names to the printed list of the members of the Select Committee in the List of Business. At the time this was drawn up it was not anticipated that the Hon'ble Mr. Sinha would be able to give us his valuable assistance. He has since consented to do so. The Hon'ble Mr. Donald will, it is anticipated, take my place in a short time. In these circumstances, I desire to add these two names."

The Hon'ble BABU SURENDRA NATH BANERJI said :—

"My Lord,—May I rise to a point of order? Is the hon'ble gentleman in order in moving this motion at this stage?"

The Hon'ble MR. APCAR said :—

"My Lord,—I desire to speak on the motion of my hon'ble and learned friend Mr. Chakravarti. I hope that I shall have an opportunity of doing so."

THE PRESIDENT said :—

"On the point of order, I have a little difficulty in answering, for I do not know what procedure you have been accustomed to follow in the past. I was asked to adopt what seems to me a curious line. I was told that it would be convenient to Hon'ble Members and would lead to a saving of time. I was asked to allow all the three motions to be moved at once and discussed together so that every Member might have an opportunity of speaking on the whole subject from every point of view. I did not know that Hon'ble Mr. Apcar desired to speak on the motions separately. Perhaps it would be convenient that Mr. Stephenson should not move his Resolution until after Mr. Apcar has spoken. Presumably at the end of the discussion Mr. Chakrabarti will reply and then Rai Radha Charan Pal and then Mr. Stephenson."

The Hon'ble MR. APCAR said :—

"My Lord,—With all due deference, may I submit that if my learned and hon'ble friend's motion is carried, there will be no necessity in the present day to refer this Bill to a Select Committee, and that is the reason why I desire to speak now. I think it will be an advantage and will lead to a saving of time,—unless the matter is settled and there is no hope of my hon'ble and learned friend's motion being carried—if it be decided as a preliminary question whether the matter should be postponed or whether a reference to the Select Committee should be made."

THE PRESIDENT said :—

"I think I understand the matter now. I was asked to adopt a procedure which was proposed for the convenience of the hon'ble mover of the second resolution. But, in strict order, I consider Mr. Apcar is perfectly right. We shall take the resolution separately."

The Hon'ble MR. APCAR said :—

"May I speak now?"

THE PRESIDENT—

"Yes."

The Hon'ble MR. APCAR said :—

"My Lord,—I welcome my hon'ble and learned friend's resolution, and I congratulate him on his initiative in bringing it forward. It should not be regarded as a dilatory motion. There are the strongest grounds for its acceptance, and I submit that it deserves to succeed on its own merits. The Corporation failed in their application for a postponement: for what good

reasons I confess I have been unable to appreciate. But now that my hon'ble and learned friend's motion is independently made in open Council, I earnestly appeal to your Lordship to accede to it.

"The Hon'ble Member in charge of the Bill has introduced it as a simple and innocent measure, to which there can be no ground for opposition. My Lord, the Bill, it is true, as framed, would appear to be as it has been described—to the uninformed. But I seriously say that it deals with the most complex questions, and it is subversive of the recognized principles of municipal finance. The Corporation moreover are at issue in every particular, except the necessity for making good the shortage for which we cannot be held to blame, and for the slight amendment of the law required to provide against that difficulty in the future. These difficulties can easily be met by a tentative and interlocutory measure passed in the current session of this Council, pending the consideration of the amendments of the Municipal Law as a whole.

"I have just now been asked by hon'ble friends sitting near me whether there is any urgency in this matter. There is absolutely no urgency. The next loan is not payable until 1915. I think I am right in saying, and if I am wrong, the Hon'ble Member in charge, who is one of the Trustees of the Sinking Fund, and the Hon'ble the Chairman of the Corporation, who also is present, will correct me, that there are no less than 40 lakhs in the Sinking Fund. We are now paying 5 lakhs annually to the Sinking Fund, and in addition to the circumstances I have mentioned to the Council we voluntarily and spontaneously are paying so much annually as is required into make good the shortage in the Sinking Fund. The public cannot in any way be endangered; on the contrary, there is ample provision to protect the debenture holders, and the public do not look to the Sinking Fund as their security—the security is the rates and taxes of this city, which surely is large enough to pay for any shortage there is or is likely to occur.

"My Lord, let it be understood that I am actuated by no motive personal to myself. The Bill, if passed, cannot cause me any harm. But I can easily perceive that if it is passed into law in its present form, it will touch many very closely, and it certainly will seriously affect the poorer classes of the rate-payers who form a large proportion of the inhabitants of Calcutta. The Corporation, who may be trusted to know their position best, seriously fear that the passing of this Bill must lead to additional taxation. The Indian Members here in Council know very well that an additional annual payment of even Rs. 10 is a hardship to a very large number of rate-payers. This will account, my Lord, for the persistence and earnestness of our opposition.

"I do not know who is responsible for the proposals contained in the Bill. We, however, know that they are not in harmony with the views of the Government of Bengal which were communicated to the Corporation so late as in August, 1910, by the Hon'ble Member in charge of the Bill, and I cannot believe that the present proposals could have either emanated from, or are being pressed on by, your Lordship's Government. I, of course, do not for a moment suggest that with whomsoever the responsibility, there has been a desire wilfully to disregard public interests. That is unthinkable and impossible. But it does occur to me that the framers of this Bill have been labouring under a misconception. That misapprehension exists as to the effects of the proposals made in the Bill as I could easily show if time be permitted in speaking to the resolution. If a postponement is granted and time is given for a reconsideration of the whole question, I feel that cause for much dissatisfaction will not come into existence.

"If your Lordship will permit me, I will refer to the manner of proceeding in England. I hold in my hand a Parliamentary Blue Book issued in 1909, which may have a familiar appearance in some quarters. It deals with the very questions that are now agitating the Government and the Corporation. These questions were considered in England to be of sufficient difficulty and importance for a reference to a Select Committee of the House of Commons in 1909 to inquire and report on them. The Select Committee proceeded to make a most careful inquiry and investigation and examined and

cross-examined all the most skilled experts in the land, and arrived at a most valuable report which is regarded as the highest authority on the subject for local bodies in England. The Corporation rely in their support on the report and proceedings of this Parliamentary Committee. And yet—it is incredible but it is true—the Government are at issue with us on this question. The Members of the House of Commons have had the advantage of the labour of their Select Committee and of this valuable Parliamentary Book for their information and guidance. And what, in contrast, is the position of the Hon'ble Members of this Council? I feel it to be a difficulty in any discussion on this Bill that Hon'ble Members necessarily are unfamiliar with the subject; and what opportunities have been offered to them to acquire information and knowledge on the most intricate questions that are involved? They have received nothing at the hands of Government but the conclusions of those responsible for the new proposal—conclusions in the form of a Bill already drafted, which was introduced only last week. Now, if your Lordship will not grant a postponement, a reference to the Select Committee of this Council will be made to-day. And that Committee will consider a Bill introduced by Government, clause by clause. under the presidency of the Hon'ble Member in charge who is committed in favour of the measure, although he had intimated very different views to the Corporation on the principal point in this Bill. He will have an official majority to support him, and even the Hon'ble Member, the Chairman of the Corporation, I am sure very regretfully, will vote with the officials. Is it not an anomalous position, my Lord, when he has been the mouthpiece of the Corporation in all their representations, that he, the Head of the Corporation, cannot support to-day even his own views when they are in sympathy with the Corporation? My Lord, I have had experience in the past, I am not speaking without proper knowledge and information. I submit that it is, at all events, a subject deserving of very serious consideration by your Lordship's Government. My Lord, by the terms of the Resolution this report must be completed by the 26th of the current month of March. The interval to the 26th does not really give us even a full time until that date. It is not difficult to see that we shall be occupied in Council for some three days on the Resolutions on the Financial Statement, and there will be the Easter holidays intervening. It will be impossible to do myself or my subject justice. I am not an expert on the question, and the strain on me in endeavouring to understand the intricacies of a most difficult subject is very great, but I do not seek any concession for my personal convenience. I support the resolution for a postponement, and we are entitled, I respectfully say, to obtain it, in the public interest.

"My Lord, in a measure that is of importance to the citizens of Calcutta, the public have not been invited to give their opinions. It is true that the Bill was published in the Calcutta Gazette, but only on the 26th of February last, and who keeps looking into the folds of a Government Gazette searching for possible trouble and least of all from a legislative measure relating to municipal loans? And when seen, since it has been framed and indeed has been introduced as an innocent and simple measure, it would not be properly understood until attention was drawn to the risks underlying it. I venture to say it is not innocent and simple. I seriously say that if my hon'ble and learned friend, Mr. Sinha, with all his legal acumen and natural perspicacity and quickness was instructed to appear in the High Court on a question arising on this Sinking Fund, I say if he were called upon to speak to-day, I would feel inclined to challenge him to do so without special preparation. I am sorry that he is not present, and I cannot get his testimony on which I believed I could rely in my support.

"The first in point of time to discover the defect in the law and the shortage in the Sinking Fund which has arisen owing to an omission in the Act was the Vice-Chairman of the Corporation, Babu Nilambara Mukharji, to whose zeal and unremitting toil in their interests the citizens of Calcutta owe so much. This was in the year 1910. The Corporation submitted their views in that year to the Government of Bengal, and the Hon'ble Member

in charge knows well that Sir Edward Baker's Government communicated to the Corporation that it would be an objectionable measure to meet the difficulty that had arisen by raising the Sinking Fund payments. The Corporation are, and have all along been, strongly of that opinion, and perhaps the most important of their objections is against the raising of the Sinking Fund payments, but it forms the main feature of the new policy of those responsible for this Bill.

"Are we not entitled to know on what grounds objections considered by the Government of Bengal in 1910 to be valid are at the present day ignored? And of the grounds on which the principles accepted in the Parliamentary Report to which I have referred are set aside there is not a trace. If the views of a Ruler of this Province and of a Select Committee of the House of Commons are not regarded, what chance can the Calcutta Corporation have? And yet I submit we may fairly claim serious attention to any representation of that body relating to the affairs of their administration, particularly when they have been invited to communicate them. My Lord, it is not a case in which the sovereignty of the realm depends on the passing of this Bill, and I earnestly hope, after the request has been made face to face with your Lordship's Government, that the postponement will be granted, or at least that the Bill will not be pressed further in the current session.

"And permit me, my Lord, to make this offer: If only the motion is allowed, I undertake, if your Lordship's Government will support me, to introduce and pass it through all its stages in one sitting, a Bill that will provide for all difficulties that exist regarding our loans and the slight defect in the law which really only means to make more clear and more explicit a slight obscurity that exists in the Act.

"My Lord, I wish again to say that there is no question of urgency. It must be thoroughly understood that we do not pay another loan until 1915, and we have a large sum in our Sinking Fund. The Hon'ble the Chairman of the Corporation is present here, and he will contradict me if I am wrong. The Hon'ble Member in charge, who is a Trustee of the Sinking Fund, will also correct me if it is not so, as I am speaking from memory. But I think I am right that there is no less than 40 lakhs in the Sinking Fund, and we certainly are paying now 5 lakhs annually as contribution, and besides we are voluntarily setting apart, earmarked for that purpose, a sufficient sum to make good any shortage. This shows that there is no desire on our part in the least bit to evade responsibility."

The Hon'ble MR. MADDOX said :—

"Yes, that is so."

The Hon'ble MR. ARCAR said :—

"I am glad to find that my recollection is correct. There are 40 lakhs in our Sinking Fund. We have no call upon it until 1915. I trust that I may say without offence that I hope your Lordship's Government will not treat the Corporation as a step-child, and the interests they are charged to protect as of no account.

"I feel, my Lord, that it is necessary that a postponement should be given that a proper consideration may be given to the Bill. If it is not properly considered, this Bill will be passed in a form that will prove a serious hardship on the poorer classes of Calcutta."

The Hon'ble BABU SURENDRA NATH BANERJI said :—

"My Lord, I desire to associate myself with the amendments which have been moved by the Hon'ble Mr. Chakravarti and my friend the Hon'ble Rai Radha Charan Pal Bahadur.

"My Lord, in view of the facts which have been elicited in the course of this discussion, a very strong case has been made out for the postponement of this Bill, and, if the Bill is postponed, there is no reason why the points which have been raised by my friend, the Hon'ble Rai Radha Charan Pal Bahadur, should not be taken note of and discussed.

"My Lord, there is absolutely no urgency whatsoever for the passing of the Bill, in view of the fact that you have 40 lakhs of rupees in the Sinking

Fund, and that the credit of the Corporation is as good as it has ever been. Nor is this the case alone, my Lord. The passing of this Bill will entail a heavy additional burden upon the people. The taxation, as say my friends who are experts, will have to be increased. It is a very serious matter, my Lord, that further taxation should be imposed upon the people. The maximum limit of taxation on the rate-payers has been reached, and any further burden would be the last straw on the camel's back. Therefore, so far from their being any urgency, it seems to me that the facts of the case point to exactly the opposite conclusion. If the Bill be passed, there is a prospect of additional taxation, and certainly, my Lord, the rate-payers of Calcutta ought to be permitted to look about them, and ought to be permitted to consider the matter themselves before this Council passes a Bill of this magnitude. There are the various public bodies, the Bengal Chamber of Commerce, the National Chamber of Commerce, the Marwari Association and the British Indian Association. All these various bodies represent the tax-payers in one form or other. My Lord, surely their advice is necessary, and, in a matter of this kind involving fresh taxation, it seems to be that it is the imperative duty of your Excellency's Government to take their advice before this Bill is passed into law.

"We have been told, in fact I may say that we have been given the assurance, that the Calcutta Municipal Act is about to be amended. Well, Sir, if this is the case, I think this matter ought to be dropped in view of the proposed amendment of the Calcutta Municipal Act. My Lord, I here rely upon precedent.

"In 1897 the Calcutta Corporation approached the Government with a small proposal for the modification of the schedule relating to license fees. The Government took some little time to consider this proposal, and, when the matter was ripe for action, there came the further proposal that the constitution of the Calcutta Corporation should be amended. This little Bill was suspended. It was not persevered with, and it was incorporated in the Calcutta Municipal Act. Therefore, my Lord, here is precedent upon which we can rely, and precedents, I think, which are not only established upon fact.

"My Lord, I do not think there is any valid gound in the suggestion that has been made that the Government of India may object if we press modification to the present Bill. We are here to do our duty, and although the Government of India may object, we have to press our view of the matter upon the Government of India, and I venture to think that if a strong unanimous opinion goes forth from this Council, the Government of India will see its way to a modification of its views. However that may be, my Lord, after the strong expression of opinion that has been elicited from this side of the house at any rate, and which I am sure is shared by the members of this Council, I hope the Bill will not be passed.

"I hope that it will be given to the public to consider a matter of this magnitude which involves the prospect of additional taxation on the over-burdened rate-payers of Calcutta, and on their behalf and in their name I most earnestly appeal to your Excellency's Government to consent to a postponement of this Bill for further consideration and for further advice and further consultation with the important public bodies which represent the interests of the rate-payers."

The Hon'ble BABU SURENDRA NATH RAY said:—

"I rise to support the motion made by my friend, the Hon'ble Mr. Chakravarti, that the consideration of the Calcutta Municipal Loans Bill be postponed and that it be considered when the Calcutta Municipal Act will be recast. My first objection is against piece-meal legislation. Such legislation can never be justified on any sound principle. It would seem that the principles underlying this Bill are subversive not only of sound finance, but that no attempt has been made to deal effectively with the defects of previous Acts. The question of providing for expenditure on account of works of a permanent nature out of loans and the means adopted for repayment have always been difficult problems. The Sinking Fund

charges on account of loans payable by the Corporation was 2 *per cent.* on each loan up to 1881, when the Government of Sir Ashley Eden, agreeing with the Calcutta Corporation, decided that 2 *per cent.* was too high regarding the nature of the permanent works usually undertaken by the Calcutta Corporation, and therefore inequitable so far as the present rate-payers are concerned, the rate-payers of a future period mainly benefiting from the works. The Government, therefore, fixed 1 *per cent.* as the Sinking Fund charges. But the period for which a loan was contracted was not to exceed 30 years, and actually was in many cases less than the statutory fixed period. This limitation of the period of loan to 30 years was fixed, it would seem, quite arbitrarily and with a desire simply to terminate the indebtedness of the Corporation at all costs after 30 years, but the legislators did not try to find out whether 1 *per cent.* Sinking Fund charges would repay the loan after 30 years. In the present Bill also no reason is adduced as to why all loans should be liquidated after 30 years, no matter whether the life of the works for which the loan is contracted may be taken to be say 100 years or 50 years or 10 years only. The question of fixing the term of a loan for the Corporation of Calcutta can only be decided after a thorough inquiry by a Committee which would have to find out not only the average life of the permanent works undertaken by the Corporation, say, after an examination of all the loan works executed by the Corporation within the last 30 years, but also must have a clear idea of the present and of the possible future condition of the money market. Unless you can work out what the term of a loan of the Corporation should be, it is clearly undesirable to legislate on the matter and to fix the Sinking Fund charges. Probably to avoid these difficulties the present Bill leaves much that was previously embodied in the statute to executive order, and the new provision to allow expenditure on works not of a permanent nature out of loan funds seems to have been added in order simply to lessen the average life of works executed from loan works and the terms of the period of loans which should be fixed in the interest both of present and future generations of rate-payers. To provide ordinary expenditure out of loan funds presupposes a state of instablity in finance which is to be deprecated in any case, and for which no case has as yet been made out. The Hon'ble Mr. Stephenson, in introducing the Bill to the Council on the 5th instant, said :—

'In 1910 the Vice-Chairman of the Corporation and the Accountant-General separately called the attention of Government to the condition of the Sinking Fund, and it was calculated that, if no steps were taken to place it on a sound basis, the fund would be exhausted by about 1916, and the Corporation would thereafter have to borrow in order to repay each loan as it fell due and thus involve itself in practically perpetual indebtedness.'

"My answer to this would be that in order to meet the deficit the Corporation have of their own initiative (as appears from their Budget of 1912-13) created a reserve calculated at 4 *per cent. per annum* on the amount of all loans repaid as contemplated in section 138, clause (*1*) (*a*), and to which Fund they are paying the necessary amount to make up the deficit, and to place the Sinking Fund on a firm basis so that the loans as they fell due may be met from the reserve fund created by the Corporation. What, therefore, is the necessity for hurrying up the present Bill. The Bill can only be considered after examination of all the principles involved by a Committee in which the Corporation ought also to be represented."

The Hon'ble MR. STEPHENSON said :—

"Your Excellency, speaking now entirely on the motion of the Hon'ble Mr. Chakravarti, it is a little difficult to dissociate that from the general discussion of the principles of the measure I have introduced and also on the advantages of equated loans. I propose to leave the advantages of equated loans entirely to themselves for the present. The motion before the Council is that consideration of this Bill be postponed until the general amendment of the Act is taken up. The Council has already been informed that it will take a very considerable time before that general amendment of the Act is brought into Council. It is not a question merely of postponing a slight

alteration of the law, as in the case of the precedent quoted by the Hon'ble Babu Surendra Nath Banerji. The Corporation asked for this legislation in 1910. A perusal of the Proceedings of the Corporation will disclose constant complaints, again and again, with regard to the law not being altered to allow them to make these voluntary contributions into the Sinking Fund, so that they have to make voluntary payments into the Bank of Bengal instead. We have been urged to alter the law and make it possible to allow them to make these into the Sinking Fund. It is admitted on all hands that the condition of the Sinking Fund is exceedingly unsatisfactory. No commercial undertaking would allow for a moment its finances to remain in the condition the Sinking Fund of the Corporation is in at present. We are told that there are 40 lakhs in the fund. I speak under correction, but my impression is that there are only 24 lakhs, but I don't press that point at all. Out of the Sinking Fund 48 lakhs have been taken which the Corporation have got to replace. Is it possible for Government to calmly look on, and extend no helping hand to the Corporation to enable them to get their finances straight? It seems to me it is the first duty of Government to assist the Corporation in placing their finances on a sound basis, and the Corporation have admitted again and again that legislation is necessary for the purpose. What, then, is the advantage of postponing the legislation? It is admitted that the legislation must come; why is it to be postponed? The first, and I, I think, almost the only objection in the Hon'ble Member's speech is a theoretical one, that is, to piecemeal legislation. It, I think, will carry very little weight with the Council in a matter of this kind. The practical objections raised are that the public and the Corporation have not had time to consider the matter. As regards the public, the Bill has not been before the public for very long. As was pointed out, it was published only last week in the Gazette. But the public, in a matter of this kind, must rely upon their representatives in Council. It is not the man in the street who is going to worry out how to put the Corporation finances right; it is the representatives of the man in the street, elected to the Council, who have got to do that. As regards the Corporation, they have had the Bill before them since the beginning of September last—over five months. They have appointed a Select Committee, and the Finance Committee of the Corporation have discussed the matter. I do not think, then, it can be said that the Corporation have not had sufficient time to consider the matter when it is admitted that the Corporation have been pressing for legislation. I will come later to the point that this is not the same legislation. They have been pressing for legislation since 1910. If the Bill is postponed till the general amendment of the Act, there are 652 sections in the Act, and everyone of these will have to be carefully scrutinized. There are most important provisions as to the constitution of the Corporation, the balance of power, the method of executing the Corporation's orders, and so on, which will take an infinity of time to get through the Council, and why should we postpone this Bill in order to further complicate the matter then? The financial provisions of the Corporation would have to take their chance with a variety of other subjects which will appeal infinitely more to the public. They will receive very much less attention than when the Council can give their whole attention to one single chapter of the Act. Then there is an additional argument which I think the Hon'ble Member rather misunderstood. It is the argument quoted from the letter of Government to the Corporation. The argument is this: The year before last the Government of India, after very careful consideration of the finances of the Municipality, did not consider themselves justified in sanctioning any loan at all. Last year, after a very careful consideration of the finances of the Municipality, they sanctioned a loan of 34 lakhs, but they did not consider it safe to allow the Municipality to borrow that 34 lakhs unless it were repaid in 30 years. The Municipality now write to Government and say the Commissioners are anxious to comply with the conditions of the Government of India, but the law, as it at present exists, does not allow them to do so. Surely it is the duty of Government to come to the assistance of the Corporation and alter the law so that they can comply with the conditions they are anxious to comply with. It would surely be wrong for Government to postpone for two years this

alteration of the law, and thus jeopardize the chances of the Corporation obtaining loans and carrying on the ordinary work of the Municipality. If the Government of India consider that certain conditions are necessary before it is possible to allow the Municipality to borrow, and the present state of the law does not permit of these conditions being carried out, it seems to me the obvious duty of Government is to give the Council the opportunity of altering the law. It is admitted by all the speakers that the present condition is not satisfactory. It has been said that there is no urgency, for the Corporation are already paying voluntarily what they would have to pay under the Act amended as proposed in the Bill."

The Hon'ble MR. APCAR said :—

"There is no loan to be repaid until 1915."

The HON'BLE MR. STEPHENSON said :—

"But there are already 48 lakhs taken out of the fund which are to be put back. Surely no commercial undertaking would be content to sit still and rely for its Sinking Fund on a voluntary basis. At any budget meeting of the Corporation the Corporation might decide to stop that contribution. The Government have no power to enforce it. I could understand the Corporation reproaching the Government for having been so long in enabling to put their finances in better order, but I cannot understand the attitude which says, 'We admit that the finances are hopelessly wrong, but we are quite ready to go on for another two years without having them put right.' The real reason at the bottom of this motion is not that there is any merit in postponing the discussion of the matter, but the Bill as introduced does not commend itself to the mover of the motion. But surely that is an entirely different question. What do we gain by shirking the discussion? If the Council considers that the remedy proposed is not the right remedy, it is within their power to adopt the right remedy, but why say 'we do not approve of the remedy you have brought before us, therefore we won't have a remedy at all?' It has been said that I, as Secretary to Government, have written a letter which is absolutely inconsistent with the Bill of the Government which I have now brought before the Council. I should like to give a short history of the proposals which are now formed into this Bill. In 1910 Government wrote to the Corporation that it was necessary that the Sinking Fund should accumulate enough to pay off each loan. It was said that that could be done either by increasing the Sinking Fund payments or by lengthening the term of the loan. The letter went on to say that there were objections to both these courses. I think it is a very different thing to saying that either of these courses is objectionable in itself. There are objections, and I think the discussion this morning in Council has justified the expression of the view that there are objections to these courses. As regards future loans, Government said, 'You must arrange to pay into your Sinking Fund enough to repay your loans.' If you pay 1 *per cent.* to your Sinking Fund you will repay your loan in 47 years. If you take a loan for 30 years you must go on paying for 47 years and borrow the balance at the end of 30 years.' The provisions were complicated, and were liable to be misunderstood. In sending the Bill up to the Government of India this Government simplified the provision, and instead of the complication of borrowing from the Sinking Fund, and so forth, for future loans, we have said payments into the Sinking Fund must be such as will provide for the repayment of the loan at the end of the period of the loan. This is what is termed by the hon'ble mover the objectionable feature, because the period of the loan and the period of debenture coincide. But where is the objectionable feature? Every Indian Municipality, every Port Trust in the whole of India, as regards presidency towns, has that provision. Every Municipal Act provides that where there is a Sinking Fund the payments into the Sinking Fund must be such as will repay the loan at the end of the term of the loan, and we have adopted these provisions and put them into our Municipal Bill. The provision in the Bill is absolutely elastic. You can take a loan for 100 years or 20 years; all we say is that, whatever the term of the loan, you must pay into the

Sinking Fund enough to repay it, and not go dragging on from one loan to another. The provisions are perfectly simple. They are much more elastic than those of the present Act, and they do not hamper the Municipality any further than the present Act does. The Government of India can now impose what conditions they choose, and if the Corporation refuse to accept the conditions the Government of India can refuse to sanction the loan. In the Bill itself there is no question of reduction from 47 years to 30 years. It is a choice between a compulsory loan for 47 years, whatever the work you are undertaking is, whether it will last for ten years or 47 years, and a loan that may be for any period that the Corporation can satisfy the Government of India is necessary and to their interest. The Bill gives you absolute elasticity. To conclude, I can see no object whatever in refusing to face the question now; the postponement of the Bill is merely putting off the evil day. It leaves the Corporation finances in an unsound condition, and a condition in which the finances of no public body ought to be, and it piles on a future Council an additional work at a time when they will be very greatly rushed. The advantages, so far as I can see, are *nil*."

The Hon'ble Dr. Deva Prasad Sarbadhikari said :—

"My Lord, there would be a great deal of force in what the Hon'ble Member in charge has urged last, if it was the fact that loans raised from time to time by the Corporation were specially ear-marked for the work in view, and were not allowed to get into one other accounts in a confused mass, as unfortunately has been the case with some of the Corporation loans. During the time in the long ago, when some of us were on the Corporation, it used to be a constant fight as to how certain expenditure was going to be met, whether out of particular loans, or out of revenue. I do not know, my Lord, whether in recent years there has been a lessening of disputes of that kind, but the accounts with regard to some of these loans have got so much confused that most careful expert opinion would be needed to separate them, and to show how the methods of repayment ought to be adjusted. In this state of things, the general rate-payer has a right to say that works for which future generations are as much responsible as they are,—works for which they are possibly more responsible, or at all events ought to be,—should be spread over a longer number of years. If it is rigidly insisted that a loan is raised for a particular purpose, it will not be applied for purposes other than that.

"There would be a great deal of force in what the Hon'ble Mr. Stephenson has said, and if in future, in deciding upon these loans, it is absolutely provided that particular loan should be for a particular purpose, and if we could know the age of the particular work, adjustment of the kind now suggested may be possible."

The Hon'ble Mr. Stephenson said :—

"I rise to a point of order. Is the Hon'ble Member speaking on the first motion or on the motion with regard to the equated loans ?"

The President said :—

"It certainly is not on Hon'ble Mr. Chakravarti's motion."

The Hon'ble Dr. Deva Prasad Sarbadhikari, continuing, said :—

"I am speaking on Mr. Chakravarti's motion. Well, even then, my Lord, I venture to think there is no irrelevancy in my point, for all the other questions are inextricably interwoven with one another; but if your Lordship's ruling is that there is, I shall not pursue the matter. Apart from that, if the man in the street, as the Hon'ble Member has described him, is to have no say in regard to matters like this, how are his representatives to know what the real popular opinion with regard to them is, for it is the man in the street after all that will have to pay the extra 'sinkage,' which after careful deliberation had been reduced from 2 *per cent.* to 1 *per cent.*; and is now to be again raised ? It means a definite, present, extra burden against which he has a right to protest for which he must be given time and opportunities for preparation. If that were an answer to any objections

raised with reference to the shortness of notice regarding legislative measures, it might be urged with equal force with regard to all measures, 'for the man in the streets' interest can always be scouted and ignored. All you have to say to him is that your representatives are all experts and know all about it, and it does not matter what the constituents think about it, or how they may be inclined to urge their objections.

"It is quite true that the measure does not commend itself to us. There is no concealing the fact. The Hon'ble Members on this side of the Council have made no secret of the matter and the Hon'ble Member has made no new discovery. He says that the real objection to the postponement is that the measure does not commend itself to the Council. That is so, and that is a greater reason why longer time is necessary for considering the matter, and having greater public examination of the details of the measure, which have not been sufficiently long before the Council."

The Hon'ble Mr. Chakravarti said :—

"My Lord, I shall be very brief, indeed. In answer to my resolution, as I understand, the question is this. It is admitted that on the 16th August, 1910, the view which was entertained by the Government was this : That the period of loans should not be longer than the period of the term of debentures.

"The Hon'ble Member in charge is certainly converted to the other view As to when his conversion took place I do not know. But this Bill in its present form was only circulated in September. I believe, and it reached the hands of the Corporation some time in October or November last. The Corporation, thus affected by this Bill, referred the matter to a Finance Committee and asked the Finance Committee to report on the Bill. The Report was made. They wrote a letter first and, on the 19th February, they wrote a second letter asking for further time, and they said that they only wanted a very short amendment of the present Act in order to enable them to raise money. But the new theory of the Hon'ble Member in charge is that the Bill is a very simple one. Well, I have taken the trouble of asking some Hon'ble Members of this Council whether they were going to support my measure, and they said that as they did not understand anything at all, they were not in a position to say whether to support my motion or not. After all, it is a question of finance, and it is not an easy question. I venture to think—I am not going to take up the time of the Council longer—but I think I can convince the Hon'ble Member in charge in 20 minutes if I have an opportunity of private discussion. The idea that the period of loan should be co-terminous with the period of debenture is absolutely fallacious and inequitable, and it has been so found in other countries where attention has been paid to it."

The Hon'ble Mr. Stephenson said :—

"May I explain? There is nothing in the Bill about the period of debenture."

The Hon'ble Mr. Chakravarti said :—

"I do not quite follow. Everybody understands that this is the crux of the present alteration. The point is this : on the 19th February a letter was written to ask 'for more time. In reply to that letter a letter was written on the 25th February saying *non possumus*— we can do nothing, that legislation must go on.' On the 26th February the Bill was published for information. It may be a very easy measure for the learned members opposite, but I frankly confess that it is not an easy matter. As regards the man in the street he may not be able to speak on the question, but the general public have a right to say that it would cause increased taxation later on. Under these circumstances the public want more time. The Corporation wanted more time, and then it was suggested that they have taken away 48 lakhs of rupees from the Sinking Fund. I do not know whether the figure is right, for I have had no time to test it But I think it is right. I do not

think that with these 48 lakhs the Calcutta Municipality will run away. Calcutta is not running away. We heard that with the removal of the Capital to Delhi the prosperity of Calcutta was doomed. Well, Calcutta is still existing and we are still existing. Therefore, it seems to me there is no danger with regard to the payment of 48 lakhs. If there is a loan to that extent and if the matter has stood over since August, 1910, I see no reason whatever why a short time more should not be allowed. It has been suggested that the Council may be embarrassed. Why should the Council be embarrassed? Because there are 633 sections? If there are a thousand or two thousand sections, the Council will surely take them one by one. My hon'ble friend's fear is that the Council may not take sufficient care of this little baby with regard to loans, because there are bigger babies concerned in the original Act. I have no appreciation of this character, and if I continue to be here and live as long, I can assure the Hon'ble Member with regard to the 633 sections, that they will receive the proper attention that they deserve."

The motion being put to the vote, a division was taken, with the following result:—

The result of the division being ayes 21, noes 24, the motion was lost.

The motion of the HON'BLE RAI RADHA CHARAN PAL, BAHADUR, was then debated.

He said:—

"My Lord, I have already said what I had to say in support of my motion."

The Hon'ble Mr. STEPHENSON said :—

"My Lord, the proposal is to have an expert Committee to report on all works done out of loan funds since 1881 and on the life of all other works that are in contemplation out of loan funds. The Hon'ble Member in making his motion did admit that legislation was necessary, but did not explain what legislation the Corporation wanted. Further, he proposed that this Bill should not be referred to a Select Committee until we had the report of that expert Committee. In the first place, the motion itself discloses no reason whatever for the postponement of the Bill. Even supposing you get an equated period, there is nothing in the present Bill to prevent the period of the loan being fixed accordingly. For the reasons given under the other resolution it would be wrong for the Council to postpone tackling the matter merely because of the appointment of an expert Committee.

"Apart from this, there are many difficulties in the way of the appointment of an expert Committee. Even supposing that the Committee agree, what would be the result? An examination of the works already constructed will no doubt give the Corporation valuable information as to their present assets or the way in which their work has been done; but if this information is necessary they can at any time employ any expert they like. It can hardly be contemplated that any alteration will be made in the terms of the existing loans, these loans being taken for certain terms and on certain conditions; and it is outside the scope of practical politics to alter the terms of these loans. It is equally obvious that any information as to the equated life of past works actually undertaken will be of no use in deciding equated life of future works.

"The Committee of experts will draw up a voluminous schedule giving their opinion as to the life of individual works or very small classes of works in the circumstances under which they were undertaken. But in the first place this schedule would not be absolutely reliable as regards future works of the same small classes because the circumstances might be different, the workmanship might be different, the materials might be different.

"But in any case it would not be possible to fix an equated term for Corporation loans on any basis of this sort, and therefore it would be impossible to introduce into the Act any fixed equated term based on the Committee's findings. The utmost that it would be possible to do would be, for each separate year's loan programme, to take the Committee's schedules and apply them to the works contained in the year's programme, and thus work out an equated term for each year's loan. In one year's loans budget there might be a provision of 16 lakhs for stone setts, the life of which is from 10 to 15 years. It is obvious that the equated term for that year would be very different to, say, the following year when there is nothing in the loans programme but water mains and main sewers. The utmost you can get from the Committee of experts then would be the data on which to equate each year's loan.

"But in the first place this would give an infinite variety of terms for the Corporation loans which would to a considerable extent depreciate their value.

"In the second place we all know or have opportunities of getting a fairly reliable opinion of the probable life of a particular work. Is it necessary to set up the machinery of a Committee of experts in order to fix the time down to years, months and days? If you have got a general idea of the life of the work, is not that enough for practical purposes? There seems to me something petty in the attitude that a great Corporation like that of Calcutta objects to carry out much needed municipal improvements because the future generations may benefit from them, and wishes to call in a Committee of experts to assess with meticulous accuracy the share which a trading Corporation could legitimately charge on the future. The only way to attain this point of view is by shutting each generation into a water-tight compartment and refusing to regard Calcutta as a continuing whole. It seems to me that the proper view is that the Corporation never dies and that its interests continue; its duty is to carry on and improve the administration of Calcutta;

the improvements are undertaken because they are necessary now, not because they will benefit the future. They are all paid for eventually out of the revenue of Calcutta. If it were possible it would be desirable to pay for them directly out of revenue; and as it is not possible without retarding the necessary improvements, the revenue of future years is anticipated by loans. But the criterion should not be what can we charge to posterity, but how much can we afford to pay for ourselves. The letter of the Corporation refers us for information on the subject of equated loans to Collins' Organization and Audit of Local Authorities Accounts. There are only about two pages on the subject in this work, and those pages are concerned not with the principle of equated loans or the methods by which they are taken, but entirely with how to audit them. Undoubtedly equated loans are in force in England; but as I understand it, the local authorities in England take their loans for one specified object. If they are setting up gas works their expenditure includes buildings, mains and meters. These have different lives and the term of the loan is equated according to the amount spent on each of these objects, but the loan is one and for one object. The circumstances in Calcutta are quite different. The loans statement every year run into pages of different objects and the borrowing of the Corporation is very constant. For the 12 years ending in 1900 at a time when the initial expenses on water works and drainage might be expected to be heavy, the average annual loan was 13 lakhs and in several years no loan was taken. Since 1900 the average annual loan is 25¼ lakhs and in only one year no loan has been taken, and that was because the Government of India refused it.

"The Corporation are using their loan funds on perfectly legitimate objects no doubt, but as a permanent additional resource from which to provide for the growing improvement of the City. This is absolutely different to the circumstances under which equated loans are raised at Home. Further, there are no signs that this loan expenditure will ever cease. Calcutta is growing, the standard of administration is growing, the conveniences which are suitable now will ten years hence be below the standard and will have to be renewed, which in itself is an argument against any equated loan based on the life of the work if it were left alone and had not had to be replaced to meet the growing needs of the town. If they insist like petty traders on each generation paying the uttermost farthing, the burden on the second, third and fourth generations will become more and more intolerable.

"I wish only to point out that there are objections to equated loans in the circumstances of Calcutta, as I have shown above. There is however nothing whatever in the Bill to prevent us from taking equated loans. I, therefore, think that sufficient grounds have not been shown for the acceptance of the Hon'ble Member's motion by the Council."

The Hon'ble MR. ARCAR said :—

"My Lord, I should like to touch upon only one point in the observations made by the Hon'ble Member in charge. It is with regard to his idea that because we seek equated loans we are acting like petty traders. Does the Hon'ble Member know what the purpose or the object of the Sinking Fund is? The Sinking Fund is for the purpose of preventing a corporate body from charging the present generation with all the expenses of works that will continue in use for a series of years and leave future generations free. That is admittedly the object. Equated periods are taken in England. What is an equated loan? It is well known that you can have a regular table fixed of the lives of different works, and when a loan is required for some of them, the life of each work is taken into account and the average arrived at, and a loan is then obtained for that average or equated period. My Lord, it is well brought out here in the book of recognised authorities I hold in my hand, Collins' Organization and Audit of Local Authorities Accounts. It is not advisable in Calcutta, and certainly it would not be favourable for us to go into the market for multiplicity of loans for each object for which we may require a loan.

"The quotation begins :—

'Hence, while it undoubtedly is a great equated loan repayment periods, in order to avoid a multiplication of separate loans, yet for the purposes of audit and accounts and calculations generally it is important to regard each component part or factor of the equated loan as though it were a separate loan.'

"It will be observed that Mr. Collins says that it is an inadvisable thing to have a multiplicity of loans for separate works, and in Calcutta we cannot possibly go into the market for separate loans for each work that we have in hand. Therefore, they are taken together. There is no novelty in the suggestion for equated loans. We should be proceeding according to a system well known on municipal administrations in England. The Hon'ble Member in charge seems to think that it is inappropriate : that it is a mean thing that we should ask that posterity should pay for our own works. As the Hon'ble Member has said in the Bill there is no such limitation of any description of what is being done or going to be done. I shall not enter into that question now. It is not the words of the Bill to which objection is taken. It is the manner in which it is to be applied. We have official information as to the manner in which it is to be applied. We have been told that the loans will be for 30 years, that the life of debentures will be for the same period, and that the whole amount of the loan is to be paid within that 30 years by annual contribution of 2 *per cent.* But if there are works for which a loan is required that will last—the average life of which will be longer than 30 years. It would be unfair to limit the loan to that period. Suppose we take the loans with regard to 34 lakhs, to which reference has been made, for drainage and sewerage, each of which is computed at the rate of 44 years and acquisition of land, we can take the average life fairly to be 47 years. If the policy now proposed of 2 *per cent.* contribution is accepted for works the life of which is 47 years, then those who are paying rates for 30 years will have paid in full for the whole of those works, but those who enjoy the benefit of the works after that period of 30 years, that is for 17 years, will not pay anything whatever. I shall deal with that question later. But I must protest without delay against the representation made by the Hon'ble Member in charge that those who seek to spread the repayment of loans over a number of years calculated on the life or utility of loans are acting like petty traders."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, if I have followed aright the reply of the Hon'ble Member in charge of the Bill, what I understand him to say is this, that the inquiry will not supply any useful information on the Bill and that the loans may be sanctioned for any period. In the first place I desire to point out that if this Bill be carefully examined, it will be found that the ordinary period of loan has been laid down to 30 years. I know, my Lord, that there is a provision in section 128 of the Bill that with the sanction of the Government of India the period of the loan may exceed 30 years. The letter which the Hon'ble Member to my right, Mr. Apear, has referred to—I cannot lay my hands on just now—in that letter it has been stated—I am quoting from memory—that unless on very strong and exceptional grounds the Government will not sanction loan exceeding a period of 30 years. Then, again, in clause 139 of this Bill, which has been inserted at a later stage, that is, at or towards the end of February, only a few days before the introduction of the Bill, a retrospective effect is given to the loan which the Government had sanctioned since March 1912, and that loan amounts to 34 lakhs. In that clause it is stated that the Corporation shall contribute a sufficient sum, if regularly paid throughout the period of 30 years from the date on which the loan was taken, which by accumulation of compound interest will be sufficient to pay off the loan at the end of that period. My Lord, I submit, that this goes to show that the intention of the Government is to fix the period of loan at 30 years, and that the period of loan and the currency of

debentures will be ordinarily 30 years as in the present case. It is quite clear that ordinarily the Government would not sanction loans exceeding 30 years. It may be less than 30 years. It will be serious for the Corporation, because the Sinking Fund charges will be greater. Then my Lord it has been stated that there are items in the loan statement, such as stone-paving or other works which might last 15 or 16 years. My Lord, I will give one concrete instance. I believe it is quite fair to take that 34 lakhs loan which has been sanctioned by the Government of India upon which we are now paying 1 per cent., but will have to pay over 2 per cent. with retrospective effect. Roughly speaking over 21 lakhs out of 34 lakhs of that loan are for land acquisition and works relating to drainage and water-supply. My Lord, land is a permanent factor and may exist for 500 years or more, as was very graphically expressed by the Vice-Chairman of the Corporation till the City of Calcutta is engulfed in the Bay of Bengal. The water-supply and drainage works will also last for 50 years or more. There are no doubt items such as stone-paving, and works of similar nature which will last for a shorter time. Taking all the items of the loan, the equated average life of works comprised in the total loan will surely, if investigated, show that the work will last more than 47 years. As the Hon'ble Member in charge has not given any information how 30 years has been arrived at, and whether an inquiry has been made as to the durability or life of the works comprised in the 34 lakhs or not, I fail to understand why could not 20 years or 10 years or 50 years be fixed? Therefore, I have ventured to suggest that an inquiry will not only help the Corporation but will help your Excellency's Government and the Members of this Council to know accurately, or at least approximately, the average life of works comprised in the loan works. My Lord, I have asked for an inquiry into the items of work executed since 1881, as it will give us some idea of the life or durability of works ordinarily carried out from loan funds. If an investigation is made, it will enable the Corporation, your Excellency's Government, as also the Members of this Council, to judge whether the 1 *per cent.* was equitably fixed or not. There have been various works during the last 32 years, and it will show whether these works are still existing or are likely to exist for another 20 or 30 years or more. This is the reason, my Lord, that has led me to submit this resolution to this Council."

The motion was then put to the vote and lost.

The Hon'ble MR. STEPHENSON'S motion was then debated.

He said :—

"My Lord, I have already explained to the Council why it has been found necessary to add the names of the Hon'ble Mr. Donald and the Hon'ble Mr. Sinha to the list of Members of the Select Committee. I shall, therefore, now formally move that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. Maddox, the Hon'ble Mr. Bompas, the Hon'ble Mr. Donald, the Hon'ble Rai Priya Nath Mukharji Bahadur, the Hon'ble Mr. S. P. Sinha, the Hon'ble Mr. Apcar, the Hon'ble Rai Radha Charan Pal Bahadur, the Hon'ble Mr. Shorrock and myself, with instructions to complete the report in time for presentation to the Council on the 26th March 1913."

The Hon'ble MR. APCAR said :—

"My Lord, the present stage of our proceedings corresponds with the second reading of a Bill in the House of Commons, and there are reserved to Members of this Council the same rights as are so freely exercised in ordinary practice at Westminster. I trust, my Lord, your Lordship will not think that I am unduly occupying the time of the Council if I seek to utilise the only opportunity that I can have of speaking on the principles of the Bill. The present law relating to the Calcutta Corporation loans is included in the Calcutta Municipal Act. Now, I do not disguise that I have never seen anything good in that Act except in one particular, and that is the law relating to loans, and the method and principle of repayment of their loans by the Corporation. And I stand in the unhappy position of seeing this one wee

pet lamb of mine, and a perfectly innocent one, being led out to the sacrifice by the Hon'ble Member in charge of the Bill. I do not suggest, my Lord, that there are no defects in that law. I think that an amendment is required, but I do seriously urge that the amendment could be effected without destroying the principles of the law in this question. I am so unfortunate as not to be able to concur in the proposals before the Council, but my objections must not be taken to be the objections of an individual. I voice the opinion of the Corporation. Nor must it be supposed that the Corporation have formed their opinions haphazard. We have brought to the consideration of the question the wish to see that done which we think would be best in the public interest. We have not spared ourselves. We have given our time and consideration to the matter, and we have endeavoured to learn the practice in other local governing bodies elsewhere. We have no desire to originate any new method, and we only seek the adoption of the principles which have been arrived at by a Select Committee of the House of Commons, and now universally are adopted, for the reason that after the test of experience they have been found to be financially sound in practice no less than in theory. Again, my Lord, we are in complete accord with the whole legislative history of this Council of Bengal, and we respectfully ask for the maintenance of the principle that was approved by the Government of Bengal so late as in the year 1910. My Lord, Sir Edward Baker, who was our Lieutenant-Governor, was no tyro in finance. It will be remembered that he was successively Financial Secretary to the Government of Bengal and the Government of India, and he was the immediate predecessor of our present Finance Minister in the Supreme Council. I think I might fairly claim serious attention, under any circumstances, on behalf of any representation made by a body such as the Calcutta Corporation in respect of a matter affecting their own administration, and I hope, my Lord, that you will not think that I am putting it too highly when I say that such representation, when it is supported by the high authorities which I have quoted, is entitled not only to the greatest weight, but that the *onus* is on those responsible for the proposals contained in the Bill to show cause for the changes they desire to introduce. I am wholly unable to detect the financial reasons on which the proposals contained in the Bill are founded. We have, however, at least the advantage of the presence in this Council, in the person of the Hon'ble Member in charge of the Bill, of the Financial Secretary, by whom the letter of Sir Edward Baker, supporting the principle we desire to uphold, was addressed to the Corporation. In that letter the measures for meeting the difficulty that exists under the present law were considered, and objection was expressly taken by Sir Edward Baker's Government to raising the Sinking Fund payments, which is the main purpose underlying this Bill. Your Lordship will perhaps permit me to read a portion of the fourth paragraph of the letter to which I refer:—'The first step necessary is to keep a separate account of the Sinking Fund of each loan, and to ensure that each loan can be repaid from its own Sinking Fund alone. This might be done either by raising the Sinking Fund payments or lengthening the terms of the loans; but there are objections to both these courses, and all that is really necessary is to ensure that the payments to the Sinking Fund shall continue whatever the currency of the loan may be—'loans' means really the debentures of the loans—until the accumulated sum in the Sinking Fund is equal to the amount of the loan.' My Lord, I do not suggest that either the Hon'ble Member in charge of the Bill or your Lordship's Government is responsible for the Bill, but it is a matter of the highest importance for us to know, and I crave leave to invite the Hon'ble Member in charge to state specifically what are the objections alluded to in paragraph 4, line 3 of the letter to which I have alluded, which is dated the 16th of August 1910, and bears his signature. I will hazard the conjecture that those objections are the same as have been submitted by the Corporation to the Government of Sir Edward Baker, and that they are in effect identical with those I shall state to this Council. I trust I may be pardoned if, in a question of public importance and

difficulty, I press the point to ask how is it that objections which were considered valid by Sir Edward Baker and his Government in the year 1910 are in the present day ignored. Why is the continuity of the legislative policy of the Government to be interrupted? And is it seriously intended to overrule the recommendations of a Select Committee of the House of Commons at Westminster, based on the testimony of the experts familiar with questions of Sinking Funds, and, may I ask, overruled on what ground and on what authority? My Lord, to bring home to Hon'ble Members how uneconomical and disadvantageous are loans for shorter periods as proposed in the Bill, as compared with loans for the longer period under the system the Corporation advocate, permit me to take the loan for 34 lakhs, which in fact is provided for in clause 139 of this Bill, to serve as an illustration. The sum of 34 lakhs is to be borrowed by the Corporation for a period of 30 years. The repayment of the loan is to be made in 30 years, and the Corporation are to pay to the Sinking Fund an annual contribution of 2 *per cent.* in order that the full amount of the loan may accumulate in 30 years. It is important to observe, as has been already mentioned, that the purposes for which the loan is required are works for water-supply and sewerage, and for the purchase of land. The average life of these loans may be very fairly computed to be 47 years. The annual loan charges (that is to say, interest on debentures at 4 *per cent.* and contribution to Sinking Fund at 2 *per cent.*) on the loan of 34 lakhs under the present system proposed in the Bill will amount to Rs. 2,04,000. Debentures, my Lord, are here what in England are called stock. On the other hand, if the Sinking Fund contributions were limited to the present rate of 1 *per cent.* annually, under the system we advocate, with the period of indebtedness, or, as under the English Act it would be called, the period prescribed for the discharge of a loan, to be 47 years instead of 30 years, we could borrow exactly the same amount, that is, we could borrow exactly 34 lakhs for the charge of Rs. 1,70,000. If, however, we can afford to pay Rs. 2,04,000 as loan charges, we could obtain an additional sum of Rs. 6,80,000 to add to the improvement of Calcutta and for the amenities of this City, that is to say, we could borrow Rs. 40,80,000 instead of 34 lakhs. And this is not all.

"The Hon'ble Member in charge thinks that it is rather mean to pay any regard to it, but under the new proposal the rate-payers of the first 30 years will have paid in full for the loan works, and the inhabitants who will come after that period will enjoy for 17 years the works without contributing a stiver for them. And, further, our borrowing power would be proportionately decreased. The irony of it all is that we, the present generation, are called upon to accept this arrangement as a financial boon. I confidently ask your Lordship's Government, and the Council generally, to say of the two courses which is the more economical and advantageous. It must be understood that the Corporation do not suggest that the period of a loan should never be for 30 years. Ordinarily, to raise a number of loans, each for a separate work, is recognised to be inadvisable, and in order to avoid a multiplicity of loans a well-known system is adopted in England. As I have already explained when speaking to a resolution previously moved today, the life of each kind of work is fixed, and when a loan is wanted for works, the average life of the works to be undertaken is arrived at. A single loan is raised jointly to provide funds for all the works to be undertaken, and the period of the average or equated life of the works is fixed for the repayment or life of the loan. If then a loan is wanted for works the average life of which will be found to be 30 years, requiring an annual contribution of 2 *per cent.*, or the average will be found to be 15 years, with an annual contribution of 5·37 *per cent.*, we certainly think that the period for the repayment—that is, the life—of loan should be fixed accordingly. We are not so unfair as to seek that rate-payers who will not enjoy the benefit of works should be made to contribute for them, any more than we approve that the present generation of rate-payers should be made to provide in full the cost of works which will be enjoyed by a future generation without paying

for them. But if an arbitrary period is to be fixed, we pray that it be not for 30 but for 47 years, for which the present rate of contribution of 1 *per cent.* is sufficient.

"My Lord, power to borrow on such terms as the Government of India may approve seems harmless enough, and it is not the specific provision in the Bill with regard to future loans that has caused dissatisfaction. But it is the clear indication of their intention by the Government, officially communicated to the Corporation by the letter of the Local Government of the 11th of September, 1912, of the manner in which the law will be applied that has caused alarm. After expressly intimating that a proportionate increased Sinking Fund contribition is to be paid—one of the courses to which the Government of Sir Edward Baker expressly objected—the letter continues in paragraph 4:—'In this connection I am to observe that as loans for a longer term than 30 years are uneconomical'— my Lord, I claim to have shown that the contrary is correct—'and involve, in the aggregate, repayment of very much larger sums than shorter loans . . . . .' My Lord, I here must again respectfully join issue. This is a matter for mathematical calculation, and can be tested. Our Vice-Chairman has shown, in statements which have been printed by the Corporation,—and I trust the Hon'ble Member in charge will circulate them for the information of the Hon'ble Members—that, irrefutably, where the percentage is calculated for the growth of a Sinking Fund at 4 *per cent.*, whether a loan is for 30 years with 2 *per cent.* annual contribution, or 47 years with an annual contribution of 1 *per cent.*, the aggregate payment involved is exactly the same; and where the growth is calculated at any percentage less than the interest paid by a borrowing body on their debenture of stock, say 3 *per cent.*, the percentage at which the Government have required the Corporation to calculate the growth of their Sinking Fund contributions, the aggregate payment in 47 years will actually be less than in 30 years. The sentence of the Government communication from which I am quoting concludes:—'The normal term of 30 years will not be extended except on the strongest grounds.' We have not the slightest indication given as to what will be regarded as grounds for extension, but we have the clearest indication that loans for water-supply or drainage, which a previous Accountant-General, in a discussion arising out of our present difficulties, calculated to have a life of 44 years, and land, which we may perhaps regard as having a perpetual life, do not in the opinion of the Government afford any ground whatever for any extension of a loan beyond the period of 30 years. May I state here how it is that our law is defective? The framers of the Municipal Act of 1899 intended, as is abundantly clear, to follow the English Local Loans Act of 1875. In adapting section 15 (7) of that Act for the Calcutta Act they overlooked a previous section of the English Act which secured the continuance of payment by the Corporation of interest to the Sinking Fund, if necessary, after stock, as they are called in England, or debentures of a loan as we call them, have been paid off. Now, the successful operation of the English method depended on this essential factor. The currency of our debentures has been for 30 years, while the life of our loans—or the period of our indebtedness for loans, as the Hon'ble Member in charge calls it—is 47 years. My Lord, the Corporation contribution has been fixed at 1 *per cent.*, and that is a clear indication that it was intended that the life of the loan, the period in which the loan was to be discharged, was to be 47 years, as has been admitted by the Hon'ble Member in charge of the Bill. Now, my Lord, we have been prohibited from paying interest into the Sinking Fund because of the omission to make the provision to which I have referred. This is an important matter, and I must point out certain essential matters, before we go into Select Committee, for the information of Hon'ble Members, particularly on account of the observations which have been made by the Hon'ble Member in charge. I want it to be clearly understood what the object of a Sinking Fund is. It is for the protection of the present rate-payers, the present generation. It is in order that the present generation bear the entire burden of the works the benefit of which will be enjoyed by future generations. The policy of

the Government, as the Hon'ble Mr. Gauntlett has well brought out, was clearly indicated when the contribution was fixed at 1 *per cent.* that payment for all works was to be spread over a period of 47 years. Then, what are the functions of a Sinking Fund? The functions are that the Sinking Fund contributions should grow and accumulate until it reaches the amount of the loan. It is essential that we should remember, and even in the Statement of Objects and Reasons it is not clearly distinguished, that there is a great difference between the life of loans, that is the period allowed for the discharge of loans, the life of debentures, that is the period allowed for the payment of debentures Of course, my own statement will not carry weight, but let me read from the Report of the Select Committee. It says here :— 'The period allowed for the repayment of loans raised by stock may be shorter or longer than the life of the stock. If the stock is issued on terms which require this extension before the expiration of the period allowed for repayment of loan raised by the stock, then, when the time arrives for the extension of the stock, the Corporation can reborrow in respect of the loan referred to the amount not provided for at that time by the ordinary payments made to the loan funds in respect of that loan.' In England there is a series of borrowings. Each of those borrowings is not a loan, so-called ; there is money borrowed on debentures from the public first, then afterwards when money is required to repay the stock or debentures, it may be taken from the Sinking Fund or from the public, or from both. Then, my Lord, it must be clearly understood that if the life of works, the period of indebtedness, is 47 years, it is not necessary that the debenture life is for that same period. It may be the life of the debenture and of the loan are coincident, or it may be that the life of the loan is shorter than the life of the debentures. The latter may very easily be the case, and then the contribution to the Sinking Fund is at a higher rate, and the whole amount of the loan is accumulated in the Sinking Fund in that shorter period, but the debentures are not paid. It is very frequently inadvisable to take debentures on short periods ; it is financially advisable to have them for long periods, and the whole money is held at investment in the Sinking Fund. We invest our debentures at 4 *per cent.* and from it we draw our interest and pay over to the debenture-holders. There is no difficulty in the matter at all. It is desired under this Bill to have separate Sinking Funds for each loan, and that there should not be a common Sinking Fund. I submit it would be disastrous for us not to have a common Sinking Fund for all our loans. Take a private concern. My Lord, they may have different departments, with separate accounts kept for each, and one of the departments may run out of money. Are the firm to be compelled to go into the open market to borrow money when they have money of their own which they can utilise? Of course, if it is an advantage to go and borrow in the open market, let them borrow. But are they to be prohibited from utilising their own money in their own concern? That is what it comes to, and therefore it is advisable for us to have a common Sinking Fund, and not a separate Sinking Fund, for each loan, to be kept distinct : each Fund to provide for the repayment of its own debentures only. Of course, my Lord, separate Sinking Funds can be maintained if the amount of the contribution is such as in the period prescribed for the loan ; the whole loan can be paid and you can obtain debentures as your investments in the Sinking Fund, the debentures of that particular loan, you can have separate loans. You cannot obtain debentures of the same issue, so that when we want to invest the money that is contributed to the Sinking Fund (and we invest in our own debentures) you will have to go to the debentures issued under other loans, then at once in practice the theory of a separate Sinking Fund is lost.

"Then there are various other proposals of ours to which I may refer. One we lay great stress upon—and I hope that this question may be dealt with as an open question—is that we find that in other bodies there are no Trustees of the Sinking Fund. Bombay has no Trustees. There are no Trustees in any of the English Corporations. The Auditor performs all the functions that are required to safeguard the Sinking Fund. I submit

that it is not fair that we should be singled out in this way to have Trustees for our Sinking Fund. And then, my Lord, we also want power to be able ourselves to allot part of a loan to ourselves. It is a question whether we can do so without legislative authority. The question was raised in Bombay; an Act was passed giving legal sanction to the practice, and we want to have a law passed in the terms of the Bombay Act, to enable us, if we like, to appropriate part of our loans for our own works.

"My Lord, I have at the present time nothing more to add, but I must acknowledge the courtesy of the Hon'ble Member in charge for having acceded to my request to add the Hon'ble Mr. Sinha to the Select Committee.

"One more word. I trust that we shall not be pressed too hard with regard to the time within which to make our report from the Select Committee."

The Hon'ble MR. LYON said :—

"I only wish to say a very few words with reference to this Bill. It appears to me to be somewhat simpler in its general principles than has been indicated by the Hon'ble Mr. Apcar. I confess that if all the dire effects which were suggested by the Hon'ble Mr. Apcar and previously by the Hon'ble Babu Surendra Nath Banerji are likely to follow upon the operation of the clauses of the Bill, it must be an infinitely more complicated matter than any of us who have studied it can understand. The law is at present certainly defective; I think everybody has acknowledged this, and also that it is absolutely necessary that there should be some legislation to correct and modify the law, and I would suggest that the lamentation which has been pronounced by an Hon'ble Member on the financial experts who devised the present law, is somewhat discounted by the intricacy of the knot into which we have managed to tie ourselves.

"As legislation is actually required, and has been repeatedly pressed upon us by the Corporation itself, upon different occasions, it is necessary for us to undertake some piecemeal legislation. The objection to piecemeal legislation is that you get involved by it in difficulties when you wish to deal with the question as a whole. You may find you have dealt with one point without due attention to other matters, cognate matters, which are included also in the Act; and when you subsequently wish to deal with the whole Act, you find that the piecemeal legislation you have undertaken has prevented your dealing fully and properly with the complete sections of the Act. It is for that very reason that we have now in this case dealt not only with the one particular point which has been found to be defective, but have devised the amendment of the whole chapter which deals with this question of loans. By taking up the whole chapter, it is probable that it will be unnecessary, when we come to deal with the whole Act some two years hence, that we shall have to deal further with this particular chapter, and we shall not consequently compromise our position in any way in amending the whole Municipal Act, by having taken up this Bill at the present moment.

"While thus avoiding the main defect of piecemeal legislation, we have taken the opportunity to introduce into the Bill a principle for the repayment of loans which is accepted by every public body—as has been stated by the Hon'ble Mr. Stephenson—throughout the length and breadth of India. This is the principle which is to bring upon us such dire results as those which have been pictured by the Hon'ble Mr. Apcar. He has quoted a resolution of a Committee of the House of Commons and the results of investigations which have been made in the United Kingdom. I regret to say that he has the advantage of me in these researches, but it will probably satisfy Hon'ble Members to reflect that this principle which we have now introduced in this Bill is a principle which has already been adopted by all the public bodies of the same kind throughout India, and which, so far as I know, has never been attacked or rescinded by any of those bodies. And the principle itself—and I speak with due respect for the elaborate arguments which have been presented to us—is a matter of good finance. While the question of short loans is not now before the

Council, I do not wish to insist upon that point, as the Government of India's desire to sanction only a comparatively short term for these loans has been publicly stated, and also because I think that the basis of that policy is sound. It appears to me desirable that, to check extravagance and secure due economy, the present generation should, in a businesslike way and to a proper extent, bear the burden which it places upon the community in general. A loan of 30 years is a businesslike loan ; it spreads out the repayment of the loan sufficiently to enable a wealthy body to repay it without hardship, and at the same time it does not, in order to secure some small present advantage, relegate the repayment of the loan to too distant a period.

"But while I am thus willing to defend the principle of short loans, I would point out that, as a matter of fact, the Bill merely states the principle that the repayment of the loan is to be made by payments to the Sinking Fund which will accumulate sufficiently within the period of the loan, and the period of that loan is not fixed. Therefore, when we commit this Bill to a Select Committee, we are in no way committing ourselves to the statement that all loans in future shall be loans for 30 years. I would add, however, that, with reference to loans for 30 years, we have to remember that we cannot now foresee all the future requirements of the City of Calcutta. While we are now undertaking many large works, which are at present sufficient for the purposes for which they are required, the advance of civilization may require greater amenities and greater improvements before many years have elapsed, and it is possible that some of these works may become obsolete even within their lives and have to be replaced at considerable cost by a future generation, even before the loans for their construction have been repaid. This is another reason why we should be careful not to throw on future generations the expenditure which we now think it right to incur. This being a principle of good finance, I do not think it is sound to speak of injury to the present tax-payer. It is not a good argument to say that we should relieve that tax-payer by involving ourselves in doubtful finance which is likely to lead to municipal extravagance. From a business point of view, I think that such a course is entirely to be deprecated.

"The main point I would press, however, is that the Bill has been considered by the Corporation, and considered by their Finance Committee, practically since September last, and that it has been published in the Gazette for the benefit of the public. And I deprecate the suggestion which was made by the Hon'ble Mr. Apcar that publication in the Gazette is not good publication. If we can judge by a perusal of the daily press of Calcutta, we find that they have no difficulty in making excellent copy out of matter which appears in the Calcutta Gazette, and the extent to which they do that is, in my view, an admirable thing. I think it is excellent that the valuable productions which are buried in the Calcutta Gazette should be disinterred and re-published by the daily press. But I do not think that because this Bill has not received any extraordinary notice in the Calcutta press, we should argue that it has not had adequate publicity given to it. I think a more proper deduction by the tax-payer would be that the daily press, representing the general public of Calcutta, sees no objection to the introduction or to the passing of this Bill."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, it has been stated by the Hon'ble Member in charge of the Bill that legislation is asked for by the Corporation. But what is asked for is to remedy the defect in the law so as to enable the shortage to be made up and to prevent further accrual of shortage in the Sinking Fund. In August 1910 the subject was before the Corporation. The subject referred to the Corporation was this : whether they were prepared to support the amendment of the Act with a view to remove the defect in a particular section. My Lord, the Corporation fully considered the matter and submitted their representation to Government agreeing that the Act should be amended with a view to prevent the shortage and to enable them to recoup the

shortage. Then towards the end of September last the first draft Bill was sent to the Corporation. It was then referred to the Finance Committee, and then the holidays intervened—the Puja as well as the Christmas. There was no doubt a meeting of the Finance Committee, but the matter could not be so fully considered in the Corporation as we all know. My Lord, it was towards the end of February last that the revised Bill which contained some new clauses, specially section 139 of the Bill, giving retrospective effect to the provisions of the Bill to the loan already taken in 1912, came into the hands of the Corporation, and there was scarcely six days or a week's time for them to consider it. My Lord, it will thus be seen that there was scarcely any time given to the Corporation, not to speak of other public bodies or the public in general, to consider the provisions of the new Bill. Then, my Lord, the motion of the Hon'ble Member is that the report of the Select Committee should be presented before the 26th March next. It will hardly give any time to the members of the Select Committee or to the Corporation or to any other public body. My desire is that the reference to the Select Committee should be postponed to enable them to submit their views to Government. Then, my Lord, the principle as laid down in the Act about the contribution to the Sinking Fund has been reversed by vesting the Government with power to determine the Sinking Fund contribution in respect of each loan as the Government might deem fit and by abolishing the 1 *per cent.* contribution fixed in the present Act. My Lord, I know that Government will no doubt consider the matter fully and fairly and will fix such percentage as they will think necessary or equitable in each case. But it is not always that the views of one Government are shared by its successor. Here in the present case we have a very apposite illustration. The Government of Sir Ashley Eden, on the representation of the Corporation, convinced of the necessity for the reduction of the Sinking Fund contribution from 2 to 1 *per cent.*, recommended it to the Government of India, and the latter consented to its reduction in respect of the water-supply and the drainage loans. Sir Henry Harrison, a great administrator, and himself a financier, pursuaded the Government to extend the application of 1 *per cent.* contribution to all loans. But to-day, according to the opinion of Government, it is proposed to be reversed. Therefore, my Lord, what is now fixed by Statute is sought to be taken away and placed at the discretion of Government without any safeguard. It is not fair to the rate-payers of Calcutta. Then, my Lord, it has been observed that the public might rely on their representatives in the Council. But, as has been already stated, the time given is so short that it is hardly possible for the Hon'ble Members, not to speak of the public at large, to comprehend fully the intricate questions of finance involved in the Bill. On this ground, my Lord, I would oppose a reference to the Select Committee at this stage."

The Hon'ble MR. STEPHENSON said :—

"My Lord, I think very little is left to detain the Council. In the first place, I should like it to be understood that the Bill should not in any way be considered as the outcome of the difference between the Trust and the Corporation. Regarding this, I may say that the Bill was sent by us to the Government of India before that difference of opinion arose.

"The Hon'ble Mr. Apcar challenged me to say what the objections were which were referred to in the letter of 1910. The objections are quite simple. The objection in regard to raising the Sinking Fund payment was that it would be unpopular with the Corporation, and that in regard to the term of the loan was that the Government of India were not in favour, in the interests of the Corporation itself, of lengthening the term. As the Hon'ble Mr. Lyon has pointed out, the proposals made in that letter have been substantially carried out in this Bill. Instead of the very complicated provision originally proposed, we have adopted a section which appears in all other Acts in India.

"The Hon'ble Mr. Apcar has further tried to convince the Council that long-term loans are more economical than short-term loans, and he referred me to a statement by the Vice-Chairman of the Municipality which I carefully studied. The statement is not a new discovery. In 1907 the Government of India, in their resolution on loan rules, remarked that actuarily the present value of the loan is the same, whatever be the term of the repayment; but the aggregate sum which is to be made good for a 30 years loan is heavier by nearly one-fifth than it is for a 20 years loan of the same amount. The statement, to which the Hon'ble Mr. Apcar referred, does not furnish any further information than that, and it leaves out a very important matter. Taking the 34 lakhs, he says that if we take it for 47 years, the Corporation will be able to borrow another 6 lakhs. It is perfectly true. On the other hand, if we take it for 47 years, the Corporation will pay out of their revenue Rs. 18,70,000 more than that they have to pay for 30 years. Another point overlooked is that if the loan is taken for 30 years at the end of 30 years, the loan is repaid, and for the remaining 17 years the Corporation can borrow another 34 lakhs. I do not think that it is necessary to detain the Council further on the principles and details of the measure now. I trust that the Bill will be referred to a Select Committee, and the amendments, which will no doubt be proposed later on, will be discussed in Council."

The motion being put to the vote, a division was taken with the following result :—

THE REVISED FINANCIAL STATEMENT.

The Hon'ble SIR WILLIAM DUKE presented the Revised Financial Statement for 1913-14.

He said :—

"My Lord, I have to present the Revised Financial Statement for 1913-14 which was circulated yesterday among the Hon'ble Members. The particulars show that few changes have been made in it since the amended draft was presented, and I have nothing whatever to add to it. I may say that the budget will probably be presented on the 26th, or some date thereabouts, and the debate will take place about a week later."

REVISED FINANCIAL STATEMENT, BENGAL, 1913-14.

FINANCIAL DEPARTMENT.

FINANCE.

Calcutta, the 12th March 1913.

MEMORANDUM.

IN accordance with Rules 14 (*1*) and (*2*) of the Bengal Legislative (Financial Statement) Rules, 1912, published with Notification No. 1482 F., dated the 10th December 1912, the following memorandum is circulated indicating the alterations in the figures which have been made since the circulation of the Amended Draft Financial Statement, Bengal, for 1913-14 on the 4th instant.

2. The only changes which have been made are under IV—Stamps, with reference to the actual collections of February 1913. The revised estimate of receipts for 1912-13 have now been reduced by Rs. 1,50,000 (Provincial share Rs. 75,000) and the estimate for 1913-14 by one lakh (Provincial share Rs. 50,000).

3. The Provincial balance will now stand thus :—

	Rs.
At the end of 1912-13	2,83,23,000
Ditto 1913-14	1,93,70,000

4. The assignments of Rs. 1,50,000 and Rs. 1,00,000 sanctioned by the Government of India for Agriculture and allied objects and Medical relief, respectively, and included in the memorandum dated the 4th March 1913 are non-recurring assignments for the year 1913-14 only.

5. The sum of 41 lakhs provided for expenditure under Education is intended for—

	Rs.
Out of 75 lakhs non-recurring assignment made in 1912-13	24,80,000
Recurring assignment made in 1913-14 ...	13,20,000
For Dacca University and hostels ...	3,00,000
Total ...	41,00,000

6. Similarly, the sum of Rs. 12,75,000 provided under Medical is to be distributed thus :—

	Rs.
Out of 20 lakhs non-recurring assignment for sanitation made in 1912-13 ...	6,75,000
Recurring assignment made in 1913-14 ...	5,00,000
Medical Relief	1,00,000
Total ...	12,75,000

7. The addition of 4 lakhs made under 45—Civil Works in charge of the Public Works Department is for discretionary grant out of non-recurring assignment of 12 lakhs sanctioned by the Government of India.

8. Copies of the revised Financial Statement are circulated herewith.

F. W. DUKE.

REVISED FINANCIAL STATEMENT, 1913-14.

PART I.—General Review.

(1) ACCOUNTS FOR 1911-12.

OWING to the administrative changes announced by His Imperial Majesty at Delhi no budget for 1912-13 was presented to Council last year, and therefore no revised estimate for 1911-12 was laid before the Council. The revised estimate of old Bengal for 1911-12 was passed by the Government of India, and now the accounts have been prepared for the new Bengal Presidency. The accounts for 1911-12 of new Bengal, as now compiled, show that the actual receipts amounted to Rs. 5,20,51,383 and the charges to Rs. 5,83,77,064.

(2) REVISED ESTIMATE FOR 1912-13.

2. The revised estimate for 1912-13, as now passed on the basis of the actuals of the first nine, and in some cases eleven, months of the current year, is compared below with the sanctioned estimate for the year :—

	Sanctioned estimate.	Revised estimate.	Better (+) or worse (−).
	Rs.	Rs.	Rs.
Opening balance ...	1,66,25,000	1,66,25,000	.....
Revenue receipts ...	5,62,53,000	5,67,12,000	+ 4,59,000
Adjustments ...	3,82,000	1,45,41,000	+1,41,59,000
Total receipts ...	5,66,35,000	7,12,53,000	+1,46,18,000
Grand Total ...	7,32,60,000	8,78,78,000	+1,46,18,000
Total expenditure ...	5,99,38,000	5,95,55,000	+ 3,83,000
Closing balance ...	1,33,22,000	2,83,23,000	+1,50,01,000

3. The increase under adjustments is due to the following additional assignments from Imperial Revenues :—

	Rs.	Rs.
Contribution for recovery of cost of transmission of records by revised procedure introduced by the Court-fees Act	6,000	
Contribution for pensions of title-holders	3,000	
Additional recurring grant for popular education	25,000	
Recurring grant for aided English secondary schools	1,50,000	
Recurring grant for the extension of education among poorer classes of the domiciled community ...	40,000	
Recurring grant for the amalgamation of the clerical establishment of the Art section of the Indian Museum with the Calcutta School of Art ...	1,000	
Assignment for the Belgachia Veterinary College	30,000	
Contribution from Bihar and Orissa towards pay of electrical staff utilized by it	8,000	

	Rs.	Rs
Assignment for the cost of forms and other printing done for the Bihar and Orissa Government ...	2,32,000	
Grant of one-half of the salaries of Health Officers to be employed in municipalities	39,000	
Recurring grant for the development of the work of the Calcutta University	65,000	
Non-recurring grant for the construction of hostels outside Calcutta and Dacca	4,00,000	
Contribution to meet the charges of Lieutenant-Colonel Sutherland's deputation for serological work ...	15,000	
Non-recurring grant for development of University work, Calcutta ...	4,00,000	
Non-recurring grant for hostels in Calcutta	10,00,000	
Non-recurring grant for the Dacca University	10,00,000	
Recurring grant for the Dacca University	45,000	
Non-recurring assignment for sanitation	20,00,000	
Non-recurring assignment for discretionary grants	12,00,000	
Ditto for Education ...	75,00,000	
		1,41,59,000

4. The increase of revenue is the net result of increase under some heads and decrease under others. The improvements aggregate Rs. 17,28,000, and are chiefly under the following heads :—

Land Revenue—(Rs. 2,69,000) due to the better collection of ordinary revenue and Revenue Record-room receipts.

Stamps—(Rs. 2,13,000) due to the larger sale of general stamps owing to improving agricultural conditions.

Assessed Taxes—(Rs. 2,38,000) due to normal growth of revenue.

Forest—(Rs. 2,50,000) due to larger collections from the sale of timber in Kurseong, Jalpaiguri and the Sundarbands.

Registration—(Rs. 1,73,000) due to an increase in the number of registrations.

Courts of Law—(Rs. 52,000) due to larger receipts from Magisterial fines.

Police—(Rs. 50,000) due to larger recoveries on account of additional police in Jessore, Madaripur and Munshiganj and larger receipts under the Motor Cycles Act.

Ports and Pilotage—(Rs. 1,65,000) chiefly under pilotage receipts due to improvement in trade, and partly increase in receipts from fees for certificates of inland vessels under Act II of 1884 and to larger overtime fees arising from trade activity.

Education—(Rs. 56,000) under fees from Government colleges, general and high schools, both boys and girls, in consequence of the increase of pupils.

Medical—(Rs. 69,000) due to the special contribution of Rs. 50,000 from the Indian Research Fund Association for carrying out experiments in jungle-clearing in suitable localities, and also to larger receipts from fees of the Medical College due to the increase in the number of students owing to the opening of a sixth-year course.

Miscellaneous—(Rs. 1,49,000) chiefly under unclaimed deposits and recovery of law charges.

Irrigation—Minor Works and Navigation in charge of the Public Works Department—(Rs. 40,000) due chiefly to increase in the navigation receipts from the Calcutta and Eastern Canals owing to the opening of the Kistopur khal and also to receipts under agricultural works.

The decrease, on the other hand, amounts to Rs. 12,69,000, falling chiefly under the following heads:—

Excise—(Rs. 3,50,000) chiefly under country spirits, as the settlements for 1912-13 were not satisfactory and full fees were not realized from shops, and partly under duty on ganja owing to shortage of crop in Nuogaon which forced up wholesale prices.

Provincial Rates—(Rs. 42,000) under collection of Public Works cess.

Jails—(Rs. 32,000) owing to a falling off in the sale of manufactured articles. The estimate of receipts under Jails proper was also high.

Scientific and other Minor Departments—(Rs. 1,07,000) due to smaller sales of quinine, owing to dearth of orders from the Medical depôts of Calcutta and Lahore.

Civil Works in charge of the Public Works Department—(Rs. 7,14,000) due to non-realization of the two instalments of the sale-proceeds of the land and buildings of the Sibpur Engineering College, which it was proposed to sell to the Port Commissioners, owing to the non-receipt of the sanction to the sale from His Majesty's Secretary of State.

5. On the expenditure side the revised estimate shows a total decrease of Rs. 21,70,000, which is mainly accounted for under the following heads:—

Excise—(Rs. 27,000) chiefly under superintendence, owing to the appointment of a lower grade officer as Excise Commissioner, and to the absence on leave of the Distillery Expert and partly under allowances and contingencies.

Forests—(Rs. 40,000) due to absence of superior and other officers on leave, and also to cessation of departmental operations in Buxa.

Interest on Ordinary Debt—(Rs. 24,000) due to smaller outstanding balance of the Provincial loan account.

Courts of Law—(Rs 34,000) due to savings in the salaries of Magistrates and to the appointment of the Registrar of Insolvency in the High Court not having been filled up.

Jails—(Rs. 1,14,000) due to savings in the grants for dietary charges, hospital charges and miscellaneous supplies.

Police—(Rs. 4,45,000) owing to savings in the grant for reorganization of the district executive force and river police, as well as to the non-utilization of the grant for civil armed police.

Education—(Rs. 1,76,000) due to savings in the grant for non-recurring expenditure.

Medical—(Rs. 10,07,000) due to the transfer of the grant for Sanitation to Civil Works and the grant for the School of Tropical Medicines to the Public Works Department.

Miscellaneous—(Rs. 2,56,000) due to the transfer of the grant for equilibrium to District Boards in the Eastern Bengal districts to Education, to the adjustment of the grants made by His Excellency to the appropriate heads and to the reappropriation of the reserve provision of Rs. 1,50,000 to meet expenditure under other heads.

On the other hand, there was a total increase in expenditure of Rs. 17,87,000, the largest items of which are noted below:—

Land Revenue—(Rs. 13,000) for larger expenditure on the improvement of Government estates.

Registration—(Rs. 22,000) for larger expenditure on the establishments of District Sub-Registrars.

General Administration—(Rs. 2,50,000) due to increased charges for the purchase of new crockery and linen for His Excellency's residences, for the renovation of pictures in Government House, Calcutta, for the upkeep of Barrackpore Park, for larger expenditure on tour charges of His Excellency, for deputation of special officers to the Secretariat, the deputation of the Hon'ble Mr. D. J. Macpherson on special duty and to the adjustment of certain charges on account of Royal visit and Coronation Durbar not debited last year.

Ports and Pilotage—(Rs. 1,24,000) due to increases under the head pilotage and pilot establishment owing to trade activity (which are counterbalanced by the increase in receipts) and to an additional grant to the Agent for Government Consignments for freight charges.

Superannuation—(Rs. 57,000) representing the normal growth of expenditure.

Stationery and Printing—(Rs. 1,69,000) owing to the non-realization of probable savings which were relied upon to make provision for expenditure in the Dacca Jail Press.

Civil Works in charge of the Public Works Department—(Rs. 9,00,000) due to several grants made for Educational buildings and for the acquisition of land for the School of Tropical Medicine.

Civil Works in charge of Civil Officers—(Rs. 1,94,000) due to the transfer of the grant for Sanitation from Medical to this head.

6. The net result of these changes is that the closing balance of 1912-13, including the sum of 30 lakhs held in trust for the Calcutta Improvement Scheme, which was estimated in March last at Rs. 1,33,22,000, is now estimated at Rs. 2,83,23,000. The increase is chiefly due to the special assignments from the Government of India mentioned in paragraph 3 above.

(3) BUDGET ESTIMATE, 1913-14.

7. The opening balance of 1913-14 is the closing balance of 1912-13, and is therefore Rs. 2,83,23,000.

8. The estimates for the year, as approved by the Government of India, show receipts aggregating Rs. 5,92,56,000, an expenditure of Rs. 6,82,09,000, and a closing balance of Rs. 1,93,70,000. Out of the special grant of 50 lakhs for the Calcutta Improvement Scheme, which has appeared in the accounts since 1903-04, twenty lakhs have already been paid to the Improvement Trust in 1911-12 and 1912-13 and ten lakhs will be paid in 1913-14. A portion of the closing balance of Rs. 1,93,70,000 is earmarked for the following :—

	Rs.
Calcutta Improvement Trust as stated above ...	20,00,000
Police reorganization	15,54,000
Dacca University	7,90,000
Regrants of unspent balances of Imperial Grants of the Education Department ...	8,78,000
Grant of balance of non-recurring grant given in 1912-13 for education...	50,20,000
Ditto ditto for Medical and Sanitation	13,25,000
Grant of unspent balance of discretionary grants	8,00,000
Minimum balance	20,00,000
	1,43,67,000
This leaves a free balance which could be spent in future years	50,03,000
	1,93,70,000

9. The estimate of receipts includes the following assignments from Imperial Revenues :—

	Rs.	Rs.
Contribution for recovery of cost of transmission of records by revised procedure introduced by the Court Fees Act	6,000	
Contribution for Famine Relief Scheme	60,000	
Contributions for pensions of title-holders	3,000	
Recurring grant for the amalgamation of the clerical establishment of the Art Section of the Indian Museum with the Calcutta School of Art ...	1,000	

	Rs.	Rs.

Recurring grant for the extension of education among poorer classes of the domiciled community ...	40,000	
Recurring grant for the development of the work of the Calcutta University	65,000	
Further recurring grant for Education	13,20,000	
Further recurring grant for Sanitation	5,00,000	
Non-recurring grant for Agriculture and allied objects	1,50,000	
Non-recurring grant for medical relief	1,00,000	
Recurring assignment in connection with remission of appropriations from cesses	24,93,000	
Recurring assignment for the Belgachia Veterinary College ...	30,000	
Contribution to meet charges of Lieutenant-Colonel Sutherland's deputation for serological enquiry	20,000	
Contribution to meet the cost of Deputy Sanitary Commissioners ...	19,000	
Assignment for the cost of forms, etc., for the Bihar and Orissa Government	2,32,000	
Grant of one-half of the salaries of Health Officers in mufassal municipalities	39,000	
		63,71,000

There is a fixed adjustment of Rs. 7,28,000 from Provincial to Imperial under the terms of the Provincial Settlement, so that the net assignment from Imperial Revenues is Rs. 63,71,000—7,28,000=56,43,000.

10. On the expenditure side the total estimated charges for 1913-14 are Rs. 6,82,09,000, which is in excess of the income by Rs. 89,53,000, owing mainly to the following provisions :—

	Rs.
Grant to the Calcutta Improvement Trust (in addition to the annual grant of 1½ lakhs)	10,00,000
For construction of hostel buildings in Calcutta	8,50,000
For the construction of the School of Tropical Medicine	1,00,000
For the construction of hostel buildings outside Calcutta and Dacca ...	2,40,000
For Dacca University and Hostels ...	3,00,000
Lump provision for non-recurring expenditure of the Education Department	7,45,000

Larger grant for Civil Works in charge of the Public Works Department	14,30,000
Lump addition made by the Government of India—	
For Education	24,80,000
For Sanitation	6,75,000

11. A schedule is attached showing the new schemes, costing individually more than Rs. 5,000 in any one year, which have been included in the budget. The non-recurring charges on account of these schemes amount to Rs. 10,19,532 and the recurring charges to Rs. 9,81,006. Besides these, the budget includes the following new schemes of a more or less petty nature which are individually estimated to cost Rs. 5,000 or less :—

PART II.—Detailed remarks on the budget for 1913-14.

RECEIPTS.

12. *Land Revenue.*—The total collections in 1911-12 amounted to Rs. 2,71,72,317, and the estimate for 1913-14, as provisionally passed by the Government of India, is Rs. 2,83,88,000 against Rs. 2,82,01,000, the revised estimate for 1912-13. The estimate includes Rs. 11,22,000 for recoveries of Survey and Settlement charges against Rs. 8,47,000 provided on the same account in the budget estimate for 1912-13.

13. The estimated Provincial share of Land Revenue is calculated as follows :—

	Estimate, 1912-13.	Revised estimate, 1912-13.	Estimate, 1913-14.
	Rs.	Rs.	Rs.
Gross Land Revenue ...	2,78,35,000	2,82,01,000	2,83,88,000
Deduct—Estimated collections from Government Estates (wholly Provincial) ...	45,38,000	45,75,000	44,32,000
Deduct—Recoveries of Survey and Settlement charges (wholly Imperial) ...	8,47,000	7,13,000	11,22 000
Total Deduction ...	53,85,000	52,88,000	55,54,000
Net amount divisible between Imperial and Provincial funds	2,24,50,000	2,29,13,000	2,28,34,000
Provincial share one-half ...	1,12,25,000	1,14,57,000	1,14,17,000
Add—Collections from Government Estates (wholly Provincial)	45,38,000	45,75,000	44,32,000
Total Provincial ...	1,57,63,000	1,60,32,000	1,58,49,000
Add—Adjustments ...	3,82,000	1,45,41,000	56,43,000
Total Provincial receipts	1,61,45,000	3,05,73,000	2,14,92,000

14. *Stamps.*—The budget estimate of the total revenue from Stamps for 1912-13 was placed by the Government of India at Rs. 2,04,25,000. The actuals in 1911-12 amounted to Rs. 2,01.12,576, while those of the first eleven months of 1912-13, exclusive of receipts on account of unified stamps used as receipt stamps, exceeded the figures of the corresponding period of the preceeding year by Rs. 6,44,000. In view of these figures, and allowing for the adjustment of receipts from the sale of unified stamps between the Postal and the Stamp Departments, the revised estimate for 1912-13 has been passed for Rs. 2,08,50,000. Allowing for a progressive increase of 5¼ lakhs, the estimate for 1913-14 has been placed at Rs. 2,14,00,000. The Provincial share is one-half, and amounts to Rs. 1,04,25,000 for 1912-13 and Rs. 1,07,00,000 for 1913-14.

15. *Excise.*—The revenue from Excise for 1912-13 was estimated at Rs. 1,38,50,000. The actuals in 1911-12 amounted to Rs. 1,33,88,200, while the figures for the first ten months of 1912-13 sllow an increase of Rs. 52,000 only over the actuals of the corresponding periods of the preceding year. The revised estimate for 1912-13 has, therefore, been passed for Rs. 1,35,00,000, and allowing for a progressive increase of Rs. 3,55.000 the estimate for 1913-14 has been placed at Rs. 1,38,55,000. The receipts under this head are now wholly Provincial.

16. *Provincial Rates.*—The actual collections of the Public Work Cess in 1911-12 amounted to Rs. 30,83,495, while the estimate for 1912-13 was Rs. 31,57,000. The receipts in the first seven months of the current year,

however, show an increase of Rs. 54,000 over those of the corresponding period of 1911-12. The revised estimate for 1912-13 has accordingly been placed at Rs. 31,15,000 and the estimate for 1913-14 at Rs. 31,35,000 allowing for an anticipated increase in the receipts owing to the revaluation operations in the districts of Bakarganj, Bankura, 24-Parganas, Jessore and Khulna. It has now been decided to transfer the whole of these receipts to the District Boards, so that there will be no receipts from the Public Works Cess in the Provincial Account in 1913-14. Under "General Rates for the Management of Private Estates" the estimate of receipts is Rs. 90,000 as against Rs. 85,000, the revised estimate for 1912-13. The total estimate from provincial receipts for 1913-14 is, therefore, Rs. 90,000 only.

17. *Assessed Taxes.*—The budget estimate of receipts from Income-tax for 1912-13 was Rs. 51,25,000. The actual collections in the first ten months of the year amounted to Rs. 45,71,000. For the two months of the year, the receipts have been taken at Rs. 10,29,000 and the revised estimate has been placed at Rs. 56,00,000. The estimate for 1913-14 allows for no increase and stands at the same figure. The Provincial share is one-half and amounts to Rs. 28,00,000.

18. *Forests.*—The total receipts under this head for 1912-13 were estimated at Rs. 14,00,000 against Rs. 13,87,465, the actuals of 1911-12. The collections in the first ten months of 1912-13 show an increase of Rs. 2,75,000 as compared with those of the corresponding period of the previous year, and the revised estimate has been placed at Rs. 16,50,000. The estimate for 1913-14 has, however, been passed for Rs. 14,00,000. The decrease is chiefly in the Buxa Division where owing to over-exploitation in the past dead *sâl* is reported to be getting scarcer.

19. *Registration.*—The budget estimate for 1912-13 was Rs. 16,77,000. The actual collections in the first nine months of the year amounted to Rs. 12,47,000. For the remaining three months of the year the receipts have been taken at Rs. 6,03,000, and the revised estimate has been placed at Rs. 18,50,000. Allowing for an increase of Rs. 50,000 over the revised estimate, the estimate for 1913-14 has been passed for Rs. 19,00,000.

20. *Interest.*—The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1913-14 of Rs. 4,85,000 as shown below :—

	Rs.
Interest on advances to cultivators, etc. ...	37,000
" " " Co-operative Credit Societies	2,700
" " drainage and embankment advances ...	12,000
" " loans to landholders	1,90,000
" " " to Municipalities and District Boards, etc.	2,16,000
Miscellaneous	27,000
For rounding	+300
Total ...	4,85,000

21. *Law and Justice—Courts of Law.*—The actuals in 1911-12 amounted to Rs. 7,60,777, while the receipts in the first seven months of 1912-13 show an increase of Rs. 14,000 over those of the corresponding period of the previous year. In view of these figures the revised estimate for 1912-13 has been raised from Rs. 7,25,000 to Rs. 7,77,000, and the estimate for 1913-14 has been passed for Rs. 7,65,000

22. *Jails.*—The actuals for the nine months ending 31st December 1912 amounted to Rs. 3,83,000, while those in 1911-12 were Rs. 8,31,424, which included special receipts on account of the Durbar at Delhi. It is not safe to expect more than Rs. 2,74,000 in the last three months. The revised estimate for 1912-13 has, therefore, been placed at Rs. 6,57,000 and the estimate for 1913-14 at Rs. 6,59,000.

23. *Police.*—The actuals in 1911-12 amounted to Rs. 1,87,675, while the receipts in the first nine months of 1912-13 were Rs. 1,85,000. The receipts for the last three months will probably reach Rs. 65,000 and the revised estimate for 1912-13 has been passed for Rs. 2,50,000 against Rs. 2,00,000, the budget estimate for the year. The increase is on account of

larger recoveries from additional police. The estimate for 1913-14 is Rs. 1,62,000 as smaller recoveries are anticipated on account of additional police.

24. *Ports and Pilotage.*—The actuals in 1911-12 amounted to Rs. 16,95,556, while the budget estimate for 1912-13 was Rs. 15,98,000. This has been raised to Rs. 17,63,000 in the revised estimate, with reference to the actuals of the first nine months of the current year showing a large increase under Pilotage receipts. The estimate for 1913-14 has been passed for Rs. 18,00,000, which provides for a small increase under Pilotage receipts.

25. *Education.*—The budget estimate for 1912-13 was Rs. 6,84,000. This has been raised to Rs. 7,40,000 in the revised estimates with reference to the actuals of the first nine months of the current year. The improvement is mainly due to increases in fees from Government Colleges—General, and from High Schools for boys (including collegiate schools). The estimate for 1913-14 is Rs. 7,51,000.

26. *Medical.*—The budget estimate for 1912-13 was Rs. 3,61,000 against Rs. 3,62,976, the actuals of 1911-12. The receipts during the first nine months of 1912-13 amounted to Rs. 3,36,000, including Rs. 50,000 credited as a special contribution from the Indian Research Fund Association for carrying out experiments in jungle-clearing in suitable localities under conditions which will ensure the collection of an accurate data on what appears likely to be a successful anti-malarial measure. The revised estimate for 1912-13 has accordingly been placed at Rs. 4,30,000, and the estimate for 1913-14 at Rs. 3,76,000.

27. *Scientific and other Minor Departments.*—The estimate for 1912-13 was Rs. 3,83,000 against Rs. 2,37,053, the actuals of 1911-12. The actuals in the first nine months of 1912-13 amounted to Rs. 1,49,000 (of which Rs. 75,000 represents the sale-proceeds of cinchona and its products) against Rs. 2,70,000 anticipated for the whole year. It is not safe to expect more than 1½ lakhs from receipts from the sale of cinchona and quinine during the whole year, and the total revised estimate for 1912-13 has been placed at Rs. 2,76,000. The estimate for 1913-14 has also been passed for Rs. 2,26,000.

28. *Receipts in aid of Superannuation.*—The budget estimate for 1912-13 was Rs. 12,000, but in the revised estimate this has been raised to Rs. 46,000 in view of the actual collections of the first nine months of the year. The estimate for 1913-14 has, however, been placed at Rs. 42,000.

29. *Stationery and Printing.*—The estimate for 1913-14 is Rs. 1,30,000 against Rs. 1,32,000, the revised estimate for 1912-13, and Rs. 1,30,425, the actuals of 1911-12. The estimate includes smaller provision for the sale of Indian Law Reports, as the back numbers of the report are out of print.

30. *Miscellaneous.*—The receipts for 1912-13 were estimated at Rs. 4,87,000 against Rs. 6,35,371, the actuals of 1911-12. In the revised estimate this has been raised to Rs. 6,36,000, including Rs. 5,00,000 for unclaimed deposits, against Rs. 3,82,800, the sanctioned estimate for the year. Larger fees for Government audit are also expected from Court of Wards on account of collections of arrears for 1909-10 and 1910-11. There are also small increases expected from fees and fines of Revenue Courts and recoveries of law charges other than those in pauper suits. For 1913-14 the estimate has been placed at Rs. 5,91,000, including Rs. 4,80,000 for unclaimed deposits.

31. *Irrigation—Major Works (Direct Receipts).*—The budget estimate for 1912-13 was Rs. 2,63,000 against Rs. 2,78,127, the actuals of 1911-12. The budget has been repeated in the revised estimate, while the budget for 1913-14 has been placed at Rs. 2,80,000 owing to the increase expected from water-rates, Midnapore Canal, due to the renewal of long leases at the enhanced rate of Rs. 2 per acre in place of the old rate of Rs. 1-8. The Provincial share is one-half and amounts to Rs. 1,31,000 in 1912-13 and Rs. 1,40,000 in 1913-14.

32. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The budget estimate for 1912-13 was Rs. 5,94,000, but in view of the fact that the actuals of 1911-12 amounted to Rs. 6,73,000, and in view of the actuals of the first nine months of the current year, the revised estimate has been raised to Rs. 6,75,000. The increase.

as compared with the budget, is chiefly in navigation receipts from the Calcutta and Eastern canals due to the opening of the Kistopur Canal. The Madaripur Bhil Route is now complete, and it is expected that the navigation receipts will increase and the estimate for 1913-14 has been placed at Rs. 6,85,000. The Provincial share is one-half and amounts to Rs. 3,37,000 in 1912-13 and Rs. 3,42,000 in 1913-14.

33. *Civil Works in charge of the Public Works Department.*—The budget estimate for 1912-13 was Rs. 11,23,000, and included Rs. 7,13,742 on account of the first two instalments of the sale-proceeds of the land and buildings of the Sibpur Engineering College which it was proposed to sell to the Port Commissioners, Calcutta, for Rs. 13,63,742, but, as the order of the Secretary of State on the subject has not yet been received, no payment is expected this year. The revised estimate has, accordingly, been reduced to Rs. 4,09,000. It is not known when the orders of the Secretary of State will come, and no provision has been made in the budget for 1913-14 on this account, and the budget for the year has been placed at Rs. 3,69,000.

EXPENDITURE.

34. *Refunds and Drawbacks.*—The total Provincial expenditure in 1913-14 is estimated at Rs. 1,41,000 against Rs. 1,42,000, the budget estimate for 1912-13, and Rs. 1,55,124, the actuals of 1911-12. The estimates under this head are based, as usual, on the average actuals of the previous three years, excluding special payments. The actuals of 1911-12 included a special payment under Land Revenue. The actuals of the current year includes a special payment of Rs. 4,000 under Excise on account of refund of license fees, and the revised estimate for the current year has been placed at Rs. 1,57,000.

35. *Assignments and Compensations.*—The budget estimate for 1912-13 was Rs. 31,000, but this has been raised to Rs. 35,000 in the revised estimate, and Rs. 33,000 in the budget for 1913-14. The actuals of the first nine months of 1912-13 include arrear payments.

36. *Land Revenue.*—The total Provincial expenditure for 1913-14 is estimated at Rs. 33,48,000 against Rs. 33,63,000, the revised, and Rs. 33,50,000, the budget estimate, for 1912-13, as shown below :—

	1912-13.		1913-14
	Budget	Revised.	Budget.
	Rs.	Rs.	Rs.
(1) Charges of District Administration ...	27,07,000	26,17,000	26,50,000
(2) Charges on account of Land Revenue collections	11,000	11,000	10,000
(3) Management of Government estates ...	4,82,000	5,48,000	4,72,000
(4) Survey and Settlement ...	1,82,000	1,22,000	1,82,000
(5) Land Records ...	61,000	63,000	33,000
(6) Charges on account of fishery collection ...	.....	2,000	1,000
	34,43,000	33,63,000	33,48,000
Lump Deduction ...	93,000	.....	.....
Total ...	33,50,000	33,63,000	33,48,000

The estimate under (1) provides for an additional temporary appointment of Magistrate. Joint-Magistrates according to the number and grading recommended to the Government of India and the appointment of a police

officer now on district Administration as the Superintendent, Chittagong Hill Tracts. Under (3) the estimate is chiefly based on the estimate of collections from Government estates, as 9½ per cent. of the collections is usually allotted for management and improvement of Government estates, with small additions for special charges. The estimate under (4) is based on actual requirements and includes the charges for the settlement of Government temporary-settled estates in Bakarganj and Noakhali. The decrease under (5) is chiefly due to the debit of a larger share of the cost of the Director of Land Records, to the different Imperial settlement operations.

37. *Stamps.*—The estimate for 1912-13 was Rs. 6,72,000, but in the revised estimate this has been raised to Rs. 6,87,000, owing to the payment of discount on larger sale of general stamps. The budget for 1913-14 is Rs. 7,25,000, and allows for increased charges for the sale of stamps of different natures, and larger supply of stamp paper from the Central Stores consequent on the increase in the sale of stamps. The charges of this Department are divided equally between the Imperial and Provincial Revenues, and the Provincial share amounts to Rs. 3,43,000 and Rs. 3,62,000 for 1912-13 and 1913-14, respectively.

38. *Excise.*—The estimate for 1913-14 is Rs. 6,69,000, as compared with Rs. 6,04,000, the revised estimate for 1912-13, and Rs. 6,31,000, the budget estimate for the year. The increase is chiefly due to (*a*) a special provision of Rs. 50,000 towards the reorganization of the Excise Department, and (*b*) additional grants for contingencies and rewards. The charges of this Department are now wholly Provincial.

39. *Provincial Rates.*—The estimate for 1913-14 is Rs. 58,000 against Rs. 53,000, the budget estimate for 1912-13, and Rs. 49,787, the actuals of 1911-12. The increase is mainly due to the valuation and revaluation charges in the districts of Khulna, Tippera, Faridpur and Dacca. As the receipts from the Public Works Cess will be transferred to District Boards from 1913-14 those funds will bear the charges. There will be no charge on Provincial Account.

40. *Assessed Taxes.*—The budget estimate for 1912-13 was Rs. 1,57,000, and this has been repeated as the estimate for 1913-14. The revised estimate for 1912-13 has, however, been placed at Rs. 1,56,000 with reference to the actuals of the first nine months of the year. The Provincial share (one-half) is Rs. 78,000.

41. *Forests.*—The total expenditure for 1913-14 is estimated at Rs. 6,76,000 against Rs. 6,88,000, the revised estimate for 1912-13. The budget includes the following items :—

	Rs.
Provision for two Imperial officers recently recruited	9,120
Ditto Additional Rangers, etc.	8,484
Ditto ditto establishment	1,440
Purchase of three elephants	9,000
Construction of a path in Kurseong Division ...	3,000
Rebuilding Sukna rest-house in Kurseong ...	3,000
Ditto Gorumara rest-house in Jalpaiguri ...	5,000
Construction of Godahar rest-house in Buxa ...	3,000
Ditto of two rest-houses at Jalpaigori and Dhobachari in Chittagong	8,000
Demarcation of reserve boundaries in the Chittagong Hill Tracts	4,500
Cost of settlement operations in Buxa	4,000
Construction of boats and dinghees	4,800

42. *Registration.*—The estimate for 1913-14 is Rs. 11,16,000 against Rs. 10,55,000, the revised estimate for 1912-13, and Rs. 10,67,406, the actuals of 1911-12. The budget includes (*a*) Rs. 5,400 for the revision of the office of the Inspector-General, (*b*) Rs. 2,400 for the revision of the office of the Sub-Registrar at Calcutta, (*c*) Rs. 12,300 for regrading of Sub-Registrars, (*d*) Rs. 10,000 for the opening of new Sub-Registry office, (*e*) Rs. 57,000 for revision of establishment of the offices of District Sub-Registrars, and (*f*) Rs. 4,500 for punkha-pullers in the Sub-Registry offices.

43. *Interest on ordinary Debt.*—This is interest payable from the Provincial revenues to the Imperial Government on the amount advanced by the latter to the Provincial Government for loans to cultivators under the Agriculturist's Loans and Land Improvements Loans Acts, for advances to Co-operative Societies, for advances on drainage and embankment schemes, for loans to notabilities and to municipalities and other public Corporations (excluding Presidency Corporations).

44. *General Administration.*—The estimate for 1912-13 was Rs. 22,00,000, but in the revised estimate this has been raised to Rs. 24,50,000. The increase is chiefly under Staff and Household of the Governor for the purchase of new crockery and linen, for the restoration of pictures for Government House at Calcutta, for the upkeep charges of Barrackpore Park, for larger expenditure on His Excellency's tour, for deputation of several special officers in the Civil Secretariat in connection with the Council Regulations and Public Service Commission, etc., for the deputation of the Hon'ble Mr. D. J. Macpherson in connection with the revision of Manuals of the Board of Revenue, and for the adjustment of certain charges in connection with the Delhi Durbar which was not accounted for in 1911-12. The estimate for 1913-14 has been passed for Rs. 23,02,000 and includes the following provisions :—

	Rs.
Establishment for the Military and the Private Secretaries to Governor	18,000
Additional provision for Body-guard	15,000
Ditto Band	14,000
Ditto Furniture	20,000
Charges for the upkeep of Barrackpore Park ...	13,000
Provision for local audit of Police and Calcutta Improvement Trust Accounts	6,000
Provision for officers on special duty in the Secretariat in connection with inquiry about Police and Calcutta Municipal Act	43,000
Lump provision for establishment in the record-room for the preparation of Press list and for revision of office establishment	6,200

45. *Law and Justice—Courts of Law.*—The total charges for 1912-13 were originally estimated at Rs. 98,39,000, but in the revised estimate this has been reduced to Rs. 98,05,000 with reference to the actuals of the first nine months of the year. The decrease is chiefly under Criminal Courts, owing to savings in the grant under salaries. The estimate for 1913-14 is Rs. 96,10,000. It includes (*a*) provision for additional establishment in the Presidency Magistrate's Court, Rs. 1,632, (*b*) provision for additional Munsifs, Rs. 32,000 ; (*c*) provision for regrading of Munsifs, Rs. 50,000 ; (*d*) provision for additional establishments in Munsifs' Courts, Rs. 12,000 ; (*e*) additional grant for Supplies, Services and Contingencies of Civil Courts; (*f*) provision for an additional Judge of the Calcutta Small Cause Court and his establishment, Rs. 15,000, and (*g*) additional grant for the revision of Chaukidari Panchayet, Rs. 22,000. Against these provisions smaller provision has been made for fees to pleaders and counsel in criminal cases, as it is hoped that the political cases will now come to an end.

46. *Jails.*—The estimate for 1912-13 was Rs. 20,74,000 against Rs. 20,51,332, the actuals of 1911-12. In view of the actuals of the first nine months of 1912-13 the revised estimates for the year has been placed at Rs. 19,60,000. The savings are chiefly under salaries of Superintendents and Jailors, for reductions in the old Presidency Jail, dietary charges and miscellaneous services and supplies. The estimate for 1913-14 is Rs. 20,79,000, and includes provision (*a*) for fresh allowances for Sub-Assistant Surgeons of District Jails, (*b*) for appointment of additional clerks and enhancement of allowances of existing clerks in Eastern Bengal subsidiary jails, (*c*) for supply of adequate clothing to Eastern Bengal prisoners, (*d*) for provision of better equipment for Eastern Bengal Jails, (*e*) for larger provision for Municipal rates and taxes and (*f*) for larger provision for purchase of raw materials due to proposed improvement of industries in Rampur Boalia and Dacca Central Jails and in Barisal and Mymensingh District Jails.

47. *Police.*—The following table compares the figures under this head :—

18. *Ports and Pilotage.*—The budget estimate for 1912-13 was Rs. 12,08,000, but in the revised this has been raised to Rs. 13,32,000, with reference to the actuals of the first nine months of the year. The increase is partly under Pilotage and Pilot establishments owing to trade activity, and also under Marine establishment in the office of the Agent for Government Consignments for heavier charges for freight which is not expected to be fully recovered before the close of the year. The estimate for 1913-14 has been placed at Rs. 13,74,000, and includes larger grants for the repairs of vessels and value of coals to be supplied to pilot vessels, and larger provision for pilotage allowances to Pilots in anticipation of increased shipping.

19. *Education.*—The total provincial expenditure in 1912-13 was originally estimated at Rs. 78,45,000, but in the revised estimate this has been reduced to Rs. 76,69,000, with reference to the actual charges in the first nine months of the year. The decrease is more than covered by smaller expenditure from the lump provision for non-recurring charges against increased expenditure under the other heads. During the year, the Government of India sanctioned a non-recurring grant of Rs. 4,00,000 and a recurring grant of Rs. 65,000 to the Calcutta University, which have been made over to that body. Rupees 40,000 was sanctioned for education of Domiciled community which has been added to the allotment for grants-in-aid. A grant of two lakhs has been sanctioned for the construction and improvement of hostel buildings outside Calcutta and Dacca, but this will not be fully utilized. A grant of Rs. 1,50,000 has also been sanctioned for aided English secondary schools, and a good portion of this will be expended during the year. 1½ lakhs will also be probably incurred from the assignment of 10 lakhs for hostel buildings in Calcutta. The savings in these grants will be re-granted next year. The budget grant for 1913-14 is Rs. 1,34,88,000 and is thus compared with the actuals of the past three years :—

(A) Included under grants-in-aid.

The Government of India gave a non-recurring assignment of Rs. 75 lakhs in 1912-13 and a recurring assignment of Rs. 13,20,000 in 1913-14 for expenditure of the department.

The budget for 1913-14 includes the following items of expenditure :—

	Rs.
Expenditure from the non-recurring grant of 75 lakhs	24,80,000
Expenditure of the recurring assignment ...	13,20,000
Dacca University and Hostels	3,00,000

„ grant to the Ripon College for liquidation of debt	30,000

50. *Medical.*—The estimate for 1912-13 was Rs. 36,95,000, but this has been reduced to Rs. 26,88,000 in the revised estimate, with reference to the actuals of first nine months of the year. The decrease is nominal and was due chiefly for the transfer of Rs. 6¼ lakhs out of the non-recurring grant of 7¼ lakhs from works of sanitation to the head Civil Works in charge of Civil Officers and other heads, and also for the transfer of four lakhs, the grant for the School of Tropical Medicine, to the Public Works Department to meet the cost of land acquisition. The Government of India have just sanctioned a non-recurring assignment of 20 lakhs and a recurring assignment of 5 lakhs for sanitation and 1 lakh for Medical relief. The estimate for 1913-14 has been passed for Rs. 41,01,000, including Rs. 12,75,000 added by the Government of India for expenditure on sanitation (Rs. 11,75,000) and medical relief (Rs. 1,00,000). Budget also includes (*a*) Rs. 1,00,000 for the School of Tropical Medicine, that being the balance of the Imperial grant of 5 lakhs for the construction of the school, (*b*) Rs. 9,600 for an Indian Medical Service Officer as personal assistant to the Inspector-General in place of a ministerial officer on lower pay, (*c*) Rs. 22,000 for the salary of three Additional Deputy Sanitary Commissioners, Rs. 1,500 for their tents, and Rs. 3,000 for their office establishment, (*d*) Rs. 26,100 for Government contribution towards the pay of 1st and 2nd class Health officers, (*e*) Rs. 5,000 for training Sanitary Inspectors and 2nd class Health officers, (*f*) Rs. 50,000 for carrying out experiments in jungle clearing, (*g*) Rs. 18,900 for a Professor of Physics and an Assistant Professor of Physics and Chemistry, and local allowances for two Professors and three Assistant Professors of the Medical College, (*h*) Rs. 20,000 for charges in connection with Lieutenant-Colonel Sutherland's enquiry in serological work, (*i*) Rs. 4,345 for additional teachers and demonstrators in Medical Schools, (*k*) Rs. 7,200 for the appointment of a probationary Chemical Examiner and (*l*) Rs. 5,280 for the appointment of additional nurses in the Campbell Hospital.

The grants for the Presidency Hospitals are shown below:—

	Salaries.	Establishment	Allowances.	Clothing and bedding.	Diet	Other supplies.	Contingencies	Total.

Albert Victor Asylum for Lepers ...	7,200	3,288	180	17,000		1,000	8,529	37,000

51. *Political.*—The estimate for 1913-14 is Rs. 27,000 against Rs. 34,000, the budget estimate for 1912-13. The decrease is under Durbar Presents for smaller provision for Presidency payments on account of *khillats*, as the Government of India have done away with *khillats* for title-holders below the rank of Maharajas and Rajas.

52. *Scientific and other Minor Departments.*—The estimate for 1912-13 was Rs. 17,13,000, but in the revised estimate this had been reduced to Rs. 17,07,000. The decrease is more than accounted for by the transfer of Rs. 30,000 from the lump provision of Rs. 75,000 for expenditure on agriculture and allied objects from this head to the Forest Budget. The budget for 1913-14 has been placed at Rs. 17,15,000 including Rs. 50,000 for the purchase of cinchona bark against Rs. 3,60,000 passed for the same purpose in the budget for 1912-13 and a special lump provision of 1½ lakhs for expenditure on Agriculture and allied objects recently sanctioned by the

Government of India. The budget also includes the following items of expenditure :—

	Rs.
Provision for the upkeep of the new dairy farm at Rangpur	16,000
Mycological collector, Entomological collector, two Agricultural supervisors and Weaving Inspector employed in Eastern Bengal (not provided for in 1912-13)	9,120
Bonemeal demonstration, purchase of seed potatoes and crop-cutting experiments	25,000
Contribution to Toklai Tea Association ...	4,000
Opening and extension of central nurseries and other demonstrations	59,500
Additional grant to the Zoological Garden for the upkeep of the extended area to be transferred from the Kidderpore Orphanage	10,000
Provision for the upkeep and recurring charges of the steam-launch *Blanch* recently placed at the disposal of the Registrar, Co-operative Societies	5,000
Balance of the Imperial assignment of one lakh for agriculture and allied objects	30,000
Purchase of a steam-launch for the Fishery Department	45,000

53. *Superannuation.*—The charges under this head tend to rise year after year owing to increase in the number of claims to pension. The estimate for 1913-14 is Rs. 30,22,000 as compared with Rs. 29,03,000, the revised estimate for 1912-13, and Rs. 27,85,637, the actuals of 1911-12.

54. *Stationery and Printing.*—The estimate for 1913-14 is Rs. 13,60,000 against Rs. 12,55,000 and Rs. 14,24,000, the budget and revised estimates for 1912-13, respectively, and Rs. 15,79,021, the actuals of 1911-12. The following table compares the figures :—

HEADS.	Actuals, 1911-12.	Budget estimate, 1912-13.	Revised estimate, 1912-13.	Budget estimate, 1913-14.

Total ...	15,79,021	12,55,000	14,24,000	13,60,000

The estimate for the Forms Department includes Rs. 5,000 for the revision of establishment.

55. *Miscellaneous.*—The budget estimate for 1912-13 was Rs. 8,13,000 but in the revised estimate this has been reduced to Rs. 5,57,000 including 1½ lakhs, the lump provision for grain compensation allowance for all departments. The reduction is due to the adjustment under appropriate heads of expenditure sanctioned by His Excellency from the provision for petty grants and to the reappropriation of the reserve provision of Rs. 1,50,000 in order to meet expenditure under other heads and also to the transfer of Rs. 2,07,000 to "Education" as the equilibrium grant to District Boards in the Eastern Bengal districts was provided for under this head and not under the appropriate head

The budget for 1913-14 is Rs. 9,53,000 and includes a lump provision of Rs. 3,60,000 for the payment of grain compensation allowance for all departments, Rs. 1,00,000 being the amount to be placed at the disposal of His Excellency for petty grants, Rs. 1,50,000 for general reserve for unforeseen requirements, Rs. 3,000 for stipends to holders of literary titles and Rs. 4,000 for cost of portraits of the King-Emperor.

56. *Irrigation—Major Works (Working Expenses).*—The actual charges in 1911-12 amounted to Rs. 2,77,086 and the estimate for 1912-13 was Rs. 2,26,000, but in the revised estimate this has been raised to Rs. 2,76,000 in view of the actuals for the first nine months of the year. This excess is chiefly under "Maintenance and repairs" of the Midnapore Canal. The budget for 1913-14 has been placed at Rs. 2,40,000. The Provincial share (one-half) is Rs. 1,20,000.

57. *Irrigation—Minor Works and Navigation.*—The budget estimate for 1912-13 was Rs. 16,65,000 against Rs. 15,67,107, the actuals of 1911-12. During the year additional grants of Rs. 7,500 and Rs. 9,900 have been sanctioned for constructing a two-vented sluice at Boner khal in the Port Canning Government estate, 24-Parganas, and for dredging the Bhagirathi entrance respectively, while Rs. 11,000 has been transferred to "42—Irrigation—Major Works." The revised estimate for the year has however been placed at Rs. 16,00,000 with reference to the actuals of the first nine months of the year. The estimate for 1913-14 is Rs. 18,66,000 and includes the following items :—

	Rs.
Provision for clearing the bed of the Saraswati river in connection with the Rajapur drainage works	50,000
Training works in the river Ganges	35,000
Dredging the Dhaleswari and Buriganga rivers ...	30,000
Bandelling and putting on spurs on the Dhaleswari and Buriganga rivers	30,000
Completion of lock at Uttarbhag in connection with the Magrahat drainage	21,800
Madaripur Bhil scheme including dredging of the lower Kumar river	1,96,000
Grant-in-aid for bandelling the river Ganges near Rampur Boalia	5,000
Dredging the entrance of the Gorai river ...	7,000

The budget also provides for working the dredger *Foyers* during eight months in Angoria Creek, Attarabanka Shoal and clearing silt from the Coxali khal. The Provincial share (one-half) is Rs. 9,33,000.

58. *Civil Works in charge of the Public Works Department.*—The estimate of expenditure for 1913-14 has been placed at Rs. 74,30,000 including 4 lakhs for discretionary grants out of 12 lakhs sanctioned by the Government of India against Rs. 71,00,000, the revised estimate for 1912-13, and Rs. 62,00,000, the budget grant for the year. The following table shows the distribution of the allotment :—

	1912-13. Budget.	1912-13. Revised.	1913-14. Budget.
	Rs.	Rs.	Rs.
Original Works ...	34,91,327	42,51,000	43,38,400
Repairs	16,00,500	17,14,000	19,60,000
Establishment ...	10,09,173	10,32,000	10,94,600
Tools and Plant ...	70,000	52,000	37,000
Stock and Suspense ...	29,000	51,000	.....
Total ...	62,00,000	71,00,000	74,30,000

The increase in the revised estimate for 1912-13 is due to the additional grants made during the year chiefly for the acquisition of land for the School of Tropical Medicine, extension of the Presidency College and Hostel buildings for the Metropolitan Institution and for the construction of buildings of the Education and other departments. The statement below shows the actual expenditure during 1911-12 and the estimated expenditure during 1912-13 on the principal original works in progress during these two years as also the estimated expenditure upon the new works or continuation of works in progress the undertaking of which is in contemplation during 1913-14 :—

This is for travelling allowance of hockey teams and has been sanctioned by the late Eastern Bengal and Assam Government.

Most of the existing police stations in the Eastern Bengal districts are very badly furnished. The provision is intended for supplying furniture to old and new stations and to the police sergeants who are in need of them.

The strength of police guards in sub-treasuries as sanctioned under the re-organization scheme is in most places considered to be inadequate. The men are relieved once a fortnight only in East Bengal districts and once in three weeks in West Bengal districts. There is, therefore, a risk of the men being overworked and not properly on the alert, as they do not get a sufficient number of nights in bed. It is proposed to bring the number of guards to a sufficient strength by appointing 54 head constables and 84 constables.

It is impossible to get suitable men at the present rate of pay of Rs. 9, as it is less than what is earned by coolies, servants, etc. It is proposed to raise the pay of 2,605 constables by Rs. 2 per mensem.

Steam-launches are wanted by the Superintendents of Police, Tippera, Bogra, Deputy Inspector-General of Dacca, and Assistant Superintendents of Patuakhali and Munshiganj. Without these proper police supervision cannot be expected in the river districts.

RESOLUTION ON THE REVISED FINANCIAL STATEMENT.

EXPENDITURE—*Heads 19B—Jails; 24—Medical; 45—Civil Works.*

The Hon'ble DR. NILRATAN SARKAR moved the following resolution:—

1. This Council recommends to the Governor in Council—

(*a*) that a further sum of Rs. 2,00,000, in addition to the sum already budgeted for improvements of jails, be provided for—

(*i*) improving the accommodation and dietary for invalids in jails, and

(*ii*) establishing a sanitarium in some healthy station (not necessarily in Bengal) for such prisoners as require change of climate; and

(*b*) that this charge be met from the fund placed at the disposal of Government for discretionary grants.

He said—

"My Lord, I thankfully acknowledge the benevolent efforts of Government for improvement in the sanitary conditions of our jails, which were only a few years back notorious for their high sick-rate and mortality among the prison population. But it cannot be denied that much yet remains to be done in this direction. The insanitary condition of the jails of this Presidency has been causing great anxiety not only among the people themselves, but among the officials in charge of the department who have always called attention to the defective arrangements and the inadequacy of accommodation in the jails, especially in some of the Eastern Bengal districts.

"The Sanitary Commissioners have referred to the over-crowding which exists in some of the Bengal jails, and the comparatively heavy death-toll which tuberculosis levies on the prison population of Bengal. Some time back the Inspector-General of Prisons recorded with regret that the opportunity of obtaining the jail at Berhampore for the segregation of tuberculous prisoners had disappeared, and noted that the disease could not be effectively controlled until a separate jail for infective cases were provided. In the latest report for Bengal, Lieut.-Col. Buchanan observes once more that the great need for a separate jail for isolation and separation of these cases still remains. 'It is needed,' he goes on to say, 'in the interest of the patients themselves, and even more so in the interest of the healthy patients who have to associate with them in jails.' Major B. J. Singh likewise testifies to the overcrowding which existed in most of the jails in Eastern Bengal last year, and the statistics which he gives of the deaths from malaria and tuberculosis are indeed very disquieting.

"On a reference to the report for 1910 of the Sanitary Commissioner with the Government of India, we find that, while the average jail mortality per 1,000 of strength was 19·29 for all India, that for Bengal was 22·56. There were in the year under report about 20 jails in all India, with a death-rate above forty per thousand of prisoners, and of these as many as eight or more than one-third of the total number are in Bengal. In a schedule of the unhealthy jails this report mentions twenty-four as being the the figure for all India. And it may interest the Council to know that ten of these are now included in the Bengal Presidency. Again, of some 39 central jails in all India, six are in Bengal. But while only eight of this total number of 39 figure on the list of unhealthy jails, Bengal contributes three, or half of her share of central jails, to make up the eight insanitary central jails for all India. So also, out of a total number of some 200 district jails in India, Bengal claims about 23. But while only fifteen of the district jails are enumerated in the black list for all India, seven are from Bengal. The insanitary state of the Bengal jails can also be gauged from the 'constantly sick rate' which for all India is 25·5 per thousand of strength, and which stands at the high figure of 39·5 in Bengal.

"In 1910, the admission rate of prisoners for tuberculosis was 8·7 per 1,000 strength for India, as compared with 9·7 for Bengal. And while the death-rate for this fell disease was 3·41 per thousand of the entire prison population of India, 4·49 represented the same for Bengal.

"In view of these facts, I think I am justified in pressing this scheme of reform upon the attention of Your Excellency's Council. All that I say is that ampler and better accommodation should be provided for the prisoners, that a better dietary should be sanctioned for the invalids, and that a sanitarium—which would serve the purpose of an isolation jail—should be established in some healthy station for such diseased prisoners as may require a change of climate."

The Hon'ble SIR WILLIAM DUKE said :—

"My Lord, since I share in the enthusiasm of the Hon'ble Member for the promotion of sanitary conditions in jails, and to a very great extent sympathise with his views, it would have been a pleasure to me if I could have accepted his resolution as it stands; but although we can go some way with him, I am afraid it is not possible formally to accept the resolution as it stands, nor indeed altogether to admit the conclusions which he draws from the facts he has stated as to the proper remedies to be adopted. I do not know whether the Hon'ble Mover is disposed to regard health in jails as a matter entirely dependent upon good administration, or whether he admits that climate is also a factor in the case. If the former, if he thinks it is entirely a matter of administration, I would point out that in Bengal, as it was previously constituted, the death-rates have been steadily reduced. They have for some time been exceptionally low—as low as 18 per 1,000 in 1910 and 17 per 1,000 in 1911—results which may be regarded as excellent. The jails in Eastern Bengal have now come under the same administration; and if it depended on administration alone, it might be held that the former Bengal standard would before long be attained in the new Presidency; but if he admits that climate is an important item in the case, then, considering the extreme unhealthiness of some of our northern districts, the rate for the last year in the Presidency of Bengal as it now is constituted, namely, 22 per thousand, is, I think, fairly satisfactory. I do not, of course, pretend that the conditions are ideal, but I do not wish to admit too much. There is one point in the motion to-day to which I cannot agree, and that is that any special measures are required to provide improved dietary for the sick in jails. As a matter of fact, Government believes that everything that can make for the health of sick prisoners is provided and is used, and that nothing that would reasonably promote their health and comfort is withheld, and that therefore in that respect no very special measures are required. As regards accommodation, in the western part of Bengal—the old part of Bengal—the jails have already been provided with well equipped hospitals. In Eastern Bengal, however, there is still something to be accomplished in this respect, but it is being done as rapidly as it can be done. At the present moment better accommodation for the sick is being provided in the jails at Tippera, Mymensingh and Bogra. Whatever else may be found necessary in this respect will be provided as rapidly as possible, and that can be done, we anticipate, without any necessity of making a special grant or interfering with our ordinary financial arrangements. Government is fully alive to the importance of caring for and isolating prisoners suffering from tuberculosis. Separate wards have already been provided in all the Western Bengal jails, and special steps taken to ensure separation being effected in all the jails on the eastern side also. But Government has before it a more important scheme for the thorough segregation of tuberculous prisoners than such measures can ever amount to. That is proposed to be done by converting the present Berhampore Lunatic Asylum into a jail entirely devoted to prisoners suffering from tubercular disease. That will be done as soon as the buildings can be given up, and that will be when the new lunatic asylum at Ranchi, for which a scheme has already

been prepared and funds kept in reserve, is opened. When these steps have been taken, and when their effects on the health of the jails and of the tuberculous prisoners has become apparent, the question raised by the Hon'ble Mover of establishing a sanitarium in some healthy station, which he suggests need not necessarily be in Bengal, will probably come under consideration. By that time perhaps something will have been done on the same basis for the free population of a sanitarium, and from the effect of what may be done it may be possible to judge whether anything in the same line can be done for prisoners. I do not wish to seem lukewarm upon this question, and therefore I may point out that there is a matter connected with the health of prisoners which causes us deeper anxiety, and for which there is more immediate need for effort than there is even in dealing with tuberculosis, and that is that in several jails our great difficulty is the predisposition amongst prisoners to dysentery. It is this really which makes certain jails seriously unhealthy, and which causes us anxiety. The subject has received unremitting attention, and will continue to do so, but it is both difficult and obscure, because sometimes, after all possible cases of contamination have been examined and dealt with, although the number of cases is always reduced in the process, still the disease cannot always be entirely got rid of, and, indeed, it may demand the only certain means of amelioration that we know, *i.e.*, the reduction of pressure on the accommodation. In present conditions in Bengal, as we are not overcrowded, reduction of pressure may generally be effected without much difficulty. I may mention that the Government of India are assisting us in our efforts in this direction, in discovering and dealing with cases of dysentery in jails, by deputing an Indian Medical Service officer, under the auspices of the Indian Research Committee, to make a special inquiry on the subject in Bengal. I have adverted to this subject, because it is really the most important difficulty in this province in connection with the health of jails, and to emphasise the fact that we must deal with first things first. The subject of tuberculosis is constantly kept in sight and being dealt with, I therefore hope that the Hon'ble Mover will recognise that Government is doing what can be done in the case, and will not be disposed to press his resolution."

The Hon'ble BABU SURENDRA NATH BANERJEE said :—

"I was for some time a visitor of the Central Jail at Alipore. I used to attend to my duties pretty carefully, and I must bear testimony to the high character for humanity which distinguished generally the Jail administration ; but, my Lord, there are one or two points which are apt to be overlooked, and which, I think, have not been taken sufficient note of. Are the authorities quite sure that the food which is provided for the prisoners is actually obtained by the prisoners ? I am afraid that although considerable sums of money are provided for suitable food to be given to the prisoners. they do not get the kind of food that is meant for them. I think that in that respect the administration of jails is capable of considerable improvement. Then, my Lord, there is another point which has often struck me, and has, I think, struck most visitors who have been associated with our jails. There are prisoners and prisoners. Sometimes respectable people, *bhadraloks* as we call them, get entangled in the meshes of criminal cases, and are sentenced to hard labour. They get precisely the same kind of food as is given to the poorest convict. Now, ordinarily the food of the *bhadralok* is different from the food of the poorer classes. The *bhadralok* class get fish every day ; the poorer classes do not. Now, I found that, in the Alipore Jail, fish was a scarcity, was hardly ever given to the *bhadralok* prisoners. was given only once a week, or perhaps twice. Now, this is a matter which I think is deserving of consideration. Then, my Lord. with reference to the question of mortality to which the Hon'ble Member has referred, we would like to know whether he has compared the mortality of the jail to the mortality in its particular district, because the Hon'ble Member has referred to the climatic condition as an important factor in determining the rate of mortality. Everybody will accept that ; but in order to understand whether in a particular jail the rate of mortality is too

high, I think it is essential that we should know what the rate of mortality is prevalent in the particular district in which the jail is located. In that respect I think the Council would be grateful, and I, at any rate, would be grateful, if my hon'ble friend were in a position to give us some information. I think, my Lord, my hon'ble friend's motion is one which is deserving of the sympathy of Government; and although Government may not be in a position to accede to the request he makes, I trust that the matter will be borne in mind, and that sooner or later, and sooner rather than later, Government will take definite steps in the direction indicated. My Lord, I beg to support the resolution."

The Hon'ble BABU PRASANNA KUMAR RAY said:—

"My Lord, I beg to support the resolution moved by the Hon'ble Dr. Nilratan Sarkar. Only a very few words are necessary from me in respect of it. The question of the improvement of the sanitary condition of the jails in Bengal has not failed to attract the notice of Government, but the resolution now moved refers to specific measure in that connection. The secret of the high rate of mortality amongst the prisoners in our jails fully justifies the provision of better accommodation and of improvement in the dietary, especially that of invalids. The other portion of the resolution, namely, the establishment of a sanitarium for prisoners, speaks for itself. It is evident that a change of climate is to be resorted to when other methods fail. The amount asked for is very small in comparison with the benefit that would be effected by the measures which it is proposed should be taken. I trust the resolution will commend itself to Your Excellency's Council without any opposition. I hope and trust that the resolution just moved will have the sympathy of Government, and it is gratifying to see that Government has already taken the subject into consideration, and what my hon'ble friend Dr. Sarkar wants is to make a small addition to the grant which has already been budgeted.

"With these few words, I support the resolution."

The Hon'ble DR. NILRATAN SARKAR said:—

"Just a word in connection with what we have heard from the Hon'ble Sir William Duke. With regard to the causes of these diseases in jails, I believe that, so far as Bengal is concerned, the climate is more responsible than the administration; but still remedies could be found by proper administrative measures. As regards tuberculosis, it is quite possible that climate may have something to do with the causation of this disease. At the same time we cannot forget infection is one of the most important elements in the causation of the disease; and if a healthy prisoner acquires tuberculosis during his stay in a jail by infection from another prisoner who is suffering from that disease, then the State should take the responsibility of providing for him proper medical treatment and also the benefit of a change of climate. I do not propose a sanitarium, by which I mean simply an isolation jail, as a luxury. What I mean is that if any of these convicts who enter jails in good health get infected by some such disease, I think he can claim some consideration at the hands of Government in the matter of treatment. That is my whole argument. Sir, I am extremely grateful to Government for what they have already done, and what they are still doing in this matter, and under the circumstances. I do not think it necessary to press this resolution further, and I beg leave to withdraw it."

The resolution was then withdrawn.

Expenditure—Head 21—Scientific and other Minor Departments.

The Hon'ble MR. BYOMKES CHAKRAVARTI moved the following resolution:-

2. This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 50,00,000 be set apart for laying down to permanent pasture on scientific lines a selected area of not less than 100 acres, and

(*b*) that the cost be met from the non-recurring assignment for discretionary grant of Rs. 12,00,000.

He said :—

"I move the Resolution which stands in my name; but, in doing so, I desire, at the outset, to point out to the Council that, either in the copy sent by me, or in printing, there is a mistake in the first part of it. The resolution ought to run in this form :—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 5 lakhs to be set apart for laying down permanent pasture on scientific lines in selected areas, not less than 100 acres each, and

(*b*) that the cost be met from the non-recurring assignment for discretionary grant of Rs. 12,00,000.

"In this connection may I be further allowed to point out that from the Draft Financial Statement and the observations made by various official members on various heads of the Draft Financial Statement it is well-nigh impossible for any Hon'ble Member of this Council to find out the real position of affairs with regard to any of the important heads, and this observation applies eminently to agricultural receipts and agricultural disbursements. I defy any Hon'ble Member to tell us from the Draft Financial Statement as to what they are. Still, Bengal is essentially an agricultural country, and I have no doubt that the Government is very keen on giving facilities for the improvement of agricultural process and the dissemination of agricultural education. That being so, one has a right to expect that the Department of Agriculture strictly so called should receive greater attention in the Financial Statement and the speeches introducing them into this Council.

"Be that as it may, in this Presidency where the population is so overwhelmingly agricultural, cattle is essential, for it is required for draught purposes, for agricultural operations and for the production of milk. Therefore provisions for food, the health, and the improvement of the cattle are almost as important as those of the people owning the cattle. It becomes almost a national concern, demanding the primary attention of the Government, being quite as important as maintaining peace and order in the Presidency. Although the importance of the subject has been admitted on all hands from time to time, I cannot find from the materials at my disposal that either adequate attention has been given to this subject, or suitable provision has been made for its accomplishment. I find that the Government records describe 'the cattle in Bengal as generally poor and under-fed.' The Government publications also show that 'in Bengal pasture is very scanty, where every inch of land grows crops and the cattle have to be content with such scanty herbage as the road-sides, tank-banks and field boundary ridges afford.' That being so, it is singular that the question of providing adequate pasture-lands has not so far engaged the attention of the Government to the extent that its importance deserves. Though something, however little, has been done in recent years by the Government for the encouragement of agricultural education, the attention of the Government towards the improvement of cattle has been directed only recently. The subjects with which the Government appear to be concerned at present are the improvement of the breed of cattle and the establishment of a dairy farm at Rangpur. I think these objects cannot be successfully attained without in the first place making provision for adequate and permanent pasture. To overlook it would mean failure, sure and certain. Moreover, from what I know—or rather knew at one time—I can safely say that pastures on scientific lines are bound to yield a fair return, and they will prove a profitable investment for the Government.

"But we should not look at this important question only from the standpoint of returns. Once the success of permanent pastures is brought home to the millions in Bengal, I have no doubt private enterprise will be attracted

towards them, and it will not only have the effect of improving the cattle and providing food for it throughout the land, but will open up a new channel for the employment of a large number of our youths who at present find great difficulty in finding suitable occupation for themselves, and are on that account discontented and dissatisfied not only with themselves but with everything and everybody.

"Those are objects worth achieving, and financial considerations, although not to be overlooked, should not be allowed to stand in the way. On a persual of the Government publications I find that the Agricultural Department since its start has been hampered for want of funds. Both Mr. Gourlay and the Hon'ble Mr. Cumming when in charge of the Agricultural Department complained about the inadequacy of the funds at their disposal to effect an improvement in the agricultural requirement of the country. I find that, out of the ordinary annual revenue of 5·71½ crores, the Government does not spend more than Rs. 4,00,000 annually on the requirements of this important department in which is included the not very kindred Department of Fisheries. Out of these 4 lakhs, nearly a lakh and-a-half goes towards the salaries of the superior officers and experts, about another lakh in the maintenance of the Veterinary College at Belgachia, and I have no doubt a fairly large amount in the maintenance of the Sabour College of Agriculture now in the province of Bihar and Orissa. If I am right in my estimate, and I believe I am, then what is left for the improvement of cattle and for other pressing requirements of agriculture. It must be an insignificant sum compared to the minimum requirements of agriculture in this Presidency. So far as I can make out, the Government could only allow the sums of Rs. 47,420 in 1910-11 and Rs. 37,230 in 1911-12 to specific agricultural purposes. And the present Financial Statement offers only a sum of Rs. 1,04,500 for purely agricultural requirements, in which is included the sum of nearly Rs. 60,000 for sericulture. Under these circumstances, I think the Government will be well advised to allot the sum of Rs. 5 lakhs out of the discretionary grant towards the objects mentioned in the resolution, so that the Agricultural Department will be enabled in the near future by starting about half a dozen pastures on scientific lines in different places to accomplish an object which is certainly one of the most important that can concern any Government, viz., the prosperity of the people committed to its care, by promoting their interests as they understand them, and which will further have the effect, above and beyond everything else, of conducing to the popularity of the Government with the teeming agricultural population of this province. That is a consummation devoutly to be wished for, and Government has at present the means to accomplish it. Let not this golden opportunity be thrown away. I therefore move the resolution standing in my name."

The Hon'ble MR. KERR said :—

"Since I received notice of the Hon'ble Member's resolution on Saturday last, I have been racking my brains to discover how he proposed to spend 5 lakhs on converting a hundred acres of land into pasture. A hundred acres of suitable land could probably be acquired in most districts for something under Rs. 10,000. So practically what the resolution invites us to do is to spend Rs. 5,000 an acre in laying down land to permanent pasture on scientific lines. Now I have no doubt that for a good deal less than Rs. 5,000 an acre we could provide pasture lands which would enable us to rear as fine and fat a stock of cattle as any in the world, but a hundred acres would not give us more than 50 or 75 cattle at a time, and I fail to understand what good a demonstration costing Rs. 5,000 an acre would do to the ordinary cultivator who cannot afford to spend even Rs. 5 an acre on his scanty pasture land.

"It now appears that the Hon'ble Member's resolution does not really mean what it says, and that what he wants us to do is to spend 5 lakhs on setting apart a hundred acres in half a dozen places for pasture land. The Hon'ble Member complains that the budget is not particularly clear, but his own resolution is admittedly far from clear. If I understand his present proposal aright, we should have about Rs. 80,000 to spend in each district, and

should be able to devote about Rs. 800 an acre to the laying down of fodder crops. I am far from denying that a certain amount of good might possibly be done in this way, but the benefit would be very limited and the expenditure far out of proportion to any permanent results which could be expected. A few score cattle in each district would benefit, but the scheme would not touch thousands of other cattle in the district, for the ordinary raiyat could not be asked to spend Rs. 800 any more than Rs. 5,000 an acre on his pasture lands. The Hon'ble Member says pasture lands laid out on this scale would yield a fair return, but I have very grave doubts about this. In all schemes for agricultural development in this country it must be recollected that it is sheer waste of money to embark on projects which the ordinary cultivator cannot be expected to imitate. Government by lavish distribution of money in limited areas can produce magnificent results ; but such results are useless unless they can be repeated by the millions of small cultivators in the country. It is for this reason that the experiments which have been made from time to time with fodder crops have not come to very much. The most Government can do is to point out a path which it is possible for the cultivator to follow. In matters relating to cattle breeding more especially it is useless to ask the Indian cultivator to follow methods which might be adopted by a capitalist cattle farmer in America.

"At the same time Government has sincere sympathy with the Hon'ble Member's apprehensions as to the growing dearth of grazing grounds in this province and also with his desire to find employment on the soil for his educated fellow countrymen. But a scheme which is economically unsound will never provide employment, and this problem of grazing is essentially an economic one, and as in the case of most economic problems the influence which Government can exert towards its solution is very limited. Waste land is being brought under cultivation simply because the development of the country makes it more profitable for the cultivator to grow crops on the land than to reserve it for grazing purposes. The sale of the crops puts money into his pocket, and he overlooks the deleterious effects on his cattle. It is, however, very difficult, if not impossible, for Government to find a remedy for this state of affairs. Government has no control over the extension of cultivation in ordinary private estates in this province, and legislation giving Government power to enforce the reservation of grazing lands would touch many vested interests and would be attended with grave difficulties, the seriousness which nobody will realise better than the Hon'be Member who is himself a distinguished lawyer as well as a representative of the land-holders in this Council. The problem is indeed no new one, and the Hon'ble Member is mistaken in supposing that it has never engaged the attention of Government. It came under investigation more than twenty years ago, when Sir Charles Elliott summed up the situation in these words : 'Where fodder reserves are wanted, there is no spare land ; and where there is land, no fodder reserves are wanted.' Measures to secure the proper feeding of cattle are in fact almost entirely in the hands of the owners of cattle themselves. It is probable that in time it will come to be realised in this country, as it has already been realised in other countries, which are more advanced from the agricultural point of view, that successful agriculture can only be practised if the farmer looks to the condition of his stock as well as to the growing of his crops. In other words mixed farming in some form or other will have to be adopted. Now mixed farming is one of the objects of the Rangpur scheme which I explained to the Council last week in introducing the agricultural head of the budget. It is hoped for a sum of about half a lakh of rupees to acquire a thousand bighas of land in Rangpur, and to equip it as a mixed farm for dairy and cattle breeding purposes as well as for the growing of ordinary crops. The dairy part of the scheme is expected to yield a profit, and the manure which will be obtained will improve the cultivation of ordinary crops. The scheme is intended to demonstrate to the cultivator that it pays to feed his cattle well and to improve them by careful selection in breeding. I do not claim by any means that the scheme is bound to be a success. There are many difficulties in the way, some of which have been foreseen and others no doubt will only arise

when the project gets into working order. But I do claim that the scheme is worth trying, and that it gives a greater promise of success than the proposal of the Hon'ble Member, in so much as if the Rangpur dairy farm is a success, there is nothing in it which cannot be adopted by the ordinary cultivator or by co-operative societies consisting of ordinary cultivators. I would submit, therefore, to the Council that we should await the results of the comparatively modest Rangpur scheme before adopting a roughly conceived and very expensive project such as that put forward by the Hon'ble Member. There is no fear of the question being lost sight of, but we should do more harm than good by rushing into hasty and unconsidered action. For these reasons, I must oppose the resolution, and perhaps in view of the explanation which has been given, the Hon'ble Member will be willing to withdraw it."

The resolution was then withdrawn.

Expenditure—Head 22—Education.

The Hon'ble Dr. Deba Prasad Sarbadhikari moved the following resolution :—

3. This Council recommends to the Governor in Council—

(*a*) that a non-recurring grant of Rs. 24,000 be provided in the budget for the purpose of granting a special allowance to ten members of the Provincial Educational Service, pending the final consideration of the question of their pay and prospects ; and

(*b*) that the said grant be met out of the non-recurring assignment for discretionary grants (Rs. 12,00,000) shown in page 2 of the amended Draft Financial Statement.

He said:—

"My Lord, this is a small remedial measure in regard to a somewhat long-standing question around which a great deal of hardship has clustered. For the removal of these hardships the question has often been ventilated in this Council, in the Press, and through individual memorials of officers concerned, and we are glad to know and feel that the sympathies of Government have right through been with the long-suffering deserving officers. The grievances of the members of the Provincial Educational Service as it is now constituted have often been admitted, and remedial schemes have been suggested from time to time. However, they have somehow or other failed right at the last moment, and the grievances have just continued on. Some time ago we understood that the Bengal Government had formulated a scheme which had the sanction of the Government of India, and that the Secretary of State had viewed it favourably, and orders were about to be passed. The Public Service Commission in the meantime was appointed, and according to a recent communique the Government of India finds it difficult, although it has some scheme ready, to give effect to the recommendations that had been decided on We quite see and appreciate the difficulties of the position. The Public Service Commission has not been able to take up the question this year. They will probably take it up next year or the year after. Then there will be their report which will go before the Government of India and the Secretary of State, and delay is thus unavoidable. In the meantime, what these people have long been waiting for and have practically been promised will be deferred. I see there is no help for it. My resolution therefore asks that the more deserving senior officers should be given an acting allowance, as a sort of temporary solatium, pending the final determination of the larger question which the Public Service Commission go into. There are certain appointments in the Imperial Educational Service which have long been supposed to be ear-marked for members of the Provincial Educational Service, and these are the appointments to which we are looking forward for the promotion of deserving men from the Subordinate Service. The question is of the "King Charles' head" order, which

has been brought up and sent back often without any result. I have for the time being, therefore, asked that selected members should be given a small acting allowance, amounting to Rs. 24,000, which may well come out of the non-recurring discretionary grant of 12 lakhs of rupees. This sum may without serious objection, I think, be provided for the purpose of giving relief to some deserving officers, pending the determination of the larger question."

The Hon'ble MR. KÜCHLER said :—

"My Lord, I may say at the outset that the Government is in full sympathy with any proposal to improve the status of the Provincial Educational Service. As the Hon'ble Member has himself indicated in the course of his remarks, a scheme for the permanent improvement of that service has long been under consideration. It had certainly been hoped that the proposals which were therein made would have come to fruition by this time. Unfortunately, the consideration of the whole question had to be postponed owing to the appointment of the Public Service Commission. That this was a good and sufficient reason for the postponement of the consideration must be admitted by everyone, and in some ways the fact that the whole question will come under examination by this Commission will be an advantage so far at least as the permanent reorganization of the service is concerned. It is much more likely I think that recommendations which are made by the Commission will be of a complete character, and that they will be carried out in their entirety than if the scheme which has been framed by the Bengal Government and considered by the Government of India had been given effect to. However, the members of the service who had long been looking forward to the attainment of their hopes have been bitterly disappointed by this postponement, and the question arises in what form relief should be given to them, at least to the more senior members on whom the hardship falls more nearly. The Government of India have themselves fully recognized the necessity for some measure of temporary relief, and, as is obvious, temporary relief can only take the form of personal allowances. As soon as it was decided that the Public Service Commission should be appointed to enquire into the conditions, not only of the Provincial Educational Service, but all the services in India, the Government of India came to the conclusion that it would be necessary to give relief to the members of the Provincial Educational Service by the institution of certain number of personal allowances. The matter therefore is at present under consideration. It may perhaps be already under the consideration of the Secretary of State. At any rate, I think that the Hon'ble Member will see the futility of asking this Council to pass a resolution which is only intended to effect what has already been done. It is true that the Hon'ble Member has given specific numbers in his resolution, but I think that the question of details in a matter of this kind must be left to the Executive authority, and the Hon'ble Member has himself implied this. He says that in assigning the number '10' he has only intended the maximum, and in the same way I presume with regard to the value of the individual allowances.

"I would ask, therefore, if the Hon'ble Member would not be satisfied by having this question ventilated in this Council, and whether he would be willing to withdraw the resolution. As a matter of fact, there is no possibility of its being accepted by the Council for other reasons. The Hon ble Member has proposed to make what is in its nature a recurring grant, a charge on a non-recurring allotment. I need hardly say that this is financially impossible, and it would certainly not, even if recommended by Council, be accepted by the Financial Department. Secondly, he has also proposed that this grant should come out of what is called the discretionary grant. Well, unfortunately up to the present moment we are not at all aware as to what amount of discretion will be left to the Local Government in the apportionment of this grant, and that being so, it is clearly impossible for this Council to take out of that grant a sum of money for any specific purpose. On these grounds, my Lord, I very much regret that I must ask the Council to reject this resolution, unless the Hon'ble Member is prepared of his own accord to withdraw it."

The Hon'ble Dr. Deba Prasad Sarbadhikari said :—

"My Lord, if that which is described as discretionary is not really discretionary, as the remark of the Hon'ble Member opposite implies, the Council, or at least the outside members of the Council not 'in the know,' are perfectly helpless. The whole matter is, as I said, discretionary, and appositely enough I thought it might come out of the discretionary grant. As regards its non-recurring character, the reason why I chose that particular shape of grant was that the question was being considered by the Public Service Commission and by the time that we were contemplating another budget we might be able to frame a more definite scheme, and therefore for the time being a non-recurring grant might be useful. For another reason I am glad that I asked that the grant should be non-recurring. By reason of my defective legislative education, I ventured to bring up questions of certain recurring grants relating to the Judicial, Police, Executive and other services, and asked them to be paid out of the Free balance, which we are told can never be touched for purposes like these. For these reasons, my resolutions regarding the Excise, Police, Executive and Judicial and other services had to be ruled out of order. Therefore I am glad that this particular grant had the comparative good fortune of being non-recurring, as it gives me an opportunity of getting a very valuable piece of information which even wild horses could not drag out of the Hon'ble the Director of Public Instruction this morning. In these circumstances, I see the futility of pressing this resolution. As the question is before the Government, and pending the determination of the larger measure some of these long-suffering people whose woes have been admitted by my friend are likely to have some temporary relief of some shape or another, my purpose has been partially won, and in view of this fact, I see no use in pressing this motion. I accordingly beg to withdraw it."

The resolution was then withdrawn.

The Hon'ble Dr. Deba Prasad Sarbadhikari moved the following Resolution :—

1. This Council recommends to the Governor in Council—

(*a*) that a non-recurring additional grant of Rs. 10 lakhs be provided to enable the University of Calcutta—

(*i*) to acquire the market to the south-east of the Senate House,

(*ii*) to help in strengthening the colleges affiliated to it, and

(*iii*) generally, to improve and promote University work ; and

(*b*) that the said grant be met out of the provision of Rs. 24,80,000 entered for expenditure during 1913-14 from the Imperial non-recurring educational grant of Rs. 75,00,000.

He said :—

"The grant of Rs. 10 lakhs asked for is in addition to the amount already provided in the Draft Financial Statement. Since it was presented in this Council, the Hon'ble Sir Harcourt Butler has announced that Rs. 8 lakhs are to be provided for the Calcutta University as a non-recurring grant, and Rs. 15 lakhs are to be provided for the Dacca University as a non-recurring grant, and Rs. 5 lakhs are to be granted to the Dacca University as a recurring grant. It is not open to us to discuss the merits of these grants, and I shall confine my observations to the scope of the Resolution, namely, the needs of the Calcutta University. In emphasizing these needs I put forward the claims of not only what is termed high education in a restricted sense, but of all education, chiefly primary and secondary, for those who firmly believe in filtration downwards in matters educational will not be able to persuade themselves that without a large body of trained men to take the place of teachers, such as sound

University teaching alone can provide, you will not be able to do real and abiding service to the cause of primary and secondary education.

"I therefore invite Your Lordship's Government to supplement the benefactions of the Government of India, for as such we look upon the Rs. 8 lakhs, the gift of which to the Calcutta University has been announced by the Hon'ble Sir Harcourt Butler. If the Calcutta University is to do all the work that it had set to itself, the least that it can do it with would be a non-recurring grant of 32 lakhs and a recurring grant for the present of Rs. 45,000 a year, in addition to the grants already provided. A strong case was made out by the Hon'ble the Vice-Chancellor and the Syndicate in asking the Government of India for a sympathetic treatment of the case last December. The facts and the arguments then adduced hold good in a stronger manner to-day.

"Sir T. Palit has made to the University a princely gift of money and property of the aggregate value of nearly Rs. 15 lakhs for the purpose of founding a College of Science and for the general improvement of scientific and technical education. Welcome as the windfall might appear and undoubtedly is, it has added not a little to the difficulties of the University. Under the terms of the deed of gift, the University is bound to maintain, from the income of the endowment, a Chair of Physics and a Chair of Chemistry, and to institute a Science scholarship; the University is also bound to establish a laboratory for advanced teaching and research, and to contribute towards this object at least Rs. 2½ lakhs out of its own funds. But this sum is quite inadequate for the establishment of a laboratory of the kind contemplated. We are anxious that the fullest advantage should be taken of this unique opportunity of establishing a Residential College of Science in Calcutta, and if the necessary funds are available, the object can be speedily accomplished without any difficulty. The estimated cost of the project is Rs. 15 lakhs.

"The acquisition of the fish market situated to the south of the Senate House and east of the new University buildings is urgently needed for further extension of University buildings. There can also be no doubt that, from a sanitary point of view, the market ought not to be tolerated in its present place immediately to the north of the Medical College Hospital and to the east of the hostels for medical students and University law students. The University has definitely undertaken post-graduate teaching, and there can be no doubt that advanced teaching for M.A., M.Sc., Ph.D. and D.Sc. degrees—for which the time is fully ripe—must be concentrated in Calcutta, so far, at all events, as Western Bengal is concerned. The standard prescribed by the regulations for the degrees of Master and Doctor is too high, and adequate instruction in this respect cannot be expected to be imparted by private colleges, possibly not even by isolated Government colleges, which have to bear the burden of undergraduate teaching. Besides, the difficulty of securing the services of competent teachers for advanced instruction has been found to be so great that M.A. and M.Sc. instruction in several centres is beyond the range of practical politics. Even in Calcutta, the Presidency College, with an exceptionally strong teaching staff and up-to-date equipments, is able to provide for the post-graduate teaching of not more than a very limited number of students in selected groups out of six subjects for the M.A. and M.Sc. Examinations. The affiliation in Geology has not yet been accomplished owing to difficulties that are soon expected to be removed. The anomaly of the Sanskrit College being without M.A. affiliation in Sanskrit, to which I drew attention three years ago, still continues, and the University ought to do the work.

"Under these circumstances, it is not surprising that the arrangements made by the University for post-graduate study have met with striking success. At the present moment, there are over 500 students attending systematic courses of lectures on various M.A. subjects under University Lecturers appointed and paid by the University; and there is reason to believe that their number will substantially increase next session. If

this large body of post-graduate students is to be properly educated and kept under discipline, the question of lecture rooms, seminars and hostel accommodation at once urges itself upon our attention. If the site now occupied by the market were acquired for the University and a substantial grant made for the further extension of the University buildings, the need for which is keenly felt, the question of teaching and residence of post-graduate students would in a great measure be solved. It has been estimated that the acquisition of the market would cost Rs. 8 lakhs, and another Rs. 7 lakhs would be required for the proposed buildings. Proposals for the acquisition of the market have, from time to time, been discussed for several years past in the Bengal Legislative Council and elsewhere : meanwhile, the value of the property has rapidly increased, and further delay would mean further rise in value and payment of a heavier sum as compensation to the owner, unless my friend the Hon'ble Mr. Bompas takes it up as a part of his improvement scheme and makes a gift of it to the University. Immediate acquisition would, therefore, prove to be ultimately economical, since the fish market must be acquired, sooner or later, for educational if not sanitary purposes, situated as it is in the heart of a locality studded on all sides with handsome educational buildings.

"The completion of the University Law College Hostel buildings, towards the erection of which the Government of India have generously made a grant of Rs. 3 lakhs (the land having been acquired by the University for a lakh and a half out of its own funds), is also urgently needed. A grant of one lakh for furniture, fittings and appliances for the 175 students who will be in residence from June next, as well as for the extra cost of construction of the building, is necessary. The recent Government Resolution on Educational Institutions has more than a good word to say in praise of the good work which the Law College has been doing.

"The University Library cannot be properly strengthened for less than a lakh of rupees. And for three additional Chairs in Applied Mathematics, Modern History, and Comparative Philology, a recurring grant of Rs. 45,000 a year would be necessary, with which my present Resolution does not deal.

"The University is entitled to special consideration by reason of the determined and sustained effort it has hitherto successfully made to carry out loyally the reforms contemplated by the Indian Universities Act of 1904. It cannot be disputed that this University has achieved a high measure of success in its endeavour to undertake and promote higher teaching amidst enormous and growing difficulties, and all friends of education venture to express the hope that no Governments concerned will be reluctant to place adequate funds at their disposal to continue, and place on a wide and sound basis the work already begun. We realize of course that, having regard to the other demands, the whole of the needful sum cannot be provided this year. The Government of India has partially met the situation, and we invite your Lordship's Government to do the rest.

The Hon'ble Mr. KÜCHLER said :—

"My Lord, I think we shall all agree with the Hon'ble Member that the University of Calcutta is deserving of our deepest admiration for the work it has done in the past in the sphere of education, and it also deserves our fullest sympathy in the efforts which it is making to increase the scope of its work. I have been associated personally with the University of Calcutta for the past 25 years, and have taken a humble part in promoting the advance of education during that period. I am therefore the last man to ask that recognition should be withheld from the University for the good work which it has done, and I should also be extremely glad if I could assist in any way in securing further funds for the University to enable it to carry out the numerous projects which the Hon'ble Member has referred to in the course of his remarks. However, unfortunately, this is not the question which is before the Council. I am afraid here, again, finance is the stumbling block, and I am not sure whether my hon'ble friend has not got into a worse

financial difficulty at the present occasion than he did in connection with the previous resolution. He has in the first place asked for an assignment of Rs. 10 lakhs out of the total non-recurring grant of Rs. 75 lakhs which has been made by the Government of India. Now, it is perfectly clear from the report of the budget speech in the Imperial Council that the whole of this Rs. 75 lakhs has been absolutely earmarked by the Government of India. The Hon'ble Member has himself told us that according to that earmarking Rs. 8 lakhs had been assigned to the University of Calcutta. I do not quite understand from the Hon'ble Member's remarks whether what he now wishes is an additional Rs. 2 lakhs in order to bring the grant of Rs. 8 lakhs up to Rs. 10 lakhs in all, which he originally desired, or whether he wishes Rs. 10 lakhs in addition to the Rs. 8 lakhs which the Government of India have given. In either case, the principle is the same. It is perfectly clear that we shall not get more, or rather that the University will not get more than Rs. 8 lakhs ; and as the total amount of the Rs. 75 lakhs has been definitely assigned for specific purposes, I do not think it is any use to ask the Council to pass a resolution giving any more than what has been determined on by the Government of India. Although personally, therefore, I should be very glad to see the University get a great deal more, I feel it incumbent upon me to ask the Council to reject this resolution. If the Hon'ble Member was content with Rs 10 lakhs in the first place he probably would not cavil at the amount being reduced to Rs. 8 lakhs, because after all the additional Rs. 2 lakhs will not go very far towards carrying out the numerous projects to which he has referred. If the Hon'ble Member is prepared to accept this, although he has deprecated such a course on my part, I might again ask him to withdraw the resolution which he has now put forward with so much energy. As I have pointed out, there is no use asking for more than Rs. 8 lakhs ; and as the objects to which this grant of Rs. 8 lakhs is to be devoted practically coincide with the objects which the Hon'ble Member has himself enumerated, I think on that ground at least he has no cause to complain. It is indicated with sufficient clearness in the report of the budget debate in the Imperial Council that a greater portion of this grant is intended for the acquisition of a site for the extension of University buildings. I think it is extremely probable that the site which is here intended is the fish market to which he has referred. I fully agree with the Hon'ble Member that the fish market is a most offensive site, and the sooner it is acquired the better for the comfort of the Senators of the University, especially the Syndics, and the better also for the aesthetic appearance of the neighbourhood of College Square. The Hon'ble Member, as he has himself indicated in the course of his remarks, has often had cause to complain of the unsavoury proximity of this site to our meeting places in the University, and I would certainly rejoice with him if it were definitely decided that the money which has been granted by the Government of India is to be specifically assigned for the purpose of acquiring it."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

" Having asked for Rs. 10 lakhs at the outset, and having got the not very unexpected windfall of Rs. 8 lakhs from Delhi, I cannot with any propriety ask for an additional Rs. 10 lakhs. If my hon'ble friend would be good enough to enter into a *Concordat* and give me the additional Rs. 2 lakhs for the present out of such funds as he can lay his hands on, the University may be able to get on for a time. My Lord, I begin to get very anxious and nervous when my friend is very sympathetic, and it strikes me now and again that a little more pronounced antipathy might further our views more than his sympathy does. Of course, it is no use asking for a thing that is sure to be denied, and like the old gentleman whose name is unaccountably believed to have been Hobson, my choice under the circumstances narrated by my " sympathetic " friend is limited to withdrawal or getting the resolution defeated. But as my friend has fully recognized the difficulties and the needs of the situation, and Your Excellency will soon be a personal witness to such needs, we hope that some means will be found to enable the University to carry on its very difficult and delicate work."

The resolution was then withdrawn.

The Hon'ble Dr. Deba Prasad Sarbadhikari moved the following Resolution :—

5. This Council recommends to the Governor in Council—

(*a*) that the following non-recurring grants be provided in the Budget in addition to the sums shown in the Draft Financial Statement under the head 22—Education :—

(*i*) Primary	Education	...	... 1 lakh,
(*ii*) Secondary	ditto	..	... 2 lakhs,
(*iii*) Female	ditto	...	... 1 lakh,
(*iv*) Technical	ditto	...	.. 50 thousand,
(*v*) European	ditto	...	... 20 „
(*vi*) Muhammadan	ditto	...	... 50 „
(*vii*) Hostels		...	... 1 lakh
(*viii*) Training of Teachers		..	... 2 lakhs,
(*ix*) Moral Education		...	... 50 thousand; and

(*b*) that the said grant be met out of the provision of Rs. 24,80,000 entered for expenditure, during 1913-14, from the Imperial non-recurring Educational grant of Rs. 75,00,000.

He said :—

"The case of the different heads for which I suggest larger grants has been strongly made out in the Hon'ble Mr. Küchler's striking and exhaustive speech in introducing the items of expenditure in Council last week. The whole-hearted devotion with which the Hon'ble Mr. Küchler applied himself to his difficult work deservedly won high approbation of all who had any idea of the work, and his difficulties were considerably added to since the recent territorial distribution, in a way that would have taxed the patience of a less strong and capable man. Of this he gave but a passing indication in his opening speech, and we must, in our reasoned imagination, fill in the rest of the picture. Those who know his work and his difficulties must be very sorry to lose him at this most critical stage of the educational history of the province, and our regret must be keener than ordinary, because he will not have the piloting of our affairs in comparatively calmer waters and with augmented resources—for which larger resources we are supremely thankful to the Government of India. Our best wishes will follow him in his retirement, and whoever succeeds him in his delicate and difficult task will have reason to be thankful if he can lay down his office amidst as much approbation as the Hon'ble Mr. Küchler will be doing. His accession to office helped in pouring oil over troubled waters in the service, for he got back to the service what the service justly regarded as its own—the Directorate of the service. It will be no help to the service or to the cause of Education if, for any reason, the waters were again to be similarly troubled. It would be no help to the proper recruiting and manning of the service, if it was to be known abroad that undoubted and admitted claims of deserving members of the service were apt to be sacrificed for no potent and patent reasons. And the utter worthlessness of the service cannot be better demonstrated than by no one being found worthy of directing it. The Hon'ble Mr. Küchler's tenure of the Directorate will be remembered and remarkable as a turning point in this respect and many others.

Under all the heads referred to in my resolution, young Twist is abroad with his annual cry, the Budget provision is too little and increase is necessary all round. Government readily recognizes the justice of the demand—more readily than it used to do in the near past, and fortunately for us its capacity and willingness to help are yearly augmenting. Expansion in all directions and of all descriptions is urgently needed, as the Hon'ble Mr Küchler has detailed ; the chief of our present needs is the improvement of sound secondary education, for we must admit that more than the first step

towards betterment of University education has been taken. The field of recruitment must be improved immediately, and our matriculates have to be immediately and vastly better strengthened if University work is to progress all along the line. Unless secondary education is thoroughly well grounded, and unless particularly the private schools, the life history of many of which is a perfect tragedy, are materially assisted, proper University education will be impossible. My observations have nearly equal application to our girls, for whose improved education much remains to be done, and the basis of education has to be considerably expanded for the merely intellectual basis pursued so far is felt to be too cramped and ineffective. A Government Committee has been appointed to investigate the question of female education, and another has already investigated the question of moral education. The provision I ask for under these heads will be none too extravagant for a great deal of work that requires to be done immediately. Mr. Gould, the agent and demonstrator of the Moral Education League of London, whose methods had complete sanction of the recent International Moral Education Congress at Hague, was invited by the Government of Bombay, and he gave useful assistance to the Government in regard to the work begun there. I ventured to bring his work to the notice of your Excellency's Government, and the Hon'ble Mr. Küchler and the Hon'ble Mr. Nathan, who is on special duty with regard to certain educational questions, were good enough to invite him to come, but he could not do so on account of his other engagements. As the Government has been good enough to extend this recognition to the work of the League, it is to be hoped that Mr. Gould, or some one else in his place, will be able soon to come and help our work. As regards female education, we are ahead or behind the suffragette movement and are in a position to, and do, demand the fullest measures. Paucity or incompleteness of schemes can be no plea to these or the other demands included in the resolution. Our chief difficulty is about the training of teachers, and the work that is being done in our training colleges and schools has to be augmented in a manner much in advance of what the Hon'ble Mr. Küchler has foreshadowed. The hostel grant of previous years has, to a certain extent, been indirectly impaired by the University Institute grant, and this I seek to get repaired by another lakh of rupees being added to what has been provided. We are supremely thankful to Your Lordship's Government for the very material assistance that is to be given to that highly useful and promising institution, the University Institute, and we can never forget Your Lordship's services and those of the Hon'ble Sir William Duke, the Hon'ble Mr. Cumming, the Hon'ble Mr. Küchler and Mr. Gourlay in this concern. In this connection, though not immediately arising of it, we have to express our obligations that the Sahitya Parishad has been conceded some recognition in the Budget; though too little by itself, it will help much in securing enlarged public support. Assembled *literati* of Bengal at Chittagong next week will not fail, I am sure, to take note of and be grateful for this recognition. And what to them will be a greater pleasure, will be to know that in Your Lordship they have a devoted though yet a finished votary of their dearly loved Vernacular, the purity of which they are trying to, and will try to, maintain against threatened inroads. The claims of Muhammadan education at Dacca have been largely recognized, but Muhammadans outside Dacca are quite large in number and importance, and special treatment is undoubtedly necessary to meet their educational requirements. The eloquent words of the Hon'ble the Vice-Chancellor of the Calcutta University at the recent Mohsin Centenary at Hooghly remind us that, but for the vast beneficence of that Prince of men, Muhammadan education of the province would have lagged behind still more. Thanks to that benefaction and continued special treatment, for which I have always advocated, Muhammadan education is making appreciable advance, and, in the satisfactory and promising stage that it has arrived at, it is but meet that some more help should be given. As the Hon'ble Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur, and the Hon'ble Mr. Abul Kasem have got special resolutions on the subject, it is needless for me to retraverse at length grounds that, on previous occasions, I have often taken before the Council. And having regard to the Hon'ble Dr. Nilratan Sarkar's resolution on Female Education, I have

left it to him to elaborate the details of this important problem. The principles of all our resolutions are the same. The details are for Your Excellency's Government to determine. For the proper educational advance of the province it is of supreme importance that all communal interests should be duly correlated, and we feel that the European education question is daily becoming more acute. For the benefit of the community as a whole, it is of the utmost importance that greater public attention should be given to it, for the community itself has undoubtedly done much in this direction. It is of importance that the claims of education should not be under-rated by the domiciled community, and that half-educated people should not get into positions of power and trust and abuse them. They have so far been quick in occupying the field of technical education, such as is given in docks and workshops. It is of importance that the basis of education should be materially strengthened.

"Technical education is daily becoming more popular in Bengal, and a special officer is now attached to the office of the Director of Public Instruction to help in the spread of this work. His hands have to be strengthened, towards which a small extra grant would be a great help.

"And last comes primary education, though first in my list in the resolution. The recent resolution of the Government of India makes it abundantly clear that, though legislation for promoting primary education has been discountenanced, for reasons that will appeal to some as satisfactory, the claims of primary education, upon which His Gracious Majesty the King-Emperor laid deserved stress, will not be neglected or overlooked. The field is vast; the resources are limited. Though fairly large grants have been provided, a little more within the allowable limits would be distinctly welcome.

"These are all well-trodden grounds, regarding which it would be no economy of time to labour. The claims under all these items are conceded, both in the resolution of the Government of India in its bewildering diversity, as well as in the Hon'ble Mr. Küchler's speech. I plead for a little more liberal treatment of the situation. The difficulties about ear-marking by the Government of India ought to disappear on suitable representation."

The Hon'ble MR. KÜCHLER said :—

"I have to thank my hon'ble friend for the friendly remarks which he has made with regard to my work as Director of Public Instruction. My only regret is that, in the face of those enconiums, I have again to oppose the resolution which has been put forward by the Hon'ble Member. But it is not that I am out of sympathy with him, though I hesitate to use this word after what has fallen from him in connection with the previous resolution. It is not that I am out of sympathy with him, but it is purely on technical grounds. As will have been seen from the Budget report of the Government of India, the Imperial grants, as I have already pointed out, have been ear-marked for specific branches of Education, though it has not been announced as yet what assignments under these heads will be given to Bengal. I might just briefly, for the sake of convenience, refer to the totals which are contained in the report of the Budget proceedings. In the first place a grant of Rs. 67 lakhs has been made for hostels. A grant of Rs. 48 lakhs has been made for Universities. This, of course, is for the whole of India. For colleges and secondary schools including training institutions, there is an allotment of Rs. 35 lakhs. Then, again, the Government of India have given Rs. 25 lakhs towards the claims of training institutions, educational, hygiene, gymnasia, play-grounds, swimming baths, reading-rooms, gardens, common rooms, etc. For manual instruction Rs. 7 lakhs have been given, and for girls' schools, technical and special schools, Rs. 25 lakhs, and lastly for European education Rs. 20 lakhs. If we take the recurring grant of Rs. 55 lakhs, Rs. 6 lakhs are being held in reserve, and of the remaining Rs. 49 lakhs, Rs. 6½ lakhs are given to Universities, Rs. 20 lakhs for primary education, Rs. 5 lakhs for girls' education, Rs. 3 lakhs for colleges and training intitutions, Rs. 9 lakhs for secondary and

Rs. 1½ for technical and special education, Rs. 1 lakh for manual training, and Rs. 3 lakhs for European education.

"It will be obvious from what I have read out here that the grants of the Government of India cover practically all the objects which are enumerated in the Hon'ble Member's list, so that it is only a question of how these grants are to be divided.

"It is clear, from the magnitude of the grants which is indicated in the Government of India's announcement, that a far more liberal allotment, if we take the whole of the allotment, will be made than that which is now proposed by the Hon'ble Member, so that I do not think that the Hon'ble Member, in view of these circumstances, should actually press for a smaller allotment than we are likely to get according to the instructions of the Government of India. In any case, I think it is highly objectionable to have a meticulous division made in the Council of a grant of this kind, and a meticulous assignment to individual heads. Such a division would necessarily be embarrassing the Government. For instance, if one lakh is given to one head, it might be found later on that it would be wise to spend Rs. 1½ or Rs. 2 lakhs. I do not think, therefore, that it is advisable or expedient that this Council should definitely, on the information which is at present before it, which practically amounts to very little, make a new division of the grant such as the Hon'ble Member has suggested. Nor, as I have pointed out, is this necessary, in view of the fact that the actual assignments by the Government of India are almost sure to be on a more liberal scale than those which he has himself proposed. I am reluctant to use the old formula, and to ask the Hon'ble Member to withdraw, but at the same time I am perfectly certain that it must have been brought home to him, by what I have now said, that he would have absolutely nothing to lose by withdrawal and everything to gain, and therefore I now make this proposal with more confidence than I did on the former occasion."

The Hon'ble DR. DEBA PRASAD SABADHIKARI said :—

"My Lord, we are not often accused of modesty, but in this case I have been, and I plead guilty. But 'sub-heads of division' are no discovery of my own, however ingeniously I may be inclined. I have simply improved upon the headings which were furnished by my hon'ble friend and I asked for more.

"However, my Lord, if by not asking for more I am likely to get more, having regard to the very persuasive way in which my friend has couched his reasons for withdrawal, I readily withdraw. In doing so, I do not however withdraw the words of encomium which were not a part of what has unfortunately struck my friend as a bargain. In the domains of education at all events, we are not 'petty traders,' and what I have given in this regard I have given freely, though often and bitterly have my friend and I fought on either side of the house here as elsewhere. I wish him god-speed and much better engagement in the retirement to which he will soon be going."

The resolution was then withdrawn.

The PRESIDENT said :—

"I wish to make a statement. We are going through the business fairly rapidly. I should now naturally call upon the mover of the next resolution, but I understand that for certain reasons it will be more convenient if Resolutions 6, 9 and 10 were taken one after the other, and this may take rather longer to discuss than you would care to sit to-day. I shall therefore call on Hon'ble Dr. Nilratan Sarkar to move the Resolution which stands in his name, and I understand that it will be in consonance with the views of Hon'ble Members that after this Resolution is dealt with, we should adjourn till to-morrow."

The Hon'ble Dr. Nilratan Sarkar moved the following Resolution :—

7. This Council recommends to the Governor in Council—

(*a*) that special facilities be provided for the education of the depressed classes, principally at the primary stages, by opening ordinary *patshalas* and schools and establishing night schools, wherever necessary ; and that a sum of Rs. 5,00,000 be earmarked for the purpose ;

(*b*) that special accommodation be provided for students of the above-mentioned classes, wherever necessary, in hostels attached to secondary schools or colleges, and that special stipends, scholarships or prizes be offered to students belonging to such classes ; and

(*c*) that the expenditure which may be incurred for the purpose of giving effect to the above proposals be provided from the lump sum grants made by the Government of India under the head of "Education."

He said :—

"My Lord, it is generally admitted that among the primary rights of citizenship in a civilized State, is the right to receive education. This right supposes a corresponding duty on the part of the State to provide education to its people, and the obligation is all the greater when the people are inarticulate and helpless and cannot, therefore, secure what is but their due.

"It is for such a voiceless and unprogressive section of our people that I plead in this Council. Apart from any other consideration, it is their backwardness that constitutes their first and foremost claim to special treatment at the hands of your Lordship's Government.

"On a modest computation the submerged population that represents the social outcasts of Bengal are about 65 lakhs, or one-seventh of the total population of the Presidency. This large number cannot be said to have any recognized status in society, and only a little over three *per cent.* are literate. Most of them live in a state of chronic poverty, and this, coupled with the serious social disabilities under which they labour, militates against their availing of the existing arrangements for popular education. The schools which are suited to the requirements of the more prosperous and advanced sections of the people, cannot be equally well utilized by the poorer and backward classes, most of whom have to toil for their bread during the day time, and on whom, moreover, the social ban of ostracism sometimes operates too harshly even in schools. These social difficulties become insuperable in hostels, where the members of the so-called lower castes are very seldom the recipient of considerate treatment at the hands of the boys of the higher castes.

"It is education alone that can elevate the social status of the depressed classes. And as Government has of late in a manner committed itself, very properly as I should say, to a policy of affording special facilities in matters of education to comparatively non-progressive sections, it is to be hoped that it will not grudge this boon to the backward communities of Bengal.

"I feel the importance of the question very strongly, as I believe that no nation or race can ever make any real progress when a considerable section of it is left behind."

The Hon'ble Mr. Küchler said :—

"Government has been long alive to the necessity of making some provision for the education of what are called depressed classes. I presume that what the Hon'ble Member intends by this term are the classes that belong to

the very lowest classes of the Hindu social system or are outside the pale of caste altogether, though I must say that in one part of his speech he seems to identify these classes merely with the poorer and backward classes of the community which of course is a much wider term indeed. The problem of dealing with the depressed classes is admittedly a very difficult one. It is not merely a question of poverty, because poverty is not altogether peculiar to the depressed classes, but is shared by a large portion of the general community, and poverty as a matter of fact is not always present in the depressed classes. It is more a question of social ostracism against which they have to contend, and of their general indifference to education altogether. I do not agree, however, with the Hon'ble Member when he contends that there is very great difficulty in the matter of admission of boys of the depressed classes to the primary schools. This has not been my experience in Bengal. The method that we have adopted in Bengal to attract pupils of these classes is either to admit them free or give a capitation grant to the individual gurus, and we have found these methods fairly successful. At the same time, in localities where these classes happened to be settled in fairly large numbers, it has also been our policy to open special schools. I must, therefore, oppose the first part of the Hon'ble Member's resolution, viz., that which is included in section (*a*), and I must also oppose it on other grounds. As usual, the grounds are financial. The Hon'ble Member has asked for a specific allotment. Now in the first place this allotment does not err on the side of modesty, which was the fault that I had to find with the Hon'ble Dr. Sarbadhikari's resolution, but errs on the other side altogether. If the Hon'ble Member will take a note of the amounts which have been assigned by the Government of India to primary education throughout the whole country, he will see that he proposes to take practically the whole of the amount for the education of the depressed classes, if we make a reasonable calculation as to what particular proportion of the whole grant will come to Bengal. I had already indicated in my speech on the Financial Statement that it had been hoped out of Rs. 9 lakhs grant to make provision for the opening of special schools not for the depressed classes only, but for the backward classes and in backward areas. I also indicated there that, though it had not been found possible to make the nine lakhs go far enough for the purpose, the new grants which we were receiving from the Government of India would enable Government to carry out its avowed policy in this respect. I am able to satisfy the Hon'ble Member to this extent that we shall go as far as we possibly can with the funds at our disposal to provide for facilities for the education of the depressed classes ; but it is impossible to accept this resolution which mentions a distinct allotment.

"The same objection, however, does not apply to the second part of this resolution, in that the Hon'ble mover is fortunate enough to escape the pitfall of which other Members have been victims—of mentioning specific assignments, and there is no doubt that the question to which he calls attention in this part of the resolution is one which requires urgent treatment. The great difficulty that the members of the depressed classes experience in utilizing the facilities for education which are open to the whole community is in the matter of hostel accommodation. It is perfectly certain that, in the case of these classes, it is necessary to provide separate hostels, and certain steps have already been taken in this direction, especially in Eastern Bengal. A hostel for 36 Namasudra boys has been built at Jhalakati in the district of Bakarganj. At Pirojpur, in the same district, a Namasudra hostel for 20 boys will be built next year. It is also proposed to erect two other hostels next year, viz., a Rajbansi hostel for 32 boys at Rangpur, and a Yogi hostel for 20 boys at Chittagong. A proposal is under the consideration of the department to form Namasudra hostels at Barisal, Faridpur and Dacca. There is a Mahisya hostel at Dacca, which receives a monthly grant not exceeding Rs. 30. It will be seen from these that Government is already taking steps to provide proper hostel accommodation for boys belonging to the depressed classes. This policy will, of course, be extended with the help of the funds which are now placed at our disposal.

"In exactly the same way special scholarships are now given not expressly for the depressed classes but for a much wider range of boys who are included in what are called the backward classes. These scholarships are open to the depressed classes as well. There is no doubt that, if we had more funds at our disposal, we could do a great deal more in this direction, as we are enabled by the generosity of the Government of India to spend more on education than has been possible in former years. There is not the slightest doubt the Government of India will consent to the allotment of a considerable portion of the Imperial grant for this purpose. The Government is, therefore, quite willing to accept the second and third parts of the resolution, but I would ask the Hon'ble Member, in view of what I have said, to withdraw the first part of his resolution."

The Hon'ble BABU SURENDRA NATH BANERJEE said :—

"May I put a question to the Hon'ble the Director of Public Instruction in connection with the hostel accommodation for the Namasudra boys? The Hon'ble Member has referred to the hostels being established at Chittagong and some other places in Eastern Bengal. But there is a considerable number of Namasudra boys in Calcutta, and, speaking from my own personal experience, we have had very considerable difficulty in getting hostel accommodation for Namasudra boys in Calcutta, and we have been obliged to put them here and there. We had to contend against considerable difficulties. Will the Hon'ble Member be pleased to consider the desirability of affording hostel accommodation for Namasudra boys in the town of Calcutta as part of the general scheme which he has been good enough to sketch."

The Hon'ble MR. KÜCHLER said :—

"There would be no objection to that being done provided the conditions which are to be attached to the Government of India grant permit us to extend these hostels to Calcutta."

The Hon'ble BABU SURENDRA NATH BANERJEE said :—

"I beg to thank the Hon'ble Member for his kind assurance. I will give him a list of the Namasudra boys in the Calcutta colleges and schools."

The Hon'ble MR. KÜCHLER said :—

"I am afraid I shall not be of much help, as my term will expire in a short time. But I am sure the adjudication will be carried out by my successor."

The Hon'ble DR. NILRATAN SARKAR said :—

"My Lord, I am obliged to the Hon'ble Mr. Küchler for his sympathetic attitude, and I hope he will transmit it to his successor before he leaves Calcutta. I readily withdraw the first part of my resolution, and I beg to express my gratitude to the Hon'ble Member for his kind acceptance of the latter part."

The resolution was then put to the vote in the following form and carried :—

This Council recommends to the Governor in Council—

(*a*) that special accommodation be provided for students of the depressed classes, wherever necessary, in hostels attached to secondary schools or Colleges, and that special stipends, scholarships or prizes be offered to students belonging to such classes; and

(*b*) that the expenditure which may be incurred for the purpose of giving effect to the above proposals be provided from the lump sum grants made by the Government of India under the head of "Education."

The Council was then adjourned to Friday, the 14th March, 1913, at 11 A.M.

CALCUTTA, F. G. WIGLEY,

The 22nd March, 1913. *Secy. to the Bengal Legislative Council*

Abstract of the Proceedings of the Bengal Legislative Council assembled under the provisions of the Indian Councils Acts, 1861, 1892, and 1909, and the Government of India Act, 1912.

THE REVISED FINANCIAL STATEMENT, 1913-14.

The Hon'ble Nawab Saiyid, Nawab Ali Chaudhuri, Khan Bahadur, moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a substantial sum out of the provision of Rs. 24,80,000 entered for expenditure during 1913-14 from the Imperial non-recurring Educational grant of Rs. 75.00,000 be applied—

(*i*) towards providing better facilities for the education of Muhammadan boys in existing colleges, schools and madrasas, and

(*ii*) towards starting new educational institutions with similar facilities in centres of Muhammadan population ; and

(*b*) that a fair and reasonable amount out of the recurring educational grant (Rs. 13.20,000) be appropriated in that behalf.

He said :—

MY LORD,

It is with a sense of gratitude that I express my thanks to the Government for the very substantial recognition of the prior claims of education in the Presidency. Throughout the Presidency if there is any feeling above all, it is that of genuine appreciation for the large provision in the Educational Budget of the coming year. Nobody more sincerely wishes it than myself that with this provision, better facilities for education will be provided for the people. the educational machineries of the State will be largely strengthened and permanent improvements will be made in all directions. It is the duty of all of us to offer help in this cause, and my object in moving the resolution now before the Council is merely by way of still more furthering it, so that the benefits may penetrate deeper and deeper to reach all sections of the people. Past experience will instruct us that it is possible that a section of the people will not get full and proportionate advantage which the Government offers to all. If on the judgment of facts it is accepted that a portion could not and cannot take its share in the educational advantages, the legislature and the executive should co-operate to find a remedy for it.

I confess I speak this with not a little grief, that after more than half a century, during which time the Government has been making such strenuous efforts to spread the light of Western knowledge and culture all over the country, the Muhammadans have not yet been able to bring themselves up to the normal level. In spite of the fact that all the enlightenment and life-giving forces, which have followed British rule, have concentrated in Bengal, they have not been able to take full advantage of the greatest blessing of the British rule. Is it not lamentable to consider that a large section of the people is still plunged in ignorance after half a century of vigorous efforts to forward the work of education? My Lord, it is idle to lay the blame on one party or the other. We cannot ignore facts as they are and must find some solution of the problem, however complicated it may be.

My Lord, this all-embracing question should not be postponed for long. Better facilities must be given to the Muhammadans if we want the Muhammadans to prosper. We do not desire the Government to depart from its recognised principle. We are not wanting anything new. All authorities have constantly pressed the claims of Muhammadan Education for special consideration. The Education Commission, the most representative body that ever investigated the entire problem of education in India, after making a careful and exhaustive enquiry into the subject, clearly grasped the situation and formulated the following recommendations for the encouragement of Muhammadan Education :—

1. That the special encouragement of Muhammadan Education be regarded as a legitimate charge on Local, Municipal and Provincial Funds.

2. That indigenous Muhammadan schools be liberally encouraged to add purely secular subjects to their course of instruction.

3. That in localities where Muhammadans form a fair proportion of the population, provision be made in middle and high schools, maintained from Public Funds, for imparting instructions in the Hindustani and the Persian languages.

4. That higher education for Muhammadans, being the kind of education in which that community needs special help, be liberally encouraged.

5. That where necessary, a graduated system of special scholarships for Muhammadans be established to be awarded (*a*) in primary schools and tenable in middle schools, (*b*) in middle schools and tenable in high schools, (*c*) on the result of the Matriculation and the First Arts Examination and tenable in colleges.

6. That in all classes of schools, maintained from public funds, a certain proportion of free studentships be expressly reserved for Muhammadan students.

7. That, where necessary, normal schools or classes for the training of the Muhammadan teachers be established.

The Government of India, in its Resolution No. $\frac{10}{809}$, Home Department, dated the 23rd October, 1884, which adopts almost every one of the suggestions and recommendations made by the Education Commission, thought it desirable to give the Muhammadans in some respects exceptional assistance, "in view of the backward condition into which in some Provinces the members of that community have fallen."

My Lord, a quarter of a century has passed since the time, and we must pause to take stock of the exceptional assistance and special help that have been offered to the Muhammadans. Every member of the community is grateful for these expressions of facts and for kind words of help. But it is unfortunately too true that, though initial steps were taken, the remedy was not proportioned to the gravity of the disease in extent as well as in efficacy. Full effect has not been given to the recommendations of the Education Commission indicated above. And what is the situation to-day? It was in 1871 that the then Lieutenant-Governor in a minute said that the Muhammadans were not fairly treated in Bengal in regard to the educational machinery: and although much has been done by the Government in various ways to remove many just causes for such a complaint, much yet remains to be done and the necessity for help to our community is no less pressing now than it was forty years ago. The leaders and the representatives of the Muhammadan community have pressed the question on the Government from time to time. The reports of the Muhammadan Provincial Educational conferences and the District Educational conferences in past years will afford sufficient testimony to this assertion. The Muhammadan deputation that waited on His Excellency Lord Hardinge on the 31st January 1912, at Dacca, very strongly represented their case. Their claims, among others, were—

"(1) That special allotments be made by the Education Department, the Local, District and Municipal Boards for the furtherance of Muhammadan education.

(2) That in the localities largely inhabited by Muhammadans schools be established and aided with adequate grants.

(3) That hostels for Muhammadan students be provided where there may be a demand for such institutions.

(4) That till such time as the Muhammadans do not come up to the level of the Hindus in the matter of education, a large separate allotment be made for Muhammadan education and be utilised in giving special scholarships to deserving Muhammadan boys in providing free seats in hostels, in remission of tuition fees to poor Muhammadan students and in such other directions in which special facilities for Muhammadans may be considered necessary." In reply, the Viceroy was pleased to hold out hopes to the Muhammadans. Even the Hindu deputation, headed by Dr. Ghosh, that waited on His Excellency Lord Hardinge in Calcutta on the 16th February, 1912, in connection with the proposed University at Dacca, had the frankness to concede that "the whole province will welcome the grant of special facilities for the spread of education among the Muhammadans in the shape of endowments and a more liberal award of scholarships. The reply by His Excellency was full of hopes for us. His Excellency was pleased to reply:—

"It may, as you suggest, be necessary to give special facilities to Muhammadans. The inadequate arrangement for the collegiate instruction of Muhammadans was emphasised by the Vice-Chancellor in his address to Convocation in 1909. I can only say that any proposal to this end, which the new Governor of Bengal may take, will receive the sympathetic consideration of the Government of India."

My Lord, these are the pronouncements and opinions from high quarters. They have raised high hopes in the bosom of every Mussalman in the Presidency and I venture to say that all are anxiously waiting for the decision to-day.

The Muhammadans, who form more than 50 per cent. of the total population, by virtue of their numerical strength, have a claim upon the Government. To them the Government owes a duty which it would be wise not to ignore. The Muhammadans have never grudged any help to others. Between 1899 and 1909, the Government has spent about sixty-two lakhs of rupees from the Provincial Fund only for higher collegiate education direct. The total number of Muhammadan students that received instructions in these years in college classes was only 5,114 against the grand total of 91,858. In other words, the Muhammadans have received barely 6 per cent. of the total advantages. They do not murmur that others have wholly received the major part of the benefits from public funds. What they want is that now they have surpassed the inherent difficulty to move along an unaccustomed path and their boys are coming to the doors of the university and the schools, no artificial cause should block their path. They now want a fair chance and a free field. Year after year the demand for higher collegiate education is becoming keener and keener among them. The question is not now one of demand but of supply. We have not adequate means to meet the demand. Muhammadan students are refused admission owing to want of accommodation in existing institutions. They cannot defray their expenses which, under the New University regulations, are growing higher and higher. They are to compete with their brethren who have been flocking to the academic doors for two generations, and there we find all the necessary results when two competitors of different degrees of strength meet in the same arena. When in accordance with the policy laid down in the Despatch of 1854, which was reaffirmed in 1859, the University was established in Calcutta and there was an unprecedented growth of schools and colleges. There was no necessity for fifty years to change the system of education, residence or discipline of students. The University has only to-day laid down rules restricting admissions in educational institutions and at the time the Muhammadans have begun to come to the doors of the University, the new regulations have proved very much against them. Last year, a large number of Muhammadan students was refused admission from the Presidency College and the Madrasa hostels. This is the situation in Calcutta and the situation in mufassal is no better. Muhammadan students are refused admission into many schools in Bengal. In their thirst for knowledge, they have to put up with physical discomforts of almost every description before they can gain admission to any educational institution and to pass days and nights in insanitary and wretched surroundings. My Lord, it is not difficult to imagine what the consequences might be of such a system.

I would like to turn the attention of the Council to another phase of this problem. "Too Late" has always been imprinted on the back of the Muhammadans, and while to-day, throughout the Presidency, there has been an unprecedented demand for more technical, industrial and professional education, the Muhammadans have not yet passed the stage even to make the nearest approach to it At a time when they will do so, the story of "Too Late" will be repeated again. My Lord, since 1899 to 1909, the total number of students in the professional colleges was 22,511 or 2,200 on an average a year, while the total number of Muhammadan students is only 919 or 91 on an average a year. On closer scrutiny, we find that there has been an appreciable decrease in the number of Muhammadan students in technical and professional institutions.

In 1899, the number of students was 82. There was a steady rise year after year till in 1904-05 it was 116. After that the figures go down till in 1907-08 the figure reaches 65. My Lord, it is a serious state of affairs for a community and I hope we must take timely note of it. I have not the actual figures with me, but it is a fact that in the Medical College the Muhammadan students mostly hail from Bihar. It is, therefore, incumbent on us to take such means that Muhammadan students from this Presidency can join the professional colleges in greater numbers.

My Lord, it may strike one as strange that with increased number of Muhammadan undergraduates, there has been a marked fall in the number of students in the technical and professional colleges. The keynote to this is

the fact that the educational expenses are very high in the professional and technical lines and Muhammadan students are mostly poor.

In secondary and primary schools, though the percentage of Muhammadan students is a little hopeful in the lower classes, yet it strikes every cautious mind to find that in the higher classes the number gradually dwindles down —a fact which has been noted by successive Directors. It is high time that we must devise adequate means to remedy this state of afiairs or else the future will be very gloomy.

My Lord, I have said that the new regulations of the University, which have put restrictions in the number of admission into all educational institutions, have caused great hardships in the way of Muhammadan students. I do not for a moment mean that the new regulations are not beneficial or not desirable. They are necessities of efficiency in education ; but if, along with it, we do not start more institutions, it would cause disaster to the community. It is therefore incumbent on the Government that in centres of Muhammadan population, new educational institutions should be immediately started with better facilities for Muhammadans, if Muhammadan Education is not to starve in these places. We must at the same time offer better facilities to Muhammadans in the existing institutions. It is notorious that Muhammadan students are not attracted to aided and private institutions owing to want of provision for teaching Persian and Arabic, and we must liberally strengthen the hands of the school authorities that they may appoint Persian and Arabic teachers to attract Muhammadan students thereto.

My Lord, I am conscious of the fact that the only effort that is likely to succeed is ultimately that of people themselves. But the present practice of asking the public to defray two-thirds of the expenses in establishing educational institutions has not the desirable result among the Muhammadans. and I believe, it is high time that the practice should be changed for a better one.

My Lord, without trespassing into the domain of controversial politics, I hope I will be pardoned if I make a passing reference to the inestimable blessing that the Government of Eastern Bengal and Assam brought to the people of that portion of the Presidency, where the Muhammadans form the majority of the population. Throughout the land there were signs of new life and vigour as the outcome of educational overhauling that underwent therein. No language can be more glowing than the words of Lord Hardinge himself when His Excellency bore eloquent tribute to the good work done in matters educational by the Government of Eastern Bengal and Assam. In reply to the Dacca Univesity deputation, His Excellency said that since 1906 the Province made great strides forward. "In that year there were 1,698 collegiate students in Eastern Bengal and Assam and the expenditure on collegiate education was Rs. 1,54,358. To-day with the same number of institutions the corresponding figures are 2,580 students and Rs. 3,83,619. Nor has the improvement been confined to colleges Educational courses and schemes were formed with reference to local conditions. From 1905-11, the number of pupils in public schools rose from 699,051 to 936,653, and the expenditure rose from Rs. 11,96,510 to Rs. 22,05,330, while the local expenditure direct and indirect rose from Rs. 47,91,833 to Rs. 73,05,260."

My Lord, the Muhammadans, who form the majority of the population, consequently received an increased attention and the number of Muhammadan scholars rose from 368,396 males in 1905-06 to 460,768 in 1908-09, and from 29,974 to 60,999 females. In spite of the fact that there were such rapid strides, the want was only partially met ; and year after year the Muhammadans had to ask for a more adequate recognition of the demand. My Lord, is it not only natural that the Muhammadans would now urge for forwarding the work already begun? Throughout the Presidency, there remains the same demand, the same necessity still exists. I would say that the necessity is increasing day by day, and I hope the Government will not turn a deaf ear to the persistent demand on the part of the Muhammadans.

I have said enough as to the necessity of accepting the resolution before us. It is not in violation of the recognised principle and policy of the Government. Government spends a large amount specially for European education in Bengal and between 1899 and 1909, about thirty-five lacs of rupees have been devoted for the purpose from the Provincial Fund. But my resolution merely wants new educational institutions in centres of Muhammadan population. It wants grant of money to bring about reforms in the existing Madrasas and Maktabs and to start new ones wherever there seems to be any demand. It demands facilities in the shape of hostels, stipends, new colleges, schools, remission of fees and in such other ways as the Government may think it proper and necessary.

In asking for this I need not make any apology. It is so little to give and so much to receive that I hope the Government will be pleased to accept it. My Lord, of late there has been much talk of special treatment and special privileges. We do not want here any such thing. We do not want that the Government should educate us more than others. We do not want to enjoy the loaves and fishes of anything. But, my Lord, we have a right to have ourselves educated as much as others. If the existing organisation and arrangement cannot educate us, we have a right to ask for adjusting the machineries in accordance with our needs. That is never a special treatment. Change of method is not the change of principle.

My Lord, a new era has begun in Indian life and thought. His Majesty the King-Emperor has sent to all the message of Hope. The words in the gracious reply of His Imperial Majesty the King-Emperor in response to the address presented by the University of Calcutta are still ringing in our ears. They are inscribed in letters of gold in every Indian mind. His Imperial Majesty says to us :— "Six years ago I sent from England to India a message of sympathy. To-day, in India, I give to India the watchword of Hope. On every side, I trace the signs and stirrings of new life. Education has given you hope, and through better and higher education you will build up higher and better hopes." With full confidence, therefore, I bring the resolution before the Council in the firm faith that the Hon'ble Members present will be fully alive to the needs of my community and that the Government will be true to its past pledges. With these words, I commend the resolution to the Council and hope it will meet with their whole-hearted acceptance.

The Hon'ble Mr. Küchler said :—

My Lord, there is fortunately no financial objection to this resolution, as the Hon'ble Member has not asked for the allotment of any specific sum, but has merely asked for a substantial contribution from the Imperial grant which is being made for the general purpose of education. Moreover, the resolution, as will be noticed, is couched in general terms, and these terms are in entire accord with the policy which has been laid down by the Education Commission in 1884 towards Muhammadan Education, and which I take it has been consistently followed by Government ever since. There can be no objection, therefore, on the part of Government to the acceptance of this resolution by the Council. It is necessary, however, that I should say a few words to make the position of Government clear with regard to this matter. The Hon'ble Member, I am glad to say, is not unmindful of the liberal assistance which has been given by Government in the past towards Muhammadan education, but I regret very much that the same recognition has not always been forthcoming in the numerous representations which have been made to Government on the subject by representative Muhammadan public bodies, and by representative Muhammadan newspapers. It is desirable therefore that I should indicate very briefly what has been done by Government in the past, and what Government is doing at the present moment in the way of providing better facilities for the education of Muhammadan boys. Especially is this useful with a view to ascertaining in what direction it will be possible and desirable to give further assistance in future. I do not think I can do better in this connection than to take the heads

of Education enunciated by the Education Commission which made its pronouncement in 1884. and I propose therefore to run briefly through these heads, and to see what has been done already, and what can be done in the future. The first head is of a general nature, and the adoption of the resolution by the Council will practically endorse the recommendation which was made by the Commission.

The second head shows that indigenous Muhammadan schools should be liberally encouraged to add purely secular subjects to their course of instruction. This will enable me to say a few words about special Muhammadan institutions, because it is institutions of this class which are referred to in this particular recommendation. Now, in the year 1908, an important reform of Madrasa education was sanctioned by Government. Under that scheme of reform an improved staff and curriculum for the Hooghly and Calcutta Madrasas were sanctioned, and this reform involved a very considerable cost to Government. Almost all the recommendations, which were made by the Committee which dealt with the matter, previously to its being submitted to Government, have now been carried out and I think I may safely say that these two institutions have very materially benefited by the reforms which were then introduced. Over and above this, proposals were sanctioned for increased grants-in-aid to both senior and junior Madrasas throughout the western province. In a great number of cases, increased grants-in-aid have, in accordance with these recommendations, been made to the various Madrasas, but it has been up to date of course impossible to carry out in its entirety the whole scheme because the execution of the scheme depended largely upon the amount of assistance which was forthcoming from the Muhammadan community itself. In a very large number of instances, I am glad to say, the Muhammadan community has been extremely liberal in supplementing the contributions which have been made by Government, but, in some cases, it has not yet been possible to bring the junior and senior Madrasas up to the pitch of efficiency which it is hoped they will ultimately attain. In Eastern Bengal, nothing has yet been done as far as the Government resolution is concerned to effect a scheme of reform for Madrasa education, but at the same time, as is well known to the Muhammadan gentlemen present, an important conference dealt with this question a year or so ago. The recommendations made by that conference were ready for submission to Government, but in the meantime a modification had become essential owing to the scheme which had been proposed for the introduction of a department of Islamic studies in connection with the Dacca University. That scheme necessitated a slight change in the proposals which were then made. I am glad to say, however, that the subject has since then been further considered, and I think there will not be very much greater delay in giving effect to the recommendations as subsequently modified which were made by the Education Committee. This scheme, if carried into effect, will cost a very large sum of money indeed, and I think that there is no doubt it will be adopted by Government, and Government in adopting it will show, as it has always shown, I maintain, its readiness to give every facility and every assistance to the cause of Muhammadan Education.

Another class of indigenous institution, which was dealt with by the Committee in Eastern Bengal, was that of Maktabs, and it was decided by this Committee, and the recommendation of the Committee was subsequently accepted by Government that these Maktabs should receive special grants-in-aid in addition to those which were ordinarily given by district boards. Since these recommendations were given effect to, a large number of Maktabs in Western Bengal have received assistance under the new grant-in-aid system and at the present moment an annual sum of Rs. 55,000 is being spent in this way. In Eastern Bengal, the conference which dealt with the whole question of Muhammadan Education came to the conclusion that while Maktabs were entitled to special assistance, no special curriculum except in so far as there should be a slight simplification of that adopted in primary schools should be introduced. The recommendations of this Committee have not yet been given effect to, but they will be given effect to and the grants which have now been made by the Imperial Government will enable us to give very considerable extra assistance to the teachers of these institutions.

Another special reform which was introduced in Western Bengal was that in connection with the training of Muhammadan teachers and this, as will be seen, forms the substance of head No. 7 of the recommendations of the Education Commission, viz., that where necessary normal schools or classes for the training of Muhammadan teachers should be established. Such institutions in the case of primary school teachers, which are called mainji training schools, have been introduced in the western divisions of Bengal. But the same conference, to which I have already referred, which sat in Eastern Bengal, came to the conclusion that special arrangements were not necessary nor desirable in Eastern Bengal and it was not therefore proposed to take any steps with regard to Maktabs and primary schools for Muhammadans in that part of the Province.

The next head of the recommendations made by the Education Commission is to the effect that in localities, where Muhammadans form a fair proportion of the population, provision from public funds should be made for imparting instruction in Hindustani and Persian languages. This matter was already dealt with yesterday in a question which was asked in Council, and I have little to add to the reply which was then made by the Hon'ble Mr. Kerr. It has always been the policy of Government to provide instruction in High and Middle schools throughout the province in Persian, Arabic and Urdu, where there is a clear demand for such instruction, but I do not think that it can be expected that Government should provide teachers in these subjects where it is obvious that there is no need for them and if they were supplied no pupils would be forthcoming. Many reasons have been advanced why it is that pupils in our schools in Eastern Bengal prefer to take up, in a large number of cases, Sanskrit instead of Persian or Arabic for the Matriculation examination. But I think there is no doubt that one of the reasons which have been mentioned to me is the chief reason, and that is that the examination for the Matriculation in Persian and Arabic is rather a stiff examination and the pupils of Eastern Bengal schools find it easier to pass in Sanskrit; and this is not the only reason. We must remember that Bengali is the vernacular of the Muhammadans certainly in Eastern Bengal and practically of the greater part of them in West Bengal. That being so, it is less difficult for them to go on afterwards with a classical language like Sanskrit than it is with Persian specially when it is combined with Arabic, as their vernacular, viz., Bengali, leads them naturally to the study of Sanskrit. I consider that this reason is a sound one. I consider also that it is a reason which really accounts in great part for the very curious fact that there is so little demand for Persian in a large number of schools throughout the province, I can only repeat that where any such demand is represented to the Department of Public Instruction, the Director has always been willing and will be willing in future to meet the wishes of the Muhammadan community.

The next head of the recommendations of the Education Commission is that higher education for Muhammadans, being the kind of education in which they need special help should be liberally encouraged. The particular kind of encouragement, *i.e.*, the particular form in which that encouragement should be given would probably be in the main through the institutions of scholarships and stipends. I will deal with that presently, because the subject of scholarship forms the next head of the recommendation. But there is another way of course, in which the higher education of Muhammadans, by which I take it education in our colleges is understood can also be fostered and facilitated, and that is by the provision of an adequate amount of hostel accommodation. It has long been a demand on the part of the Muhammadan community that increased hostel accommodation should be provided for them in connection with higher education in colleges. Though no doubt the supply has not yet overtaken the demand, I may fairly say that Government have been liberal in their attempts to meet the wants of the Muhammadan community in this respect.

In one of the resolutions, which will be moved presently—I may perhaps be excused for referring to it now—the need of a Muhammadan hostel in the

neighbourhood of College Square is especially referred to. In this connection I may point out that in the vicinity of College Square we have already the Elliot and the Baker Hostels, and there are 95 seats in the Baker Hostel and 125 in the Elliot Hostel. Well, it was found this year that the accommodation is insufficient to meet the demands on the part of the Muhammadan student community, and a project has been sanctioned for an extension of the Baker Hostel at a cost of Rs. 91,000. When this project is completed, which it will be in the course of the coming year, it will be possible to provide for 60 more students. This will of course relieve a small number, but in addition to this measure of relief, further relief will be afforded by a condition which has been laid down by Government in connection with the grants-in-aid which have been made from the Imperial allotment to private colleges. It has been stipulated in the case of the City, Bangabasi and Ripon Colleges which have a large number of Muhammadan students reading in them that a fifth of the seats provided in the new hostels which will be financed from Imperial grant should be reserved for Muhammadans. It has also been recommended to a number of other colleges that a similar reservation should be made. Though I am not prepared to say that the additional accommodation which will thus be provided will meet all the wants of the student community, I think we may fairly expect that a very considerable measure of relief will be afforded thereby. I do not think that it can be said that Government has been at all illiberal in the measures which it has taken to give relief in this respect.

Before I pass on to the next head, I should also say that with regard to the two lakhs grant which was made in the present financial year by the Imperial Government for the provision of hostels outside Calcutta and Dacca, the greater portion has this year been assigned to Muhammadan hostels, so that I do not think that here in this case there is any cause for complaint on the part of the Muhammadan community.

Now I pass on to the fifth head of the recommendations of the Education Commission, viz., that where necessary a graduated system of special scholarships for Muhammadans be established in primary schools and middle class schools. Well, in this connection I should like to point out what is the provision of scholarships which at present obtains for Muhammadan students or for Muhammadan pupils in schools. There is naturally a difference which has not yet been abolished between the provision that has been made in the Eastern Bengal and Western Bengal Divisions, and I am compelled therefore to take these parts of the Province separately. There are six special junior scholarships and eight special senior scholarships in Western Bengal besides the two Madrasa scholarships. In addition to that, I should mention that 35 students are admitted every year to the Presidency College at a reduced fee of Rs. 2, and I am glad that it presents me an opportunity of correcting a statement which crops up repeatedly notwithstanding the contradictions which have been made of late that the cost of this reduction of fees is met from the Mohsin Fund. It is not met from the Mohsin Fund, but it is met from Provincial funds, and although I have stated this on many occasions, I always find that the same mistake steadily recurs. The Mohsin Fund is a fund which of course affords great benefits to the Muhammadan community, but it has been my painful duty to warn the members of the Muhammadan community that it is not an elastic fund and the present impression seems to be that the Mohsin Fund can cover the expenditure of a perfectly indefinite kind. Unfortunately, on the contrary, we have now reached the limits to which the Mohsin Fund can be extended, simply for this reason that the demands on the part of the Muhammadan community for increased education have so largely increased.

The reduction of fees which is made in the Presidency College is financed from Provincial revenues, and I think that the Muhammadan community ought to acknowledge this. It is a very important privilege which is given to the Muhammadan community, because not only are the fees remitted in the case of these students, but they are given the first right of admission to the Presidency College and the same criteria for admission are not enforced in their case as are enforced in the case of other students of colleges.

Passing now, to Eastern Bengal, we find still more liberal provision of scholarships which is only natural of course, because the proportion of the Muhammadan population is much greater there than in the Western Bengal. There are 20 junior college scholarships of Rs 10 each and 6 senior college scholarships of Rs. 10 and 6 also for Rs. 15. There are, moreover, 5 Engineering scholarships of the value of Rs. 10, 3 Law Scholarships of the value of Rs. 10 and 1 post-graduate scholarship of the value of Rs. 30 available for both Muhammadan and backward classes in Eastern Bengal and Assam; besides these there are scholarships which are granted from endowment funds given by private individuals. Passing to other classes of scholarships, and taking first of all the high and middle schools throughout the Province, I would call attention to the free studentships which are here granted. The free studentships are granted up to the limit of 13 per cent. of the school population (exclusive of scholarship-holders and time-expired scholars) of which 8 per cent. are reserved for Muhammadan boys. Here, too, therefore, we have a very liberal allotment in favour especially of the Muhammadan schoolboys. Besides these, in Eastern Bengal, we have given 17 Middle English School scholarships of the value of Rs. 4 each and 24 Upper Primary scholarships of the value of Rs. 3 each. No special provision of this kind has been made for Western Bengal, but if the conditions attached to the Government of India grant permit, these scholarships might well be extended to Western Bengal, and over and above this Government is perfectly prepared to recommend an even larger provision.

I may point out that the great difficulty in the way of the Muhammadan community availing themselves of the facilities of education which are open to others is their universal poverty. Their extreme poverty prevents them from taking advantage of the opportunities open to others, and the only way to get rid of the difficulty is by making a fair provision for scholarships and free studentships. At the same time, the Muhammadan community must bear in mind that this can only be a temporary measure. As the Muhammadan community advances in education, it may be presumed that it will also advance in material prosperity, and as it advances in material prosperity the necessity for giving temporary relief in this form must gradually disappear. Not only will the parents and guardians be then able to pay the necessary fees, but the richer members of the community will, it is hoped, as they have done in the past, give endowments for providing scholarships for the benefit of the poorer members of their own community.

My Lord, I have already dealt with the sixth head of the recommendations of the Education Commission, viz., that in all schools maintained from public funds a certain number of free studentships be expressly reserved for Muhammadan students as also with the seventh, that where necessary normal schools or classes for the training of Muhammadan teachers be established.

I think that what I have said above fairly covers the heads to which the Hon'ble Member himself referred in his own speech. He has, however, specially mentioned the case of establishing new schools in centres of Muhammadan population. Well, whether it is a centre of Muhammadan population or it is a centre of Hindu population, it has always been the recognized policy of Government to establish such schools, where there is a decided demand for them and where the local community is itself willing to co-operate. In this connection the Hon'ble Member has called attention to what he considers—of the two-thirds rule—that two-thirds of the total cost should always be met by the local community themselves. But this rule, though it is a general rule, has been relaxed on occasions, and there is no reason why in special circumstances, it should not be relaxed in future. The relaxations, however, cannot be very numerous, for this simple reason that the demands for education are extremely numerous. As we wish to extend, as far as possible, the benefits of any grants that provincial revenues afford, it is obvious that we ought to be able to depend, to a large extent, on the assistance provided by the people themselves. However, in special cases, this two-thirds rule has been relaxed and especially so lately in connection with the Imperial grants which have been given for the purpose of erecting hostels.

I need perhaps say no more on the subject. I have tried to show clearly what is the position which Government takes in the matter, and as I have already intimated that Government will offer no objection to the acceptance of this resolution on the part of the Council, it is not necessary for me to say more than that no apprehension need have been felt on the part of the Muhammadan community that their claims would be neglected, if they had read the remark made by the Hon'ble Sir Harcourt Butler in his speech at Delhi in connection with the Imperial Budget. He there states that the Government of India are about to address the Local Governments on the question of encouraging Muhammadan education generally, and they have no doubt that Local Governments in distributing grants will make provision for special Muhammadan education, and elsewhere in his speech he says that out of the recurring of fifty-five lakhs out of the income of the ensuing year six lakhs is held in reserve for requirements such as the proposal for the development of Oriental studies and Muhammadan education.

I think that this is an ample assurance and the Muhammadan community need therefore feel no fear that their claims are likely to be neglected.

The HON'BLE DR. SARBADHIKARI said :—

In spite of assured victory for this resolution, I desire to associate myself with the principles of the demand contained in it. The educational question is looming larger every year and much of the time the Council has been given to the ventilation of this question. So that in the course of the year following suggestions of Hon'ble Members might be considered and given effect to as far as possible. Time was when a very few number of Members used to take part in this question, but their number is gradually increasing, which is to my mind a hopeful sign, and it is some relief to the Education representative on your Excellency's Council, on whom the bulk of the work used to fall in former years. In the five years that I have been a Member of the Council, the Education grants have nearly doubled from thirty-six lakhs (a figure with which I started when I joined the Council), we are now close upon sixty lakhs. The Muhammadan community has no doubt participated proportionately in this increase, but in spite of such proportionate increase of Educational facilities all round, Hindu Members have always ungrudgingly recognized and still recognize that in order that Muhammadan education may be put on a par with the needs of the community and the country, special provision is necessary. As the Hon'ble Mr. Küchler has pointed out, such treatment has not been withheld in the past, but I feel that enough has not been done in this direction, because the people belonging to the community who yet take advantage of education facilities are poor as in our community. I do not subscribe wholly to my friend's proposition that the Muhammadans are as a class poor. I do not know that Hindus are very much better off, but it is undoubtedly a fact that the richer classes of the Muhammadans do not yet come forward to avail themselves of the education facilities to the extent that the poorer classes do, because the question of facilities for earning a livelihood is unfortunately still associated with this question. Therefore it is right and necessary that special facilities should continue to be given to this community. I must frankly admit that I have heard it for the first time that it is not out of the Mohsin Fund that some of the special facilities of which we have often heard are given to the Muhammadan community. I acknowledge my ignorance. And I do not complain of what has been done by Government for specially advancing the cause of Muhammadan Education in this connection, but I think that more has to be done. So far as special facilities of another kind are concerned, I am afraid that we must make it clear that they cannot be always granted. So far Muhammadan education and the Islamic studies are concerned, they will no doubt continue to receive attention, but as far as higher and collegiate education is concerned, they must be on the same scale and on the same terms—conditions that obtain in the case of members of the other communities, except of course, in the matter of free studentships and scholarships to which reference has already been made.

The real difficulty of the situation, my Lord, arose out of the abolition of the college classes of the Madrasa some time ago. Some very fine products of that Madrasa are present with us here to-day and elsewhere. For a time the demand for that education fell off and the result was that the classes were abolished and the few Muhammadan students that then cared for collegiate education were drafted on to the other colleges. There is absolutely no reason why the Madrasa should not be restored to greater vigour, and the restored College classes should be able to combine with European culture and Islamic studies, as has been done in the Sanskrit College. This is a view that has found acceptance in some quarters. I should have liked to bring up a question like this in connection with the general resolution which has been placed before the Council, but I do not wish to strike a discordant note. I am glad that it is going to be accepted. But I trust Government will carefully reconsider the question of restoring the Madrasa College classes. The result of that will be to afford relief to the other colleges and there will be more effective and greater co-ordination of studies among the Muhammadans themselves.

With regard to this resolution I should like to correct the Hon'ble Member who has moved this resolution with reference to his remark regarding the University regulations. He is himself a member of the University and he should have been aware that, under regulations, up to now there has not been any practical difficulty. The Syndicate has been able to arrange that no student *bonâ fide* requiring instruction should go without it. Accommodation has been found for all in our colleges heretofore under special concession terms. The Government of India, however, deprecate such concessions and in the immediate future college accommodation will cease to be equal to the demand. College accommodation must therefore be increased all round and not alone for the benefit of Muhammadan students.

Then, with regard to the question of Arabic and Persian teachers, it is not a fact that the authorities are unwilling to provide them, but the difficulty is that teachers of the proper stamp are not available. We have some teachers who do not know English and, under the University regulations, they cannot be employed for collegiate work or advanced school work, although they may be quite capable of conducting Madrasa classes or Maktabs. That has been a real difficulty in providing teachers for Arabic and Persian. This has been a difficulty with which the University and the Educational advisers of Government have been trying to combat in the past. It is to be hoped that in the colleges and schools better Arabic and Persian teaching facilities should be given and then this difficulty should disappear; but English-knowing Persian scholars will readily find employment on assured terms elsewhere, and do not much care for the Educational Service. That adds to the difficulty of the situation.

With regard to the suggestion that because the examination in Persian and Arabic for the Matriculation is stiff, few students take up these subjects as their second language.

I do not know that this view is well founded. Those who are taking Sanskrit as their second language in preference to Arabic and Persian must have begun their studies quite early in life, or else they never could have taken it up. Sanskrit is not an easy language; it is just as difficult as, if not more than, Arabic and Persian, and what has been suggested by my Hon'ble friend is not the real solution of the question. The Hon'ble Mr. Küchler has referred to Muhammadan hostels in the neighbourhood of the College Square, the Elliott Hostel and the Baker Hostel. Mr. Küchler and I have often gone land-hunting in Calcutta for these Hostels, and he might have known by this time that the Baker and Elliot Hostels are not in the neighbourhood of College Square, but in the neighbourhood of Wellesley Square.

The HON'BLE MR. KÜCHLER :—

I don't know what you mean by neighbourhood.

The HON'BLE MR. SARBADHIKARI said :—

Well, I mean about a mile or so away, if not the better part of a couple of miles. I do not know whether it is desirable to take our Muhammadan students away from the neighbourhood of Taltolla where Muhammadans of light and leading, who can benefit Muhammadan students by being in touch with them, congregate and bring them right in the midst of pure Hindu influence of College Square. That is a matter upon which I do not presume to offer an opinion. But if the Muhammadan students of the Ripon College are to be accommodated in close proximity to their colleges, I am afraid there must be some sort of hostel accommodation for them in the neighbourhood of those colleges of the kind suggested by the Hon'ble Maulvi Abul Kasem whom the Hon'ble Mr. Küchler seeks to answer in advance.

The HON'BLE NAWAB SAIYID HOSSAM HAIDER CHAUDHURI KHAN BAHADUR said :—

My Lord, I beg to support the resolution moved by my Hon'ble friend Nawab Saiyid Nawab Ali Chaudhuri. The resolution speaks for itself and has been ably put. There appears to be an awakening among the Muhammadans and a real desire to avail themselves of the benefit of Western education, but unfortunately their circumstances stand in their way. No doubt the Government has shown a great concern in the welfare of its Muhammadan subjects and made some concessions in their favour, for which the Government is entitled to the thanks of our community, but all that has been done is not adequate to the demand. We therefore hope that the Government will be pleased to see its way to give further facilities to the Muhammadan students by making a more liberal grant in the matter of their education.

THE HON'BLE BABU SURENDRA NATH BANERJI said :—

I feel perhaps that I ought not to give a silent vote on this resolution. Speaking on my own behalf, as well as on behalf of my Hindu colleagues, I may say at once that we feel the deepest possible sympathy with the aspirations of our Muhammadan fellow countrymen to obtain greater facilities in the matter of education. We have advanced a great deal beyond them, for the simple reason that we have made greater educational progress than they have done. The Muhammadan community has now begun to realise its deficiency and a great movement for the foundation of a Muhammadan University has stimulated, deepened and quickened the desire of the Muhammadan community to make still further progress in the matter of education, and it is one of the healthiest signs of the times that their progress has been very substantial within the last two or three years. Speaking from my experience of the Ripon College, with which I happen to be associated, I find that in the course of the last three years the number of Muhammadan students has more than doubled itself. Three years back the percentage of Muhammadan students in the Ripon College was 4 as compared to the Hindus ; two years back it was 7. This year it is 10 per cent. of the entire contingent of Hindu students. What is true of the Ripon College is probably true of all the other colleges, and therefore there is a distinct forward movement in respect of education on the part of the Muhammadan community, and I desire, my Lord to say once again that we Hindus feel the deepest sympathy for our Muhammadan fellow countrymen in their aspirations for greater facilities in the matter of education. I cannot, I am afraid, see eye to eye with my friend on my left that there should be a special Muhammadan college for the education of

Muhammadans, or that special Muhammadan institutions should be strengthened for the benefit of Muhammadans. I am opposed to all sectarian institutions to all-classes institutions. I believe that in the sacred temple of learning all distinctions of race, colour and creed should be forgotten, that Hindus, Muhammadans and Christians should take their seats with each other, cultivate the acquaintance of each other, associate with each other and cultivate that fellow-feeling which I think is of the greatest possible importance to a mixed community like ours. We have a large number of Muhammadan students in Ripon College. They are on the best terms with the Hindu students, a feeling of friendliness of created mutual understanding is promoted, solidarity of feeling is fostered. All that is helpful to the greater unity of the two communities upon which the best prospects of India depend so largely is promoted and therefore we feel all the deepest possible sympathy with Muhammadan aspirations in the matter of education. I totally dissociate myself from any attempt made on the part of anybody, no matter who he may be, no matter how highly placed he may be, to establish sectarian institutions based upon considerations of creed, race or colour.

The HON'BLE NAWAB SYED SHAMS-UL-HUDA said :—

I want to say just a few words in support of the present resolution. From my own personal knowledge of the matter I could have said a great deal, but I do not do so for two reasons. First, that the Government has already accepted my Hon'ble friend's resolution, and, secondly, I am afraid that I may mix up my views as a Muhammadan with the views which may be held by this Government. The Muhammadans realise what has been done in the past and are grateful for it. But at the same time I confess I have found, wherever I have gone, that there still exist large demands in connection with Muhammadan Education which it is probably difficult even for Government fully to satisfy.

As regards one matter which has been referred to by the Hon'ble Mr. Küchler, I wish to say a word. In making the grant for hostels to colleges, we have made it a condition in certain instances that a certain number of seats should be reserved for Muhammadan boys. I wish here to state that this condition was not one which was forced by Government on the authorities of these colleges. As a matter of fact, Hon'ble Babu Surendra Nath Banerji for the Ripon College and the Principal of the City College both agreed and volunteered to make provision for Muhammadan boys in their hostels. That is a circumstance which is probably not known to the Muhammadans themselves, but I think it my duty to state it.

The resolution was then put to the vote and agreed to.

The HON'BLE MAULVI ABUL KASEM moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a sum of rupees two lakhs be applied for the building of a hostel for Muhammadan boys in the vicinity of College Square in Calcutta ; and

(*b*) that a sum of rupees three lakhs be applied for the establishment of hostels for Muhammadan boys outside Calcutta and Dacca ; and

(*c*) that the above expenditure be met out of the provision of Rs. 24,80,000 entered for expenditure during 1913-14 from the Imperial non-recurring educational grant of Rs. 75,00,000.

My Lord, after the observations which have fallen from the Hon'ble the Director of Public Instruction in connection with and in support of the resolution moved by my Hon'ble friend the Nawab of Dhanbari, I feel great diffidence in moving the resolutions which stand in my name, and in asking

this Council to accept them, and if I venture to do so, it is simply because I feel it my duty to place before your Excellency's Government and this Council the needs and the wants of the Muhammadan community with regard to educational facilities. The Hon'ble Mr. Küchler has dealt with the whole question of Muhammadan education and we are deeply grateful to him for his sympathy for the aspirations of the Muhammadan community and for the assurance given that, as in the past so in the future, the Musalmans will receive every assistance from Government for their education. The Muhammandans, my Lord, in the beginning, had some apprehensions about giving their sons high education on occidental lines, and they did not take advantage of the opportunities placed before them by the Government with the result that they lost the position they once occupied and the influence they exercised. And from affluence they were reduced to a state of abject poverty and penury.

The Musalmans, my Lord, have paid the penalty for their apathy to and neglect of high education and western culture. But the lessons of the past have not been lost upon them. They now feel and feel it keenly that education and education alone is the means not only for their progress and advancement but for their very existence as a community. They are now as much eager to give their boys education as the members of any other community. But, my Lord, to their cost, they find that they have realised the situation rather too late. They have now not the means with which to educate their children. When the Muhammadan boys turn their eyes to high schools and colleges they find that high education has become more costly than ever. My Lord, we have always acknowledged and are deeply grateful to the Government for the sympathy, support and help we have received for the advancement and progress of education among Muhammadans. The question of Muhammadan education has been engaging the attention of the Government now for many years, and it is a matter of the gravest concern to the community. The Hon'ble Nawab Sayid Shams-ul-Huda has remarked that in his tour he has found that the wants of the Muhammadans are such that it would be impracticable for the Government to meet them. The demand which I put forward on behalf of the community in these resolutions are not of that nature nor are they extravagant and unreasonable. The Musalmans, my Lord, form the majority of the population in this presidency. And their progress and their advancement depend entirely upon educational facilities they receive from Government. My Lord, my Hindu fellow-countrymen at any rate the leaders of Hindu public opinion in Bengal, have always expressed their sympathy with the demands of the Muhammadans for educational facilities. They have extended their hand of help to us in our endeavours to spread education among Musalmans. We are deeply grateful to them for their sympathy with our aspirations. I am sure, my Lord, that if your Excellency's Government grant the facilities which I now ask on behalf, and for the members, of my community, the action of the Government will receive the approbation of Hindus and Musalmans alike. In this resolution, my Lord, I ask for the establishment of hostels for Muhammadan boys in Calcutta and in the mufassal. The necessity of Muhammadan hostels is admitted on all hands. The Madrasah hostels can accommodate only a limited number of our boys and a very large number of our students have to shift for themselves. They live in private messes without discipline and proper care, in insanitary surroundings, independent of all control, and this has an injurious effect on the health, the education, the morals and the future career of these young men. From a statement published by the Muhammadan students last year it appears that about 100 boys in Calcutta failed to obtain accommodation not only in hostels but even in private messes. Probably they had to leave Calcutta and many of them must have been obliged to give up their studies. I am glad to learn, my Lord that authorities of the Ripon and City Colleges have voluntarily offered to provide accommodation for Muhammadan boys in their college hostels and that some other private colleges have been asked by Government to make such provision as a condition for the grant of their hostel buildings. This, my Lord, will no doubt accommolate some Muhammadan boys, but it cannot provide room for all the Moslem

college boys in Calcutta. A good many of them will have to hunt for messes; and again there are the students of the Presidency, Law and Medical Colleges for whom no provision is being made. Besides, my Lord, it is necessary that Musalman college students should so far as practicable live at one place. Under the present circumstances no religious instructions can be given in our colleges. We attach great importance to that branch of education and we will have to supplement the college education by a system of religious and moral education in our hostels. There are at present about 700 Muhammadan college students in Calcutta, and their number is gradually increasing; there is accommodation in the Madrasah hostels for about 140 boys, and private colleges will probably make room for 160 more, so that accommodation will be wanted for about 400 students. Now the question arises as to where should the hostel be located. I suggest the vicinity of College Square. The Presidency and other colleges which have large number of Muhammadan students are all situated in the neighbourhood of College Square. The Madrasah hostels are at a distance of nearly two miles from these colleges. The students have to walk this distance immediately after their morning meals, which affects their health and causes an unnecessary loss of time. Under the present University regulations, college boys are taught in groups, and generally there is an interval of two hours or more between lecture hours; and Musalman boys living at a distance cannot utilise this leisure to any advantage as their Hindu brethren do. They cannot take advantage of the University and college libraries, and the lectures of the University Professors and readers, and other facilities provided by the University.

As regards Muhammadan hostels outside Calcutta and Dacca no words of mine are necessary to commend them to your Excellency's Government. I am glad to know that a good portion of last year's grant has been spent for Muhammadan hostels, but I would draw the attention of the Hon'ble the Director of Public Instruction to the fact that in the Burdwan Division except the Mohsin Hostel at Chinsura there is not a single hostel for Muhammadan boys.

Large sums have been granted for the building of hostels in Calcutta and in mufassal, and this additional 75 lakhs have been granted by the Government of India for education, and I humbly submit, my Lord, that it is fair and reasonable that a small amount out of this should be applied for the building of hostels for Muhammadan boys in and out of Calcutta.

The Muhammadans on account of their poverty find it difficult to provide accommodation for their boys at centres of education, and whenever they are able to get such accommodation, they feel the necessity and lack of sufficient control and supervision over boys who have to live out of home for their education. In our public schools and colleges which are non-sectarian the sort of religious education which Muhammadans want and feel it necessary for their boys cannot be imparted, and therefore we want to supplement secular education by a system of moral and religious training given at these hostels and boarding-houses to be established for Muhammadan boys.

We in the Burdwan Division have tried for some years past to get a hostel established at some of the centres of education, but so far we have failed to succeed. I hope that if the Government comes forward with a substantial help, the local Muhammadan community will not fail to respond to a call of duty and contribute as far as their means would permit towards the building of these hotels. With the assured sympathy and support of our Hindu fellow-countrymen, I think the Government will find no difficulty in making provisions for the building of hostels.

The Hon'ble MR. KÜCHLER said :—

My Lord, my chief objection to the resolution which has been put forward by the Hon'ble mover is that he mentions specific allotments in connection with his proposals. Now we all know, as I have already pointed out, that a very considerable sum has been given by the Government of India for the purpose of erecting new hostels in Bengal, but we do not know what are

the conditions attached to this grant. Even, however, if we had full information on this point, it would obviously be inexpedient for this Council, on the insufficient data at their disposal, to prescribe any definite sums for the construction of hostels for particular communities or in particular places. I think it is only reasonable that we should ask Hon'ble Members who support projects of this kind to leave the details in the hands of the executive. I have given in the name of Government the assurance that the claims of the Muhammadan community will be fully considered in the apportionment of this grant, and I do not think that it would be advisable at this stage to do any more. I am perfectly certain in any case that Government would never accept a resolution of this kind which ties its hands, especially in the absence of any information from the Government of India as to what are the exact conditions attached to the hostel grant. I think it would be only reasonable, I must say, if the Hon'ble Member would accept the assurance that has been given that these grants which are likely to be very large will be distributed in a fair way and that the claims of the Muhammadans to a fair share in them will be fully considered. In illustration of this, I have pointed out that, with regard to the grants which have already been made, the Muhammadans have actually got a share to which the other communities, if they had been inclined to be captious, might reasonably have taken exception, but they have not done so. and I think therefore that Muhammadans ought perhaps not to make specific demands, but to be content with the general assurance which has now been given.

As regards the hostel in the vicinity of College Square, I may say that at the present moment, I have a perfectly open mind on the subject. I mean it is simply a question of principle. I do not think I possibly can in this Council give an assurance on the recommendation of the Hon'ble Member that such a hostel should be erected. The Hon'ble Member has mentioned that complaints are made of the distance of the present hostels—the Baker and Elliot Hostels from the colleges in Calcutta. Well, I must say that I have never heard such a complaint, nor do I accept the very liberal estimate which has been given of the distance to Wellesley Square from College Square. I certainly think it is very considerably under two miles. At any rate. I have always understood—and this is certainly the view which has been brought to my attention—that it is the wish of the Muhammadan community that the Baker and Elliot Hostels should be extended, and that no Government hostel in any other place should be erected, and in a way the Hon'ble Member himself has, in the course of his remarks, rather supported this view because he has called attention to the necessity of Muhammadan institutions being all together in one place. If however we build one of them in Wellesley Square and another in College Square, I do not see how we can secure that object, the desirability of which he himself has called attention to. Under these circumstances I am compelled, on the part of Government, to oppose the acceptance of this resolution and I still hope that the Hon'ble Member, on the strength of what has been said, will see his way to withdraw it.

* * *

The Hon'ble MAULVI ABUL KASEM said :—

After the observations which have fallen from the Hon'ble Director of Public Instruction, I beg to withdraw my resolution, and, in doing so, I have to make only one observation, and that is, that I am glad to learn that the Director of Public Instruction is open to conviction about the establishment of hostels in the vicinity of College Square.

The Resolution was then withdrawn.

The Hon'ble MAULVI ABUL KASEM said:—

My Lord, with your Excellency's permission, I beg to move that—

This Council recommends to the Governor in Council—

(*a*) that a sum of rupees two lakhs be set apart for the grant of scholarships to Muhammadan boys ;

(*b*) that a further sum of a lakh of rupees be applied for the teaching of Arabic, Persian and Urdu in colleges, as well as in secondary and high schools ; and

(*c*) that the above expenditure be met out of the sum of Rs. 13,20,000 (recurring grant under the head "22—Education").

My Lord, as this question of Muhammadan scholarships has been dealt with by the Hon'ble the Director of Public Instruction in his observations, I do not think it necessary to add much to it.

That the Muhammadans were admittedly a poor people, and the Hon'ble Mr. Küchler had himself remarked that the real difficulty of the Muhammadans was their poverty. The little progress Muhammadan education has made is due to a large extent to the scholarships and stipends granted to Moslem boys out of the Mohsin Fund, but the fund, as has been just remarked, is not elastic, and it cannot meet the wants of the increasing number of Moslem students or to further advance and spread education among Muhammadans. The Government considered the situation, and during the administration of Sir Rivers Thompson a few scholarships were created for Moslem boys. This has greatly helped the poor struggling students, but since 1887 no steps have been taken to give them any further assistance, although the number has since then largely increased and is growing.

The Mohsin and Government scholarships have greatly helped the spread and advance of Muhammadan education in this province, and I think that this Council and the Hon'ble Mr. Küchler will agree with me that the number of these scholarships is quite insufficient for the large and increasing number of Muhammadan students that come up for education. As he has himself stated, the real difficulty in regard to Muhammadans failing to take advantage of public institutions is their very great poverty, and to meet that it is necessary that scholarships should be provided on a liberal scale for the education of Muhammadan boys. There will be some difficulty, but I hope the Government will take into consideration the question of creating special scholarships for Muhammadan boys in order to provide greater facilities for Muhammadan education. The scholarships so far created concern college students and so far nothing has been done for Moslem boys in primary and secondary schools which are the feeders of high schools and colleges. I hope the creation of special stipends for these students will receive the consideration of the Education Department of the Government of Bengal.

In reply to my question I was told that Government was not aware that the teaching of Arabic, Persian and Urdu was defective, and that it had received no complaints about it. The Muhammadan Educational Conferences and other representative bodies have from time to time drawn public attention to this matter.

There are no maulvis in any schools and colleges and in others ill-paid and not fully qualified teachers are employed. They cannot be expected to, and do not, perform their duties satisfactorily. Large numbers of Muhammadan students are obliged to take up Sanskrit as their second language. This has an injurious and demoralising effect on the general well-being of the community. It is true that of late the examinations in Arabic and Persian have become more stiff, but that is not the reason for the Muhammadan boys taking Sanskrit. The fact is that in the early part of their education they get no facilities for learning Urdu and Persian, and so have to learn Sanskrit and the allied languages. The number of Government schools is very small, the greater portion of our boys receive their education in private institutions, and my humble suggestion is that for the encouragement of Muhammadan education, Government should apply a portion of the recurring grant for the purpose of an additional grant to aided, and as subsidy to unaided, institutions in order to enable them to make proper provision for the teaching of these languages.

Some provision has no doubt been made in Government schools for the teaching of these languages, but the number of Government schools are very small in this province and a large number of students receive their education in private institutions which may or may not care to engage teachers in Persian, Arabic or Urdu. Even in Government institutions the arrangements, my Lord, are insufficient. In high schools only one teacher is engaged ; he has to take up ten classes, and it is simply impossible for him to do the work satisfactorily. In private institutions there is an apology for a teacher of Arabic and Persian who has to live on the pittance which the school authorities care to pay. It was stated yesterday that private institutions, if they wanted help for the maintenance of a teaching staff in these languages, may apply for Government aid, but it is not in the interests of these institutions to apply for such aid ; it is for the Muhammadan community to see that sufficient facilities are provided for the teaching of these languages. Even in Calcutta itself there are many colleges where there is no such person as a teacher of Arabic, Persian and Urdu, and these colleges are not going to ask Government for any special aid. I appeal to Government and to the Director of Public Instruction to enquire where there is a large number of Muhammadan students, or a probability of Muhammadan students coming to the schools and colleges, and to come forward with some sort of subsidy or help to these private institutions for the teaching of Persian, Arabic and Urdu. So far as our Muhammadan community is concerned, I believe the Muhammadan Educational Conferences have from time to time drawn the attention of Government to the defective teaching of Arabic, Persian, and Urdu in our schools. There is no doubt that the examinations in Persian and Arabic have become of late rather stiff, but that is not the only reason, and perhaps not the real reason, why some Muhammadan students have taken up Sanskrit in the early stages of their studies. It is not for lack of desire to learn Arabic, Urdu and Persian that they have failed to take up those languages ; but it is the lack of facilities for doing so that has forced them to turn to Bengali and Sanskrit.

With these few words I beg to move my resolution.

The Hon'ble MR. KÜCHLER said :—

I hoped from the preliminary remarks that the Hon'ble Member made that he was going to withdraw his resolution, but to judge from the conclusion of his speech he evidently wishes to press it.

It will be impossible to fix a specific sum for scholarships. I have already dealt fully with the question of scholarship in my remarks on the resolution of the Hon'ble Nawab Saiyid Nawab Ali Chaudhuri. I do not think it is necessary here to cover the same ground again. I have already stated there that the Government is prepared to make still further grants in the way of securing a greater number of scholarships for the boys of the Muhammadan community, and I think that under the circumstances this ought to suffice.

With regard to the teaching of Arabic and Persian in our schools, I did not refer merely to Government schools, because it is one of the conditions of our grants-in-aid that instruction should be provided in such subjects as are required by the conditions of the locality. Of course this alone will not be very much by itself unless Government at the same time contributes to the pay of the teachers. Government is prepared to do so, and I do not think for a moment that schools will be reluctant to entertain teachers in these subjects, if there is a demand on the part of the local community to have instructions on these subjects. It will be in the interests of school authorities to do so. If there is a demand on the part of the local people for teaching in these subjects and if Government is prepared at the same time to give a grant-in-aid in that direction, it is difficult to understand why such teachers should not be appointed. The Hon'ble Dr. Sarvadhikari has referred to the difficulty of getting trained teachers on these subjects who are sufficiently acquainted

with English and can thus fulfil the demand made by the University that no teacher should be appointed for these subjects who does not know English. But I do not think that this difficulty is so great as is imagined. The University of Calcutta, though it has insisted on a knowledge of the English language, has relaxed this condition in favour of the old school of maulvis who do not know English at all. I do not think that that is the real difficulty which lies in the way of teaching Arabic and Persian in our schools. But before taking the step suggested by the Hon'ble mover of this resolution, Government must be assured that there is some special reason for it.

The Hon'ble BABU SURENDRA NATH BANERJI said :—

My Lord, I quite agree with the Hon'ble the Director of Public Instruction that we ought not to hamper these resolutions with specific allotments of money. It is for us from our place in this Council Chamber to formulate our demands and if these demands are accepted by the Government, it is for the Government to find money and to draw out the scheme that it may think fit. We lay down principles, and it is for the Government to give effect to these principles. That I conceive to be our function here. But, my Lord, while agreeing so far with the Director of Public Instruction in regard to this part of the contention, I must be permitted to repeat that the stand made by my Hon'ble friend Maulvi Abul Kasem to the effect that much remains to be done in the direction for the improvement of the instruction of Arabic and Persian is a resonable one. My Lord, I happen to be associated with a college in which we teach Persian and Arabic. We find great difficulty in getting good maulvis. We can get maulvis—very good maulvis—but the difficulty arises when we cannot get maulvis of the right sort who know English and can coach boys on passing the University examinations. This has been referred to by my Hon'ble friend Dr. Sarvadhikari. This is a matter in regard to which there is a complaint—and a well-founded complaint—and it does seem to me that it is the duty of the Government and the Director of Public Instruction and the department over which he presides to inquire into the complaint. The complaint is that it is the duty of those who are in charge of the education work to see and to take such measure as would ensure and would facilitate teaching of these subjects in our institutions. And I fully associate myself with my Hon'ble friend Maulvi Abul Kasem, so far as this part of the resolution is concerned.

The Hon'ble MAULVI ABUL KASEM said :—

My Lord, after the observations that have been made by the Hon'ble the Director of Public Instruction, I beg to withdraw my resolution. The Hon'ble the Director of Public Instruction has said in the course of his remarks that there is not sufficient local demand for instruction in Arabic and Persian, or the school authorities would, in their own interest, find it profitable to appoint qualified teachers for those subjects But, my Lord, that is not the case. The majority of the boys in our colleges are Hindus and take up Sanskrit. And for the few Muhammadan boys the school authorities do not like to go into the expense of appointing good Persian or Arabic teachers. They can easily afford to do away with those boys than appoint a teacher for Persian and Arabic.

With these words, my Lord, I beg to withdraw the resolution.

Before resolution No. 8 which stood in the name of the Hon'ble Dr. Nilratan Sarkar was moved, the Hon'ble Babu Ananda Chandra Ray said :—

My Lord, I want to move an amendment to this resolution, before it is taken up.

The PRESIDENT said:—

I do not think you can move an amendment before the original resolution is moved.

The Hon'ble DR. NILRATAN SARKAR said :—

My Lord, with your Excellency's permission, I will move the resolution in a slightly amended form, *i.e.*, I want to substitute for the words "sum of not less than Rs. 1,00,000" the words "definite allotment be made."

The Hon'ble BABU ANANDA CHANDRA RAY said :—

I also wanted to make that slight alteration.

The PRESIDENT said :—

It has already been done.

The Hon'ble BABU ANANDA CHANDRA RAY said :—

I wanted to make it convenient for those who are manipulating the funds for the Government and not to tie their hands with the proposal of a specific allotment. I hope that my Hon'ble friend will accept my amendment for the substitution of the word "substantial" for "definite."

The PRESIDENT said :—

We cannot do it now.

The Hon'ble BABU ANANDA CHANDRA RAY said :—

My Lord, we have already made a definite statement regarding the increase of girls' schools. But trained teachers are needed. We find that a great deal of interest is taken in female education now in urban areas where there are a number of Indians. We also find that during the last five years a great deal of improvement has been done in Eastern Bengal and Assam, where the number of educational institutions for girls has been doubled. But still we want more. And we cannot get the improvement unless we set apart a large amount for this work.

The PRESIDENT said :—

As far as I can see what the Hon'ble Member wishes to do is to make a slight amendment in form, and as it would not vitally affect the resolution, the amendment may be allowed.

The Hon'ble DR. NILRATAN SARKAR then moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a definite allotment be made for female education in urban areas, principally for the establishment for girls' schools in localities where the same are needed, and also for the establishment of at least three additional higher class girls' schools, including preferably at least one seminary in Calcutta ; and

(*b*) that the initial expenditure on buildings and equipment and the above-mentioned grant be met from the recurring grant by the Government of India for Education (Rs. 13,20,000)

He said :—

My Lord, in moving this resolution I must first acknowledge with grateful thanks the beneficent efforts of Government towards the furtherance of female education in the province. My only justification for bringing forward this resolution is the large inadequacy of institutions for the very large numbers of girls of school-going age even in Calcutta. Whereas there are in this city some 50 high schools for boys affiliated to the University providing accommodation for about 25,000 students, there are only 11 schools of the same standard for girls—that can accommodate only about 2,000 pupils (about 1,000 of whom are Indian) out of about 43,000 girls of the school-going age.

After making due allowance for the fact that the number of girls of school-going age in Calcutta is less than half that of boys, as also for the general backwardness of ideas in regard to female education, it may be safely stated that for at least 5 per cent. of the total number or over 2,000 girls of school-going age, there is a real demand for education in high schools, whereas there is provision for only about 1,000.

Outside Calcutta, again, there are over 250,000 girls of school-going age in municipal areas for whom there is practically no opportunity for obtaining higher education excepting such as is afforded by the three high schools in the Eastern districts. It is time therefore that greater impetus should be given to female education in the province.

As regards Calcutta, the Director of Public Instruction in his last report states that the "upper classes of girls' high schools are beginning to attract more pupils, and though fees have in some cases been raised parents have shown no great opposition to the enhancement." I may be permitted to observe that though girls' education in this country has got only education for its end, it is making rapid strides in Indian homes—indeed it has become a necessity in the Indian society. It is possible now to enlist the co-operation of a large number of people of the Indian community, who until recently were quite apathetic towards the furtherance of female education.

The system of early marriage, another obstacle to education, is gradually disappearing on account of radical changes in the social and economic conditions of the country. Our conservatism is happily breaking down before the manifold liberalising influences that are now at work in India. In fact, many belonging to the middle classes strongly feel the want of seminaries where their grown-up daughters, yet unmarried on account of pecuniary difficulties, may find a suitable home and proper training. If high schools and seminaries be opened at this opportune moment under trained female teachers who alone can make female education more acceptable to my countrymen, the success of such institutions is almost guaranteed. According to a high authority one of the obstacles that hinders the furtherance of female education in Bengal is the want of State aid and aid from other public funds. And it is my earnest hope that this will be removed by your Excellency's Government.

The Hon'ble Mr. Küchler said :—

My Lord, as the resolution is now amended, the objection which I would otherwise have made to it disappears. At the same time, I must still point out that it is yet possible that there may be conditions in the Government of India grant which would prevent the recommendations made by the Council being carried out, even if the resolution is accepted by the Council. However, with this proviso, I am quite prepared to accept the resolution, that a definite allotment be made for female education in urban areas. We must, however, remember that there are a number of other branches of female education which have equal claims to our funds. I have already indicated this in my speech in introducing the financial statement, when I was speaking of the grant of Rs. 1,07,000 already made by the Government of India, *i.e.*, that the money should be distributed amongst various heads, such as the provision of training colleges and training schools for teachers, the provision of inspecting

agencies and the assignment of larger grants-in-aid not only for schools in urban area but for the far greater number of schools which we find in rural areas. It is obvious therefore that if we take the grant that has been assigned by the Government of India for the whole of India, viz., 5 lakhs, of which probably not much more than 1 lakh will be allotted to Bengal, we find that we could not transfer the whole amount as was originally proposed in the resolution to female education in urban areas, but with the new sums that will be placed at our disposal, it will be possible to give much greater assistance in this direction than has hitherto been possible. I think therefore that there will be no difficulty whatever in accepting the resolution as it now stands, as it merely agrees with the policy which has already been adopted in this matter by the Government. I would point out, however, that there is a slight danger in going too fast in the matter of female education. The Hon'ble Member has given us the number of girls of school-going age as an argument in favour of increase of facilities for female education. But this is not the true criterion ; the true criterion is the number of girls to whom their parents or guardians wish education to be given.

In connection with this question, I would specially refer to the proposal which the Hon'ble Member has made for providing an additional high school in Calcutta. I am not prepared to admit that there is any necessity for another high school. The Hon'ble Member has said that there are 11 high schools in Calcutta. I know there are nine at least for Indian girls, and there are only 203 pupils in the higher classes of these schools. In the face of this fact it is idle to maintain that there is a demand for another high school in Calcutta. On the other hand, I agree that a few more high schools are needed in rural areas, and there are already some schemes under consideration. I need hardly add anything more to what I have already said. I am in perfect accord with the spirit of the resolution. and I am prepared to recommend its acceptance by the Council.

The Hon'ble BABU SURENDRA NATH BANERJI said :—

I think, Sir, we must express our gratitude to the Hon'ble the Director of Public Instruction for the sympathy which he has expressed with my Hon'ble friend's motion and for having accepted it. There is, however, one observation which has been made by the Hon'ble the Director of Public Instruction to which I feel it my duty to take exception. The Hon'ble Mr. Küchler has said that it was not sufficiently a correct criterion to compare the number of school-going pupils as regards female education with the number already in schools. That the attitude of the parents in regard to the whole question of female education is a determining factor, nobody will deny. It is a statement which nobody will challenge. But, Sir, our contention is this : that in consequence of the progressive forces which have been operating upon us, the liberalising influences which have been at work for a period of more than a quarter of a century, a distinct advancement in the direction of the attitude of the public mind in regard to female education has taken place. I am perfectly certain that there is a growing desire on the part of the Indian community, and I think that the Government ought to take advantage of the rising tide of popular feeling in this respect. I believe that the Hon'ble mover of this resolution expresses the sense of the educated community of this province. We are glad of the assurances and sympathy, and we hope that it will bear fruit in the near future in the shape of female schools and colleges in rural areas.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

My Lord, I heartily support the resolution moved by the Hon'ble Dr. Nilratan Sircar. My Lord, speaking on behalf of the orthodox community I may say that there is a great demand for girls' schools in Calcutta and in the vicinity of Calcutta. Although the Hon'ble Babu Surendra Nath Banerji agreed with the Director of Public Instruction that there is some unwillingness on the part of parents to send their girls to schools to be

educated yet it cannot be denied that the unwillingness arises from certain difficulties—

The Hon'ble BABU SURENDRA NATH BANERJI said :—

I did not say that.

The Hon'ble RAI RADHA CHARAN PAL, continuing, said :—

My Lord, so far as the orthodox community are concerned, there are certain difficulties in the way of our daughters being sent to high schools, which I had explained personally to the Director of Public Instruction. So far as Calcutta is concerned, the schools are not suitable in every respect to the orthodox community. There are institutions like the Bethune College where some of our girls are educated. There are also the Brahmo and Christian girls' schools. But they do not supply the wants of the orthodox community. My Lord, the orthodox community do not require their girls to be educated up to the standard of B.A. and M.A. of the Calcutta University. They do not want such education to be imparted to their girls, as they are withdrawn from schools between the ages of 12 and 14. What is wanted is primary education imparted on religious basis so as to fit them to be good wives and good mothers in Hindu houses. In this respect these schools do not fulfil our expectation. And I agree with the Hon'ble Mr. Küchler that what is wanted is not so many higher schools as a number of well conducted primary institutions. My Lord, there are some such institutions in Calcutta, but their sanitary condition is such that no respectable people would like to send their daughters there.

Placed in such habitations their health is bound to be injured, if they continue there for some time. Then, my Lord, although Government is so generously inclined to foster female education, proper facilities will not be afforded, unless and until female education is made cheap enough to be availed of by all ranks of the people. Belonging as I do to the middle class of the community my Lord, I can assure you that the high scale of fees in such institutions as the Bethune College, which I believe is from Rs. 2 to Rs. 3 per month for every girl, is practically prohibitive for middle class people, who cannot afford to pay such fees. A clerk or a trader earning Rs. 50 or Rs. 60 cannot, if he has half a dozen, or three, or four girls, afford to pay the fee which is required to be paid at the Bethune College. Well conducted cheap primary schools housed in sanitary buildings are wanted. My friend the Hon'ble Dr. Nilratan Sircar, who belongs to the advanced community, has urged the desirability of additional higher class girls' schools. I think it my duty, my Lord, to bring more forcibly to the attention of Government the need of more primary schools to meet the wants of the orthodox community, who form by far the largest majority of the population under your Lordship's rule.

The Hon'ble MR. SINHA said :—

I beg your Lordship's permission to add to the resolution, by way of amendment, certain words which, from what I understand from the Hon'ble Director of Public Instruction, will make it acceptable to the Government. I am sure my hon'ble friend the proposer of the resolution will be prepared to accept this, because it is his desire, as it is the desire of the Members of this Council, that the hands of Government should be strengthened in carrying out this measure of reform. My Lord, I propose that to the amended resolution as moved by the Hon'ble Dr. Nilratan Sircar the following words be added, viz.— "provided the conditions attached to the Government of India grant are met." I am sure the learned mover will accept this, because it is necessarily implied in the resolution itself. If the money out of which the grant is to be made is saddled by these conditions, it follows that the Government cannot use that money apart from or independent of the conditions which may be attached, and therefore, my Lord, I propose, without any further words, that the words

"provided that the conditions attached to the Government of India grant are met" be added to the resolution.

The Hon'ble DR. NILRATAN SIRCAR said :—

I accept that.

The resolution was then put in the following form and agreed to :—

This Council recommends to the Governor in Council—

(*a*) that a definite allotment be made for female education in urban areas, principally for the establishment of girls' schools, in localities where the same are needed, and also for the establishment of at least three additional higher class girls' schools, including preferably at least one seminary in Calcutta ; and

(*b*) that the initial expenditure on buildings and equipment and the above-mentioned grant be met from the recurring grant by the Government of India for education (Rs. 13,20,000), provided that the conditions attached to the Government of India's grant are met.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

My Lord, if I may also have the indulgence extended to the mover of the last resolution, I should like, with your Excellency's permission, to substitute the words "a substantial sum" for the words "a non-recurring grant of 5 lakhs" in my resolution.

The Hon'ble MR. KÜCHLER said :—

I have no objection.

The Hon'ble DR. SARBADHIKARI said :—

It is never too late to learn, or to mend anything, and I accept the suggestion made by the Hon'ble Mr. Sinha in regard to the previous resolution, in connection with this resolution also.

The Hon'ble MR. KÜCHLER said :—

May I rise to explain? I merely wish to say that I have no objection to the words being substituted, but I do not wish to imply by that, that I intend to accept the resolution.

The Hon'ble MR. SARBADHIKARI :—

I never thought my hon'ble friend would be so generous as that. At all events, he need not have anticipated me, and might have heard me out.

EXPENDITURE—*Head : 24—Medical.*

The Hon'ble DR. DEBA PRASAD SARBADHIKARI then moved his resolution in the following form:—

This Council recommends to the Governor in Council—

(*a*) that a substantial sum be provided for helping non-official medical education in Calcutta ; and

(*b*) that the said grant be met out of the provision of Rs. 24,80,000 entered for expenditure during 1913-14 from the Imperial non-recurring educational grant of Rs. 75,00,000, provided that the conditions attached to the Government of India's grant are met.

In respect of this resolution, my Lord, I wish to draw the attention of the Council to the elaborate report of the Dacca University Committee, which states that the "competition for admission into the Calcutta Medical College has become so great that further provision for medical students must be made in this province." The report goes on to say :—"We are further told that it is not at present practicable to establish a fully-equipped Medical College at Dacca, for which reason only the lower preliminary science classes are to be established." Under the present scheme for the Dacca Department of Medical Studies "there will be no separate Medical College ; students of medicine, like students of other scientific subjects, will be received into the various colleges and taught by the University. The number to be admitted each year will depend upon the demand for training and the capacity of the Calcutta Medical College to receive those students who have completed their course at Dacca.

The "capacity of the Calcutta Medical College," which has long been limited, will continue to govern the situation for a long while yet to come. Hundreds of students have to be turned away from its doors every year, and, as the immediate Dacca accommodation is to be for 50 students, the overflow that will rush to Dacca will fare no better. Owing to the heavy failures in the earlier examination, there may be more room in the upper classes than at present, but when the Dacca men are quite ready to claim admission in the upper classes at Calcutta, the situation will be just the same or possibly a good deal worse.

The medical needs of the country have long been expanding owing to growth of advanced ideas of sanitation. Of those that passed between 1856 and to-day, about 1,600 or 1,700 in number not more than 400 or 450 are alive and many of them had to man important offices in the Punjab, the Central Provinces, the United Provinces, Ceylon and Burma. The Bengal residuum of fully qualified doctors is therefore clearly inadequate for the demand. I pressed this point of view upon the King Edward Memorial Committee in connection with the shape that the permanent memorial should take, and urged that a second Medical College for Bengal, for which the existing non-official institutions afforded an excellent nucleus, should be established. This was not accepted by the Committee, but seems to have appealed to the Government. A Committee was appointed to go into the matter fully under the capable guidance of General Harris, and certain schemes were nearly formulated. Unfortunately, all the institutions concerned could not immediately agree upon the scheme of amalgamation that would make them one whole or correlating entities entitling them to substantial Government help. But those who worked on the Committee—and I was one of them—were convinced that a practical amalgamation of at least the better elements and entities that are available ought not to be impossible if the matter was carefully and persistently pursued. The Government was for a time anxious to introduce a Medical Practitioners Registration Act so far as allopathic practitioners are concerned, and a Bill was ready. But an essential preliminary of keeping out quacks is the furnishing of abundant supply of qualified practitioners, not necessarily of the first quality. We want qualified practitioners of all degrees of efficiency to suit the different classes of people requiring and able to pay for their services. The Patna and the Cuttack Medical Schools are now outside the province and there will be a falling off even in the lower grade of practitioners. On the testimony of the Dacca University Committee and of our own knowledge and experience it is clear the Calcutta Medical College cannot possibly supply the demand for the superior class of practitioner, and Dacca will not have a Medical College long. In and in the neighbourhood of Calcutta there are non-official medical schools and hospitals that are doing excellent work, some of which your Lordship has seen The Albert Victor Hospital at Belgachia, Bhagwan Das Bugla's Marwari Hospital, the Mayo Hospital in its different branches and the new King's Hospital and the hospitals attached to the medical schools in Corporation Street, would, if properly conducted and correlated, afford excellent nucleus for a second college. Between themselves they have large funds and some endowments, and if the Government and the University were to help in the work, it

ought not to be difficult to have a second Medical College of fair excellence. Government expenditure on sanitary work is going to increase. It is of the utmost importance for the proper administration of such larger grants that enough capable and qualified men should be in charge of such administration. The prejudices against a second Medical College are fast dying out, and the Senate of the Calcutta University, where they were unfortunately strong some time ago, are beginning to see things in a better light. Such prejudices were high when Pundit Iswar Chunder Vidyasagar of revered memory started his Metropolition Institution, but we have to-day not one but many private Arts and Science colleges in Bengal which are substantially supplementing Government work. I quite recognise the difficulties of a non-official Medical College would be considerably greater, but a great many years have elapsed since Pundit Vidyasagar, the pioneer of private Arts and Science colleges, as he was the pioneer of many good works, began his work. Capable medical graduates may not be as plentiful as Arts and Science graduates. But in quite recent times we have had in our midst distinguished non-official Physicians and Surgeons who are capable of holding their own against all comers. One such alas we lost night before last with teriffic suddenness, for in Dr. Gonendra Nath Mitter's sudden death the non-official branch of the profession has suffered a heavy loss. But others we have still spared to us, men of the standing and capacity of Dr. Nilratan Sirkar whom through your Lordship's good offices we are able to welcome to the Council. Busy as these men are, they are also warm-hearted patriots, who ungrudgingly give their time, energies and money in building up places like the Belgachia Hospital. The outside world has already indications of your Lordship's great sympathy towards the better classes of these struggling institutions. We invite your Lordship to translate this sympathy and good-will into action, and to make it possible for this admirable nucleus to grow into a full and a first-class institution. And the value of the work of these struggling institutions has been appreciated in provinces other than this—in the distant Punjab, in the Straits Settlements, where their students are finding ready service and ample employment as soon as the college can supply them. The question therefore is one of ways and means. The need is securely established, and from what we have been able to gather, my Lord, in spite of the disclaimer of the Hon'ble Mr. Küchler, Government is not without sympathy towards concentrating at all events some of the better of these institutions and bringing them together with a view to finding what help they could be in forming the nucleus of a second Medical College. So far as Government is concerned, they are doing that of their own accord and out of their own means, but that is not enough to meet the demands of the situation. The larger demands have to be met, and it is clear that unless the resources are considerably strengthened, the Calcutta University will not be able to entertain their application for affiliation. They were in communication with some hospitals in England, and it was at one time thought that if a hospital with 100 beds and the necessary equipment could be established, some of the lower English qualifications and degrees could be conferred upon the students of this college. That, however, could not meet the requirements of the situation. A *bonâ fide*, genuine second Medical College is needed, and its provision would be assured if a suitable grant were forthcoming. I therefore ask, my Lord, that such a substantial grant should be made to the proposed institution on such terms and conditions as your Excellency's advisers may be able to agree upon.

The Hon'ble MR. KÜCHLER said :—

The Hon'ble Member has removed one difficulty by the omission of the mentionof any specific sum, but I am afraid a still more formidable difficulty remains. It is perfectly clear from the report of the budget proceedings in the Imperial Council that this grant of 75 lakhs is intended only for such branches of education as come under the control of the Department of the Director of Public Instruction. In any case, with the numerous claims which there are on the part of the ordinary branches of education for assistance from the Provincial or Imperial revenues, I should strongly oppose

the diversion of any portion of the funds which are now going to be made available for the purpose of medical education. Not that I am at all out of sympathy.

The Hon'ble DR. SARBADHIKARI said :—

If I may be permitted, my Lord, to interrupt my hon'ble friend for a moment, I accepted the form that had been agreed upon with regard to the last resolution, that a substantial sum should be provided by Government. I do not indicate where it is to come from.

The PRESIDENT said :—

You must do so.

The Hon'ble MR. KÜCHLER said :—

I am afraid this constitutes a still greater objection, for I do not think for a moment that Government will accept any resolution in connection with the budget which is now before us asking for a grant when the source from which the funds are to come is not indicated. I need hardly say that if the last part of the resolution has really been withdrawn, I need not take up the time of the Council by any further remarks, because it falls to the ground of itself, and I think the Financial Members here present will support me in this view.

The PRESIDENT said :—

If that part is withdrawn, it falls to the ground.

The Hon'ble DR. SARBADHIKARI said :—

Well, I am afraid, my Lord, if that is so, it will be so.

The resolution was then withdrawn.

The Hon'ble RAJA SHOSHI KANTA ACHARYYA CHAUDHURI BAHADUR said :—

My Lord, with your Excellency's permission, I should like to modify my resolution thus :—

This Council recommends to the Governor in Council—

(*a*) that a substantial sum be set apart for the supply of fresh medicines and new surgical instruments to the existing hospitals and dispensaries in rural and urban areas other than Calcutta and Dacca; and

(*b*) that the said expenditure be met out of the rupees four lakhs provided for expenditure in 1913-14 from the discretionary grant of Rs. 12,00,000, subject to conditions attached by the Government of India to that grant.

Very few words are necessary in support of this resolution. I have no doubt that the question of health of the population is as important for the Government as for the people. There is no question that by far the largest population of this Presidency lives in the rural areas and within the mufassal municipalities. That the death-rate is very high in this Presidency admits of no doubt, the mortality due to fever alone being 63·3 per cent. in 1911. Moreover, no one who has any touch with these hospitals and dispensaries in the rural areas can help being struck with their wretched condition, specially in respect of the quality of the medicine and inadequacy of surgical instruments. As this Government has pointed out in one of its recent resolutions published in the *Calcutta Gazette*, "the advance in the standard of medical requirements must involve increased expenditure." The Government has further pointed out that "economy on hospitals and dispensaries must act very hardly

on poor inhabitants," for whom these charitable institutions are primarily intended. So far as I can gather, these hospitals and dispensaries number about 100, and they are the only institutions to bring up to date medical relief to about 44 millions of His Majesty's subjects. The local funds according to reliable information are absolutely inadequate to meet the growing requirements of these institutions, and I find that the Government grants come up to nearly Rs. 85,000 a year. So far as materials at my disposal enable me to say, I find that this sum is only about one-fifth of the total expenditure on hospitals and dispensaries in this Presidency. Under these circumstances, I trust this resolution will commend itself to this Council.

The Hon'ble SIR WILLIAM DUKE said :—

I am afraid that Government will not be able to accept this resolution. I am first of all indisposed to accept what the Hon'ble Member has stated in the speech which he has circulated, as to the wretched quality of the medicines and the deficiency of the surgical instruments in the hospitals and dispensaries in the rural districts. Medicines are, I believe, in all cases, whether in Government dispensaries or in the dispensaries run by local bodies—in all cases alike—indented for through the Civil Surgeon, and they are invariably procured from approved dealers in medicines ; and I fail altogether to understand how the medicines received into these institutions can be fairly described as in a wretched condition. As far as I know, there never has been any general complaint as regards quality. If there were, it would probably at once come to notice, and the medicines would go back to the suppliers, who are usually very large wholesale firms. As regards quantity, in every case the indent is scrutinised by the Civil Surgeon, and if he thought it was insufficient, or if the local body in charge of the dispensary failed to comply with the indent, I am perfectly certain it would come to notice. To the best of my knowledge and belief, the indents are adequate and the medicines are supplied. I have myself had experience for very many years in visiting rural dispensaries, and we also examine the inspection reports submitted by the Civil Surgeon, in which some of the principal questions to be answered relate to the supply of medicines. One of them is : Is the supply of medicines adequate ? Every now and then one finds that the Civil Surgeon notes that though the supply is generally adequate a particular medicine is short. Some medicines are very much run on, and perhaps they fall short, and then steps are taken to increase the indent for the following year. But that there is anything like a general shortage, I think is not the case. I am not, of course, prepared to say that every dispensary throughout the mufassal is as it ought to be, that everything is strictly and properly done, but although here and there miscalculations may be made or accidents may take place, or stock may be kept for too long, I should be very much surprised indeed if that sort of thing is general. If the Hon'ble Member has a specific instance in his mind, and will bring it to notice in the proper quarter, no doubt it will be dealt with, but to admit that there is a general deficiency in this respect, Government is certainly not prepared. Coming now to the question of surgical instruments. In the smaller rural dispensaries the medical officers in charge are seldom able to perform major operations, but even so the general experience is that in any district the dispensaries are equipped with far more instruments than are ever used. In fact in several dispensaries I have gone through in recent years, there have been cases of instruments, the instruments of a generation gone by, the greater part of which are never used at all ; and, in fact, nothing is used except the pocket case which the Sub-Assistant Surgeon carries about with him. In dispensaries of a superior class there is a demand for superior instruments, and as far as I know, whenever that demand is made it is met. A great deal of the money which is at the disposal of the Commissioners for removing defects in local institutions, goes in this way. Much of the grant which is at the disposal of the head of the province for similar purposes goes in the same way in the course of his tour. In my experience, when going through a rural hospital, it is sometimes found that items of equipment which could be used have not been supplied, and, so far as I have observed, when

any want of that kind is brought to notice it is met. I cannot think that there is any such general want as requires a special grant. At any rate, it has never come to the notice of Government. I may say one thing more and that is that there is certainly no object in spending large sums of money in providing stocks of drugs which could not be used and which will deteriorate, and equipment which will rapidly go out of date. The indents are calculated to the ordinary consumption, and it would be an absolute waste to indent for more. A mistake which may occasionally occur is indenting for excessive amount of drugs, more that can be used up during the year, so that the stale drugs remain in stock. That is the last thing which should be encouraged. We should provide enough, with a sufficient margin, and no more. I hope that in view of this explanation the Hon'ble Member will withdraw his Resolution.

The Resolution was withdrawn.

The Hon'ble BABU SURENDRA NATH RAY moved the following Resolution :—

"This Council recommends to the Governor in Council that the sum of Rs. 6¾ lakhs provided for expenditure in the budget out of the 20 lakhs assigned for sanitation by the Government of India, be set apart for the use of mufassal municipalities, to enable them to make due provision for the supply of pure drinking water and of drainage."

He said :—

My Lord, the above resolution which I am going to move is a simple one, and one which I trust will meet with the support of Your Excellency's Government. Since Your Excellency has taken over charge of the Government of this province, Your Excellency has taken up the subject of sanitation of the province, and among the subjects of sanitation those which have specially occupied Your Excellency's time and attention are the supply of pure drinking water and improvement of drainage of the rural area. In October last Your Excellency was pleased to convene a conference at Darjeeling to devise the best means of grappling with these questions in the rural area. It is admitted on all hands that there is a crying want for good drinking water, for drainage and for jungle-cutting not only in the rural but in the urban area as well, and it is essential that steps should be taken to carry out these and some other sanitary reforms. But where is the money to come from? The ordinary income of municipalities is not sufficient to carry out these sanitary improvements. As a result of want of pure drinking water and improved drainage, municipal towns and villages are being gradually depopulated, and the scourge of malaria is raging in them for at least 5 out of 12 months in the year. Government no doubt may say that if people want to live a healthy life, they must be prepared to pay for the same. But unfortunately from my experience of municipalities, extending over nearly a quarter of a century, I am in a position to state that in most of these municipalities ordinary sanitary improvements cannot be effected with their ordinary income, and that the income of most of the municipalities is not elastic. What the Right Hon'ble W. N. Massey, some time Finance Member to the Government of India, said before the Select Committee on Indian Finance in 1871 as regards Indian finance generally, is true of most of the mufassal municipalities. He said : "Your resources are so limited, that if you should outrun the constable a little, you are at once landed in a deficit. You cannot expand any of your taxation ; you cannot create new taxations."

The people of the province are grateful to the Imperial Government for the transfer to the District Boards of the whole of the Public Works cess, and this will, to quote the words of the Hon'ble Sir William Duke, "be appreciated in quarters where interest in the financial policy of Government seldom penetrates." . . . . This will result, to quote again his words, "in local self-government becoming much more real, being extended downwards until it is in much closer contact with the people, and finding itself in a

position to deal with those questions of village sanitation and village water-supply which have so forced themselves upon our attention of late." A brighter day is dawning upon the District Boards of Bengal, and I have every reason to believe that the subject of supply of pure drinking water in the rural area will be solved of itself in the near future.

My present prayer is, however, as regards the mufassal municipalities.

I am fully aware of the fact that Government have been pleased in some municipalities where the case has been properly put before them to contribute handsome amounts for such works as supply of filtered water or improvement of drainage. But such assistance should be general and regular.

If the Government have really the good of the people at heart, and no one doubts the sincerity of Government's intentions, it ought to contribute liberally to all municipalities. I know of municipalities near Calcutta which have to keep up, at least externally, a high standard of efficiency on account of its contiguity to the second city in the Empire and the first city in the East, but which on account of want of funds they are not in a position to do. I know of municipalities which have been able to show some improvements, not with the income from the rate-payers or any contribution from Government, but on account of private contributions from patriotic gentlemen or influential European mercantile firms. It appears from the figures supplied to me that in the year 1909-10 the grant from Provincial funds to municipalities was Rs. 6,21,284, and, in the years 1910-11 and 1911-12, Rs. 4,46,164 and Rs. 5,09,025, respectively. The grant from private individuals to municipalities during the same period was Rs. 1,08,481, Rs. 2,54,044 and Rs. 1,51,943. I have learnt from enquiry that in some cases the proprietors of large mills have not only supplied their own labourers with filtered water, but have most generously supplied the same to the municipalities where they have got their mills. But every municipality in the province is not fortunate enough to have mills in them under European management, nor rich and patriotic landlords to carry on works of benefaction. Under these circumstances, it is but meet and proper that the people should look up to Government for help and support.

The municipal authorities are fully alive to the needs and requirements of the municipalities of the province. The following extracts from the Bengal Administration Report for 1909-10 and 1910-11 will show how there has been gradual increase in the expenditure for sanitary improvements :—

"The gradual increase in expenditure by municipality upon sanitary improvement, which was marked last year, was maintained in 1908-09, the total expenditure on conservancy, drainage and water-supply being Rs. 21,97,380, or an increase of Rs. 2,48,557 over the figures for 1907-08 (Bengal Administration Report for 1909-10, page 112, paragraph 597).

"The total expenditure by municipalities on conservancy, drainage and water-supply during the year 1909-10 continued to increase, and amounted to Rs. 24,88,154, which is Rs. 2,90,774 in excess of the figures for 1908-09 (Bengal Administration Report, 1910-11, page 117, paragraph 550)."

No one can say, not even the detractors of local self-government, that the municipal authorities ever waste the money of the rate-payers, or fritter them away or spend the same in useless expenditure. They have invariably been found to be the trusted custodians of the rate-payers' money. Whatever is realised from the rate-payers is spent for their benefit. But, as I have already said, the money at their disposal is not generally sufficient to meet the ordinary expenditure. Theirs is generally a tale of poverty. But, if on the one hand it is a tale of poverty, on the other hand the necessities of the mufassal municipalities of the urban area are very great.

The appointment of well-paid Health Officers and Sanitary Inspectors will not be of much use in mufassal municipalities. We want pure drinking water, we want improved drainage, we want jungles to be cut down. We certainly do not want at this stage highly paid Health Officers and Sanitary Inspectors for the improvement of the sanitation of our municipalities.

The following extract from the *Amrita Bazar Patrika*, dated the 2nd October last, gives only a true picture of the state of the province :—

"It is something like desolation in all Bengal villages, and it has gone on increasing during the last 40 years or more. This means the threatened extinction of the Bengali race. The only way to save them from their terrible fate is to make our villages, now the dens of malaria and cholera, overgrown with such jungles and honey combed with dirty pools of water, habitable."

I have been to several of the mufassal municipalities, and I have seen in several places nothing but roads passing through what once were orchards and residential localities, but now overgrown with jungles and rank vegetation, and houses in ruination with one or two solitary occupants, reminding one of the words of the poet," Death and silence hold their own."

It is said that there are about 16 or 17 lakhs of people who die from malaria every year in this very province. With no drainage or many of the natural drains closed, generally with no pure water for drinking and both villages and urban areas overgrown with jungles, it is not surprising that the mufassal towns and villages should be in an unhealthy condition.

From the amended Draft Financial Statement for Bengal for 1913-14 it appears that there is a provision of 12¼ lakhs as grant for sanitary improvements. Of this amount, Rs. 6,71,725 have already been sanctioned, or will probably be sanctioned, for some of the proposed sanitary improvements in some of the municipalities of the province. It also appears that, out of this amount of Rs 6,71,725, Rs. 4,02,833 are for sanitary improvements of the Burdwan Division alone. I do not grudge this. But it is necessary that other and more important divisions should also be provided with substantial grants from Government to carry on the works of sanitation which are being matured or which can be taken up for their improvement, and that the amount of 20 lakhs allotted by the Government of India for urban sanitation but of which amount only 6¾ lakhs are available this year for expenditure should be set apart for distribution to the mufassal municipalities to carry on such works of sanitation as the supply of drinking water and drainage. I do not understand why it has been necessary to make provision in the Financial Statement for re-grant of non-utilized, non-recurring grant for sanitation to the extent for Rs. 2,60,970 (see page 30 of the Draft Financial Statement). Could not this amount have been distributed to the municipalities and District Boards of the province during the year?

The year has been a year of remarkable prosperity, and there has been a provision of nearly 1½ crores by the Government of India in their annual Financial Statement for 1913-14 for sanitation for the country, and Bengal has come in for its share and has been promised 20 lakhs of rupees out of which however only 6¾ lakhs are provided for expenditure in the budget this year. It is not expected that such a large grant would be made every year by the Government of India. It is therefore necessary that the whole of this amount should be given to the mufassal municipalities for the supply of pure drinking water and for drainage, the two most crying needs of the province.

There are, I think, about 111 municipalities in the province. These municipalities are the centres of urban life, and are in many cases either district or subdivisional head-quarters or places of trade and commerce. Their importance is recognised. There is in Bengal generally a complaint by Government officials, both Indian and European, against, and reluctance on their part to go to, mufassal towns on account of their unhealthiness. It is therefore as much to the interest of the people as of Government that the mufassal towns should be healthy.

The prayer is made betimes, and it is hoped that Government would be pleased to show their appreciation of the needs of the people by allotting the whole amount of grant of the Government of India for urban sanitation to the mufassal municipalities of the province to carry on the work of supply of pure drinking water and drainage.

My Lord, the original resolution which I wanted to move was that the whole amount of the Imperial grant of Rs. 20 lakhs for urban sanitation be given to the mufassal municipalities for supply of pure drinking water and drainage. But I am sorry that my original resolution had to be modified, as I understand that the grant of 20 lakhs for urban sanitation in Bengal which was announced both in the Financial Statement of the Government of India and also of Bengal is not available for expenditure this year. It appears that the Government of India had entered only 6¾ lakhs on the expenditure side of the Bengal provincial budget on sanitation, and that is the only amount available this year for urban sanitation from out of the Imperial grant. I need hardly say that I was sorely disappointed when I learnt that only about one-third of the original grant was available this year, and I think that disappointment will be shared by every Member of this Council. How much good would not this amount of 20 lakhs have done? Hope deferred maketh the heart sick. But it is useless to bewail our lot. We must be prepared to act according to our present changed circumstances.

The Hon'ble MAHARAJA RANAJIT SINHA said :—

My Lord, I desire to move an amendment to this resolution. I would substitute the words "a substantial grant" in place of the words "the sum of Rs. 6¾ lakhs ;" and that the words "and of jungle cutting" be added at the end of the Resolution.

The Hon'ble BABU SURENDRA NATH RAY said :—

My Lord, I accept the amendment.

The Hon'ble BABU UPENDRA NATH RAY said :—

With your Excellency's permission I wish to say a few words in support of this resolution.

In doing so I beg to suggest that the demand for the supply of pure drinking water to the mufassal municipalities is well known, and with the limited funds at their disposal many of them can hardly manage to cope with their requirements. The want of pure drinking water is a source of malaria and epidemic diseases, carrying away several souls every year from big towns, and many of them are not fortunate in having wealthy residents who can come forward with liberal donations for supply of pure drinking water. Ample opportunities should, therefore, be given to the mufassal municipalities for utilizing a substantial amount out of the assignment of Rs. 20 lakhs made by the Government of India for sanitation, and that the sum of Rs. 6¾ lakhs provided for expenditure in the budget be set apart for the use of mufassal municipalities for the purpose of drainage. I know that some of the municipalities have detailed schemes in hand in this connection, and at Chittagong itself the Government of Eastern Bengal and Assam very generously spent more than Rs. 50,000 over experimental borings which have proved successful, but the scheme has not yet been taken in hand only for want of funds. The whole of this money will be wasted if the project is not carried through. The Chittagong Municipality has prepared a complete scheme costing about Rs. 3,50,000 and has already submitted it with an application for loan and grants in three different shapes to your Excellency's Government. Other municipalities also have got similar projects. I therefore suggest that the resolution moved by the Hon'ble Babu Surendranath Ray, with the amendments to which the Hon'ble Member is agreed, be given full consideration by this Council and his suggestions accepted.

The Hon'ble MAHARAJA RANAJIT SINHA said :—

My Lord, I desire to associate myself with what has fallen from the Hon'ble mover of the resolution. In this respect the mufassal municipalities are in no way in a better position than the rural district boards. Since the

assumption of your exalted office Your Excellency's attention has already been drawn to this important subject, viz., the supply of drinking water in the rural areas. In the municipalities—I have some experience, being the Chairman of a municipality for 12 years—the resources of the municipalities are so limited that they cannot devote any adequate sum for this important matter. The Government generally grant one-third of the estimated cost for the water-works, but it is impossible for most of the municipalities to make a provision even for the two-thirds. Most of the houses in many municipalities are almost surrounded with thick jungle and rank vegetation. It is not only injurious to the health of the people residing therein but, also, it becomes sometimes a nest of wild animals and snakes. I hope that Your Excellency's Government will be able to find money for the mufassal municipalities which is required to supply the need of pure drinking water, drainage and jungle-clearing.

The Hon'ble BABU SURENDRA NATH BANERJI said :—

My Lord, it is a significant fact that out of the three Members who have spoken on this resolution two are chairmen of two important municipalities. I happen to be the chairman of a mufassal municipality and also have been so for the last 28 years. I can speak therefore with some amount of authority as to the wants and needs of municipalities, and I desire to associate myself with the appeal which my Hon'ble friend the mover of the resolution has made to Your Excellency's Government for the devotion of a substantial sum of money for the purpose of rban sanitation. My Lord, Your Excellency's Government has taken a deep interest in the question of sanitation, and that interest has evoked a deep gratitude in the minds of our people. There has not been a more striking illustration of the concern which Your Excellency feels in this important than the conference which Your Excellency was pleased to call in October last. I am sure that the conference will be productive of substantial results. My Lord, in this matter deliberation is good, but money is better. We may have many fine projects, but for want of money we cannot carry them out. If the necessary funds are not forthcoming, it would be quite useless to have fine projects for rural or urban sanitation. My Lord, my friend asks Your Excellency's Government not to adopt but to carry out a policy which Your Excellency has deliberately adopted, for my friend has just pointed out that schemes of rural water-supply have already been started in the Chittagong Municipality. I can bear my personal testimony to an important sanitary scheme which has been carried out in my own municipality, and which has been productive of the most beneficial results. The municipality over which I have the honour to preside contains an area in which malarial fever used to break out every year. This went on for years ; then about three years ago Government made a sanitary survey and started a scheme of reclamation and of drainage. It spent about Rs. 25,000 upon this scheme, and what has been the result? Malarial fever has practically disappeared. I invite Your Excellency's Government to extend these benefits throughout the length and breadth of our mufassal municipalities, and then Your Excellency will confer an unspeakable boon upon our rural population. The extract from the *Amrita Bazar Patrika* quoted by my friend, the Hon'ble mover, does not exaggerate the situation. My Lord, if anybody visits any mufassal village, he will find it full of dilapidated houses covered with thick jungles. These places which were once the habitations of wealth and prosperity, are now the haunts of jackals and snakes. We know that thousands of our people die every year from the scourge of malaria, and thousands are dilapidated for life also owing to this terrible visitation. For these reasons, I would most earnestly appeal to Your Excellency to accept the suggestion which has been made by my friend, the Hon'ble mover. With regard to the particular sum, it may be 6 lakhs or more, but the principle which my friend desires Your Excellency to adopt is a principle which you have already carried out with the most beneficent results.

I thoroughly associate myself with this proposal, and hope that my friend, the Hon'ble Member in charge of the Sanitary Department, will be in a position to give a reply which will have a reassuring effect upon the public mind

and produce a sense of satisfaction throughout the length and breadth of the municipalities.

The Hon'ble RAI NALINAKSHA BASU BAHADUR said :—

I beg to support the motion of my hon'ble friend, Babu Surendra Nath Ray. I was Chairman of an important municipality for a period of upwards of 18 years, in which taxes to the highest limit permissible by law were levied. Still the resources of the municipality were such that it was unable to meet its urgent needs. I can therefore say, without fear of being contradicted, that the majority of the municipalities of Bengal are quite incompetent financially to undertake any expensive projects, such as water-supply and drainage projects, without material help from the Government. They have ordinarily to perform many duties which require large sums of money. They have to maintain the roads of the towns in their charge, and provide an adequate number of lights thereon. They have to provide public latrines and spend money to improve the sanitation of the town. They are also saddled with the expense of maintaining dispensaries and hospitals, meet all cost for education, primary and secondary. In addition to the above, they are called upon now and then to make temporary arrangements for checking cholera, small-pox and plague. On establishment also their expenditure is considerable, as they have to keep a very large number of account books. After paying for all the above works, they find themselves devoid of any income from which other works can be taken in hand. As regards the necessity of providing wholesome drinking water in adequate quantities, no one can deny it. Scientists are of opinion that the supply of wholesome water in sufficient quantity is a fundamental sanitary necessity; without it injury to health inevitably arises either from deficiency in quantity or from presence of impurities, and that they had no hesitation in attributing cholera, many forms of fever, dysentery and diarrhœa principally to the water-supply which is obtained from tanks, the water of which is too frequently little better than diluted sewage abounding in animal and vegetable life, every shower of rain washing filth into it, while the clothes and cooking utensils cleaned in it contributed the modicum of filth. My Lord, that is the sort of water the people in the mufassal drink; and if the quality of the water be not improved, it is hopeless to drive malaria out from Bengal. Burdwan was almost depopulated in the seventies by the scourge called malaria. One who has gone through the literature of the Burdwan fever, for which the town Burdwan had acquired an unenviable notoriety, will be convinced that, prior to the breaking out of the fell disease, the town became water-logged owing to the existence of embankments on the north and south sides of it, and that there was dearth of good drinking water in it. I am glad to mention that after the introduction of the scheme of supplying filtered water in the town the virulence of the fever abated to a great extent, and it can be said that it has practically died out now. Being convinced of the beneficial effects of wholesome drinking water, I earnestly beg that the Government will be kind enough to make the grant asked for to enable the mufassal municipalities to introduce the supply of good potable water in their towns.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

My Lord, I rise to support the motion of the Hon'ble Babu Surendra Nath Ray. If all the non-official members who wished to speak were permitted to do so, this is such an important subject that they would speak for the whole week, but Your Lordship's sympathy with the motion, and also the action which Your Excellency's Government has taken to improve the sanitation of mufassal municipalities, have raised high hopes in the hearts of the people. My Lord, the speaker has referred to the municipalities near Calcutta, and I shall only speak a few words with regard to the condition of the municipalities contiguous to Calcutta and Howrah. The congestion of Calcutta is not a little due to the insanitary condition of the outlying municipalities on both sides of the river. Municipal work, properly speaking, is a part of the work of Government which has been assigned to popular bodies, to be carried out with the means placed at their disposal. But, my Lord, it has been abundantly shown that the means at their disposal are quite inadequate

to carry out the improvements which are essentially necessary in those areas. I remember, my Lord, in 1897, when plague broke out in Calcutta, there was a general stampede in the town; people ran from Calcutta to outlying places within the jurisdiction of the different municipalities on both sides of the river; and the sad experience which many of them had, shows the necessity of taking prompt steps to improve the sanitation of those areas. Many of them, my Lord, returned malaria-stricken, and not a few of them came back afflicted with bereavements, having lost some members of the family through malaria or some other disease, and the result was that people, although they were threatened by plague in Calcutta in successive years, preferred to die here from plague to moving away from Calcutta. My Lord, if the sanitary condition of the outlying municipalities is improved, I am sure the congestion will be greatly relieved, and people who are now huddled together in the northern part of the town will find it more convenient to live in more open areas without running the risk of being victims to malaria or cholera. My Lord there is another thing which also has, to a certain extent, aggravated the want of a pure water-supply. Of late years, complaints have been made of the pollution of river water by the discharge of the contents of the septic tanks. River water, which used formerly to be largely used by the people of the riparian municipalities for drinking purposes, is not now deemed healthy on account of the many pollutions that have taken place of late years, due, no doubt, not to one cause, but to several causes. That also shows the necessity of giving them pure drinking water. The motion for a grant, which my hon'ble friend has moved, is intended no doubt for the municipalities throughout the Presidency of Bengal, but I venture to express the hope that a certain sum of money will be ear-marked for the improvement of the municipalities on both sides of the river, say, within a radius of 30 miles. It will not only confer benefit upon that area, but will also extremely benefit Calcutta where people from all parts of Bengal come and live.

The Hon'ble BABU ANANDA CHANDRA RAY said :—

I also rise to support this resolution. I shall not say anything about the necessity of the grant, because so much has been said and the matter is so well known, but I should like to propose an amendment to this effect that after the ward "mufassal municipalities" the words "and subdivisional officers in whose subdivisions there are no municipalities" be added, because Your Excellency knows that there are subdivisions where there are no municipalities such as Manikganj, Munshiganj, and I could name a number of others and those are urban places; and if this grant of 6¾ lakhs had been assigned or allotted for the purposes of improvement of the sanitation of urban areas, I do not know why these places, which are towns which are of great importance, should not be benefited by this grant. Your Excellency knows that Manikganj is a most malaria-stricken place, and that is on account of the silting of the rivers and canals, and Munshiganj was also in that condition for some time, but on account of the benevolence of the local Rai Bahadurs water-works have already been started there, and are doing good work. There are also other urban places, but I leave them out because they are not in the subdivisions where there are no municipalities and where people suffer very much on account of the want of pure drinking water. Sir, with these suggestions, I support the motion. I do not like to press the matter to a division; if my friend who has moved will accept the amendment, well and good, otherwise I shall simply urge on the Government that, when making the allotments, they will not lose sight of those subdivisions which have not got municipalities in them.

The Hon'ble NAWAB SAIYAD NAWAB ALI CHOUDHURY said :—

My Lord, the question of pure water and drainage is the question almost of life and death to a people. It is a happy sign of the times that most of the municipalities in Bengal have already begun the work, though on a very modest scale. The demand is, however, too great and the progress in this line is even now very slow.

My Lord, the growth of town life is a sign of prosperity, and it is therefore necessary that we must change the sanitary state of our towns, that they may be properly habitable. With the progress of education in the country, our municipalities are coming to be centres of the the civic life of the Presidency, and we must draw there a class of people who possess wealth, education and leisure. To-day most of such people flock to the metropolis, leaving the towns to take care of themselves, and such will be the case so long as our municipalities are not adequately strengthened to cope with malaria and other diseases, which are the concomitant of insanitary conditions.

With great pleasure, therefore, I beg to support the resolution before the Council.

The Hon'ble SIR WILLIAM DUKE said :—

I had some difficulty in understanding what the resolution was really directed to, and I cannot say that I have been very much enlightened by the number of speeches which we have heard on the subject. No doubt they disclose a very general feeling of the want of increased funds for sanitation in mufassal municipalities, but it seems to me that any one with the Financial statement in his hands might have understood that very much more in the direction desired is proposed to be done, and will be done, than what has been asked for. We have been requested to make a provision of 6¾ lakhs for drainage and water-supply in mufassal municipalities. As a matter of fact the budget shows that we have available for sanitary purposes something exceeding 22 lakhs, and I would ask the Hon'ble Members who have spoken what they think we spend this on, if not on water-supply and drainage in municipalities. If they would glance at page 30 of the statement, they will find a long list of objects for sanitary purposes on which money is to be spent. It is difficult to be precise amongst so many items, but they will see that three-fourths at least are objects of water-supply and drainage. It is true that some minor items appear, but these are the principal. As to the anti-malarial campaign, I do not think that members have really any objection to anti-malarial operations. I fancy that some of that drainage work which the Hon'ble Babu Surendra Nath Banerjea mentions as having been undertaken in North Barrackpore, was really done as an anti-malarial operation. It has that advantage to the municipality that the municipality has not been asked to contribute towards, it but, putting these operations aside, the great bulk of the money does go on the purposes which Hon'ble Members have in view, and there are really no other purposes on which expenditure of such magnitude could be incurred As a matter of fact, the probability is that, if schemes can be produced, the expenditure on municipal water-supply and drainage for the next year will run up not to 6¾ lakhs, but to very nearly three times that amount. The question with Government for years past has been not a question of funds, because they have been largely provided by the Government of India, but of getting properly prepared and matured schemes on which to spend these funds. The Hon'ble Member has just referred to the urgent need of water-supply in Chittagong. There is no question of the need, but he mentioned, I think, that the scheme is with Government. I do not myself believe that the scheme is yet with Government. I think it is probably not yet a fortnight since it left Chittagong. All who have experience of mufassal municipalities know that it takes a very long time to mature these schemes, and it is really very difficult to get them into working shape, and over and over again Government is asked to give money which they are perefectly willing to give, but cannot give because schemes are not in a condition to justify the allotment. That is a sufficient explanation of the point to which the Hon'ble Mover drew attention, that Rs. 2,60,000 or more had to be carried on from last year. What that means is that the municipalities which might have received it, have not yet come forward with sufficiently prepared and matured schemes. As soon as they do, there is no doubt that the money is there. I do not understand why, when so much money is available, this specific resolution should have been made. Perhaps the Hon'ble Mover desired to get Government to pledge itself to spend no money on any other

sanitary purposes, or to spend none of it in Calcutta or the suburbs. It would be futile, however, to give the motion that interpretation, for I do not suppose that the Council desires that Government should bind itself absolutely to spend no money on sanitary purposes except drainage and water-supply. It is always possible something of an urgent nature may arise, and surely we must retain the discretion to meet the case. Nine-tenths of the money of this grant is ordinarily spent on these purposes. It is possible that the Hon'ble Member wished to exclude Calcutta and the suburbs from the benefits, but why should he? As a matter of fact, we do not usually give much money away to Calcutta. We have assisted the suburbs, and I presume that he does not desire that that assistance should be discontinued. So far as I can understand, it seems to me that this resolution and most of what has been said upon it, is entirely superfluous, because very much more will undoubtedly be expended than has been asked for. But on one point I must speak, and that is the amendment which was proposed by the Hon'ble Maharaja of Nashipur, that part of this money should be spent on jungle-cutting. I do not think that Government will agree that money received in this way, and required for permanent and important sanitary work, should be spent on jungle-cutting. I have no doubt that we could find jungle to cut all over Bengal, enough to absorb the whole of the grant, and I am quite convinced that if we set out and spent the whole of the money on jungle-cutting in June, there would be just as much jungle again in October. Expenditure on that account would be simply frittering our funds away, and the raising of such a question suggests to me that the system by which we receive these large grants outside our ordinary income, is somewhat demoralising. I do not think that if it were a question of allotting our own income, it would have been proposed to spend large sums on jungle-cutting. The question of jungle cutting is important enough—we are aware of that, but it is in the hands of municipalities to have jungle cut, and they have all the powers they require. It is quite possible that the suggestion has been made in view of the grant of Rs. 50,000 for an experiment in jungle-cutting not in municipal but in rural areas; that is a measure entirely of an experimental nature, directed to find out, and, once the point has been ascertained, to prove to people that the presence of dense jungle in villages is unhealthy. A sum of Rs. 50,000 was allotted by the Indian Research Committee, and this money is to be spent in certain selected areas with a view once and for all, if possible, to demonstrate that the reduction of jungle does improve the health of the locality, but I trust that the idea will not be taken up that if the point is proved, it will then become the duty of Government to provide funds for cutting jungle all over Bengal. Nothing is further from our mind, but if the demonstration is of any use at all, it will be in convincing people that it is worth while to cut the jungle, that it would pay them to do it. If one experiment is not sufficient, very likely the demonstration will be made again elsewhere, but in any case it will be done as an educational experiment, and it will not be done on the principle of Government accepting the responsibility to clear the jungle.

I am afraid, My Lord, it is impossible to accept the resolution as it stands. I have explained the intention of Government, which in one way goes much further than the resolution, which I hope will not be pressed.

The Hon'ble MR. CHAKRAVARTI said :—

My Lord, am I in order in speaking to this resolution?

The PRESIDENT said :—Certainly.

Hon'ble MR. CHAKRAVARTI :—I desire to point out that the object of the resolution, as I understand it, is this. Out of the 22 lakhs, which, as it has been pointed out by the Hon'ble Sir William Duke, is set apart for sanitary experimental purposes, at all events the figure which the Hon'ble Surendra Nath Ray has mentioned in his resolution should be specially set apart, *i.e.*, earmarked for purposes of supplying good drinking water and for drainage in urban areas. That is what I understand his resolution to be, and it will then be entirely for the Government to decide whether, out of 22 lakhs, this

sum of six lakhs and odd can be utilized for that purpose, as, if I follow rightly, the Hon'ble Sir William Duke, the main part of the sanitary work is supply of drinking water and improvement in the drainage of urban areas. If that is so, I feel great difficulty in understanding why there should be any opposition to this resolution, and if I may put it in a humorous form, what my friend the Hon'ble Babu Surendra Nath Ray desires to avoid, is that out of this six lakhs and odd, anything should be spent for example upon an object like this which is mentioned on page 30, and referred to by the Hon'ble Sir William Duke—the Mosquito Brigade, Dacca, Rs. 220. I had great difficulty in understanding what this meant, as to whether it meant that the mosquitos, which are extremely powerful in that part of the country, should be trained into brigades for purposes of attacking human beings, or whether a brigade should be formed for the purposes of attacking mosquitos. However that may be, what my Hon'ble friend desires to impress upon Your Excellency's Council is this, that out of the six lakhs and odd, at all events, no portion should be spent for an object like this, which is designated there as Mosquito Brigade, Dacca. Then, my Lord, further, I find that one of the objects on which this 22 lakhs is to be spent, as pointed out by the Hon'ble Sir William Duke, is purchase of instruments, establishment, etc., charges in connection with the plant. I frankly confess that until I was enlightened by the Hon'ble Babu Surendra Nath Banerji, I had some difficulty in understanding what it meant, and it appears to me that that highly scientific name is for the purpose of providing instruments for killing mosquitos. It may be a very useful purpose, and probably the experiment is going on, and when the mosquitos are destroyed all over Bengal, if that consummation ever arrives, there will be no malaria. In the meantime, instead of killing mosquitos, what the Hon'ble Babu Surendra Nath Ray desires is that 6 lakhs, at all events, should be devoted to the purposes of supplying good drinking-water, and for making better provision for drainage in urban areas.

The Hon'ble MR. SURENDRA NATH RAY said : I have only a few words to say. I think, my Lord, I have not been properly understood. What I want is explained by the Hon'ble Mr. Chakravarti. It is that over and above the amount which the Local Government have already provided for sanitation, I want that this sum of Rs. 6¾ lakhs, or 20 lakhs of rupees, whatever sum may be available, be set apart for the purpose of supplying pure drinking-water and drainage. This would be over and above the amount which the Government will spend out of Provincial revenues. That is my resolution, my Lord, and nothing else. Then, as has been pointed out by the Hon'ble Mr. Chakravarti, all I want is that this amount should not be spent for any other purposes, as spending money on a mosquito brigade, and for purchase of instruments and establishment charges in connection with stygonia enquiry, and such other charges. Having got this amount, Government may be prepared to spend the money in various ways. This is the amount which we have got as a gift from the Government of India, and having got it from the Government of India, we think it is a very precious gift, and every pice of it ought to be spent for promotion of urban sanitation of the province, and supplying the crying needs of the people. That being so, what we want is that the money should be spent for the purpose of supply of pure drinking-water, and for the purpose of good drainage. My resolution, as Your Lordship knows full well, was to the effect that this amount of 6¾ lakhs be devoted entirely to drinking-water and for drainage, but my Hon'ble friend the Maharaja of Nashipur suggested that the money should also be spent for jungle-cutting, and I accepted his amendment. It was not my original proposal at all. I think that the amount of 6¾ lakhs ought to be spent on permanent works of sanitation, and that the money should not be spent in any other way. Only one word more, and that is this. In his speech in the Imperial Council, the Hon'ble Mr. Butler said :—

"Regarding the recurring amount for sanitation, amounting to 45 lakhs of rupees, at least 5 lakhs should be reserved for research and anti-malarial projects, and the remaining 40 lakhs will be distributed 'as follows'":

Here also the Government of Bengal might say that we want to reserve out of this amount, some money for research and for other objects.

This is all, my Lord, I have to say.

The Hon'ble Sir William Duke said :—

I need only add that of course this is a new light which does not appear from the resolution, that 6¾ lakhs should be in addition to the sums which have already been allotted. All I have to say is that even from that point of view, the difficulty is not as to the amount, the money and probably more is available, but the method of spending it is entirely dependent on municipal schemes. If the municipalities will forward their schemes, the money can be provided. If they do not, Government cannot undertake to spend it for them.

A division was taken with the following result :—

The Hon'ble DR. NILRATAN SARKAR moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a sum of Rs. 14,400 be granted for the appointment of three whole-time clinical teachers (preferably with British qualifications) in the Calcutta Medical College ; and

(*b*) that the proposed expenditure be met—

(*i*) by reducing the grant of Rs. 9,600 allotted for the pay of an Indian Medical Service officer as Personal Assistant to the Inspector-General of Civil Hospitals to Rs. 2,400, which would suffice to provide for the appointment of a Civil Assistant Surgeon to replace the present Personal Assistant, and

(*ii*) by appropriating the sum of Rs. 7,200 allotted as allowances to two Resident Surgeons and one Resident Physician of the Calcutta Medical College Hospital for doing some teaching work.

My Lord, in moving this resolution, I may observe at the outset that I recognize that the Inspector-General of Civil Hospitals may well ask for the assistance which is proposed to furnish him by the appointment of a professional man as Personal Assistant. But if the replacement of a present ministerial officer by a medical man is decided upon, there seems to be no reason why the post should not go to a Civil Assistant Surgeon. It is obvious that the emoluments as proposed in the Financial Statement (Rs. 9,600 annually) will be just sufficient to draw a man comparatively junior in the Indian Medical Service who will always have his eye to preferment outside the Writers' Buildings, and will never be disposed to look upon the post as more than a half-way house. There is thus likely to be constant change in the *personnel* of the office. The appointment itself, instead of promoting professional efficiency of the incumbent, will tend to shut him out from participation in practical experience, at a period when he would need it most.

The advantage, on the other hand, of bestowing the appointment on a Civil Assistant Surgeon, will be that for a lower pay it will be possible to secure the services of a more experienced man, who would not think of forsaking the office soon. Besides, being in touch with the majority of the members of the service he will be in a position to manage the work with greater insight, and at the same time more smoothly than one who has not got that advantage.

He will also be able to maintain the hospital returns without having to depend much upon clerks for this purpose. He will, moreover, be able to help the Inspector-General materially in the matter of inspection work.

The Civil Assistant Surgeons are an eminently deserving set of public servants who have filled the few high offices that have been given to them with great credit to themselves. It would, indeed, be a slur on this useful body now to adjudge them unworthy to occupy the office of the Personal Assistant to the Inspector-General of Hospitals. The Hon'ble Sir William Duke has referred to the practice, which obtains in Bombay and Madras, of employing Indian Medical Service officers in the post. But I have tried to point out some of the possible drawbacks of that system, and the injustice it will involve upon a deserving class of officers. We should not allow mere uniformity to override considerations of justice and economy combined with efficiency. Further in Bombay, the number of dispensaries is much larger than in Bengal, being 733 as against 407, and the jurisdiction of the Surgeon-General of Bombay extends not only to Sind but even beyond the geographical limits of India.

I therefore venture to hope with some amount of confidence, that Your Lordship's Government will be pleased to accept my proposal that the Personal Assistant should be selected from amongst the Civil Assistant Surgeons, on Rs. 200 as pay (Rs. 2,400 annually), out of the sum of Rs. 9,600 proposed as the remuneration of the Indian Medical Service Personal Assistant in the Budget. The balance which this would set free (Rs. 7,200 annually) may be added to the amount of Rs. 7,200 which is proposed to be given as allowance to three Resident officers of the Medical College Hospital for doing some teaching work, and with the whole of this amount (Rs. 14,400 annually) should be secured the whole-time service of three competent medical officers (tutors) preferably with British qualifications, who will be able to devote much greater time and attention to teaching work than the Resident officers of the Medical College Hospital. The reason for my suggesting this scheme is that the Resident officers of the Hospital have already got their hands much too full, and further that most of them do not hold those offices for any length of time. And, however competent they may be to take up teaching work, this uncertainty of tenure of office is bound to affect the efficiency of their work as teachers.

If the present pay of the Personal Assistant of the ministerial service, who will be replaced by the proposed Assistant Surgeon Personal Assistant, be added to the abovementioned sum of Rs. 2,400 in the pay proposed for the post, it will certainly attract some of the best men amongst the Assistant Surgeons.

The Hon'ble SIR WILLIAM DUKE said :—

My Lord, I am afraid that Government cannot support the resolution, and ask the Council to accept it, not because Government is not in sympathy with the object of the Hon'ble Mover, but because the want, although it may be real, has certainly not been definitely ascertained, the remedy proposed has not been shown to be the right one, and Government is disposed to think that further inquiry may show that it is not the right one, while it is impossible to agree to the retrenchments of the heads from which it is proposed to meet the cost. As a matter of fact, neither the Inspector-General of Civil Hospitals nor the Council of the Medical College has so far represented to Government that there is any need for additional whole-time clinical teachers. In view, however, of the progressive increase of work and the higher standards which are demanded year by year, it is quite possible that further assistance in teaching may be or may become desirable; when it can be shown to be so, Government will give favourable consideration to the evidence of the want and to any well-thought-out scheme for supplying it. The Hon'ble Member's proposal, having regard to the amount which he would set aside for it, seems to indicate that teachers of the standing of Assistant Surgeons are contemplated. It is impossible to say, without hearing the views of the

Medical College Council, whether assistance could best be rendered in this way, and whether, if it is needed at all, assistants are required for the existing professors or additional teachers of the same professional standing as themselves. I must, therefore, suggest that the resolution is premature, and that the disposal of the question must await the recommendations of the Medical College Council. In any case, should the Hon'ble Member be disposed to press his resolution, in spite of what I have said, Government would be unable to accept it, as it stands, because we cannot agree to the reductions which it is proposed to make in order to provide for the expenditure. The appointment of an officer of the Indian Medical Service as Personal Assistant to the Inspector-General is a corollary to the change in the status of the province from a Lieutenant-Governorship to a Governorship, and it could not be foregone without lowering the status of the Presidency as compared with Madras and Bombay. But there is an additional reason which is more solid than that of status. The work of the Inspector-General of Civil Hospitals in this province has always been exceptionally heavy, and some years ago a proposal was made to relieve him by appointing a member of the Indian Medical Service as Personal Assistant. The same relief could not be obtained by the appointment of a Civil Assistant Surgeon, because questions on which assistance is required are generally personal to the Indian Medical Service, and in such matters, particularly where they are questions of professional knowledge, an Assistant Surgeon could not be employed. In other respects, for the ordinary work of the office, a Personal Assistant drawn from the clerical staff, such as the Inspector-General has had hitherto, would be much more suitable than an Assistant Surgeon.

As regards the latter part of the proposal, we have decided, after mature consideration, that the resident officers are insufficiently remunerated for the work which they have now to perform, and that the allowances we have proposed are equitable and necessary. We cannot, therefore, agree to postponement, in order to provide for additional teaching, the need for which has not yet been established, nor the nature of it settled.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said:—

My Lord, there is a certain amount of mixing up issues with regard to this resolution which makes the position somewhat difficult. There is a distinct University aspect to the question, besides the question of policy, as to whether an Indian Medical Service man should be Personal Assistant to the Surgeon-General that is to be or the Inspector-General that is. This adds to the difficulty of the problem. As regards the second part of the question, that teaching assistance should be provided by Resident Surgeons, I would that is, strongly on the Council to deprecate such a suggestion. As a matter of fact, University Inspectors have pronounced the teaching accommodation there to be insufficient. And in order to relieve that situation what is being done as a temporary measure is that the tutorial work has been relegated to Resident Surgeons for the time being. As Sir William Duke says, it is quite right that these men who have done extra work should be compensated if expectations were held forth. But whether they should be compensated or not is quite another matter. Pending final recommendations of the University Inspectors, however, it ought not to be definitely budgetted that teaching relief should continue to take this extremely questionable shape. Such a state of things should not be tolerated any longer than can be helped. It is well known that these Resident Surgeons are very hard-worked men, who cannot in fact fully cope with their own legitimate work. Additional pay will not get more real work out of them if they are already over-worked, and if there is to be more expenditure, more men ought to be engaged. No man in that situation can give any proper help to the teaching staff. A thing like that would not be tolerated in an Arts or Science college. With regard to the Medical College, I admit it has been going on as an experiment for a little time. But I respectfully submit that it should not be allowed to go any longer. Unfortunately the Inspector-General of Civil Hospitals is not a member of this Council, or else he is one of the Inspectors of the Medical College, and I should like to hear his views as to

whether he has definitely assented to a permanent strengthening of the teaching staff of the Medical College on lines other that there indicated in the budget. As we have not that opinion officially before use, and as there is a provision for supplementary help from the Resident Surgeons,—which appears to be objectionable,—we ought to provide machinery for better teaching and tutorial assistance, and the business-like proposal of Dr. Sarkar, which has enhanced my esteem for the business co-partner of the profession, finds a way out of the difficulty. The profession can easily find three good teachers such as they have in the Campbell School. If you give Rs. 300 a month, you can get men like Dr. Kedar Nath Das, Dr. Upendra Nath Brahmachari, Dr. Mrigendra Nath Mitter, Dr. Jotish Chunder Mustaffer, Rai Harinath Ghosh Bahadur and others. They will be allowed private practice of course, as they have always been allowed in the Campbell School. I will recall what Lord Morley said not long ago with regard to encouraging private practice of medical teachers. His Lordship said that they ought to be in touch with the outside medical world, so that their knowledge may be widened. For this and other reasons I think that provision should be made for strengthing the general teaching staff of the Medical College and no more temporary patch work like this even with the materials that are now before Government. I am not taking any notice of what the University Inspectors decided. That will come up before the Syndicate in due course.

As regards the appointment of a Personal Assistant to the Surgeon-General that is to be, it is very difficult for the Council to pronounce an opinion on. So far as other Personal Assistants are concerned, they have generally been recruited from the Subordinate Service, for it is with the Subordinate Service most that the Personal Assistant has most to deal. Personal Assistants to Divisional Commissioners and the Personal Assistant to my hon'ble friend Mr. Finnimore are of that kind. The Personal Assistant to the Inspector-General is not to be a Deputy Inspector-General, who will have inspecting duties and who will always look for promotion outside his immediate appointment. He is to be no more than a Personal Assistant who will do the same kind of work that has so long been done efficiently by one who is not even a professional man. If you have an Assistant Surgeon of the right order, he will be in touch with the members of the Subordinate Service, and the Inspector-General himself will be in touch with the Indian Medical Service men which will fully meet Sir William Duke's criticism. For these reasons I think that an Assistant Surgeon will do better than a junior Indian Medical Service man, and I fully support the business-like proposal of my hon'ble friend Dr. Sarkar.

The Hon'ble BABU SURENDRA NATH BANERJI said :—

My Lord, I beg to support the resolution. The resolution divides itself into two parts. The first is the appointment for three whole-time clinical teachers. At the present moment the teaching work is done by two Resident Surgeons and one Resident Physician. I think it is an objectionable practice. Resident Surgeons have there own appropriate duties to perform, and their duties I believe do not include the duty of teaching. My Lord, I am myself a teacher, and I know that a teacher has got to prepare himself for his work. A conscientious teacher knows perfectly well that he has to prepare himself before he goes to the lecture room. And if you have Resident Surgeons performing the duty of teaching, we may take it that that work cannot be very satisfactorily done. My friend the Hon'ble Dr. Sarbadhikari says that the University Inspectors have objected to this practice.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

I do not know whether they have done so. They allowed it as a tentative measure.

The Hon'ble BABU SURENDRA NATH BANERJI, continuing, said :—

I think, Sir, it may be allowed as a sort of compromise. But there should be no tentative measure in connection with the sacred calling of teaching—a solemn responsibility attaches to that position. Therefore I am entirely in favour of the proposal that there should be three whole-time clinical teachers, preferably with British qualifications.

Then, with regard to the Personal Assistant to the Inspector-General, I do not see why he should be an Indian Medical Service man. It is said that they have got Indian Medical Service men for this post in Madras and Bombay. Might we not set an example, my Lord, in the matter of economy and efficiency to them? The mere fact of a man being an I.M.S. does not stamp him to be a man of surpassing ability or efficiency. My Lord, there is also another consideration which should not be overlooked in this connection. An Indian Medical Service officer belongs to a great service. He has the tradition of that great service, and may, I add, he has also got the prejudices of that great service. He may have feelings with regard to his brother officers, and he may communicate their feelings to the Inspector-General. But a man of the Subordinate Service will do nothing of the sort. It seems to me that, looking at the matter from the point of view of both economy and efficiency, my friend's suggestion is an excellent one, and I hope and trust that no kind of official feeling will be brought to bear upon this matter. I solemnly ask the official members to vote on this resolution as they ought to do according to their light and conscience.

The Hon'ble MR. SINHA said :—

My Lord, with your permission, I desire to say a few words in support of this resolution. Even if your Lordship is unable to accept the resolution in its entirety, it may be possible to consider the matter further in order that steps may be taken in the future for the purpose of carrying out its recommendations. My Lord, the resolution divides itself into two parts—

(1) Is the recommendation for the appointment of clinical teachers in the Calcutta Medical College. It seems to be admitted that there not only is a necessity for the appointment of such clinical teachers, but that the University regulations have made it absolutely necessary that there should be clinical teachers appointed in addition to the professors who do the teaching work in the college. For that purpose the very modest sum of Rs. 14,400 a year is recommended by the resolution as necessary to secure the appointment of three whole-time clinical teachers, preferably, that is to say, if it is possible to obtain them, with British qualifications. Now, my Lord, it seems to me that a case for the appointment of such teachers is made out, and, though it may be necessary to refer to the Council of the Medical College for the purpose of inquiring as to whether it is possible to obtain clinical teachers with necessary qualifications for this sum, that this Council would be justified in recommending that the appointment of such clinical teachers should be made if possible for the money allotted for the purpose.

(2) The second part of the resolution proposes to point out the sources from which this sum of Rs. 14,400 is to be obtained, and these sources are said to be two: First that, out of the Rs. 9,600 which is allotted in the budget as the pay for an Indian Medical Service officer as Personal Assistant to the Inspector-General, Rs. 2,400 should be allowed annually, which of course would not be sufficient to get an officer of the Indian Medical Service, but which would, I understand, be sufficient for the purpose of obtaining a Civil Assistant Surgeon. If that were all so far as this Council were concerned there would be no difference of opinion that a Civil Assistant Surgeon of this province is a person with very high qualifications. Up to now, so far as I am aware, the Personal Assistant of this office has not been a medical man at all. Therefore it would be a distinct advance, and, I take it, an advantage to the office, to obtain a medical man for the purpose, and that is the object with which it has been proposed that

an Indian Medical Service officer should be appointed; but should we appoint an officer with these high qualification, such an officer as is recommended in the budget for that purpose? Having regard to the fact that up to now a layman has been considered sufficient for the purpose of satisfying the requirements of the office, shall we get a medical man for the purpose, if we have a medical man with the high qualifications possessed by a member of the Indian Medical Service? We must combine efficiency with economy, and to my mind, My Lord, it does not seem a sufficient or an adequate reason that an Indian Medical officer has been heretofore, in Bombay or Madras, that is to say, the Presidency Governments as then existed up to now, the Personal Assistant to the Inspector-General. It does not seem to me a convincing argument that because our Government has been raised to the status of a Presidency that the Inspector-General should have his status raised in this way, by having a Personal Assistant from the Indian Medical Service, nor do I feel convinced, from what my friend the Hon'ble Mr. Duke has said, that the requirements of the office are such that none but an Indian Medical Service officer would be sufficient for the purpose. If a layman has been found competent to discharge the duties of that office up to now, it seems to me that a Civil Assistant Surgeon should be quite as, or, probably more, competent. Further, the province now is not of so large an extent as it was before, and therefore the duties of the office are probably less heavy than they were before, although the duties of administration may have increased to some extent. Therefore I hope that, so far as that portion of the resolution is concerned, Government may be able to accept it, or at any rate promise further consideration in respect of it. Perhaps I ought to have added another consideration which seems to me one which ought to have been taken into account with regard to this question, namely, that the object of the Government, so far as I am aware, has hitherto been, for some time, to create an independent medical profession in this country, and to reduce the number of posts to which Indian Medical Service officers are to be appointed. It does seem to me, therefore, that to make an addition to that list is contrary to what has been the endeavour of Government up to the present time. My Lord, as regards the second source of this Rs. 7,200, it is proposed to be obtained by reducing the allowance of Rs. 200 each to the Resident Surgeons and one Resident Physician. I am afraid I am unable to go with my hon'ble friend in that matter. That has been promised, and it seems to me that officers of the class and the qualifications of these gentlemen—the Resident Surgeons and the Resident Physician—ought to have it, but I do agree with them that they ought to have it as a fair increase in their salary, or an allowance for the work which they have to do as Resident Surgeons and Resident Physician, and not for doing some teaching work. If they have to do any teaching work, they should do it as part of the duties of Resident Surgeon and Resident Physician, and there ought not to be any increased remuneration for that; but as I believe the remuneration which they have is inadequate, then an allowance such as has been allotted should be allotted, and I for one am not willing that it should be taken away from them. The Rs. 7,200 should be obtained in some other way, and if it cannot be obtained, instead of the three whole-time clinical teachers, we must be content with two, or even with one. With these words, My Lord, I venture to support this resolution, and to recommend that even if Government is unable to accept it in its entirety, consideration in future will be promised with regard to the matters which have been pressed upon the attention of the Council.

The Hon'ble Sir William Duke said:—

I may perhaps say a few words on the points that have been raised. The Hon'ble Surendra Nath Banerji is strong on the position that people who have out-door work to do should not be required to teach as well. I am not certain, I am not a medical authority, but I believe that the officers in charge of the out-patients department in hospitals always do tutorial work. It is only those who have out-patients to attend to, who are able to instruct the

pupils in out-patient work. I don't see how anybody else can do it. I cannot therefore believe that there is any extraordinary anomaly in the system followed in the Medical College Hospital. I may say, seeing that there is so much difference of opinion disclosed by the gentlemen who are in favour of supporting this resolution, that it would be better if they did not press it, but were content instead to accept the assurance of Government that they will go into the question and see what is required. I say there is a great deal of difference of opinion. The Hon'ble Member has put down whole-time men, and the Hon'ble Dr. Deba Prasad Sarbadhikari has suggested men who can be appointed on Rs. 300 a month, with liberty to practice. The two positions are totally incompatible. One reason given for appointing an Assistant Surgeon on Rs. 200 instead of an Indian Medical Service man is that the Assistant Surgeon can always remain where he is, while the Indian Medical Service man would be seeking for promotion. Well, all I can say is that after two years he would be entitled to an increment, and he would have to go somewhere else. I do wish to make much of that point, but also on the subject of who should be the Personal Assistant; the Hon'ble Mr. Sinha has urged that if you want a professional Personal Assistant, you do not want one with very high qualifications such as those of the Indian Medical Service. As I have said already, I do not myself attach very great importance to the Indian Medical Service Personal Assistant question. It is not to my mind the main issue, but, so far as it goes, what I think is that if you want a medical assistant at all, then you do want the very highest qualifications, because I consider that for ordinary office purposes a trained ministerial officer, such as we usually have, and I can assure the Council we do have them in many departments of Government, is a much more satisfactory person. Therefore if you are going to give the post to a professional man, let us have the best. I do not wish to labour the case; all I would point out is that there is a great deal of divergence of opinion as to what really should be done, and it would be preposterous for Government to tie itself to particular rates of pay or to particular functions for the additional man that is to be given. I suggest therefore that the Council be content with the assurance of Government that the matter will be gone into, and such additional assistance as may be thought necessary will be provided.

The resolution was then withdrawn.

Hon'ble Dr. Nilratan Sarkar said :—

My Lord, as in other resolutions, here also I pray for indulgence to change the last line of the first paragraph of the resolution. Instead of alakh and-a-half, I would like to substitute "a substantial sum."

The Hon'ble Dr. Nilratan Sarkar then moved the resolution in the following form :—

This Council recommends to the Governor in Council—

(*a*) that fifty new charitable dispensaries and hospitals be opened in the more insalubrious rural centres in the Presidency, each in charge of a qualified medical practitioner, and that a substantial sum be provided for the purpose; and

(*b*) that the sum required be met from the non-recurring sanitation grant of the Government of India, and by retrenchment from the grant for an additional force to raise the reserve of the Calcutta Police (under "20—Police").

He said :—

This resolution, My Lord, is a very simple one. The total number of dispensaries and hospitals (classes I, III, IV) in Bengal, 407 in all, bears to the population the strikingly small proportion of 1 in 112,000 as against 1 in about 30,000 in Bombay, 1 in 60,000 in the Panjab, 1 in 80,000 in Madras, and 1 in 90,000 in all India.

The number of beds available in the dispensaries is only 4,029, but of these 1,824 are in Calcutta for a population of about 9 lakhs, leaving only 2,205 for a population of nearly 44,500,000, that is to say, 1 for about 20,000 persons.

There are 733 dispensaries in the Bombay Presidency with 6,160 beds, 1,887 of which are in the Bombay city and 4,243 outside it, which works out at the rate of about one bed per 5,000 of population.

In 1911, 57,919 in-door patients were admitted into the Bengal dispensaries and hospitals, and 5,819, *i.e.*, about 10 per cent., died. At this rate of calulation, as the number of deaths in this Presidency in the same year was 1,221,580, there must have been ten times as many suffering from illness more or less serious. Some of these must have attended these dispensaries as out-door patients, but by far the vast majority of these could not obtain any proper medical treatment. Out of 1,221,580 deaths, only about 5,819 took place in hospitals and dispensaries.

Under the circumstances, the proposal for the addition of 50 new dispensaries to the list appears to me to be a moderate one.

As regards the ways and means, the non-recurring portion might be provided from the sanitation grant of the Government of India, and the recurring expenditure, which should amount to about a lakh and twenty-five thousand rupees a year, should be met by retrenchment from the proposed grant for raising the reserve of the Calcutta Police to its authorised strength, and from the special grants at the disposal of the Divisional Commissioners and District Magistrates.

The Hon'ble Sir WILLIAM DUKE said :—

My Lord, I wish it were possible to accept this resolution, and perhaps if it came in a different from, it might be, but even then I am not quite sure. Of course when a proposal is made that funds should be provided by retrenching grants for the police, it is evidently assumed that the responsibility for the provision rests directly with Government. Now the responsibility of providing medical aid is one that I think Government has never accepted directly, and I am afraid it would not accept direct responsibility for it now. I make no question at all as to the necessity of much greater provision for medical aid in many parts of the province than there is at present. There is no doubt that many areas are very insalubrious, and dispensaries are few and far between, but possibly because Government had no funds with which to provide more dispensaries, possibly also because the provision of medical aid is the natural duty of local bodies, the subject has been left to local bodies such as District Boards and declared to be one of their duties, and on the whole they have performed that duty to the best of their ability. In some ways they are much better able to do it than Government. They know, or are able to find out, exactly where dispensaries are required, they are able to make their funds go much further than Government because they are always on the spot and able to find out what local requirements will be, and they usually do establish dispensaries with a certain amount of local support and some assistance towards the building. They get promises of assistance, and in one way or another they raise funds and make a matter of Rs. 500 go further than Government would make Rs. 1,000. Well, as they have performed this duty hitherto, and performed it fairly well, I think there is every reason why we should make no change now, at a time when the District Boards are receiving an enormous accession of funds. They will this year enter into a new income of almost 25 lakhs of rupees, that is very nearly a lakh a district. No doubt there are many demands upon it, but it is quite probable that they will be able to spare some of it for medical relief, and I think there will be nothing in the orders of the Government of India in regard to the conditions of the grant which will prevent their doing so.

I have said that I think they are best judges of where dispensaries can be opened, and it is certain that it is very difficult for Government to undertake the duty and to get the local support, without which it would be futile to proceed. Cases occur in which everything is ready, funds can be provided

but nothing is done simply because there is no local support. The site may not be given, and no measure of local assistance may be promised. I have known such cases myself. You will tell me they are very exceptional; I daresay they are, but it is for the local bodies to determine where the demand really is. I think that now when they have been provided with the means, and when undoubtedly they are the persons best qualified to judge matters had better be left as they are. You may be sure that if there is a real demand for increased medical aid, people will immediately knock at the doors of the District Boards and call on them to spend some of their additional funds in this way.

My Lord, I will say very little as to the particular retrenchment which it is proposed to make. I object to Government taking the wholesale responsibility; this particular sum would go no way at all. The provision for the Calcutta Reserve Police is a petty sum of Rs. 30,000 odd. That is not enough. It is not providing 1½ lakhs; nor if it would provide 1½ lakhs, would 1½ lakhs provide 50 dispensaries. Dispensaries require building, require equipment, medicines, etc., and when you have got them started they require a well qualified medical man to take charge of them, and that is not usually obtainable. The sum of Rs. 3,000 a piece would go a very little way; in the case of a building it goes no way at all. You require more than that for the building, then there is equipment, then the unkeep, and whatever is done, I should not recommend dispensaries being started on the cheap. I have had some experience of that. I have seen enthusiastic workers impressed by the sickliness of a particular locality try to remedy things by the provision of a number of cheap dispensaries. Perhaps, I have attempted it myself before I had the experience, but it does not work out well. Unless reasonable accommodation is provided, unless there is reasonable equipment, unless there is a medical man with some degree of competence, the thing does not go. The attendance never comes up to what it ought to be, and one is left with the impression that one has been throwing away money. I admit that I may have committed that error myself. I can remember a number of such dispensaries being opened in one district, several had to be closed afterwards, and replaced by two or three good ones at greater intervals. It is therefore not a thing which should be undertaken on the cheap. If it is done, it must be done thoroughly. I suggest in any case that it is not a matter which Government can take up; it is a matter which should be left to the District Boards, especially now that they have received additional means for carrying out the work.

The Hon'ble Mr. CHAKRAVARTI said :—

I will not detain the Hon'ble Members for long. I desire to add a few words; I only desire to point out, I frankly confess, that with regard to what has fallen from Hon'ble Sir William Duke concerning the responsibility of Government with regard to medical aid in the rural areas, that has not been accepted as a direct responsibility of Government up to now, but the position is very acute. I shall give an illustration, and I shall content myself with that illustration: There was a small place not more than 20 miles from Jessore where I had a little land, and the District Board offered me some help for the purpose of supporting a dispensary. We bargained for some time, and the District Board said they were prepared to pay Rs. 400. After that there was some difficulty raised, and I give the credit to my hon'ble friend, Mr. Newbould; he was not the Legal Remembrancer then, but the form of the agreement had to be sent three times over to the Legal Remembrancer before Government agreed for the enormous sum of Rs. 400 to be contributed to the maintenance of a rural dispensary. Then after we had taken all that trouble, and after three years had gone by I was told in an official letter that the District Board had no money. Well, the result was that we had to support the dispensary to the best of our ability, and according to our own means, and therefore I quite agree with my friend the Hon'ble Babu Surendra Nath Banerjee that in point of fact, unless the Government is prepared to help local bodies, it is impossible for them to make any provision for medical relief in rural areas, and as regards the necessity for medical relief there is no question. We find of course that with better sanitary methods and supply of good drinking water the volume of sickness may come down, but at the present

moment, in village after village, you may go 20 miles and get no medical relief. There is no dispensary; you cannot get a phial of medicine for probably 20 miles or 30, with the result that people die as cattle. In the past, Government was not able to take the responsibility in regard to medical relief in rural areas, and I am afraid that unless Government is prepared to see the people die of cholera and malaria, Government will have to come forward for the purpose of making some provision of medical relief in rural areas.

The Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, Khan Bahadur, said:—

My Lord, it is a matter of great regret that in spite of the best exertion on the part of Government, the scourge of malaria is eating into the vitals of the population of this Presidency. The Government have introduced the free and easy distribution of quinine, and though this has produced very good result, something more is yet needed. If, in addition to the free distribution of quinine, provisions are made to establish dispensaries under competent medical experts in more affected areas, such arrangements will not only check the progress of malaria, but will also help the population in arresting the course of other epidemic diseases. The different District Boards in the province are establishing dispensaries in the different parts of their respective areas, according to their resources. But, My Lord, their means are very limited, and they have other calls on their purse to satisfy, and unless Government come forward to help them, they are not in a position to cope with the situation.

The late Government of Eastern Bengal and Assam have deputed many Hospital Assistants in different quarters of the malaria affected districts, notably in several villages of Nator, a subdivision of the Rajshahi district, the proverbial hot-bed of malaria and its incidental diseases, to examine and report on the condition of the inhabitants of the respective villages. These Hospital Assistants are without supply of any medicine, and they can be of very little use to the people concerned. My Lord, I can daresay that their experience has been of sufficient duration to convince the Government that poor inhabitants of those parts are badly suffering from malaria, and they sadly need medical help. If those Hospital Assistants are permanently located there with properly equipped dispensaries, the poor inhabitants will derive incalculable benefits from this action of the Government.

My Lord, Your Excellency's Government cannot better apply their energy and resources than to make provisions for adequate supply of competent medical help within the easy reach of the rural population. I, therefore, accord my whole-hearted support to the resolution moved by my hon'ble friend Dr. Sarcar, as the stepping stone to the blessing which we all so heartily desire.

The Hon'ble BABU SURENDRA NATH BANERJI said:—

With reference to the observations which have just fallen from the Hon'ble Member, it seems that the idea is that these things should be left to local bodies and District Boards; but where is the money to come from? The 25 lakhs of rupees which have just been obtained from the Government of India, out of the superfluity of its abundance, is ear-marked for sanitation and rural water-supply. That money will not be available for the purpose of these dispensaries. I admit that the local bodies are the best judges as to the locality, and they are also in a position to run these dispensaries on a cheap basis. I grant this proposition. But whether cheap or dear, where are they to find the money? What I should like to suggest for the consideration of Government is that the Government should find the money, and make use of these local bodies for the purposes of selecting places and dealing with the administration of these dispensaries. It seems to me that that would be the proper solution of the difficulty. The funds being found by the Government, assistance of the local bodies being obtained for the purposes of selecting sites, and for such general administrative business. I am sure, Sir, that this is a practical proposal with which Government must be in strong sympathy; and if Government can find the money, it is a proposal

which ought to be given effect to. Local bodies can take the initiative, but without pecuniary assistance from the Government they are practically unable to move in the matter. I hope, therefore, that this is a matter which the Government will be prepared to consider in a sympathetic spirit. My own resolutions have been discussed to-day, and on the whole I am sure I am gratified with the reception those resolutions have met with at the hands of Government, and this is one of those resolutions which ought to receive the indulgence and sympathy of Government.

The Hon'ble SIR WILLIAM DUKE said :—

My Lord, I wish to point out that unless the Hon'ble Babu Surenda Nath Banarji knows more of the intentions of the Government of India regarding this matter than I know, I have reasons to believe that the grant of 25 lakhs of District Boards is the proper resource from which funds for medical aid should be given. The Government of India, I believe, leave the Local Government the discretion as to how that is to be applied. They express a desire that some portion of it should be devoted to water-supply and some to other measures. But that does not preclude some of it being devoted to medical aid, *e.g.*, dispensaries. I should like to repeat that Government does not accept the responsibility in the matter of general aid out of its Provincial revenues. It has not been niggardly in leading the way and making experiments. The Hon'ble Nawab Saiyid Nawab Ali Chaudhuri has admitted that the distribution of quinine in Eastern Bengal has done much good. That is an experiment which Government has undertaken on a very large scale ; 25 to 30 Sub-Assistant Surgeons are sent out every year for that work, but that again is partly experimental and partly educational work intended to ascertain the effect of wholesale treatment and to impress it on the people.

The Hon'ble DR. SARCAR said :—

My Lord, as regards the financial position of my resolution, I know that it is not acceptable to Government. I wanted to rectify it, but my letter was late. I wanted the money required for medical relief to come out of the grants placed at the disposal of Divisional Commissioners and District Magistrates, because the amount that is reserved for the additional Police force would be much lower than the required estimate. I would, however, like to say a word about a remark which has fallen from the Hon'ble Sir William Duke. My Lord, I do not want to have dispensaries to be cheap. What we have thought to be economical, has been considered cheap in higher quarters, and I am confident that a dispensary might be maintained with 2,500 or 2,400 rupees a month.

I would put my resolution to the vote.

A division was then taken with the following result :—

EXPENDITURE—*Head : 43—Minor Works and Navigation.*

16. The Hon'ble Dr. Deba Prasad Sarbadhikari moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that a substantial sum be provided for affording relief to the flooded areas in the neighbourhood of Bagua Hana, and

(*b*) that the said grant be met out of the non-recurring assignment for discretionary grants (Rs. 12,00,000) shown in page 2 of the Amended Draft Financial statement.

My Lord, in March 1908, in answer to my question, the Secretary to the Public Works Department stated—The scheme to which the Lieutenant-Governor has accorded administrative approval and which it is intended to carry out at the cost of the general revenue is the following :—" It is proposed to make an earthen embankment or dam across the head of the Bagua channel where it leaves the Damodar river, and to provide for the escape of the flood waters by means of two long overflows or weirs at the level of the natural bank which will be paved with rubble stone or concrete blocks. The object aimed at is to retain the two water-flow, in the old channel of the Damodar, while permitting the flood water which is far in excess of what the channel of the river can accommodate, to spill over the bank without cutting a deep channel."

There had been public memorials to the Government on the question before, and also considerable ventilation in the Bengal Council. Then, on 16th September, 1909, another memorial was presented with my covering letter to the Chief Secretary with the following among other prayers : " That if the Government be not pleased for some time to come to undertake the contemplated operation at the head of the Bagua channel out of the general revenue, then it will be pleased to introduce the provisions of the Bengal Drainage Act VI of 1880 as amended by Act II (B.C.) of 1902 and take action thereunder," and I received a letter from the late lamented Sir Charles Allen to the following effect : " I can assure you that the memorial you speak of will receive the most sympathetic consideration from the Government."

In April (26th) 1910 Maharaja Sir Tagore as Secretary, British Indian Association, addressed a letter to the Hon'ble Mr. T. Butler, Secretary, Public Works Department, asking that Mr Horn's recommendation may be fully given effect to, and for that purpose the Bagua breach be provided with a weir so as to help the flood waters of the Damodar to leave its new channel and seek its abandoned bed, and that Kana Nadi, which serves as an effective conduit, be connected with the Rupnarain at Bakshi by cutting a small channel, and in reply Mr. Butler in his letter, dated 2nd May, 1910, intimated that the subject-matter of the representation was under the consideration of Government.

On the 27th January, 1913, a party consisting of the Hon'ble Mr. M. Nethersole, Inspector-General of Irrigation, Mr. A. A. Cowley, Deputy Secretary to the Government of Bengal, Mr. Sibold, Executive Engineer, Northern Division, Mr. Addams-Williams, Executive Engineer on special duty, and Rai Annada Prasad Sarkar, Superintending Engineer, inspected the Bagua Hana with the view of taking some remedial measures. They have submitted a report, the recommendation of which has not been made public. But it is believed that they have made some suggestions tending to relieve the situation.

Now, for the purpose of determining the alignment of the Santragachi-Bishnupur Chord Railway, a distance of 73 miles, which the Railway Board has sanctioned, the Bengal-Nagpur Railway administration has appointed Mr. C. S. Negley with a competent staff to examine the Damodar spill below Bagua, and the operation is expected to be commenced in the current month of March. If the Government co-operate with the Bengal-Nagpur Railway so as to suit their convenience to adopt the direct or shortest line which they technically call "crow-fly" distance, the remedial measure could be carried out at a far less cost.

If our information be correct, high authorities of great engineering competence are of opinion "that the work should be started without further delay, and then careful observation made if any further work will be of use and what the nature of the work should be." "The *question is an important one, and a start should be made even with the incomplete information we have at present.*"

With information and opinion like this it is a double grievance that the hardships of a long-suffering people should be in no way attempted to be relieved. The matter has been often debated in Council, and distinguished members like the Hon'ble Maharajadhiraja Bahadur of Burdwan, who is thoroughly cognizant of the details of the situation, have made valuable and sympathetic contributions towards the debate. A fresh memorial on the subject is now before the Government, and, though the information from the Government point of view may not be exactly full and complete, there is enough to go upon at least with the initial work, so that with gathering experience more work that may appear necessary may be undertaken.

My Lord, it is a very sad thing that even within a few miles of Calcutta very large damage to life and property is caused by preventible devastation. The Government has been considering the situation no doubt for a number of years, but nothing practical has been done. A survey is now held, and if immediately no steps be taken, the public have a right to, and do, ask that some scheme be early formulated and made public, so that there may be criticisms outside and suggestions of experts outside the Government may be obtained. We know not exactly how the work can be done. It may be possible for public bodies and individuals to get further information and lay it before your Lordship's Government. I quite realize that no scheme can be undertaken with the sum of money that I propose, even if the Council be inclined to accept my resolution. What I would ask for is more information and would press that early schemes be prepared and made public.

The Hon'ble MAHARAJADHIRAJA BAHADUR OF BURDWAN said :—

My Lord, while I cannot give my support to the resolution as it stands, I do think that regarding the Bagua Hana the Government of Bengal should make a final, thorough and sifting inquiry. So far as I understand, there is no crystallised scheme at present ready regarding the Bagua breach. There cannot be the slightest doubt that every year the Damodar plays havoc with cattle and lives, and that large tracts of what used to be arable lands are flooded each year. An opinion has been expressed unofficially at least by officials to us that in the flooded area *rabi* crops can be grown and in abundance. If that be the case, I think that a scheme showing what the outturn used to be before these tracts were flooded and what the outturn now is from the *rabi* crops should also be put before the public. If the Government think that in trying to put a weir across the Bagua they would be wasting money and that therefore it would be no good spending any money on the Bagua breach, then what I do think is this, that the Hon'ble Member who

will reply to this resolution of my hon'ble friend Dr. Sarbadhikari might enlighten us as to what schemes are before the Government, and also as to what expert opinion is available regarding the growing of a particular kind of crop or crops in this flooded area.

With these few remarks, I express my sympathy with this resolution; but at the same time I feel that the resolution, as it stands, cannot be accepted until we know that definite schemes are before the Government.

The Hon'ble MR. LYON said :—

I have every desire to explain this case fully and to deal with it quite frankly in this Council, and although the Government cannot accept the resolution that has been moved by the Hon'ble Member, I would ask the Hon'ble Members to believe that this is not because it is actuated by any want of sympathy on behalf of those who suffer from the floods caused by the river Damodar, but because no practical remedy for the state of things that has been described by the Hon'ble Member has as yet been discovered, although the subject has engaged the earnest and continuous attention of the engineers of Government and the representatives of the public for the past 20 years and more.

The fact is that this is by no means a question of money, but a question of the discovery of some scheme which will meet the obvious necessities of the situation. It is difficult to place that situation clearly before the Hon'ble Members in the course of a speech, as a full understanding would require the careful study of a map as well as the perusal of a great mass of literature which has grown up around it during past years. I may explain, however, that the area affected may be roughly described as a long triangle having its apex to the north at what is known as the Begua breach, its eastern boundary the river Damodar, which is bunded on its east bank for the protection of the East Indian Railway and the district of Howrah, a short southern base in two khals known as the Buxi khal and the Gaighata khal, which are themselves bunded on the south for the protection of the Grand Trunk Road, the Bengal-Nagpur Railway and the Midnapore canal, and the Rupnarain and its tributaries on the west. The floods spoken of are occasioned by the volume of water coming down the Damodar, the eastern boundary of the triangle. This flood water is prevented by the bund to the east from spilling over on that side, and consequently spreads over the area which constitutes this triangle, and is prevented from flowing away freely to the south by the southern embankment of which I have spoken, and also by a considerable number of dams and private embankments to the south-west which have been erected by various private owners to protect villages and cultivation on that side.

Now it may be roughly stated that in three years out of four the floods do not rise to any great height, and, although a certain area in the south of the triangle lies waste permanently, the actual crop area over the larger portion of this tract does not suffer, but is to some extent enriched by the silt brought down from the Damodar river. On the other hand, in the years of great flood, which come approximately one year in four, the *aman* rice crop is destroyed, and considerable suffering ensues on account of the water being held up throughout a large portion of this tract. I do not propose to enter into the agricultural controversy to which I am invited by my hon'ble friend the Maharajadhiraja of Burdwan, but I do not wish in any way to conceal our appreciation of the fact that floods do cause serious damage in this area.

This being the problem, a considerable number of solutions have been proposed to deal with it. Mr. Horn, a distinguished engineer, was on special duty about the year 1902 and made elaborate investigations into the subject. It appears that we are precluded from bunding the west bank of the Damodar in the same way as we have bunded the east, so as to attempt to confine the whole of this water within the channel of that river, partly because it is believed to be impossible to prevent the water breaching one or other of the bunds in years of high flood, and so perhaps inundating the eastern tracts which are at present secure, and also because there is a danger lest the carrying of a larger proportion of the silt down into the Hooghly might affect the James and Mary shoal in that river and so prejudice the water-way

to Calcutta. It is also impossible to cut the southern embankment and so endanger the Bengal-Nagpur Railway, the Midnapore canal and the Grand Trunk Road. In these circumstances the question of holding up a proportion of the water that comes down the river in times of great flood by means of a huge reservoir in the catchment area in the hills many miles to the north was considered. This reservoir would have the effect of checking the first rush of the flood, and would enable the spill water to pass away more quickly from the flooded area, and it was believed not only by Mr. Horn, but also by another capable engineer who had carefully studied this problem, the late Mr. Maconchy, that this was the only really possible solution of the difficulty. But this project would cost between 32 and 40 lakhs of rupees, a cost which was considered entirely prohibitive, in view of the results to be attained, and the fact that this area is already being gradually raised by the silt which is annually deposited upon it. The final result of these enquiries was the production of two comparatively small schemes, which were referred to on the last occasion on which this matter was taken up in the Bengal Council, in the year 1911. The first of these was the construction of a weir at the apex of the triangle, which would close the breach to which reference has been made in so far as to prevent small freshets passing over into the triangular area, but would allow the spill water at times of flood to top the weir and enter that area. This scheme, which met with somewhat doubtful acceptance locally, was recently placed before the Inspector-General of Irrigation, Mr. Nothersole, who, after local inspection and careful consideration, came to the conclusion that it was doubtful whether the scheme would prove effective, that it would probably lead to further breaches in the banks of the Damodar lower down and would also possibly interfere with the navigation of the Hooghly by increasing the silt deposited in the neighbourhood of the James and Mary shoal.

The second scheme was to afford a larger channel for the outflow of the congested waters in the south by retiring the bund to the south of the khals at the base of the triangle. Enquiries have shown, however, that to retire the bund would cause the abandonment of two or three large villages and consequent heavy claims for compensation, while in the opinion of some engineers the change would only afford local and limited relief.

Mr. Nethersole, while disapproving of the main scheme, has made some alternative suggestions for the drainage of the affected area which will be further enquired into, but the fact remains that after all enquiries and efforts on the part of our engineers we have not yet been able to discover a practicable solution of this very difficult question, and we have consequently no approved scheme upon which we could spend the sum which has been suggested by the Hon'ble Member. In these circumstances I can only say that Government propose to examine the alternative proposals that Mr. Nethersole has put forward, and they are inclined to consider favourably the suggestion which has been made that the whole of this tract should be carefully surveyed to show what changes have taken place within the last decade and how far the area is being gradually raised above the flood level by the deposit of silt. The survey would also enable us to ascertain how far the natural drainage is being restricted by the private embankments to which I have referred above, which have been erected for the protection of villages and cultivation to the south-west, and whether it is essential for the salvation of the flooded tract that some of these embankments should be levelled in order to restore proper drainage conditions.

I regret that, with every wish to help the Hon'ble Member and those whom he represents, we should be unable to meet this resolution with a more encouraging reply, but I feel sure that all Hon'ble Members will realise that the subject is one which has the earnest attention of all who are concerned, and that we shall not relax in our endeavours to assist the land-owners and the cultivators concerned to mitigate the serious effects caused by the floods of the Damodar river in the area referred to.

The Hon'ble Dr. SARBADHIKARI said :—

I cannot admit, my Lord, that the reply is not encouraging. In fact, it is one of the most encouraging I have received in the last five years. The

Hon'ble Member has declined to enter into an agricultural discussion with the Hon'ble Maharajadhiraja Bahadur of Burdwan, and we cannot exactly assess what the value of the roast bacon will be as a consequence of the conflagration, for that is the value of the *rabi* crop that the resultant silt is supposed to bring forth. Of course Dame Nature is always blamed, because she cannot be here to answer. But the real difficulty which has also been indicated in the Hon'ble Member's reply, consists of those bunds and embankments which have been formed in connection with the railways, which did not provide betimes for enough openings which might have saved the country. Of course it is no good referring to all that now. We have to meet the situation as it is. This is no time to enter into the details of the technical matters referred to by the Hon'ble Member, but it is refreshing that some alternative scheme has been suggested by Mr. Nethersole, and at this stage I shall not press my resolution. I beg to withdraw it in the hope that by the time the next budget comes up we shall be able to give the long-suffering people some practical relief.

The resolution was then withdrawn.

The Hon'ble MAHARAJA RANAJIT SINHA of Nashipur moved the following resolution :—

This Council recommends to the Governor in Council—

(*a*) that the grant for the dredging of the Bhagirathi (Rs. 7,000) provided under head "43—Minor Works and Navigation" be raised to Rs. 25,000, and

(*b*) that the increase be met by corresponding reduction in the grant of Rs. 23,500 (under head "45—Civil Works in charge of Civil Officers" to the schedule to the Financial statement) to Divisional Commissioners for minor local requirements.

He said :—

My Lord, I am really aware that the matter is already engaging the attention of the Government, and that provision has been made in the budget already, so it will be superfluous and imprudent on my part to dwell on the subject at any great length. The object which leads me to bring forward this question is to impress on the Government and the Council the urgency of the matter. If my information is correct, My Lord, since last few years a small sum of money has been spent in dredging the entrance of the river ; but that after dredging is finished, the sands again accumulate and check the free flow of water, and up to this time no appreciable improvement is visible. In my humble opinion, if the Government be pleased to grant a lump sum for the purpose, the matter might be finished in a year or so once for all. My Lord, Bhagirathi is the main source of the supply of drinking water to the people who inhabit on both sides of the river. In hot season when there is no flow and water becomes shallow, the water becomes stagnant and unwholesome for drinking and bathing purposes, and at this time of the year by drinking river water cholera and other epidemic diseases break out. But the people are so accustomed in that part of the country to use that water that they must drink. I think it will not only improve the sanitation, but improve the condition of the people, as after the river be made navigable the trade will flourish. With these few words, I move the resolution.

The Hon'ble Mr. LYON said :—

There is some slight misunderstanding in the matter of this resolution, because the sum of Rs. 7,000 which the Hon'ble Member believes to have been provided for the dredging of the Bhagirathi, is not really provided for the Bhagirathi at all. The heading in the budget is slightly misleading. There are three headings bracketted together, and this entry of Rs. 7,000 is for the dredging of the Gorai river, and not the Bhagirathi, and so I am sorry to say nothing appears in the budget for that river. But this does not mean that we are going to do nothing for the Bhagirathi. As the Hon'ble Member knows, we have taken a great deal of trouble to carry out work on this river and improve it for some time past, and we have no intention of discontinuing our efforts in that direction ; but as the Hon'ble Member has put it in this way, that Rs. 7,000 is not sufficient for anything

substantial, that it will be immediately swept away and that a good lump sum of Rs. 25,000 would be very useful in securing something in the nature of a permanent channel, I should like to inform the Hon'ble Members of Council that, as regards forming a permanent channel or anything of the kind, a very full survey and estimate was made some few years back with this object in view. It was calculated that the practical work which has been somewhat lightly described by the Hon'ble Member would cost between 12 and 13 lakhs of rupees, so that Rs. 25,000 in our budget this year would not help very much. But I do not wish to treat the case with levity, because I know the importance of it. The facts are these: Every year we deal with the question of navigation in the Bhagirathi and the water that comes down during the rains, not by means of dredging the mouth, but by bandalling and controlling the channels, and this is provided for under the heading in the budget, "Maintenance of the Nadia rivers." There is a sum of Rs. 50,000 in the budget for the benefit of the Nadia rivers, and various sums have been spent from year to year, amounting in some years to as much as Rs. 25,000, for helping the channel of this particular river. Now this additional work for the preservation of channels in the river is not of course intended to increase the amount of water which actually comes down from the Ganges, and consequently, for sanitary reasons, important reasons which have been suggested by the Hon'ble Member himself, we have had to take further action to dredge the mouth of the river during the past few years. This action has been paid for out of the reserve in the Sanitary budget, and the Public Works Department have taken the work up when they had a dredger available for the purpose.

It is well known, I think, My Lord, that we are at present preparing schemes for the utilisation of the waterways of this province, schemes which are going to cost a great deal of money. In order to carry out these schemes we must purchase several dredgers, one of which will certainly be available from time to time to do something at the mouth of the Bhagirathi, and help to bring more water down its channels, but in the meantime the work which we have done from the sanitary grants has not been altogether useless. We have spent a good deal of money since 1908-09; in that year we spent over Rs. 13,000, in 1909-10 over Rs. 26,000, a larger grant than is mentioned by the Hon'ble Member. We spent Rs. 12,000 in 1910-11, we had no expenditure in 1911-12 because there was no dredger available. In 1912-13 we spent about Rs. 10,000, and this year, if we can get hold of a suitable dredger, we propose again to do something to clear the mouth of the Bhagirathi, so as to enable more water to pass down during the hot weather, when it is required for sanitary purposes. I hope when we have got these big dredgers, we may be able to do something a good deal more effective than has been suggested in the motion, and I think that we may be able to dredge not only the actual mouth of the Bhagirathi, but for a mile or two down the course of the Bhagirathi, which is the only way in which we can secure a proper flow of water which will last up to the rains and make some permanent change in the mouth of the river. We have of course to be careful not to be too zealous. If we turned the whole volume of the Ganges water down the Bhagirathi, there would not be much left of Calcutta. We have to be careful not to bring too much of the water down, but we could, I think, bring down a good deal without danger and also without frightening the engineers at the Sara Bridge. I hope that in the circumstances, having regard to the fact that we are going to spend up to perhaps Rs. 20,000, or Rs. 25,000, as we have done hitherto, and that we are indenting for dredgers, which form the only machinery by which we can do the work, the Hon'ble Member will not think it necessary to press this resolution. In any case, it would not really help him, as it would only be providing money from one source to carry out work provided for from another source.

The Hon'ble MAHARAJA OF NASHIPUR said:—

In view of the sympathtiec reply given by the Hon'ble Mr. Lyon, I withdraw my resolution.

The Council was then adjourned to Monday, the 17th March, 1913, at 11 A.M.

FRANCE, ALGERIA AND FRENCH COLONIES.

Signals to be made by vessels inconvenienced by the searchlights of Defended ports or of French ships-of-war.

No. 132 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 169 of 1913), are republished :—

Every vessel seriously inconvenienced by searchlights, which are being exercised at Defended ports or by French ships-of-war, should make use either separately, or as far as possible at the same time, of the following signals :—

(*a*) By flashing lamp, *four short flashes* followed by *one long flash.*
(*b*) By whistle, siren, or fog-horn, *four short blasts* followed by *one long blast.*

These signals should not be used without real necessity, and only when the vessel finds herself actually in the rays of a searchlight, when only can it be seen which searchlight is inconveniencing her, and which will then be doused or its direction altered.

The signals should be repeated until the searchlight has been doused or its direction altered.

Vessels failing to use these signals will be held responsible for accidents that may occur.

NORTH-WEST PACIFIC OCEAN.

Warren Hastings (Merir) island—Amended position.

No. 137 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 187 of 1913), are republished:—

Position on charts.—Lat. 4° 18′ N., long. 132° 30′ E.
Details.—According to a report made by Capt. Eggert, Master of the Swedish S.S. *Nippon*, to the United States Hydrographer, the island is situated, by his observations, in lat. 4° 18′ N., long. 132° 21′ E., or 9 miles westward of the position shown on the charts. As this longitude agrees with that obtained by H.M.S. *Pallas* in 1894, the position given by Capt. Eggert has been accepted and the charts amended accordingly.

The Survey and Settlement Reports for the year ending the 30th September, 1912.

THE reconstitution of the provinces took place in the middle of the year covered by these reports ; but it was decided that the existing arrangements

for the control of survey work, other than cadastral surveys which are carried out by the settlement staff, should continue as a temporary measure. Lieutenant-Colonel R. T. Crichton, C.I.E., who became Director of Surveys of Bihar and Orissa from the 1st April 1912, thus remained in charge of the operations in the Burdwan and Presidency Divisions (including Calcutta) and in the district of Darjeeling, while Captain F. C. Hirst continued to be Director of Surveys in Assam as well as in the remainder of this Presidency. The charge of the Settlement Department in the former province of Bengal was held by Mr. H. McPherson, I.C.S., from the beginning of the year up to the end of March 1912, when his services were transferred to Bihar and Orissa, and Mr. J. C. Jack, I.C.S., who was previously Director of Land Records in Eastern Bengal and Assam assumed charge of the same post in the Presidency of Bengal. The reports now submitted deal with the work done during the whole year in the Bengal Presidency.

2. Excluding large rivers, the total area of British territory in the Presidency is 73,394 square miles, of which 5,352 square miles are covered by reserved forests and 1,821 square miles are unsettled waste at the disposal of Government. The settled area comprises 66,221 square miles in 65,069 of which the Bengal Tenancy Act of 1885 is in force. After the partition of 1905, this Act was amended on somewhat different lines in Bengal and in Eastern Bengal and Assam. Most of the divergencies, however, relate to matters of a technical nature or of minor importance, and in some cases they are due to differences in the local conditions of the two parts of the Presidency. There is no indication that the present position has caused or is likely to cause any practical inconvenience. It has therefore been decided to defer the consolidation of the law until a general amendment of the Bengal Tenancy Act is undertaken, after fuller information has been collected in the course of the record-of-rights operations in regard to certain other matters of great importance on which an amendment of the Act has been suggested. Steps are, however, being taken to bring into line as far as possible the rules under the Act and in the Survey and Settlement Manuals.

3. Since the Tenancy Act was passed in 1885, small areas have from time to time been the subject of cadastral survey and record-of-rights operation at the instance of the Court of Wards or of private individuals. Chapter X of the Act has also been resorted to for the purposes of settlement of land revenue in temporarily-settled areas, including the district of Chittagong, where the operations lasted from 1888 to 1898. In the Presidency, as it now stands, the making of a survey and record-of-rights of districts for the benefit of landlords and tenants and of the general administration was inaugurated in Bakarganj in the year 1899, and has since been extended to the districts of Faridpur, Mymensingh, Dacca, Midnapore and Rajshahi, in all of which it is still in progress. A survey and the preparation of a record-of-rights are also in progress in the district of Jalpaiguri, including the large Government estate known as the Western Duars, in which the operations will be followed by a resettlement of the land revenue. The areas in respect of which a record-of-rights has been prepared under the Bengal Tenancy Act aggregate 10,266 square miles, and those in which it is in course of preparation cover 12,608 square miles.

4. Traverse survey was carried on during the year in the districts of Mymensingh, Dacca, Jalpaiguri and Midnapore, the total outturn being 3,279 square miles. The traverse survey will be completed in Dacca and Jalpaiguri during the current season, but in Midnapore and Mymensingh it will probably go on till the end of 1913-14. Of miscellaneous surveys, the most important was the Calcutta survey, the main part of which has now been completed. No decision has however yet been come to on the difficult question of the maintenance of the maps and records. Owing to the administrative changes the Drawing Office, work was carried out partly in the Bengal Drawing Office in Calcutta and partly in the Shillong Drawing Office.

5. The main work of the Settlement Department, so far as major operations financed from Imperial revenues are concerned, lay in the districts of Faridpur, Jalpaiguri, Dacca, Mymensingh, Midnapore and Birbhum. With a few exceptions, which have been satisfactorily explained, the programme

for the year was carried out. In Faridpur, recovery of costs has begun with very satisfactory results, and the end of the operations is now in view, though the cyclone, which occurred last November and completely wrecked the settlement office, destroyed a large part of the cess revaluation records, and has given an unfortunate set-back to this part of the work. The printing of the record-of-rights, which was first undertaken in this district, has proved a complete success, and the Governor in Council is glad to learn of the satisfaction with which the people have received their printed extracts and of the value which they attach to them. The settlement of the district of Jalpaiguri is now nearing its final stage. Orders have been issued on the assessment proposals relating to the Western Duars and on various questions connected with the cess revaluation which is being carried out in connection with the preparation of the record-of-rights, and it is hoped that final publication will be completed for the whole district during the current year. In Mymensingh, good progress was made with field-work and attestation, and a good start has been made with the recovery of costs, but less than half the programme of final publication was carried out. Both in this district and in Dacca, the large number of applications for the partition of estates is causing serious delay in the completion of the record-of-rights, and the question whether it is practicable to undertake partitions in connection with ordinary settlement operations will have to be reconsidered in the light of the experience to be gained in the course of the current season. In Dacca, the work in Bikrampur, with its close cultivation and its population of 2,000 to the square mile, proved, as was anticipated, to be extraordinarily difficult, and the settlement officer and his staff are entitled to the greatest credit for their indomitable energy and perseverance, which enabled the programme to be successfully completed. In Midnapore, the first season's work was carried through in spite of the drawback of an untrained and inexperienced staff, but the main difficulties in connection with this settlement will not fully disclose themselves until the attestation stage. In Birbhum, it was found that the troublesome questions relating to the rents of the aboriginal tenants and their headmen could only be settled by a general rent settlement, on the basis of a table of rates applied to the careful soil classification which has been made; and with the sanction of the Governor-General in Council, the settlement officer has been vested with powers to settle rents under section 112 of the Bengal Tenancy Act. This work, which is now in progress, will, it is expected, be completed by August next.

6 The report of the Director of Land Records contains ample evidence of the need for a record-of-rights in all the areas in which the work is now in progress. These areas include tracts so diverse as the jungle mahals in Midnapore and Birbhum, with their illiterate and ignorant Sonthal tenantry, and the Bikrampur pargana in Dacca, where it is not unusual for the ordinary cultivator to possess an annotated edition of the Tenancy Act. But disputes and confusion in regard to agrarian relations are found everywhere, whether they arise from the ignorance of the cultivators and their inability to understand their rights, or from the complexity of the land tenures, which have been created in a more advanced stage of civilisation. In either case, the preparation of a record-of-rights is the only measure which can effectually place the relations of landlord and tenant on a proper footing, either directly or by indicating the points on which the existing law is defective. The most important questions of the latter kind are probably those relating to produce rents. Throughout Northern and Eastern Bengal there are large classes of persons who cultivate land on what is termed the *barga* or *adhiar* system. It is often very difficult to decide whether they are labourers who receive a share in the crop as wages, or tenants who pay a share of the crop as rent, but in practice they are treated as possessing no higher status than that of tenants-at-will. The system is bad, not merely for the actual cultivators, but also for the country as a whole, since it leads to wasteful and improvident cultivation. The Director of Land Records reports that it is possible in a cursory glance over a cultivated plain to distinguish, by the comparative lightness of the crop, land held on *barga* terms from land held on ordinary tenancy. It seems clear that the existing provisions of the Bengal Tenancy Act on the subject of produce rents are inadequate, and it is probable that further legislation will eventually be necessary. The information at present available

is not sufficient to furnish an adequate basis for legislation, but meanwhile the settlement operations are supplying information, which could be obtained in no other way, as to the character and extent of the evil and the nature of the remedy which is required. It is also gratifying to find that increasing use is being made of the record-of-rights by the courts and in the ordinary work of administration.

7. The cost-rates of the operations carried on in the Dacca and Rajshahi Divisions are high, but recent enquiries have clearly shown that, regard being had to the exceptional difficulties of survey and settlement work in Eastern Bengal and to the necessary improvements in procedure which have been introduced from time to time, the expenditure is not on the whole excessive. The present system of preparation of the estimates of cost and of accounting for the actual expenses is, however, defective, and arrangements are being made for the preparation of detailed estimates showing the work to be done and the establishment to be employed on it month by month, and for the submission of periodical returns of the work actually done and the expenditure actually incurred on each branch of work as compared with the corresponding programme and estimate of cost. Government will then be in a position to exercise a proper check over increases of expenditure due to improvements in procedure or failure to work up to programmes. Every effort is also being made to effect economies wherever they are possible without the sacrifice of efficiency. In this connection the Governor in Council notices with satisfaction that reforms were introduced in the districts of Faridpur, Jalpaiguri, Dacca and Mymensingh, which resulted in considerable reductions in the cost of certain items of work.

8. Minor operations supervised by District Officers were carried on in eleven districts, some having for their object the settlement of land revenue in Government or temporarily-settled estates, and the rest the preparation of records of rights in private estates. Fair progress, so far as the circumstances permitted, appears to have been made in all cases. Following the example set by the late Government of Eastern Bengal and Assam, this Government has placed all minor settlements, involving the employment of any special establishment, in the Burdwan and Presidency Divisions under the control of the Director of Land Records. At the instance of the Director, certain reforms in procedure have recently been approved, which are likely to result in an appreciable reduction of cost.

9. The thanks of the Governor in Council are due to Colonel Crichton, Captain Hirst and Mr. Jack for their able administration of the Survey and Settlement Departments during the year. Colonel Crichton will shortly sever his connection with the Survey Department in this province, where he will long be remembered as one of the chief founders of the system of revenue surveys now in force in north-east India. As Mr. Jack will shortly be leaving his present post, His Excellency in Council desires to take this opportunity of placing on record his appreciation of the invaluable work which he has done during the last eight years as Settlement Officer and Director of Land Records. Mr. Jack's name will always be associated with the great reform involved in the scheme for the printing of the record-of-rights, which he was the first to propose and which he carried out in Faridpur with such distinguished success that it is now practically established as an integral part of the settlement procedure in this province. The thanks of Government are also due to Messrs. M. C. McAlpin, F. A. Sachse, J. A. Milligan, F. D. Ascoli, B. C. Prance, J. W. Nelson and W. H. Thomson whose arduous duties in connection with the larger settlements were performed with commendable tact and energy. His Excellency in Council has read with pleasure the concluding paragraphs of the two reports in which the valuable services rendered by many other officers have been brought to notice.

ORDER.—Ordered that this Resolution be published in the Gazette, and that a copy of it, with copies of the two reports, be submitted to the Government of India.

By order of the Governor in Council,

J. H. KERR,
Secretary to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 24th March 1913.

Summary.—During the week under review light rain fell in places in the Rajshahi, Dacca and Chittagong Divisions. The prospects of standing crops are generally good. Preparation of fields for *bhadoi* paddy and jute is going on briskly and sowings thereof have commenced in places. The harvesting of *rabi* crops and the pressing of sugarcane are in progress. The average price of common rice for the Province has risen by about 0·7 per cent. as compared with that of the previous week. Cattle-disease is reported from Khulna and from parts of Jessore, Burdwan, Malda, Mymensingh and Tippera.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

NOTIFICATION.

No. 2866P.—The 27th March 1913.—Whereas it appears to the Governor in Council that a leaflet in the English language, printed on one side of a sheet of foolscap paper, headed "Om Bande Mataram, Sadhana," and subscribed "Aum. A Sadhak," contains words of the nature described in section 4, sub-section (*1*), of the Indian Press Act, 1910 (I of 1910), inasmuch as they contain incitements to violence and have a tendency to excite disaffection towards the Government established by law in British India:

Now, therefore, in exercise of the power conferred by section 12, sub-section (*1*), of the said Act, the Governor in Council hereby declares all copies of the said leaflet wherever found to be forfeited to His Majesty.

C. J. STEVENSON-MOORE,
Chief Secy. to the Govt. of Bengal.
